**HOCKEY CANDIDATES
IN TRY-OUT**

FAST EXHIBITION OF GREAT WINTER GAME IS GIVEN ON ISLAND RINK.

Fifty spectators seated inside of the island rink and 500 more gathered in financial security upon the new bridge just above the ring saw the first hockey game of the season yesterday afternoon. The number of people who were willing to brave the rigor of the weather and stand up on the bridge for the sake of getting away from the admission fee was astonishing, but the game was interesting and perhaps it was worth it. The weather was ideal for the contest and the game was hard-fought from start to finish. The two teams were picked from the large squad of candidates for the Missoula team and on the showing made by the players yesterday the future line-up of the team depends.

Parker, a new-comer to Missoula, was undoubtedly the star performer yesterday. His stick work was just about the niftiest article that has ever been shown on the local rink and it was only the wonderful defense of the winning team which kept him from scoring singlehanded time and again. Aibley, Ferguson, Hugh Reardon and Clark also played the game.

When the contest was over the bunch captained by Clark had scored 4 to the opposing team's 6.

The teams lined up as follows—the winners: Kelley, guard; Erb, point; Clark, cover-point, (captain); H. Reardon, center; Bailey, rover; Hugh Ferguson, left wing; Lucy, right wing. The losers: Lundstrom, guard; Horace Allen, point, (captain); Murphy, cover-point; Parker, center; Jim Reardon, rover; Stinger, left wing; Whiteman, right wing.

Referee—Fairweather.

BISHOP ENDS SERIES OF LECTURES

THE CHURCH AND THE EUCHARIST IS SUBJECT OF LAST OF ADVENT SERMONS.

Bishop John P. Carroll of Helena concluded his series of Advent lectures at the Catholic church last evening, his subject being "The Church and the Eucharist." Bishop Carroll was as eloquent as ever and held his audience as well as during his lecture of a week ago, when he talked on socialism.

He told of the conception of the sacrament, of its divine character and origin and led through a long argument to his final proof of its literal meaning. The need of constant communion with Christ was the main argument of his lecture and, summing in a few brief words the arguments given during his first three sermons, he said that the only way that these problems could really be solved was by frequent communion.

WILD AND WOOLLY IS KISUMU

COLONEL ROOSEVELT AND PARTY APPROACH PICTURESQUE TOWN IN AFRICA.

Kisumu, British East Africa, November 17.—Kisumu, or Port Florence, where Colonel Roosevelt and his party are to spend at least a day, is situated on the shores of Victoria Nyanza lake at the end of Kavirondo gulf. It is the terminus of the railway and raises 2,500 feet above sea level. Kisumu possesses a drydock, the altitude of which is the highest in the world. As the train nears its destination, the wonderful beauties of the huge inland sea are disclosed. The water stretches for 40 miles to the mouth of the Kavirondo gulf and on all sides are huge mountains.

An extraordinary mixture of races will be there to welcome the Roosevelt party—Europeans in ducks, Indians, Goanese, Eurasians, halfbreed Europeans and Indians, Sakhalis, Arabs, Nandi, Lumbwa Kavirondo, Wakamba and others too numerous to mention. The arrival of the train is a tri-weekly event of great importance and the passengers it will carry on this particular occasion makes it doubly so. There are two curses in Kisumu, the sleeping sickness and intermittent outbreaks of bubonic plague. Europeans seem to be immune, as so far there have been no reports of Europeans suffering from either in this place.

The native market is an ever-present source of interest to the traveler and it is a wonderful sight to see the hundreds of naked men and women engaged in ardent barter. The foodstuffs are not always the best and at times the odors are almost unbearable. The Kisumu country is only 14 by 10 miles in extent and forms part of the vast Kisumu province. This small area was little known until after a punitive force had been sent up there in January, 1908, to settle with the natives for an attack made on the district commissioner when hut tax collecting.

Buy School Addition Lots

\$1 Down and \$1 a Week

You get all the profit on these lots, just the same as though you had them fully paid for, and the price is right.

Four nice level lots in block 36 close to city water and school. Will sell one or more. The price is so low you will have to hurry if you want any of them.

BILL IS INTRODUCED BY DIXON

MONTANA SENATOR FATHERS A MEASURE FOR SALE OF UNALLOTTED LANDS.

Washington, Dec. 19.—(Special.)—A bill for the sale of all the unallotted lands fronting on the Flathead lake in Montana, on the Flathead Indian reservation, has been introduced by Senator Dixon. It directs the secretary of the interior to have these lands surveyed and subdivided into lots of not less than two and not more than five acres in area, whether of grazing, timber or agricultural land. After the survey and subdivision of the lands, the bill authorizes the interior department to sell to the highest cash bidder, the proceeds to go to the construction of irrigation projects now under construction on the Flathead reservation. The bill also authorizes the department to sell irrigable lands now held by Indian allottees, in tracts of 60 acres of individual allotments, half of the proceeds to go to the Indian allottees and the remainder to be held in trust for them.

