

EASTERNER BOOSTS THE VALLEY

HEAD OF ST. PAUL PUBLICITY BUREAU ENTHUSIASTIC OVER BITTER ROOT.

Not in a long while has Missoula and the Bitter Root been so enthusiastically "boosted" as they were a few days ago by Curtis A. Mosher, manager of the St. Paul Publicity Bureau. Mr. Mosher has recently finished a thorough tour of the west, and after having looked over every one of the famous valleys of the west he has picked out the Bitter Root as the place in which to locate. In his official position he has the opportunity of sizing up everything in the way of desirable ranch lands. His opinion is, for that reason, of all the more value to Missoula, and the people of the Bitter Root should feel proud of the distinction. In a letter to William B. Bell of the Missoula Investment Company, Mr. Mosher said:

"I had just returned from a seven weeks' trip through New York state and eastern Canada, when I decided to come here to the Dry Farming Congress with J. J. Hill and Mr. Elliott. The trip has been most useful and will be of much use to me in my general work. Besides, I have concluded that, personally, I have been rather blind to my best interests in not investing in western lands. Now, as you know, I have been in nearly every state in the Union, in Canada and portions of Mexico. Also, have done every fertile valley in the northwest thoroughly; and, as I review them mentally at this time, my choice for investment and for a permanent home is in the Bitter Root. I know I am late in making this decision, but not too late, for the prices are still going up, and going up to stay. Inside information, which I have gathered from every source, is of this tone, and I am convinced that it is correct.

"Now, Billy, I want you to look this matter up for me, bearing in mind that I want a place for a home as well as for an investment. I can imagine no happier prospect than when I have reached the end of usefulness in the work I have chosen, I can turn my face toward your beautiful valley. If I could follow my own inclination, I would come to Missoula on this trip, but I know my desk is piled high with matter that requires my immediate attention; so I am trusting you to do this for me, hoping to be able to investigate personally, whatever propositions you may find, in the early spring."

GIRL KILLS VISITOR.

Portsmouth, O., Nov. 6.—Five minutes after she had finished playing and singing her favorite song, Miss Bontha Wolf shot and fatally wounded Thomas Petty, in her father's home in New Boston last night. The couple had known each other from childhood. After finishing the song the girl playfully pointed her father's shotgun at Petty. It was discharged and Petty bled to death before medical aid arrived.

Petty made an antemortem statement exonerating Miss Wolf, who is prostrated.

CASE DISMISSED.

Hamilton, Nov. 6.—A case was tried in the justice court here this morning before Judge A. J. White in which Harvey Horseman was accused of carrying concealed weapons. On account of a conflict in the evidence the court dismissed the case. The persons involved are residents of Victor. The prosecution was conducted by County Attorney R. Lee McCullough.

CEMENT CONTRACTS.

Hamilton, Nov. 6.—Hugh Murry & Son have taken the contract to put in a cement walk for the Valley Mercantile company, the Bitter Root Drug company and P. H. Edwards. They are working a large force of men and the work is being pushed as rapidly as possible.

THE LYRIC.

Hamilton, Nov. 6.—The Lyric theater put on one of the best programs of the season last night. The program was as follows: "The Ranchman's Love," "A Buried Secret," "A Visit to Uncle," "A Troublesome Carbuncle," and "A Country Lad." Miss Louise Dillard sang "If Your Heart is Right."

A NEW AUTO.

Hamilton, Nov. 6.—C. J. Vincent is riding around town today in a new Chalmers-Detroit 20-horsepower automobile that he purchased from the Valley Mercantile company. The car attracted considerable attention among automobile owners. It is one of the 1910 models.

We Are Off to Ravalli
Going over the Flathead Reservation via Cutler & Matt System of Intelligently Locating for \$25.00. They give you a four days' trip, showing all allotments, sections and corners, with map and guide. On the trip you get information direct as you pass over the lands for filing.

Turkish Baths at Home Cure Eczema

Take But a Few Minutes. Cost 2 cents Each. Itching Stops, Sores Vanish.

Eczema and other skin diseases are caused by the accumulation of impurities in the tissues and blood. Drugs do not eliminate this poison. The most they can do is to ease the pain and itching for the time being. The Robinson Thermal or Turkish Bath has a remarkable effect on eczema, and all skin troubles. A tremendous amount of poison is extracted from the system through the pores, whenever a Robinson Thermal Bath is taken. Cases have been known where eczema or a bad case of pimples and boils have been almost entirely cured after a twenty-minute bath, taken at home. The terrible itching and burning stops, the blotches heal, and the disease disappears.

