FRIDAY, OCTOBER 15, 1909.

IT'S COMING ON.

Yesterday's developments in the work of preparing for the apple show were all encouraging to those who are managing the affair. Messrs. Dorman, Dallman and Kellogg have labored diligently for the success of the show, and their efforts are bearing fruit. If the show is the fine success which now seems certain, Missoula owes much to the men who have given their time and their energy to the work of making the show what it will prove to be. The encouragement of yesterday and the day before has come from all quarters; it has been given with a degree of enthusiasm that has gladdened the hearts of the men behind the guns. That the display of farm and orchard products will be the best ever made in western Montana is assured. Yesterday the management of the show was requested to continue the exhibit for a day longer than planned to accommodate a party of easterners who will be here on an excursion of inspection. As it is the purpose of the show to advertise the country, this will be done in all probability.

IN NEW YORK.

The New York municipal election possesses a national interest; it is of more than local significance. Hinging upon the outcome of the voting in the metropolis this year is the future of the great city; Tammany is lining up the strength of its wonderfully perfect machine for the fight which is expected—at Tammany hall—to place the democratic organization in control under conditions and backed by new laws that will give the Murphy braves a hold upon the affairs of the city forever—or nearly that long. The nomination of Judge Gaynor was a clever Tammany trick. Harper's Weekly, summing up the ruse of Tammany, says:

"The credit of the city of New York is at stake in this election. It is shaking under the burdens that wasteful and extravagant administrations have put upon it. Judge Gaynor, bent on acquiring popularity at any cost, is about the last man one would choose to nurse it. A Brooklyn judge, he has been nominated because he is not a Tammany democrat, in the hope that under cover of his reputation as a professing reformer Tammany can win the election and maintain its clutch upon New York. It is not really necessary to go any further. It is enough that in the impending election Judge Gaynor represents the desire and hope of Tammany hall to continue to govern New York, and find its customary profit in that employment. There could hardly be a better demonstration than Judge Gaynor's nomination that Tammany is primarily a business organization and in politics for the business purposes of its controlling members. Voters who wish to continue Tammany in its business at the old stand should vote for Gaynor."

COLLEGE STUDIES.

The change of administration in Harvard has renewed the discussion of the relative merits of the elective system and the old fixed course of study in college work. The elective system has reached its widest scope at Harvard; it is regarded as the distinctive individual mark which former President Eliot left there. President Lowell is known to incline toward a more rigidly prescribed course of study, and changes are looked for which will concern the entire American college world. Discussing what he calls "education a la carte," Dr. Munro of Harvard refers to the arguments of Dr. Eliot and says, regarding them:

"Most of these arguments are well known and they need not be summarized here. They lose much of their convincing power when addressed to those who have had to do with the actual work of teaching under the elective system. Such teachers know very well that whereas a great many undergraduates rise manfully to the responsibility placed upon them and select programs of study which are quite superior to any which the college authorities could reasonably expect to prescribe, a goodly minority of those students who are entrusted with the liberty of mapping out their own studies make a sorry mess of it. As President Lowell has pointed out, the system has so diversified the college course and has scattered the undergraduates into so many small groups that relative ranking in studies has become almost impossible. Competition in studies thus disappears; the student is given no opportunity to measure up with his fellows, and there is no incentive to trials of intellectual capacity. This is a real loss to the interests of college scholarship, for in every activity outside the class room the undergraduate finds his chief stimulus in the chance of beating out some other man."

summarized here. They lose much of their convincing power when addressed to those who have had to do with the actual work of teaching under the elective system. Such teachers know very well that whereas a great many undergraduates rise manfully to the responsibility placed upon them and select programs of study which are quite superior to any which the college authorities could reasonably expect to prescribe, a goodly minority of those students who are entrusted with the liberty of mapping out their own studies make a sorry mess of it. As President Lowell has pointed out, the system has so diversified the college course and has scattered the undergraduates into so many small groups that relative ranking in studies has become almost impossible. Competition in studies thus disappears; the student is given no opportunity to measure up with his fellows, and there is no incentive to trials of intellectual capacity. This is a real loss to the interests of college scholarship, for in every activity outside the class room the undergraduate finds his chief stimulus in the chance of beating out some other man."

