

# MEETS FARM HANDS MOST VALUABLE AID AT TAFT TO COOK

### PRESIDENT ADDRESSES THE EMPLOYEES OF RANCH AT SCHOOL HOUSE.

Gregory, Texas, Oct. 21.—President Taft had his education as a ranchman further enhanced today by another afternoon of sightseeing. The president motored over to Taft, 11 miles, to visit the town which gave its unanimous vote in the election and in the school house there he made a little speech of thanks and congratulation to his brother's farm hands.

On his way to Taft the president stopped in at the cotton gin and watched its operation. There he saw for the first time a steam plow. Next he was taken to the creamery where he ate a dish of ice cream and just before going to the school house he had a look at the abattoir, which was not in use.

During the morning the president played 18 holes of golf with Robert Connelly of Austin, the reputed champion of Texas, who laid out the links on the Taft place. The president invited Mr. Connelly down, "to get a beating," but the young Texan led his distinguished opponent from the first hole.

Tomorrow the president will break into his four days' vacation long enough to go over to Corpus Christi on the revenue cutter Windom, to speak before the Inland Waterways association. The president was given a great cheer as he arose to speak in the school house.

### RASMUSSEN'S STATEMENT CONSIDERED OF IMPORTANCE BY THE EXPLORER.

Toledo, Ohio, Oct. 21.—That the statement of Knud Rasmussen is a valuable aid to the establishment of proof of his discovery of the north pole, was Dr. Frederick A. Cook's comment here today. Rasmussen's statement was that Dr. Cook's claim is fully borne out by the information which the Danish explorer secured among the Eskimos.

Dr. Cook read the statement when he stopped in Toledo between trains on his way from Ann Arbor to Canton. He said Rasmussen's statement is valuable, because he is half Eskimo himself and speaks Eskimo and understands the Eskimo.

"The statement is from a man who had no occasion to defend me," said Dr. Cook, "he is not particularly a friend of mine and he had no relation to our expedition. I first met him at North Star in 1897. He gathered his information from the Eskimos before he heard from me that I had discovered the north pole. I saw him at Eggshoed early in August, last, for a few minutes, when I first told him of the discovery, although he may have heard of it previously from the Danes."

# Will Head Libraries

HENRY E. LEGLER, TO HEAD CHICAGO LIBRARIES.

Chicago, Oct. 21.—The selection of a public librarian for Chicago has caused no end of careful investigation. It was the hope of those in charge of the selection to get the best man in the country for the post. In Henry E. Legler, secretary of the Wisconsin free library, the commission thinks it has the right man.

For the first time this office is being filled by a scientific method of selection. The position is under the civil service, but, realizing that a man of the necessary caliber could not be obtained by the ordinary methods, the civil service commission rose to the emergency by having the examination prepared and conducted by a committee of national library experts.

The report of the special board of examiners, headed by Dr. Herbert Putnam, librarian of congress, was submitted to the city civil service commission yesterday, and the name of Mr. Legler, a man of national reputation, was the first on the list of the gradings.

Mr. Legler, at Madison, Wis., announced that he would accept the position to which he is entitled.

Mr. Legler has been secretary of the Wisconsin free library commission a trifle more than five years. He was born in Palermo, Italy, February 22, 1881. His parents were Henry and Raffaella Messina Legler. He was educated in Switzerland and the United States, and for a time was in the newspaper business, beginning his work as a youth at the type case. He was with the Milwaukee Sentinel until 1889, when he was elected a member of the Wisconsin state legislature.

In 1890 he was made a member of the Milwaukee school board, a position he held until 1904, and during his activity in connection with the city's educational matters there was established that close cooperation between the schools and the public library which has been a model for other cities of the country.

He is president of the publishing board of the executive board, and the national council of the American Library association. He also belongs to the American Library institute.