Remarkable results occur in nearly every case of rheumatism, lumbago, kidney and blood troubles, dyspepsia, throat and lung trouble, nervous prostration, insomnia and constipation. Robinson Thermal Baths can now be taken at home at a cost of but a few cents each, and with almost no trouble at all.

The only way to take these thermal baths is by the use of the Robinson Thermal Bath Cabinet. The results are a real Godsend. If you are sick from any cause, it will have an almost miraculous effect upon your system. If you are well, it will keep you so. The Robinson Thermal Bath Cabinets are a remarkable invention. They are now on exhibition and for sale in Missoula, Mont., at Missoula Drug Co. If you cannot go and see these Robinson cabinets, send your name and address to the Robinson Manufacturing Company, Suite 2L, Snowflake Bldg., Toledo, Ohio, for full illustrated information, free.

CHESTER AVERS COOK NEVER REACHED POLE

Washington, Nov. 6.—That Dr. Frederick A. Cook could not have reached the north pole, and that Commander Peary did attain the goal, were statements made tonight by Rear Admiral C. M. Chester, retired. The lecture, delivered to scientists in the hall of the University club, created a profound impression, for it was practically the first utterance of an official of the Geographic society, although given unofficially, which has openly cast discredit upon Dr. Cook.

Admiral Chester contended that Dr. Cook erred in saying that at a certain point he witnessed a remarkable sunset. If he had been at that point, the sun would have been high in the heavens. He also declared that Dr. Cook's party would have been compelled to travel 40 miles a day to have accomplished the trip, a speed that was impossible, even under the most favorable circumstances.

BANK PRESIDENT FACES DEFALCATION CHARGES

La Crosse, Wis., Nov. 6.—Phil Allen, Jr., president of the First National bank of Mineral Point, Wis., which failed a month ago because of his alleged defalcations, was indicted by the grand jury here today on 26 counts, including almost every variety of violation of the banking laws known to the comptroller's officers.

His trial was set for the December term of court. The bail was reduced from \$50,000 to \$25,000, which Allen expects to furnish. The amount of the embezzlement charged in the indictment aggregates \$50,000. Government officials, however, said that this represented only a part of the defalcations, which are estimated between \$500,000 and \$750,000.

SOON TO TEST BIGGEST NAVAL GUN YET MADE

Washington, Nov. 6.—Preparations to test the biggest gun the navy has yet undertaken to try out will begin when the new 14-inch cannon just completed by the Midvale Steel company of Philadelphia arrives at the Washington navy yard.

The monster is on its way here and everything is prepared to rush the finishing touches on it. As soon as the gun is ready for the firing test it will be loaded on a lighter and towed to the proving grounds at Indian Head, Md. Naval officers are deeply interested in the outcome of the trials, and if the tests are a success the new cannon may take the place of the 12-inch guns in the turrets of the new battleships.

BIG TRACT SOLD IN EAST END OF STATE

Glendive, Mont., Nov. 6.—What is known as the Lindsay tract, representing the former ranch holdings of William Lindsay and originally purchased by him from the Northern Pacific railway at an average price of about \$1 per acre, has again changed hands, the new owners being Hammond, Dodson & Co. of St. Paul, who already have large holdings in the western part of the state.

Two years ago Mr. Lindsay sold this tract, consisting of the odd railroad sections aggregating about 30,000 acres, for about \$175,000. The Spring Valley Land company, which purchased it, has since been engaged in colonizing the land. They have brought in and located on the tract about 90 settlers, and practically all of these have also taken homesteads adjacent to their purchases on the odd government sections.

The postoffice of Lindsay was established some months ago. The looks of the country have changed wonderfully. The soil is excellent and the farmers here have had a most profitable year in their dry farming operations.

FIERCE STRUGGLE UPON LEDGE AT DIZZY HEIGHT

Denver, Nov. 6.—While doctor, nurses and patients breathlessly looked on William S. Southerner, driver of the county hospital ambulance, struggled desperately for 15 minutes with Nora Wheeler, an insane patient, on the narrow ledge at the top of the roof of the insane ward of the hospital today.

A dozen times it seemed as if the mania and the man struggling would fall to the ground, 75 feet below, but finally the woman's strength gave way, and Southerner, bleeding and his clothing almost torn from him, dragged the woman to safety.

