

YOUNG MAN KILLED BY ENGINE

LOCOMOTIVE RUNS DOWN YOUTH WHO ATTEMPTS TO CROSS BRIDGE AHEAD OF IT.

George Lester, a young man residing on the reservation, was struck and instantly killed yesterday by light engine No. 2412, in charge of Engineer Barrett, as he was attempting to beat the engine across a railroad bridge near Jacko, later investigations showing that his skull was fractured and that he had sustained a broken leg and numerous other injuries.

County Coroner W. D. Kendrick was called, and after an investigation brought the remains to this city. At that time the identity of the young man was not known, although it was stated that he had been living at Arlee with E. L. Lester. Last evening the latter came to the city and established the identity of the victim, who proved to be his nephew, a son of J. M. Lester. The father, who also resides at Arlee, was too badly prostrated by grief to make the trip to Missoula. The young man had been living at Arlee with his father and uncle since last June. The two older men are employed on the government ditch on the reservation. The boy's mother died soon after his birth.

The coroner has decided that an inquest will be unnecessary. The funeral will be held at 10 o'clock this morning from the Lucy chapel, Rev. Henry Van Engelen, pastor of the Baptist church, officiating. Interment will be in the Missoula cemetery.

The overcoatless man is beginning to shiver.

It's needless. We have his size in all the new styles at reasonable prices.

A GREAT CURSE OF MODERN LIFE

There is no more serious danger to health than the presence of too much uric acid in the body. It is the duty of the kidneys to rid the system of uric poisons as fast as they accumulate. When the kidneys fail to do this work thoroughly uric acid attacks begin, first in one part, then in another. The cause of these attacks is so likely to be mistaken, even by a doctor, that it is well to post yourself on the subject. If uric acid troubles are recognized in the beginning it is easy to cure the weakened kidneys with Doan's Kidney Pills, and when the kidneys are working right again the uric acid will be driven off as fast as it gathers in the fine.

It is dangerous to neglect sick kidneys. It leaves the uric acid free to attack and damage every organ of the body. The blood gets so thick with waste matter that it moves slowly, the heart beats queerly, the veins and arteries harden; uric acid crystals are deposited in muscles and joints, and are likely to form into sediment, gravel and stones in the kidneys and bladder; dropsy swellings appear and the gradual tendency is towards Bright's disease.

URIC ACID CAUSES DANGEROUS, TORTURING TROUBLES WHEN THE KIDNEYS ARE SICK

The pains from uric acid attacks are characteristic: backache, sciatica, muscular or articular rheumatism, neuralgia, lumbago, pains through the hips and groin, headache and nervous disorders. When sediment appears in the urine and you begin to feel odd twinges of pain, the kidneys are not doing their duty and treatment with Doan's Kidney Pills should be begun at once. What this remedy has done for others it will do for you.

MISSOULA PROOF.

Mrs. Herman Ziesemer, 826 East Locust street, Missoula, Mont., says: "For 10 years I suffered from kidney trouble, the chief symptom being rheumatic twinges throughout my body. This complaint was especially noticeable during damp or cold weather and at such times the pains through my body were so severe as to be almost unbearable. I was subject to dizzy spells, had a languid feeling and was much run down in health. Hearing of Doan's Kidney Pills, I procured a supply and they gave me prompt relief from the rheumatic twinges and other troubles. I now feel much better and I give the credit for my good health to Doan's Kidney Pills."

DOAN'S KIDNEY PILLS

Sold by all dealers. Price 50 cents. FOSTER-MILBURN CO., Buffalo, N.Y., Proprietors.

MONTANA GRAIN CROP INCREASES

OFFICIAL RETURNS SHOW GAIN IN QUANTITY AND IMPROVEMENT IN QUALITY.

Special to The Daily Missoulian.

Washington, Oct. 18.—A report of the department of agriculture just out gives figures on the condition of the crops in Montana on October 1, usually considered the harvest time.

The spring wheat-crop yield is reported to be 39 per cent higher this year than it was last year. The production is given as 4,752,000 bushels last year, as against 3,703,000 bushels this year, and the quality 2 per cent better.

The oat crop in Montana this year was 14,219,000 bushels as compared with 10,565,000 bushels in 1908, and the yield 51.3 bushels an acre as against 41.6 bushels an acre last year. The quality was also 4 per cent better.

Montana is also credited with producing 975,000 bushels of barley during the past season, as compared with 875,000 bushels in 1908. The average yield per acre rose from 35 to 39 bushels, but the quality dropped from a percentage of 84 to one of 82.

MARKET MOVEMENTS OF THE DAY

New York, Oct. 19.—The notable feature of today's stock market was the decrease in speculative interest. Doubtless the primary cause of this is the narrowing resources of the money market. The tone of speculation today was greatly unsettled, as was witnessed by the unceasing and irregular fluctuations of prices. In some of the profit-taking sales today there was suspected a closing out of individual speculative accounts running up to the hundred thousand share market of a purely professional kind. Operations on that scale by board room traders created a sentiment of distrust. The feeling was emphasized by the approach of the quarterly meeting of the United States Steel corporation and the doubt of the kind of stock market response which may be made to even the most favorable outcome of that meeting. In view of the price attitude of the stock and the jubilant assertions of coming events that have accompanied it. A feature of the situation that aroused much conjecture was the strength of the foreign exchange market, which made a further advance today with the continued demand for remittance. Special interest attached to the announcement of the placing of a bond of St. Louis & San Francisco bonds with bankers in Germany.