# TEDDY TELLS A TALE OF TERROR

### DESCRIBES THRILLING ENCOUNTER WITH FIRST LION HE SLEW IN AFRICA.

New York, Oct. 21.—Theodore Roosevelt, writing in the November number of Scribner's magazine, gives his impressions and experiences on an East African ranch—which in many ways reminded him of early days on the plains of the great west, and then plunges directly into an account of his first encounter with big African game. "The dangerous game of Africa," he says, "are the lion, buffalo, elephant, rhinoceros and leopard. The hunter who follows any of these animals always does so at a certain risk of life or limb. A risk which it is his business to minimize by coolness, caution, good judgment and straight shooting. The leopard is in point of pluck and ferocity more than the equal of the other four; but his small size always renders it likely that it will merely maul and not kill a man.

Mortal Combat.

My friend Carl Akeley of Chicago actually killed a leopard which sprang on him. He had already wounded the beast twice, crippling it in one front and one hind paw, whereupon it charged, followed him as he tried to dodge the charge and struck him full just as he turned. It bit him on one arm, biting again and again as it worked up the arm from the wrist to the elbow, but Akeley threw it, holding its throat with the other hand, flinging its body to one side. It luckily fell on its side, with two wounded legs uppermost so that it could not tear him. He fell forward with it and crushed in its chest with his knees until he distinctly felt one of its ribs crack; this, said Akeley, was the foremost moment when he felt he might conquer and crushed the life out of it, although his arm was badly bitten."

Mr. Roosevelt devotes considerable space to how he brought to bay and finally killed a lion. The description begins at a point where the hunter is standing beside his mount considering what he should do if the lion charges and cannot be stopped by a well-directed shot. The writer continues:

Varied Past.

"Now, an elderly man with a varied past which included rheumatism, does not vault lightly into the saddle, as I did, for instance, and I had already made up my mind that in the event of the lion's charging it would be wise for me to trust to straight powder rather than to try to scramble into the saddle and get under way in time.

"I could still not see the lion when I knelt, but he was now standing up, looking first at one group of horses and then at the other, his tail lashing to and fro, his head held low and his lips dropped over his mouth in peculiar fashion, while his harsh and savage growling rolled thunderously over the plains. Seeing Simba and me on foot he turned toward us, his tail lashing quicker and quicker.

"Resting my elbow on Simba's bent shoulder, I took steady aim and pressed the trigger; the bullet went in between the neck and shoulder and the lion fell over on his side."

# They Grow Hair

### Certain Ingredients if Properly Combined, Stimulate Human Hair Growth.

Bismarck, although not a coloring matter or dye, is an ingredient well established for its power to restore natural color to human hair.

Borax, because of its well-defined softening and cleansing properties, is most useful in the treatment of the scalp and hair diseases. Glycerine acts as a stimulant to the hair bulbs, and has a soothing, healing and nourishing influence. Alcohol is indispensable in medicine because of its antiseptic, stimulating and preservative qualities.

Recall "32" Hair Tonic is chiefly composed of these ingredients, which are compounded in a peculiar form, and we believe it is the most effective remedy known to medical science for scalp and hair troubles generally. We personally guarantee it to eradicate dandruff and scalp irritations and to grow hair, even though the scalp in spots is bare of hair, providing, of course, there is life and vitality remaining in the hair roots.

We want everyone troubled with scalp disease, dandruff or loss of hair to try Recall "32" Hair Tonic. If it does not remove dandruff and promote a growth of hair to the satisfaction of the user, we will without question or quibble return every cent paid us for it. This guarantee is printed on every package. It has effected most satisfactory results in 92 out of 100 cases where put to a practical test.

Recall "32" Hair Tonic is entirely unlike and in every particular different from anything else we know of for the purpose for which it is recommended. We urge you to try it at our entire risk. Certainly we could offer no better guarantee. Two sizes, 50 cents and \$1.00. Sold in Missoula only at our store—The Rexall store, The Missoula Drug company.

Estimates cheerfully furnished. Contract work a specialty. Shop north of Shapard hotel. Telephone 634.

# JURY WILL CONDUCT OWN INVESTIGATION

Honolulu, Oct. 21.—United States Circuit Judge De Bolt has given the federal grand jury a special charge concerning the case of Dr. John A. Atcherly, who is confined in the asylum for the insane. Dr. Atcherly, who claims to have discovered a cure for leprosy and has a large native following, charges that his incarceration is the result of a conspiracy inspired by the jealousy of local physicians.

