

CENTRAL BANK PLAN IS LOGICAL ONE MARKET MOVEMENTS OF THE DAY

SO DECLARES FORMER MINT DIRECTOR ROBERTS IN KANSAS CITY ADDRESS.

Kansas City, Nov. 16.—"Nine-tenths of all the objections now being offered to the central bank plan miss the mark; they do not apply at all to the kind of a central bank that is proposed," declared George E. Roberts, president of the Commercial National bank of Chicago, and former director of the mint, in an address before the Kansas City Clearing House association today.

"The central bank issue offers a more comprehensive treatment of the currency problem than any other plan," he said, "and provides abundant elasticity under responsible control. It provides a fiscal agency for the government, through which its enormous collections and disbursements may be handled with the least disturbance in the money market."

"We are not pioneers in the movement. We are lagging behind all of the rest of the world. There is not a country in Europe but has delegated the issuance of its paper currency to a central bank. The Japanese began organizing their banking system in 1872 by copying our system of national banks, with issues of notes based upon the public debt, but in 10 years they discovered that they had not copied the best system. Then they established the Bank of Japan, a semi-official institution, modeled after the Imperial Bank of Germany."

"In the cities the bankers, under the pressure of emergencies, have learned to come together and assume, without any legal sanction, some of the functions of a central bank. We saw the clearing house in 1907 receive the ordinary commercial assets of their members and issue an impromptu currency upon them, and that currency passed into circulation and served the purpose of money. The only trouble with it was that it had no legal status, and it was in itself a symptom of disorder."

AMERICAN INTERESTS ARE BEING PROTECTED

Bluefields, Nicaragua, Nov. 16 (By Wireless via Colon).—The provisional government is transacting affairs in an orderly manner, and all American interests are fully protected. Zelaya's troops still hold Greytown, but General Chamorro, with a large force of revolutionists, has a well fortified position on the beach. He is also guarding the San Juan river to prevent government troops from entering the interior.

Prisoners in the hands of General Chamorro say that many government soldiers are sick and others are losing courage on account of an exhausting march through swamps and jungles. There are no signs of the enemy, according to advices received by the insurgents at Rama, where a large force of Estrada's men awaits an attack by land.

AIR THAT KILLS GERMS.

Your Money Back if Hyomei Doesn't Cure Catarrh, Says George Freisheimer.

Don't be stubborn. Don't be prejudiced. There is not a particle of morphine, cocaine or any injurious or habit forming drug in Hyomei.

Give it a trial at Geo. Freisheimer's risk. It is made of eucalyptus and other grand antiseptics. It will chase away the misery of catarrh or any affliction of the nose and throat in five minutes.

No stomach dosing—just breath Hyomei in; it gets at the catarrh germs and kills them all.

Go to Geo. Freisheimer today and ask him for a Hyomei (pronounced High-o-mie) outfit. It only costs \$1.00 and consists of a hard rubber pocket inhaler, which can be carried in vest pocket, a bottle of Hyomei, a medicine dropper, and simple directions for use. Extra bottles 50c.

IDAHO MAN ELECTED.

Des Moines, Iowa, Nov. 16.—The administration of the national grand jury won a complete victory over the insurgents in the annual election today. N. J. Baeheler, Concord, N. H., was elected master; C. M. Freeman, Tippecanoe City, secretary, and C. M. Mullin, Nampa, Idaho, gatekeeper.

SULZBERGER IS CHOSEN.

New York, Nov. 16.—At its annual meeting today the American Jewish committee, composed of leading Jewish citizens from all parts of the United States, elected Myer Sulzberger president.

New York, Nov. 16.—The confusion in the movement in prices in today's stock market was due principally to the after effects of yesterday's excitement over the reported copper consolidation. The positiveness of yesterday's assertions on that subject forced some recognition and led to more candid admissions. From these it appeared that the definite accomplishment of the plans in view was not to be looked for until a considerable time had elapsed—perhaps many months. That actual consolidations are intended was admitted, although important exceptions amongst the important copper producers were mentioned. This uncertain state of the project caused some hesitation in the speculation today.