Mrs. Wheeler, a powerful woman, 23 years old, escaped from the woman's ward, and to escape imaginary enemies climbed to the roof of the building, thence to the narrow ledge. Her screams attracted the attention of the hospital attendants, and Southerner at once made for the roof. He caught the woman just as she was going to jump. Fighting with maniacal fury, she tried to hurl herself and Southerner from the roof, but slowly the latter got the upper hand, and, when assistance reached him, the woman was exhausted.

NOTES OF WALLACE

Wallace, Nov. 6.—Filled with a desire to see more of the world than was visible from the streets of Wallace, three Wallace boys, Sewell Dean, aged 13; John Cook, aged 12, and Harry Kirkhead, aged 10, started out to walk to the coast this morning. Their parents learned of their departure and telephoned acquaintances along the route to head them off. At Enaville this was accomplished and the boys placed on the Wallace train from Spokane. After they reached home they remarked that they were glad to get back, as the long walk in the rain and mud didn't remind them of home life a bit.

In the case of the state against Dan McInnis, proprietor of the Arcade show shop, charged with allowing women to drink at the bar, the demurrer of McInnis to the complaint was sustained in district court today and the charge dismissed. The case had been appealed by the defendant from a lower court and the demurrer was based on questions of law.

Six feet of shipping ore has been broken into on the 20-foot level of the Butte and Coeur d'Alene property near Mullin. The ore is lead-silver, carrying a high percentage in gray copper.

The site of the 5,000-foot tunnel at the Monitor property near Saltsee has been selected, the mouth of the long bore to be on the south end of the property, within 600 feet of the Chicago, Milwaukee & Puget Sound and 75 feet above its track, so as to give plenty of yard and dumping room. The tunnel will have a vertical depth of 2,210 feet, much deeper than any other copper mine in the Coeur d'Alenes has gone.

While lying on the bed playing with a doll, 8-year-old Briha Winehart, the daughter of Mr. and Mrs. W. Winehart of Mullin, fell out of bed to the floor and broke her collarbone.

Work has been resumed on the Cooney group at Burke and will be kept up all winter. The drift which disclosed the ore body will be continued. This has been run over a hundred feet in ore, with two and a half feet of shipping ore showing in some places. The ore is lead silver.

Jack Meehan has gone to the property of the Iron Mountain Tunnel company with a view of taking another 100-foot contract in the shaft, which has been sunk to the 1,850-foot level. A crosscut is being run to the vein and when it is reached stopping will begin.

NOTES OF GOTHAM.

New York, Nov. 5.—The arrival of the new year will, it is now certain, mark the establishment of a new world's building record, for from figures covering the first 10 months of this year it is practically certain that its close will establish a mark of \$1,000,000 a day spent for new buildings. Already more than \$200,000,000 has been invested in building construction during 1903, and in view of the outlook for November and De-

ember it would not be surprising if the \$600,000,000 mark were reached. At any rate it is certain that New York will be the world's first city to spend \$1,000,000 a day for new buildings, or in the course of the single year more than the estimated cost of the Panama canal. The borough of Manhattan, small though in size, accounts for over \$125,000,000 of the total as compared to \$68,000,000 in 1902. Practically all of this sum is for business or tenement construction, since the building of single houses below the Harlem river is now almost a thing of the past. Even apartment buildings are being crowded out, construction in this line showing a steady decline. It is estimated that the borough's new business structures during the present year would, if placed one on top of the other, form a single edifice covering one square block of ground space nearly five miles high, and bringing an annual rental of \$50,000,000. Altogether Father Krickerbocker seems to be building mad, and it is not improbable that another decade will see the doubling of the present record figures.

The eyes of feminine America promise to be pretty steadily fixed on New York this winter, since from all indications this city is bound to be the storm center in the fight over the question as to whether or not women should have the ballot. The campaign is certain to be a lively one, viewed from any standpoint. While it is doubtful whether such militant tactics as have been adopted by the suffragists in England will ever be used here, since political conditions in the two countries are so different, it cannot be denied that the question is receiving serious consideration—not as a fad, but as an economic issue. Nearly 1,000 women, members of female organizations throughout the city, attended the first meeting of the Federated Women's club at the Hotel Astor this week, and where, as in the past, these gatherings have discussed matters formally supposed to be of purely feminine interest, the only subject discussed at this meeting was that of equal suffrage for women. It seems likely now that this is the only subject which will receive more than passing consideration in subsequent meetings, and the winter, therefore, promises to be a merry one in the field of feminine politics. With well-known New York society women arrayed on each side, to say nothing of the presence of Mrs. Pankhurst, the English suffrage leader, the situation promises all sorts of interesting developments.