The matter was called to the attention of the members of congress while visiting the islands recently, but they declined to take action. Judge De Bolt calls the grand jury's attention to the allegation that Dr. Atcherly is confined in the asylum owing to an influential conspiracy entered into by Territorial Secretary E. A. Morrish, Attorney General Hemeway, City and County Attorney Cathart, District Magistrate Andrade, Sheriff Jarrett, Circuit Judge Lindsay and several leading physicians. Under the circumstances, Judge De Bolt says the attorney general and deputies are disqualified from handling the case. He suggests that the jury conduct its own investigation without the aid of governmental counsel.

# ALL WANT LANDS.

Aberdeen, S. D., Oct. 21.—The people of the middle west are rushing to get their names on the list for the drawing of claims in the Cheyenne River and standing rock reservations before the drawing Saturday at midnight. This city was crowded tonight with landseekers and the number registered today greater than any day of the three weeks.

# What Christmas Present?

Which makes the better Christmas present—the 52 issues of The Youth's Companion, costing only \$1.75 for the whole year, or one book, costing \$1.50 to \$2.00?

In quantity, variety and value of reading The Companion excels. Is not such a paper, bringing every week into the home circle charming stories, articles on a thousand subjects by famous men and women, delightful short sketches, humorous anecdotes and an infinite variety of other wholesome, entertaining reading—is not such a paper the very one for an appropriate, acceptable Christmas present? Think of it! In a year The Companion gives you as much reading as twenty 400-page books of travel, history, fiction, miscellany, biography and humor, and not a line in it that shakes one's faith in truth and honor, not a phrase that makes light of the things that are sweet and pure. Is it not a Christmas gift worth having—a Christmas gift that is "worth while?"

Send your subscription (\$1.75) at once, so as to receive free all the issues of The Companion for the remaining weeks of 1909, as well as The Companion's "Venetian" calendar for 1910, lithographed in thirteen colors and gold.

The Youth's Companion, Companion building, Boston, Mass. New subscriptions received at this office.

# Name the Calves.

"I am glad to be here," he said, "under the auspices of my brother and his wife. I have heard of his ranch for a good many years. I heard of it from Mr. David Sinton, Mrs. Taft's father, who offered me the job once if I could not make a better living, of coming down on his ranch and naming the calves, and while it seemed to be a work that would probably take all my time, the amount earned per calf did not seem to be enough to be attractive.

"Is there anybody who is kicking? I don't think you would have him in the community if he did. Certainly the Lord has been good to this part of the country. The opportunity for development here seems to be unlimited. The air and this land run on without a hill and without anything to interfere with your duty that I should, thinking you would get a little tired looking over into the next pasture.

# New Development.

The country seems to be talking on a new development with reference to the agricultural products necessary to feed the people. It is taking this on because everything that the farmer produces is most expensive to buy. He gets the highest prices today that he ever has, and therefore everyone who is looking toward making a decent living is considering whether he has in him the elements of a good farmer, for there is no doubt that taken as a class, the farmers are the most contented of any class in the country.

"I am glad to see that the largest building in town is the school house and where the building house is the most important school you can be very certain of the future. One thing is that there is no race suicide and the second is that they are looking forward to the education of their children. My friend, Mr. Green, tells me that unlike a good many other towns in Texas, I received all the votes there were in the town of Taft. I want to return my thanks to my fellow citizens who were willing to break the Texas record and bring in one little ewe lamb."

# MUST HAVE THE BALLOT TO EXPRESS WISHES

Spokane, Oct. 21.—Mrs. May Arkwright Hutton of Spokane, wife of L. W. Hutton, a millionaire mine operator, who has just been elected president of the Washington Political Equality league, says in a signed statement sent the receptionists accorded to President Taft and William Jennings Bryan on their tour of the northwest, that the majority of the voters of the United States made their choice last November and elected "a man who stands for the classes" as against "the man of the masses," adding: "Women as a whole have no voice, and in this election they cannot be held responsible. I believe there will be a new organization, which will embrace the righteous principles of all the old parties and promote ideas under which all the people can live. The thinking women of America stand ready to aid in this great movement, but they must be given the ballot to make their work effective."