The announcement that the American Telephone and Telegraph company had acquired an influential holding in the Western Union was intended to confirm the confidence that important financial transactions were at work, leading to reaction on profit-taking when the formal announcement came. The success realized for the Pennsylvania stock subscriptions revived the stock, the proceeds of the subscriptions running over the estimates by reason of the large amount of convertible bonds turned in for the purpose of securing the subscription privilege. This removed a ground for considerable vague uneasiness, which had hung over the market since Pennsylvania started on a downward course, after the new stock was determined upon.

The discounts abroad were easier and the international money conditions relaxed all around. The call loans ruled above 5 per cent, and reflected an easing tendency. The publication of the comptroller's call for reports of condition by the national banks is momentarily expected, and it is supposed that funds will be supplied more liberally by lenders after the conditions of the call have been complied with.

Bonds were irregular. Total sales, par value, \$5,316,000. United States bonds were unchanged on call.

This picture is worth studying. The scene shows an airplane soaring unexpectedly into view over a country town. Everybody on the main street is out to see it. One of the first citizens has rushed from the "tonorial parlor" with his face covered with lather; the mules in front of the neighboring blacksmith shop are celebrating by some lusty kicks (it's mule nature to kick at anything strange overhead). Then there's the dignified elegance of the apparel of the two smartly-dressed men—one of them might be you if you wear the kind of clothes we sell.

THESE are great times we're living in; the mystery of aerial navigation seems to be just on the edge of being solved; a few years more and we'll be traveling through the air with as much unconcern and security as we now ride in a railroad train.

Progress seems to be the dominant idea of the times; new discoveries, new triumphs of science; new wonders all along the line. But when you come to clothes—and we all have to come to clothes, every day, and probably will for a good many years—when you come to clothes, you'd better come here and get into one of our fine suits and overcoats.

Premier CLOTHES THE FINEST READY-TO-WEAR CLOTHES TO BE HAD AT ANY PRICE. \$25.00 to \$50.00

HART, SCHAFFNER & MARX STYLISH CLOTHES THE NAME IS A SYNONYM OF ALL-WOOL QUALITY, PERFECT TAILORING AND FIT—AND SATISFACTION. \$22.50 to \$35.00

WOOL WORTH ALL-WOOL, POPULAR PRICED CLOTHES \$15.00 to \$22.50

No matter what discoveries may be made in science, no matter how many men get to the north pole or the south pole, you'll never find better clothes than these.

We sell them; they're all wool; they're perfectly tailored; they're the very latest discovery in correct style and they fit.

December going up a full cent in the first hour, with May a close second, conditions seemed ripe for a repetition of yesterday's advance. The backbone of the market, however, was quickly broken by profit-taking sales in which big elevator interests were credited with the lion's share. At the close of trading December stood at 101 1/2, unchanged from yesterday's final quotations, with May below yesterday at 105 1/2.

The corn pit duplicated the performance in the wheat market. After a rapid advance at the opening, prices sagged under the hail of profit-taking sales. December closing 1 1/2¢ lower than yesterday at 69 1/2¢.

London closed at 60 for spot and 60 1/2 for futures. Local dealers quote lake copper at \$139 1/2; electrolytic, \$128 1/2; and casting \$127 1/2.

Washington, Nov. 16.—President Samuels Gompers, Vice President John Mitchell and Secretary Morrison, of the American Federation of Labor, who are under sentence on the charge of contempt of court, will not have to return to Washington from Toronto to appear before the district court of appeals to file notice of their appeal until next Monday. It is expected they will then sue out a writ of habeas corpus before some judge of the district supreme court, and should the judge refuse to discharge them under the writ, the next step will be an appeal to the United States supreme court.