While the statement that New York spends a million dollars a day for drinks has often been quoted to indicate that this city is hopelessly addicted to liquor than the ordinary community, the fact is that not more than 50,000 persons out of the community of nearly 5,000,000 are habitually intemperate, or about one per cent of the population, according to figures presented by H. E. Fogel, an authority on charitable and philanthropic subjects, before the Worcester Economic club. According to these statistics not more than 20 per cent of the grown-up male population of the country are total abstainers, and not more than five per cent are drunkards. The great majority of total abstainers are found in small towns and rural districts, and it is estimated that fully 90 per cent of the men over 21 years of age in the big cities drink alcoholic beverages to a greater or less extent. This is given as the reason why none of the very large cities of the country have joined in the prohibition movement except where it has been forced upon them by the votes of smaller cities and rural districts. It is also held to account for the difficulty of enforcing prohibitory laws in such communities. Five thousand population is given by statisticians who have been studying the subject as the dividing line above which public sentiment fails to support such regulations.

A label for the Amalgamated Society of Tailors and Tailoresses has just been adopted in England. As heretofore only the British hatters have had a label, this move may mean the promotion of the trade union label in Great Britain.

Notice of Public Sale, United States Land Office at Missoula, Mont., Sept. 29, 1903.

Notice is hereby given that on the 15th day of November, 1903, at Missoula, Montana, beginning at 10 a. m. of that day and continuing thereafter from day to day (Sundays and legal holidays excepted), as long as may be necessary, we will offer at public outcry to the highest bidder for cash, at not less than the appraised value thereof, all of the unsold and unreserved lots in the townships of Arlee, Elton, Ravalli, Roman and St. Ignace, in the Flathead Indian lands, Montana, as delineated and designated on the plats of said town sites, respectively approved by the department of the Interior, now on file in this office.

The purchase price must be paid in cash to the receiver before the close of his office on the day the bid is accepted. All parties are warned, under the penalty named in section 2373, U. S. Rev. Stats., against any combination or action tending to hinder or embarrass the sale of said lots or to prevent free competition between bidders. DANIEL ARMS, Register. WILLIAM H. HOUSTON, Receiver.

Oh! That Awful Gas

Did you hear it? How embarrassing. These stomach noises make you wish you could sink through the floor. You imagine everyone hears them. Keep a box of CAS-CARETS in your purse or pocket and take a part of one after eating. It will relieve the stomach of gas.

CASCARETS are a box for a week's treatment. All druggists, biggest-seller in the world—million boxes a month.

BOOST Missoula

Use Missoula products to the exclusion of others and the money you pay for them will remain here. Quite likely it will revert, in some way, back to your own pocket.

Garden City brewery is noted for the excellence of its manufactures. Among its leading products is

Standard Beer

The Garden City brewery is one of the finest in the country. Modern machinery and skillful brewmasters enable us to turn out a beer that has built up a fine reputation and sells upon its own merits alone.

Are you a beer drinker? Try Garden City beer. Call for it when you order beer and let us send a case to your home.

The Bitter Root Valley

A Pacific Slope Land Famed for Its Perfect Fruit and Its Great Profits

The Valley of Opportunity

A single acre of land in this valley has been known to produce a net profit of over \$1,800 in one year; \$500 annual net profit from an acre of land is a common event. Crops never fail, fruit pests are unheard of and fatal diseases among stock, hogs and poultry are unknown.

Water for irrigating purposes in accessible and inexhaustible quantities.

The beautiful mountain scenery, an abundance of pure water, healthful mountain air, unrivaled climate, good means of transportation, convenience to markets, good schools, close proximity to state university, and the lowest cost of living all combine to make this locality the most ideal place for a home in the great northwest.

Write for free illustrated booklet.

Bitter Root Valley Irrigation Company

HAMILTON, MONTANA

Did You Notice

what Prof. Thomas Shaw, whom James J. Hill calls the greatest farmer on earth, says of the Bitter Root valley? He says that "he doubts very much if there is any section in the whole United States which will furnish so much diversified production and wealth for its area as the Bitter Root valley. The soil is splendidly adapted to fruit, especially the apples."

Our land is the pick of the valley. It was considered by Marcus Daly the best land in the valley at a time when he could have had his pick.

We are selling this land today on terms of 25 per cent cash and the balance in ten yearly payments. Let us show you how to make it pay from the start.