# Sample Shoes

Just received 60 pairs Men's Chrome tan, in black and tan—imperishable soles. Guaranteed to outwear three pairs of any sole ever put on a shoe. \$3.45 per pair while they last. A regular \$5.00 shoe for \$3.45.

Women's Vici Kid, welt sole shoes at \$2.45—a regular \$4 shoe.

# Sample Shoe Store

232 HIGGINS AVENUE GEO. W. SCOTT

# TWO CABINET MEN RESIGN POSITIONS

Victoria, B. C., Oct. 21.—R. G. Tatlow, minister of finance, and F. J. Fulton, commissioner of lands in the British Columbia cabinet, resigned today. Opposition to the railroad policy of Premier McBride was the cause for their leaving the cabinet. Premier McBride announced this evening that he would be prepared, if returned to power by the November election, to place in the hands of the lieutenant governor his resignation were he not able to secure a measure embodying a contract with the Canadian Northern railroad providing for the completion of the railway to the coast, with a branch line to Barklay Sound, within four years.

Mr. Fulton holds that the Canadian Northern railway would build to the Pacific coast in any event and that government aid is not needed. Captain Tatlow takes the position that government aid for the road proposed by the industry is too large.

# ARRESTING BUTCHERS FOR VIOLATING LAW

Seattle, Oct. 21.—The imposition yesterday of fines amounting to more than \$10,000 upon 17 butchers, who sold putrid meat, made odorous by sodium sulphate, was followed today by the arrest of seven other butchers, who sold "doctored" meat yesterday. Deputy State Food Commissioner William H. Adams, Mr. Adams announces that the prosecutions here will be followed by enforcement of the law in other cities. He said:

"I have collected samples of hamburger steak from Aberdeen, Hoquiam, Centralia, Chehalis, Olympia and Tacoma, 81 in number and I have been advised by States chemist Elton Fulmer of the state college at Pullman that 29 of the samples had been treated."

# PERISH IN TORNADO.

Calcutta, Oct. 21.—No European, but a large number of natives perished in the tornado which a few days ago wrecked Goalanda and swept through the eastern Bengal region. While many native craft were sunk, several of the river steamers which were at first supposed to have been lost have since been reported safe. No definite information has been received here to indicate the number dead.

# BEGIN TEST RIDE.

Washington, Oct. 21.—About 25 army officers, who chose for their annual endurance test the 90-mile ride in preference to the 50-mile walk started from Fort Meyer this morning under the lead of General Tasker H. Bliss, president of the army war college. A party of similar size will start out early next week.

# DEATH IS CERTAIN.

Annapolis, Md., Oct. 21.—Midshipman Earl D. Wilson, quarterback of the navy football team, who is in a serious condition as a result of injuries received in the game last Saturday, with Villanova, was about the same tonight. The surgeons consider his death only a question of time.

# QUARANTINE RULES ARE DECLARED OFF

Washington, Oct. 21.—Secretary Wilson today notified the treasury department that Great Britain, Ireland, the channel islands and North America, including Mexico, are no longer areas from contagious or infectious diseases of animals that cattle therefrom may be imported without danger to livestock in the United States, and that hides of meat cattle may be imported from all parts of the world under proper sanitary regulations.

The department, accordingly, has suspended the prohibition in the new tariff law against meat cattle and their hides, providing, however, for the necessary sanitary regulations of the secretary of agriculture as to the cattle and the treasury department as to hides.

The regulations provide the methods of disinfection by sulphur dioxide or with a 5 per cent solution of carbolic acid, except where anthrax is prevalent.