Pacific coast shippers, also, have rights that the railways must respect, but there has been more than respect paid them in the past.

If Arizona profits by the suggestions of Mr. Taft, she will be a pretty good state one of these days, when statehood comes.

If the Tammany tiger played as clean a game as the Detroit animal, New York would be better off.

"Commencement Days" in October last night proved quite as merry as the routine days in June.

The best boost that the town can get, right now, is a generous patronage of the apple show.

President Taft's toast to San Francisco will be drunk with fervor the world over.

The man who makes the most noise is not necessarily the most sincere reformer.

His statehood talk insured Mr. Taft a neat ticket as long as he was in Arizona.

Mercantile anniversaries in Missoula are celebrations of phenomenal success.

Gaynor would be happier if he could coax Willie Hearst to sing in another key.

The apple show is rounding up in splendid form. Help it along.

You can help the apple show by urging your friends to attend.

The best booster doesn't bluff; he plays ball all the time.

You'll be surprised by the excellence of the apple show.

Peary says he has more proof. He needs it.

Chicago shines also as a bandit center.

Boost for the apple show.

GIVES OUT STATEMENT REGARDING PURCHASE

New York, Oct. 14.—Edwin Hawley gave out the following statement today regarding the acquisition of the Missouri, Kansas & Texas railroad by him and his associates of the Rock Island-Frisco system.

"A large interest in the Missouri, Kansas & Texas railroad has been purchased by Edwin Hawley and Benjamin F. Young, which, in connection with that of Speyer & Co., gives them a predominating strength in the property."

"This adds another important territory friendly to the system which Mr. Hawley has, through the purchase of the Chesapeake and Chicago & Alton properties, created within the last few years and is an important factor in the strengthening of all."

Mr. Hawley declined to make public the extent of the interest in the Missouri, Kansas & Texas common and preferred stock acquired by himself and associates or the price paid for the same.

EXCEEDS SPEED LIMIT.

Mineola, L. I., Oct. 14.—Robert Bacon of Westbury, formerly secretary of state and recently appointed ambassador to France, was arraigned in court here today and pleaded guilty to exceeding the speed limit in his automobile. He was fined \$25, which he paid.

Mr. Bacon was arrested Tuesday by a motorcycle policeman, who testified that the automobile was traveling 40 miles an hour.

VOLUNTARY BANKRUPTCY.

Norfolk, Va., Oct. 14.—The Ware Kramer Tobacco company, an independent cigarette manufacturing concern, which recently sued the American Tobacco company and the Wells Whitehead Tobacco company at Raleigh, N. C., claiming \$1,000,000 punitive damages for alleged injury in violation of the federal anti-trust laws, was today placed in voluntary bankruptcy.

The Honest Proprietary Medicine fills a national need in the land and it will take more than the cry of "fraud" and "fake" from the avociferous, over-reaching physician to overthrow an honest, reliable and standard preparation like Lydia E. Pinkham's Vegetable Compound, which is made from the roots and herbs of the field, and has cured more women of female troubles than any other remedy we know of.

VENTILATE METHODS THOROUGHLY

THE TRICKS OF ADVOCATES OF BENZOATE OF SODA ARE DISCLOSED BY MAGAZINES.

