

DISCOVERY OF PLOT REPORTED

CHICAGO PAPER DECLARES OFFICERS HAVE LEARNED OF DANGER TO PRESIDENTS.

Chicago, Oct. 15.—The Chicago Journal today declares that an anarchistic plot, directed from Chicago by men planning to assassinate President Taft and President Diaz at El Paso, Texas, tomorrow has been discovered by secret service men here.

The Journal proceeds to say: "Chief Wilkie of the secret service bureau has assigned many detectives to Chicago to learn the identity of the men selected to kill the two presidents.

"For the last two weeks, it was learned today, meetings have been held by the anarchist groups in every large city of the country, but the assassination plans, according to government agents, were completed in this city.

"Four of Chief Wilkie's men, disguised as laborers, attended the socialist meeting here last night, at which the execution of Professor Ferrer in Spain was condemned."

The Journal declares that secret service men have been brought here from Denver and other cities to assist in the investigation and that others have been rushed to El Paso.

It is asserted that the cancellation of a public meeting of the heads of the two governments was at the advice of Chief Wilkie.

Story Absurd.

El Paso, Texas, Oct. 15.—Chief John E. Wilkie of the United States secret service has characterized the stories of plots against President Diaz and President Taft as "rot." Chief Wilkie ran down a hundred clues today and found nothing at the bottom of any. A large number of Mexicans have been arrested as suspicious characters, but no importance attaches to the arrests. Chief Wilkie intimated that if there was any danger to either of the presidents, they would not be brought to El Paso or Juarez. Preparations for the meeting of the presidents are going forward without a hitch.

No Men Sent.

Denver, Oct. 15.—No secret service men have been sent to Chicago from Denver, according to secret service officers in this city. A member of the Denver staff of the government secret service went to El Paso last Wednesday, however, on receipt of a telegram from Chief Wilkie. No report of a discovery of a plot to assassinate Presidents Taft and Diaz have been received here and, according to the secret service men, no meetings of anarchists have been held in Denver.

PREPARED TO RESIST UPRISING ELEMENT

New York, Oct. 15.—President Zelaya of Nicaragua cabled the Associated Press tonight concerning the revolutionary movement as follows:

"General Juan Estrada, governor of the department of Zelaya on the Atlantic coast, who has proclaimed himself president, was urged on by Estrada Cabrera and supported by General Emiliano Chamorro, who compromised with those who left the conservative party, and thus betrayed the government. Juan Estrada holds in his power the Bluefields region, from Cape Gracias and Rama to San Juan del Norte, none of which places are of great military importance.

"The country, indignant at the rebellion of Estrada, has made an enthusiastic manifestation of sympathy with the government and proclaimed its loyal support. The government is well prepared to resist the movement and has dispatched several regiments to the scene of action.

"General Aurelio Estrada, who has done good service for his country and who is a brother of the insurgent leader, has issued a proclamation denouncing him as a traitor and offering his own services to the constitutional government.

(Signed): ZELAYA."

INDIAN IS SEEN.

San Bernardino, Cal., Oct. 15.—Willie Boy, the Plute Indian, who is being pursued by a posse of 150 men, was seen yesterday in the Little Bear valley country. Sheriff Rolf, with seven of his men, has gone ahead of the main force to intercept him.

A New Booster in Town

GEORGE WHITCOMB.

George Whitcomb, who is the latest booster man to catch the eye of Cartoonist Mayer, is a recent addition to the business circles of Missoula. He has been in the city for several years and has a lot of warm personal friends but it is only lately that he has blossomed out as a business man. In the Missoula hotel building he has established a cigar and news stand business that is proving popular and is meeting with encouraging success. The proprietor knows his business and he knows his patrons; he has a good location and he is making good. He is making his place the headquarters for the sport-loving fellows who follow the baseball games and who like the events of the squared circle. As evidence of the way he wins the interest of these sportsmen may be cited the fact that he will receive bulletins today from the San Francisco fight between Ketchel and Johnson. In such ways as this, he is making his establishment the rendezvous of the sort of congenial fellows that make such a most successful and popular. George has a good thing and he is pushing it along.

MR. TAFT SEES AN INDIAN DANCE

(Continued From Page One.)

who made the blanket which was presented to Mrs. Roosevelt at the time of the former president's visit to this city. In all of his speeches today the president again urged the people of Arizona and New Mexico to take time and deliberate in the formation of their new state constitution once they have been admitted to the union. The president seems to take it for granted that statehood is soon to come to the territories, although he is careful to say his authority is only of the executive and that the first action must come from the legislative branch of the government.

Pays Compliment.

Postmaster General Hitchcock, who is accompanying the president through the southwest, in an address at Grand Canyon last night paid a striking compliment to the people of this section and declared that he hoped their ambitions for statehood soon would be realized.

"In his address to the people of New Mexico the president said, 'I am glad to see that you are orthodox in this community and believe in a future state. I might have had some other impression if I had not come through a territory yesterday that intimated to me that there were people on this side of the line that had the same views that they had with reference to becoming a state but that they preferred to have each community work out its own salvation.'

"Now, my friends, I might just as well make the announcement now so as to relieve any doubt on the subject, that I was elected on a platform that declared in favor of the admission of New Mexico and Arizona as separate states and that so far as I can properly exercise any influence as the chief executive, I bear in mind, I am not the legislator, I expect to exercise that influence to carry out that promise of the platform on which I was elected. You are looking forward to statehood as if it were heaven. Well, I venture to think that there will be considerable difference between heaven and that state after you become one. That you will have a great many responsibilities that you don't now have, and a good many difficulties, the weight and burden of which you don't now appreciate.