# RAISE IN DISCOUNT CREATES SURPRISE

Berlin, Oct. 21.—The action of the Bank of England in raising its discount rate today took Berlin by surprise. Financiers, in discussing the increased rate, assign American speculation and demand for money as the chief cause. A steady rise in the English check rate in the last few days has already raised the fear that the gold export point will be reached soon. In that event another advance by the Imperial German bank is regarded as certain. In the meantime, it is understood that, in the opinion of the managers of the Imperial German bank, no occasion exists for a further advance now.

# DEMURRER IS FILED.

Admire, Okla., Oct. 21.—Twenty teachers who Governor Haskell and his co-defendants in the Muskogee town riot cases should be discharged by the court were set forth in a general demurrer to the indictments, which was filed in the federal court here today. Judge Marshall will hear the arguments on the demurrer October 28.

# MAKE A PROTEST.

St. Petersburg, Oct. 21.—A news dispatch from Harbin says that the Manchurian viceroy and the Chinese administration at Kirin have protested against the Chinese-Japanese agreement regarding Manchuria.

# Always Pure Housewives can better afford to buy

**D. PRICES' FLAVORING EXTRACTS**

Vanilla, Lemon, Orange, Rose, etc.

For they are pure and reliable flavors; have always in purity and strength conformed to this Pure Food law.

# CABRERA BELIEVED TO BE INTERESTED

Managua, Nicaragua, Oct. 21.—It is still believed here that President Cabrera of Guatemala is responsible in a measure if not entirely for the revolution in Bluefields, as he has been supporting it with expeditions from Puerto Barrios and other places. Advice state that a steamer which was on its way to Guatemala to get war supplies has been seized by the authorities at Honduras. No decisive engagement between the revolutionists and the government forces has yet been fought.

# INCREASE IN WAGES MAY BE DEMANDED

Boston, Oct. 21.—A request for a general wage increase and betterment of conditions, including a 10-hour maximum day for conductors and trainmen of every railway system east of the Mississippi river and north of the Chesapeake & Ohio lines, including eastern Canada, likely will be adopted before the end of the year. This is the action provided by the convention of the eastern association and adjustment of the railroad conductors' and trainmen's organizations, which closed its session in this city tonight.

The resolution will be immediately submitted for referendum vote to the men of each system.

# CHANGE IN SENTIMENT.

Washington, Oct. 21.—The story of a first change in sentiment toward the guarantee bank system of Oklahoma was told in a brief announcement of the treasury department today. The department approved an application to convert a state bank of Oklahoma into a national institution. The institution seeking the conversion was the Farmers' State bank of Oklahoma city, with a capital stock of \$100,000. Its new name is the Farmers' National bank of Oklahoma city.

# FRAUDULENT NOTE.

Farmington, Mass., Oct. 21.—Another of the alleged fraudulent notes handled by John T. Lombard, town treasurer, came to light today. This note brings the total of the questionable paper thus far brought to light up to \$17,000, and the town officials believe the amount will eventually reach \$220,000.

# LEAGUERS WILL NOT PLAY SATURDAY GAME

A telegram received yesterday by Agent Mason of the Northern Pacific from A. M. Cleland announced that the proposed exhibition baseball game which was to have been played between the Philadelphia Americans and an all-star team from the National and American leagues in Missoula Saturday had been cancelled and that the teams would not stop here. What the reason for the change is not known, but it is certain now that Missoula fans will not see the big leaguers.

# JAMES J. JEFFRIES WILL ARRIVE TODAY

New York, Oct. 21.—James J. Jeffries, who is on board the liner Lusitania, which reached Sandy Hook at midnight, will arrive here early tomorrow. There is much interest in sporting circles as to Jeffries' plans for meeting Jack Johnson, the negro heavyweight, and a host of Jeffries' admirers will be at the dock to greet him.

# NELSON AND WOLGAST TO FIGHT FOR TITLE

Los Angeles, Oct. 21.—Battling Nelson and Ad Wolgast today were matched to fight 45 rounds for the world's lightweight championship on Thanksgiving day. The fight will take place in this city before the Pacific Athletic club. The men agree to make 123 pounds pluside. A purse of \$12,500 is to be hung up.

# COAST LEAGUE.