The points of strength in the market were sporadic and they developed from time to time in an eccentric manner that made an explanation puzzling. Violent advances on small transactions in the express stocks was due to the increase in dividends of the United States Express.

Rumors persisted of a combination of copper interests with some effect on copper securities.

Bonds were easy. Total sales, (par value), \$3,370,000.

United States bonds were unchanged on call.

Grain and Provisions.

Chicago, Oct. 19.—The world's immense accumulations of wheat shown by Bradstreet's statement of the visible supply, showing an increase from 7,564,000 to 10,800,000 bushels, began to be felt today in the wheat pit and caused a steady fall in prices, December closing 1 1/2c below yesterday. The bears were also aided in the one-sided contest by an almost total cessation in the milling demand here for cash wheat, and lessening premiums in other cash markets.

Action in the corn pit took its tone from the wheat market. December closed weak at 1/2c below yesterday's figure and May 1/4c lower.

Wheat was 1/2c lower at the close for December and 1/4c for May.

October lard was the most active commodity in the provisions market. January pork closed 2 1/2c lower and lard and ribs were unchanged.

Metal Market.

New York, Oct. 19.—No change was reported in the market for standard copper on the New York metal exchange today, the close being dull at \$12.55 1/2 for September and all deliveries up to the end of December. London closed easy, spot 157 1/4; futures 158 1/4.

Local dealers quiet. Lake at \$139 1/2; electrolytic, \$12.60 1/2; casting, \$12.50 1/2.

Tin was quiet in New York, spot and October, \$30.37 1/2; 30.62 1/2; November, \$30.40 1/2; December, \$30.50 1/2; 30.70; January, \$30.50 1/2; 30.75. London market easy; spot, 118 1/2 6d and futures, 114 1/2 6d.

Lead quiet at \$1.20 1/4 4.40 New York and \$4.25 1/2 4.30 East St. Louis. 7th London market was higher at \$13 6s 3d.

Spelter was firm at \$6.10 1/2 for spot at New York and at \$6.05 1/2 for East St. Louis. The London market was unchanged at £23 5s.

Sheep—Receipts estimated at 28,000; market steady; native, \$2.40 1/2; 4.80; western, \$2.60 1/2; 4.80; yearlings, \$4.65 1/2; 5.35; lambs, native, \$4.25 1/2; western, \$4.25 1/2.

FOUND DEAD IN BED.

Chicago, Oct. 19.—Rev. Adrian Van Hulst, aged 93 years, one of the oldest priests in the United States, was found dead in his room at St. Ignatius college here today of accidental asphyxiation.

Father Van Hulst was ordained a priest in 1839, and 69 years ago was a professor of mathematics in St. Louis university, St. Louis, Mo. He had been engaged in charitable work in Chicago for 30 years.

Every boy and girl who calls at The Missoulian office today will receive a Zim-flipper.

TONIGHT
PITTSBURG VS. DETROIT
BIJOU

PLACE NOT FILLED.

New York, Oct. 19.—No director to fill the place of the late E. H. Harriman was elected at the annual meeting of the stockholders of the Erie railroad company today.

The former directors were re-elected.

M'CARREN'S CONDITION EXTREMELY SERIOUS

New York, Oct. 19.—Patrick H. McCarren, state senator and democratic leader of Brooklyn, who was eliminated from the municipal campaign by a sudden attack of appendicitis, which necessitated an immediate operation, was again in an extremely precarious condition tonight. He has been reported as dying at various times since the operation Wednesday but had rallied well until a relapse today caused by an almost sleepless night and an attack of hiccoughs which racked his weakened body and aggravated the condition of a fluttering heart.

He improved little, if any, during the day and tonight it was evident that his physicians were less sanguine than at any time since he was stricken.

BANK IS OPENED.

Pekin, Oct. 19.—The International Banking corporation opened a branch bank at Hankow today.

The International Banking corporation is an American concern and was the first American house to enter the banking field in Pekin, where it opened an office last June. Its purpose is to develop the trade of this country in the far east.

ALLOWS AN APPEAL.

Pittsburg, Oct. 19.—The supreme court of Pennsylvania today allowed an appeal in the cases growing out of alleged grafting in connection with the building of the state capitol.

TWO MEN DROWNED.

Port Townsend, Wash., Oct. 19.—C. L. Cudaby and James Smith, employees of a steel company at Irondele, were drowned today by the capsizing of a sailboat, in which they were crossing the bay. A launch sent to pick up the men, who swam after their boat capsized, passed Smith at his request to rescue Cudaby, who was 25 feet further out. Cudaby sank before he could be reached, and when the launch put back for Smith he had disappeared.

A low price can't bring enough quality. Cheapened clothes are not cheap. The label in the corner is put in our garments to encourage confidence; it means that you can't take a risk at any shop where you find it. We take the shrink out of Sincerity cloths before we put them into

Sincerity Clothes

That's why their shape is permanent—it wouldn't be if there was the least chance of the fabric stretching after you wear the garments.

The shape with which you start a Sincerity Suit or Overcoat stays there until you stop wearing it. It's tailored into the fabric. Sincerity Clothes for young men are cut on special models. Such good figures are built into the garments that you needn't worry about your own.

A book about young men's fashions free for the asking. Why not ask?