SENATE TO CONFIRM HORACE LURTON

BODY WILL PERMIT PRESIDENT'S APPOINTEE TO TAKE SEAT ON BENCH.

Washington, Dec. 19.—With probably less than a quorum of either house in the city, all legislation in congress in the next two days will be by common consent. The house will undertake nothing more than the passage of some minor bills and the completion of its work on the District of Columbia appropriation bill, which already has been under consideration for two or three days. It has been hoped that the army supply bill might be taken up and disposed of before adjournment, but that program has been abandoned in the face of the departure of so many members.

SENATE TO CONFIRM HORACE LURTON

BODY WILL PERMIT PRESIDENT'S APPOINTEE TO TAKE SEAT ON BENCH.

The senate will undertake little except the confirmation of Horace Lurton to be associate justice of the supreme court of the United States. The nomination will be reported favorably to the senate on Monday and an effort will be made to have it acted upon. Indications are that there will be no objection and that Mr. Lurton's confirmation will take place before the holidays. It is not expected that a quorum will be present either Monday or Tuesday, and, if such should prove to be the case, a call for an aye and no vote would have the effect of postponing action until January. No one seems willing to accept this responsibility, and Senator Bacon of the judiciary committee, who has charge of the nomination, is hopeful that such a call will not be asked.

Undeniably there are a number of senators who consider Mr. Lurton's age to be against him, but their objection does not go to the extent of pronounced opposition.

Some investigation is being made of Mr. Lurton's decisions on the bench with a view to determining the foundation of the charge that they are in the interest of corporations. A statement covering this phase of the question probably will be presented to the senate.

Adjourn Tuesday.

In the main, the disposition is to let the president have his way in the selection of a successor to Justice Peckham, but many senators are disposed to make a record regarding Mr. Lurton's shortcomings, if he has any. If it were a question of success or defeat, Mr. Lurton would have many champions, and there is no doubt that he would be confirmed on a vote. The only question involved at this time is the advisability of delay. Both houses will adjourn on Tuesday for two weeks.

MORE THAN CENTURY OLD.

Philadelphia, Dec. 19.—Mrs. B. Makendensky died at a local hospital today, aged 110 years. She was born in Kiev, Russia, and had 19 children, several of whom are still living, and is survived by about 150 descendants, scattered over the world, most of them living in the United States. The oldest grandchild is 79. He is Abraham Makendensky of New York.

PROPERTY AUCTIONED OFF.

Paris, Dec. 19.—An enormous crowd of curious people from all classes of society besieged the Steinhell house today, where an auction of property was held. Prices were low in most cases, the artists' paintings bringing from \$4 to \$40 each.

UNCIVILIZED.

The country is densely populated by a tribe which appears to be an offshoot of the Kasai race, interbred with the Kavirondo tribes. They are fierce and practically uncivilized. In 1905 the government sent an armed patrol of 150 King's African rifles through the country under command of Major Jenkins. Before that time the Kisumu had hardly seen a white man. They attacked the patrol in camp and charged right up to the zareba with reckless daring, despite the terrific fire from the troops. Scores of the natives fell and the patrol was permitted to finish its survey of the country.

Numerous attacks have been made in this region upon British officials. Last year one accompanied by six armed police was speared by a warrior, who was hiding behind a bush. Later it was learned that a witch doctor had ordered the native to spear the official, as she wanted to see the last of the white man in her district.

FIXES A VALUATION.

Cleveland, Ohio, Dec. 19.—Acting in the capacity of an arbitrator, Judge R. W. Taylor of the United States court today fixed a value of \$21,217,149 on the property of the Cleveland Railway company. On this sum the company will be allowed an earning of 6 per cent under a 25-year franchise. All excess earnings are to go toward betterment of the service.

ENCAMPMENT DATE.

Chicago, Dec. 19.—Samuel R. Van Sant, commander in chief of the Grand Army of the Republic, announced that the executive committee today set September 17 to 24 as the time for the next national encampment of the Grand Army at Atlantic City, N. J.

USE ELECTRIC LIGHT

Consider the following six fundamental advantages of Electric Light:

- SAFETY** No explosions, no poisonous gases, no fire risk, no matches.
- HEALTH** Does not consume the oxygen of the air.
- PURITY** Electricity is the only illuminant which cannot be adulterated.
- ADAPTIBILITY** The only illuminant which can truthfully be called "convenient."
- CONTROL** Instant control; just "press the button."
- ECONOMY** Turned "on" or "off" at will; no "by-pass," no waste.