Washington, Oct. 14.—For some time past it has been evident to those who have followed the benzoate of soda controversy that those who advocate its use as a food preservative were resorting to desperate methods to mislead the public in regard to the facts in the case. These methods have been ventilated in the newspapers and magazines, one putting the case: "The same folks who taint your food are trying to taint your news." One of the methods utilized is for a press agent in New York to write articles to the newspapers under a fictitious name, posing as a scientist interested in the matter from a purely scientific standpoint. Another scheme was editorially exposed in the "Outlook" last month as follows: "And, finally, the manufacturers who believe sincerely in the right and propriety of their use of benzoate of soda are not really doing their cause good by one of their methods of creating public opinion. An organization bearing the high-sounding title of the National Association for the Promotion of Public Health, and purporting to be a philanthropic and public-spirited society, is really maintained as an advertising or press agency by some, at least, of the manufacturing group which use benzoate of soda. This press agency recently submitted to 'The Outlook' a publication an article by a physician, which, under the guise of a charitable appeal for poor children suffering from infantile paralysis, was a thinly disguised advocacy of the use of benzoate of soda in preserved foods. The Outlook, of course, declined the article, and it can hardly be said that its confidence in the commercial advocates of benzoate of soda was greatly increased by the incident."

It was not until a few days ago, however, that Washington had a demonstration of how far they would go in attempting to mislead the public through the press, and so skillfully was the "plant" prepared that it is no wonder that even so thoroughly reliable and irrefragable an organization as the Associated Press fell for it. On October 6 the trustees of the American Institute of Homeopathy met in Washington to consider matters pertaining exclusively to that organization. They adjourned that evening and most of them left the city. That night a man of eminently respectable appearance called at a number of newspaper offices, among others the Washington office of the Associated Press. In his hand he carried a number of copies of a statement, and on one of them appeared the "O. K." of Dr. J. Ritchey Horner of Cleveland, secretary of the board. Whether intentionally or otherwise, he conveyed to the Associated Press representative the idea that he was Dr. Horner, and on the strength of this the Associated Press carried a dispatch which began: "Characterizing the action of the American Institute of Homeopathy recently in condemning the use of benzoate of soda as a preservative as having been too 'hasty,' the trustees of the association, which met here today, adopted a resolution recommending that the institute, at its next annual meeting, reconsider its step."

Continuing, the dispatch quoted Dr. Horner, the representative of the Associated Press being under the belief that he had talked with Dr. Horner. At the office of a Washington newspaper the same party showed up, and as a result of his visit an article appeared the next morning stating that the trustees "took a hand in the benzoate of soda controversy by unanimously adopting a resolution asking the next annual meeting of the institute to reconsider the action of the national gathering in Detroit last June condemning the use of benzoate as a preservative. The names of the trustees were given, and it was mentioned that two had traveled across the continent to attend the meeting, the inference being that they had come to vote on the benzoate of soda resolution. It is unfortunate that neither the Associated Press dispatch nor the article in the local newspaper was true. A resolution asking the institute to reopen the question for further consideration was presented to the board, but instead of being adopted "unanimously" or any other way as was represented by the party conveying the information to the press, it was referred to the committee on resolutions, a point of order being made against it by Dr. J. B. Gregg of Washington, that the trustees had met to consider other matters, and that the benzoate of soda controversy had no place in their deliberations. This was confirmed by the stenographer who reported the meeting. Dr. W. O. Forbes of Hot Springs, Ark., and Dr. Curtis, Dr. Horner was interviewed over the long-distance telephone, and denied that he had visited the Associated Press or given anyone the right to use his name as authority for a statement that the board had "adopted" the resolution, which he said, was referred to the committee on resolutions. Dr. Curtis is the chairman of the committee designated by the institute to present the condemnatory resolutions to President Taft. He has done so, and will see President Taft about them on the latter's return to the city.

OPENS CONVENTION.

San Francisco, Oct. 14.—The Western Hotelmen's association opened its convention here today. The chief problem before the convention pertains to the best means of protecting hotels from swindlers and dead-beats.

DECLARE A BOYCOTT.

Brussels, Oct. 14.—The socialists today declared a boycott against Spanish goods and resolved to keep the flag at their headquarters at half mast until the execution of Ferrer was averted.

Who is Healey? Watch for tuncful announcement November 1.

