TRAINS IN THE GRIP OF THE STORM

WIND AND SNOW COMBINE TO TIE UP TRAFFIC ON TWO BIG RAILROADS.

Butte, Nov. 15.—Despite the report of the tie-ups on the Northern Pacific and Milwaukee railroads due to a blizzard and heavy fall of snow in North Dakota, trains from the east are still arriving here virtually on time. However, it is expected the service into Butte will be affected by this evening. Local traffic in the state is moving as usual despite the cold, the snowfall having been light. The Great Northern has not been handicapped in any way either as to through service or otherwise.

The Northern Pacific train arriving from the east at 12:30 p. m. was not a through train, according to the latest advices, having been made up at Billings. The service east of there is tied up and trains due in here tonight are not expected before tomorrow.

Locally no effect was felt until late yesterday evening. All the morning trains from the east arrived on schedule time and No. 7, the 4 o'clock train, arrived promptly on time, but it is reported that it was made up at Billings and sent west from there. All the other west-bound trains were reported indefinitely late and the prospects late last evening were no better than when the storm first started.

A telegram from Portland says that the entire Pacific northwest is in the grip of a cold wave. Not in a score of years has the weather been so cold at this season. In some sections of eastern Oregon and Washington the mercury is hovering about the zero mark.

Cattlemen and sheepmen of eastern Oregon and Washington and some portions of Idaho are apprehensive of loss of stock.

Another telegram from Washington says: Rain, snow and disagreeable weather throughout the country during the next week or 10 days is the prediction of the weather bureau today.

Two distinct storms are approaching from the west. These will be attended by rain in the southern and snow in the northern districts. The first disturbance will advance from the Rocky mountains to the Atlantic coast, starting tomorrow in the west.

The second storm will start on its cross-country run from the Pacific coast about Wednesday.

IN THE THEATERS

Last night the Laura Winston company gave a presentation of the "Two Orphans" to a large house despite the cold weather. It is not often one has the pleasure of witnessing such clever acting as Miss Winston does. Her work as Louise, the blind girl, was, if possible, better than anything she has yet played in Missoula. So perfect was her conception of the part that one became lost in the action of the play, forgetting it was not real and almost believing the girl to be blind and giving entire sympathy to her troubles. Such work is art with a capital A.

As the Chevalier de Vaudry, W. S. Van Dyke showed great worth as a leading man. C. J. Lionel, as the brutal brother, gave a fine portrayal of the character. Another well-drawn character was that of the old beggar Eugene Gear. The best acting C. A. Holman has done during his stay here came last night as Pierre, the cripple. Ed Hume as Marquis de Presels showed careful study and attention to detail, as did Mr. Ingersoll, who was more than funny in the part of Picard.

Miss Spencer as Henrietta gave excellent support to the leads, as did also Miss Grey, who handled Marianne and Countess de Linieres most acceptably.

It would be unfair not to mention the excellent scenery furnished by some clever stage manager, name not known, for to him much of the success of each production is due, and he clearly showed ability to meet all requirements.

The management gave a luncheon after the performance in honor of winning a bet he could not play one bill a whole week to paying business for three consecutive weeks. This being the fourth week here and the company still receiving almost capacity houses nightly, congratulations were flying thick and fast. A most enjoyable evening was spent by all. The play will continue throughout the week with a Saturday matinee.

Two silent comedians who style themselves "Nip and Tuck" held the boards at the Grand vaudeville house last evening and proved themselves top-notch attractions. They are scrubs and go through their comical act without saying a word, causing many a man to laugh who has not opened his face since the panic of 1908. Dresden in his monologue take-off on Harry Lauder, the well-known comedian, earned lots of applause. The illustrated song was good.

The Isis. Despite the cold, there was a good attendance at the Isis theater last evening. "Papa's Honeymoon," showing the misadventures of a newly married widower, the father of two children, is good, as is "Out for the Day." "The Prodigal Son," illustrating the well-known Bible story, is the feature film and created much interest last evening.

The Bijou. "A Bride and Groom's Visit to the New York Zoological Gardens," the feature film at the Bijou, created its share of excitement last evening. It is a comical film, in the main, but is instructive and interesting. An extraordinary picture, "No Man's Land," portraying the adventures of a shipwrecked sailor, strikes a well-known theme about which volumes have been written, but which has not been shown before on the screens. There are other films and an illustrated song, all of which are good.