Preliminary Steps.

"There are quite a number of preliminary steps that you have to take, you have to draft a constitution and that is going to affect the charter of your state for years to come. And, I want that you shall have time and deliberation to make a good constitution and not harness yourselves up with a lot of restrictions that will really interfere with the growth of your state. Don't put into your constitution a provision as to the length of the sheets to be put in a hotel. It may be that they ought to be limited. It may be that they ought to be made of a certain size. I sympathize with that feeling myself. But the constitution is not the proper place to put it. You want to trust your legislature and you want to follow the model of the constitution of some of the older states which have also modeled after the constitution of the United States.

"An amendment to the constitution is a different thing, as we are finding out now in attempting to amend the federal constitution. Therefore, put there only general principles and don't attempt to legislate every fad of every man who is voluble and gets into your constitutional convention. I say this with a great deal of fervor, not as a partisan, not as a republican or a democrat, but in the interests of your state, as a state, whether you vote the republican or the democratic ticket.

"I want, if we are responsible for your coming into the union as I am willing to be and as the republican party is willing to be, that you should justify that admission by making yourselves progressive, but at the same time a conservative community."

MINERS RETURNING FROM FROZEN NORTH

Seattle, Oct. 15.—The first influx of gold mine operators, who annually come here from Alaska for the winter, arrived today, bringing the first authentic news of the gold output at Nome and Fairbanks. Figures compiled by W. H. Parsons, a Fairbanks banker, place the output of the Tanana valley at \$11,000,000. Nome banks have already received and shipped \$4,000,000 of treasure. The Tanana output is \$5,000,000 greater than last year, while the receipts at Nome are nearly \$1,000,000 less than for 1908.

From Fairbanks news is brought of the first recovery of gold from quartz ever attempted in the Tanana district. Five tons of ore produced 27 ounces of gold, a valuation of \$264 a ton.

BODY IS FOUND.

San Francisco, Oct. 15.—The body of John Mullin, a fireman, was found today in the ruins of the Crown ore mill which was burned last night.

SYMPATHETIC BOND BETWEEN NERVES

THE EYES ARE CAPABLE OF OVERCOMING DEFECTS AT EXPENSE OF OTHER ORGANS.

There is a bond of sympathy between all centers and branches of the nervous system.

The center, which, for instance, controls the stomach, is known to science as the "solar plexus." Yet it is a well known fact that in prize fights a solar plexus blow instantly stops the heart, although its usual operations concern only the stomach. Why? Because of the bond of sympathy between the various branches. That is the reason the inside nerves are sometimes called the "sympathetic" nerves. This explains why stomach trouble often develops into heart trouble; why indigestion brings on nervousness; why eye strain causes kidney and bladder troubles; why disease becomes complicated. It explains, too, why medical treatments are wrong—why medicines fail.

As life and health depends upon perfect heart action, upon proper stomach digestion, upon correct kidney filtering, is it any wonder that our health is bad, our minds weak and our life shortened when 50 per cent of the nerve energy that should go to these organs are demanded and utilized in the performance of vision, to overcome defect in our eyes?

One of the things Dr. Dodd does is to stop this nerve leakage. Another is: He teaches his patients to treat themselves; the result is they get well and stay well. The following testimonial was given him with the request that he publish same:

CROSS EYES

Straightened With Glasses.

An Interesting Experience.

Twelve years ago I was a very sick man, could not sleep and was nervous and dizzy, could not contain anything on my stomach, would have spells of sick headache, dizziness, vomiting nights. I noticed that when I read or used my eyes much I was worse, so I decided to consult Dr. Dodd and was fitted by him with glasses which afforded me great relief and which eventually cured me entirely. Although it seems unreasonable that glasses could cure a condition of that kind, I am willing to make oath that those glasses cured me. I had tried medicine and osteopathy and everything I could hear of without receiving any benefit and am therefore thoroughly convinced that the glasses cured me. I am personally acquainted with a number of men in Butte who will swear that Dr. Dodd cured them with glasses of headache, nervousness and stomach trouble. This is a signed statement, with permission to publish given Dr. Dodd voluntarily.

—J. H. McCarthy, city treasurer.

Dr. Dodd may be consulted free at the Savoy hotel.

Today is children's day and no one with a nervous child should fail to take him to Dr. Dodd.

If there is any doubt as to Dr. Dodd's ability, ask him for the names of a few Missoula people who are anxious to tell you of the benefit to themselves or their children, how their eyes have developed, and of their progress in school and improvement in their health since Dr. Dodd fitted them last April. Of more than two hundred fitted by him in April there is not one dissatisfied patient to his knowledge, and if there should be one, he or she should call, and if the glasses were not correct Dr. Dodd will return their money. Glasses are not always fitted for the express purpose of improving the sight. Dr. Dodd guarantees a cure for headache and all eye and nervous troubles, and to "cure closed tear ducts" and straighten cross eyes, but this is impossible if the patient refuses to follow his advice.

BANKER ARRESTED.

Mineral Point, Wis., Oct. 15.—Phillip Allen, Jr., vice president of the National Bank of Mineral Point, was placed under arrest today charged with the embezzlement of \$165,000 of the bank's funds.

Allen is at his home in and physicians say he may die.

Call for City of Missoula General Warrants.

On presentation at my office in the city hall I will pay all city of Missoula general warrants registered up to and including No. 7867, registered October 7, 1908. Interest will cease October 20, 1909.

T. G. HATHEWAY, city treasurer.