FEEBLE OLD PEOPLE may have strength and renewed vitality. Vinol contains the elements necessary to nourish every tissue and replace weakness with strength. Should it fail to do so in any case we refund the money paid us for the medicine used. Please try it. MISSOULA DRUG CO., Missoula.

A REMARKABLE TRIP KILLING OF BIRDS IS FINISHED CHECKED

SPOKANE MAN RETURNS FROM A TOUR OF 18,000 MILES IN AUTO.

Spokane, Wash., Oct. 14.—Herbert A. Hoyer has just returned to Spokane from an 18,000-mile tour through the United States and Europe, which he and his wife, now visiting relatives at Leavenworth, Kan., accomplished in 18 months with a 25-horsepower, four-cylinder car. They had numerous exciting experiences while abroad, and were snowbound for eight days in the Alps, where they were also all but plunged over a sheer precipice of 1,000 feet by a heavy car bearing down upon them while turning a curve.

After completing 18,000 miles in the United States, starting in southern California on the Mexican border and touching Canadian territory, they sailed from New York on the ill-fated Steamship Republic and were exposed to the elements on deck and open boats for 24 hours before being taken ashore. Mr. Hoyer sustained a nervous shock and contracted a cold from which she has not yet recovered.

"Europe is a veritable paradise for reckless drivers, and the so-called 'joy riders,'" Hoyer said, in speaking of his trip abroad: "The roads are unusually good, and such a thing as a speed limit is not known; and, as a result, there are frequent head-on collisions, which invariably end fatally, in addition to destroying hundreds of thousands of dollars worth of property annually. From four to five collisions a week on the road between Nice and Monte Carlo is not out of the ordinary."

"Another thing is the system of graft by the drivers, from which there is no escape. Besides paying his men chantage \$15 a month, the tourist is also forced to give up 25 per cent commission on all purchases. A hired car costs from \$1,200 to \$1,500 a month in addition to the foregoing, and with the chauffeur's personal expenses this runs the bill up to \$2,000 a month."

FOR YOUR HAIR

HERE ARE FACTS WE WANT YOU TO PROVE AT OUR RISK.

Marvelous as it may seem, Rexall "33" Hair Tonic has grown hair on heads that were once bald. Of course it is understood that in none of these cases were the hair roots dead nor had the scalp taken on a glazed, shiny appearance.

When the roots of the hair are entirely dead and the pores of the scalp are glazed over, we do not believe that anything can restore hair growth.

When Rexall "33" Hair Tonic will do as above stated, it is not strange that we have such great faith in it and that we claim it will prevent baldness when used in time. It acts scientifically, destroying the germs which are usually responsible for baldness. It penetrates to the roots of the hair, stimulating and nourishing them. It is a most potent and delicate necessity, is delicately perfumed and will not gum nor permanently stain the hair.

We want you to get a bottle of Rexall "33" Hair Tonic and use it as directed. If it does not relieve scalp irritation, remove dandruff, prevent the hair from falling out and promote an increased growth of hair and in every way give entire satisfaction, simply come back and tell us and without question or formality we will hand back to you every penny you paid for it.

We lend our endorsement to Rexall "33" Hair Tonic and sell it on this guarantee, because we believe it is the best hair tonic ever discovered. It comes in two sizes, prices 50 cents and \$1.00. Remember you can obtain it only at our store—The Rexall Store, The Missoula Drug Co.

WASHINGTON WINNER IN BATTLESHIP CLASS

Washington, Oct. 14.—Record target practice scores five sets of the American navy for 1909, made public at navy department today, show that the Washington is a winner in the battleship class, the Charleston a trophy winner in the cruiser class, the Wilmington a trophy winner in the gunboat class, and the Tingey the trophy winner in the vesper's competing for the torpedo trophy.

The Pacific fleet, under Admiral Sigsbee, leads the fleet in target practice, with a record of 42.

CREW IS LOST.

Bergen, Norway, Oct. 14.—The Norwegian steamer Steerk, a small freighter, founded today off Molde and her crew of 12 was lost.

ONLY A RUNAWAY.