Difference That Ten Minutes Make

From 35 degrees to 70 degrees—from an unbearable cold to a glowing heat that contributes the cheery comfort you want in your home is the difference that can be made in 10 minutes when you have the

PERFECTION Oil Heater

(Equipped with Smokeless Device)

to do your heating. It is unrivaled for quick work—and effective, cleanly work.

Impossible to turn the wick too high or too low—impossible to make it smoke or emit disagreeable odor—the self-locking

Automatic Smokeless Device

absolutely prevents smoke. Lighted in a second—cleaned in a minute—burns Nine Hours with one filling. Rustless brass font.

Automatic smokeless device instantly removed for cleaning. Highest efficiency in heating power—Beautifully finished in Japan or Nickel—an ornament anywhere—a necessity everywhere. Variety of styles.

PUGET SOUND TRAINS ANDONETTI'S TRIAL CARRY MAIL PROGRESSES

SERVICE TO MOUNTAIN COUNTRY WEST OF MISSOULA STARTS ON TIME.

The Puget Sound began to carry United States mail out of Missoula for the first time yesterday. The service was announced in The Missoulian some time ago and yesterday morning the first sack of mail went out of town in the yellow cars. The service will be more than welcome to the towns along the line west. Hitherto this country has been practically isolated from the rest of the world. It has taken three or four days to get the mail to some of the stations on the other side of the mountains and the condition of the country made any sort of delivery out of the question. The problem has been solved, however, and the rich but unsettled country is now directly connected with the rest of the world. The contract calls only for mail between Butte, Mont., and Ellensburg, Wash., to such towns as have no other railroad service.

ECZEMA CURABLE? PROVEN!

Attorney at Moline, Ill., Convinced by Oil of Wintergreen Compound.

There is nothing that will convince a lawyer except evidence.

Now, here is some rather startling evidence of a simple home cure for eczema, which convinced one lawyer, F. C. Enright, attorney at Moline, Ill. He tells how oil of wintergreen compound mixed with thymol and glycerine, as in D. D. D. Prescription, cured him in 30 days after 32 years of suffering.

"For 32 years," writes Attorney Enright, "I was troubled with eczema, scales all over my face, body and head. I could run a hairbrush over my body and the floor would be covered with scales enough to fill a basket. I tried everything—salves, internal medicine, X-ray—all without result."

"Just a month ago I was induced to try D. D. D. Prescription. The itch was relieved instantly, so I continued. It is just a month now and I am completely cured. I have not a particle of itch and the scales have dropped off. I can only say again CURE DISCOVERED, and now curing all eczema sufferers on the right track."

Cure after cure has been brought to our attention and always that instant relief from the awful itch. Geo. Freishelmer, Missoula.

TO SHOOT AT BALLOONS.

New York, Nov. 15.—A number of guns especially designed to attack aerial craft have been installed at the Sandy Hook proving grounds and interesting experiments will be conducted this week. A number of balloons are being inflated at Fort Wood, under the Statue of Liberty, and they will be floated near Sandy Hook, where the guns will attempt to render them useless. High officials of the navy department will be present to observe the test, which will be the first of this kind to be made by this government.

S.S.S. PURELY VEGETABLE

The safest medicines are those which leave the system in the best condition after their use. This is one of the principal virtues we claim for S.S.S. Being made entirely of roots, herbs and barks, it is not in even the smallest degree harmful to any system, but on the other hand its vegetable ingredients make it one of the finest of tonics to build up the health in every way. A great many blood medicines contain strong mineral ingredients which unfavorably affect the bowels, stomach or digestive system, and any blood-purifying effect they might have is therefore offset by their injurious action on the general health. S.S.S. is the one safe and sure blood purifier. It goes into the circulation and rids the blood of every impurity or pollution. It strengthens the circulation and adds nourishing properties to the blood and greatly assists in the cure of any blood disease. S.S.S. cures Rheumatism, Catarrh, Sores and Ulcers, Scrofula, Contagious Blood Poison and all like diseases, because it purifies the circulation. S.S.S. may be taken by young or old with absolute safety, and with the assurance that it will cure all diseases and disorders due to an impure or poisoned blood supply, even reaching down and removing hereditary taints. Book on the blood and any medical advice free to all who write.
