CAUGHT ON THE RUN ABOUT TOWN

"Do you know," said the North Side Girl, "that I think the man was real mean who told the reporter that story the other day about the overhead crossing? We never did say we liked that aerial line and I am sure that no girl was ever seen spooning on the high bridge. Why, it's much more public to spoon on the station platform if it is public that you are after. I think the man was real border="1" style="display: inline-block; vertical-align: top; width: 100%;">

OVERDOSE OF DRUG CAUSES DEATH

Harry Allen has been back from his eastern trip a couple of days and last night he welcomed a couple of Fargo friends who have been induced by him and by Joe Beebe to come out here and look over western Montana. Clem Probert and William Gamble and their wives arrived here on No. 1 last night and will thoroughly inspect the Missoula country and the Bitter Root with a view to investing here. The ladies will remain in Missoula, guests at the Beebe home, and Messrs. Probert and Gamble will at once start on a tour of the Bitter Root country. Later they will look around in other directions.

An illuminated postal card, received yesterday at The Missoulian office, announces the arrival of Mr. and Mrs. Carl CARLS AT KARLSBAD Greenhood at Karlsbad.

Mr. Greenhood writes that he is enjoying his journey much; that, although it is late in the season, there are yet many sojourners at the baths where the season record this year is more than 65,000 visitors. Mr. Greenhood does not say anything in his letter about being homesick, but there is a chance to read between the lines that he would enjoy being in Missoula again. However, the European tour by himself and Mrs. Greenhood is not more than half over and it will be some time before they are in the Garden city again.

Another traveler from Missoula who departed yesterday by postal card is H. W. Whitelaw, whose card is dated at IN LONDON London. The brilliant illustration on the back of the card does not deal with historic places or with beautiful scenery, but depicts a phase of the suffragettes' fight. It looks strenuous and Mr. Whitelaw writes that he believes the women will vote in England before they do in America for he thinks they will be given the franchise just to keep them quiet. He does not say anything about coming home; the inference is that he does not object to being where the suffragettes are.

President Reilly of the 50,000 Booster club has made a suggestion that a medal of merit be awarded by the club to John Trehwela as the first booster to get busy in the 50,000 campaign. The suggestion was prompted by the arrival of a daughter at the Trehwela home Saturday and seems to meet with general approval.

There is plenty of unfinished business to be considered by the city council this evening. It is likely that the matter of building a sidewalk from the Van Buren street bridge to the university will be taken up; it was referred some time ago to the streets and alleys committee. The ordinance committee will report on the matter of creating the office of plumbing inspector, and the application of Orville England for a building permit will be taken up for action. There are several claims against the city for damages and these may be brought to the attention of the council, as will the matter of a number of petitions for are lights, fire hydrants and other small matters.

THE WEATHER

Yesterday, the second day of the cold snap which so suddenly arrived, was even colder than Saturday. Jack Frost was on the job with all his forces and many were the red noses and nipped ears. It was not what could possibly be called a popular Sunday, except for remaining at home.

MISSOULA MEN KILL FAT DEER
GEORGE WALL AND DR. RANDALL HAVE LUCK ON THEIR HUNTING TRIP—PLAINS NEWS.

Plains, Nov. 14—George Wall, steward in the Northern Pacific hospital, and Dr. J. G. Randall, an assistant surgeon in the same institution at Missoula, returned to their homes Friday night, spending a week at Weeksville as the guests of Mr. and Mrs. O. Thompson. During the week, accompanied by their boys, they made a trip out into the mountains and secured a 5-year-old deer. The animal was so large that it was necessary to parcel it up in order that it could be taken out of the timber. The hide and horns were left in the mountains, as they could not be carried.

Miss Daly, a former business woman of Plains, stopped here Wednesday for a short visit with friends. She was just returning from California, where she has been for the past year. On her way west she visited Los Angeles, Portland and other coast cities. Miss Daly expects to make her home in Missoula, where she formerly lived.

John W. Work, a member of the national executive committee of the socialist party, delivered a lecture last night in Avery's hall.

E. S. Costello left last night for Spokane, where he will arrange the Plains exhibit from the National Apple show. He stated that the exhibit from this valley is much better than the one last year and that it is a premium getter. The farmers have taken more care in preparing their displays this fall and the fruit is of a splendid quality. C. C. Willis was largely instrumental in procuring the display.

CRIPPLE DIES IN LODGING HOUSE AND IDENTIFY CANNOT BE ESTABLISHED.

An unknown man, a cripple who had at some time lost both legs, was picked up late Saturday night by Officers Vance and Crox and taken to the Avenue lodging house on Higgins avenue, where he died a couple of hours later, presumably from an overdose of morphine, a lot of which was found in his pockets. Coroner Kendrick was called and took the body in to custody. The attention of the officers was called to the man because of his appearance and they placed him near a stove in the hall of the lodging house. Upon returning a couple of hours later to see how he was getting along they found him dead.

An investigation by the coroner failed to disclose any clue to his identity, as there were no papers of any kind on his person. He had been eking out a meager living by selling lead pencils. He had been in the habit of taking morphine and it is possible that an overdose of the drug caused his death. He was about 35 or 40 years of age, and was poorly clad. An effort will be made to establish his identity.

VIOLATION OF LAW IS ALLEGED

FOUR MEN FROM GRAND THEATER ARRESTED FOR RUNNING PLACE ON SUNDAY.

Because he was tired of waiting for the trial of a case in which the proprietors of the Bijou and Isis moving pictures shows are alleged to have violated a state Sunday closing law, Charles Searies, one of the proprietors of the Grand vaudeville theater, opened his place of business last evening, but was permitted to run it for only a few minutes, when he was visited by County Attorney Mulrony, Chief of Police Vealey and Deputy Sheriff Orton and placed under arrest, along with three of his employes, Neal Perry, Fred Lucas and Louis Jacky, and taken to the sheriff's office.

Although the Grand is a vaudeville theater, the only form of amusement on the bill last evening were moving pictures and a vocal solo. Mr. Searies, like the proprietors of the other houses, maintains that the state law was passed at a time when moving pictures were not known in the state, and therefore does not apply to them. Messrs. Penny and Norman, who were arrested three weeks ago, had determined to make a test case of the matter and are awaiting trial. Mr. Searies claims that there is no necessity for such a delay in bringing the other case to trial and resolved to hasten matters.

Mr. Searies and his employes were taken to the sheriff's office and search was instituted for Justice of the Peace Small, so that he could be fixed. When the justice was found a consultation was held with the county attorney, the justice and Dan O'Hern, who had been retained as the attorney for the man, as principals, and the bonds of each man were set at \$100, which was furnished.

OFFICER REARRESTS ESCAPED PRISONER

While in the custody of a deputy sheriff from Duluth Saturday night in the California wine house, Joseph Germain, wanted in Duluth for robbery, made his escape, only to be rearrested yesterday morning by Officer Hoel, who located him in a saloon on West Front street. The man had been arrested at Haugan, in the Coeur d'Alene valley, and brought to this city Saturday evening on the Coeur d'Alene train. The officer had to spend a short time here to wait for an eastbound train, and in the meantime allowed his prisoners to accompany him in the city. While the attention of the officer was distracted the man "beat it." The deputy informed the local police and Hoel picked up the man.

A PROUD FATHER.

E. C. Leshon walked around town Saturday with a broad smile on his face and a box of cigars in his hand, with both of which he greeted all of the friends he met. All he could talk about between hand-shakes was his fine baby girl and her superiority over other baby girls in general. He walked clear into town in the teeth of the wind to tell the good news and to hand out cigars. Both the baby and her mother were doing finely yesterday.
