

# MISSOULA COUNTY WILL BE REPRESENTED AT MEETING OF TEACHERS' ASSOCIATION

## Mrs. Pearl T. Marshall, County Superintendent of Public Schools and Secretary of State Organization Makes Announcement--The Program.

Mrs. Pearl T. Marshall, county superintendent of public schools, announces that Missoula and its tributary country will be well represented at the annual meeting of the Montana State Teachers' association at Bozeman on December 23, 24 and 25. Mrs. Marshall, who is secretary of the organization, has done all in her power to arouse interest in the meeting and has met with more than a fair measure of success. A number of university people are expected to attend. The following is the program for the state meeting:

**Tuesday Evening.**  
Invocation--Rev. O. P. Bishop, First Baptist church.  
Greetings--  
For the City--A. G. Berthol, mayor of Bozeman.

For the teachers--Miss Clara M. Kremer, county superintendent, Gallatin county.  
Responses:  
For the association--William E. Harmon, superintendent of public instruction, Helena; Mrs. Sara E. Morse, county superintendent, Yellowstone county.  
President's address--"For the Sake of the Children; for the Sake of the State"--Superintendent Randall J. Condon, Helena.

**Wednesday Morning.**  
Invocation--Rev. Father Thompson, Holy Rosary Catholic church.  
How to Eliminate Waste and Conserve the Interests of All Children:  
(a) By organizing and conducting the work in such a manner as to reach and help in the largest possible degree the slow, dull, backward children.  
(b) In Special Schools or Classes--President L. E. Milligan, Boulder, of the Montana Schools for Feeble-minded, and for blind and deaf children.  
(c) In Connection with the Work of the Regular Classes--Superintendent Ward H. Nye, Billings.

(d) By affording the unusually bright, capable children opportunities for more rapid advancement, or for a larger amount and greater variety of work than is required of the main body of the class--Superintendent Grant E. Finch, Dillon.  
(e) By bringing the work of the rural, ungraded schools into closer touch with that of the city, graded schools--Superintendent W. A. Jennings, Livingston.  
The discussion of these topics will be continued by Superintendent J. W. Lenning, Fort Benton; President Wiley Mounjoy, Twin Bridges; Principal Herbert L. Sackett, Lewistown; Principal W. C. Ryan, Big Timber, and others.  
Music.  
Address--"The Use of the Story in Education and the Spiritual Equipment for Telling a Story"--Mr. Richard T. Wyche, New York, president National Story Tellers' League.

**Wednesday Evening.**  
Invocation--Rev. J. M. Ross, First Presbyterian church.  
Address--"The Organization of Educational Work in Porto Rico"--Hon. William H. Hunt, Helena, judge United States district court, and first American governor of Porto Rico.  
Music.  
**Banquet and Reception.**  
The second annual meeting and banquet of the Montana Schoolmasters' club will be held at the Hotel Bozeman at the close of the evening program.  
A reception will be given to the lady teachers of the association by the local teachers' club of Bozeman at the same hour.

**Thursday Morning.**  
Invocation--Rev. I. S. Ware, First Methodist church.  
Music.  
(a) "The State's Interest in Education"--Hon. Edwin L. Norris, governor of Montana; Hon. Charles R. Leonard, Butte, of the state educational board of education.  
(b) "Training for Citizenship. The Schools' Obligation"--Major J. H. Durston, editor Anaconda Standard.  
(c) "How the State Institutions are Meeting and May Still Better Meet the Needs of the State for Advanced Education." Four 10-minute addresses: President H. H. Swain, Dillon, State Normal college; President C. H. Bowman, Butte, State School of Mines; President J. M. Hamilton, Bozeman, State College of Agriculture and Mechanic Arts; President C. A. Dunaway, Missoula, State university.  
**Business Session.**  
Reports of committees. Selection of place for next meeting. Election of officers.  
**Thursday Evening.**  
Address--"Folk Lore of the South--Uncle Remus"--Richard T. Wyche.  
Three five-minute addresses:  
(a) For the State Teachers' Reading Circle--Miss Maggie V. Smith, secretary.  
(b) For the "Inter-Mountain Educational College"--Superintendent R. G. Young, managing editor.  
(c) For the State Department of Education--Hon. W. E. Harmon, superintendent of public instruction.  
**Higher Education.**  
The following department meetings will be held during the session of the teachers:  
Subject--What the high school can do for the best interests of the pupil from the ranch, and in preparation for the ranch.  
Paper presented by I. D. O'Donnell, Billings.  
Discussion--D. E. Plah, head of the department of agriculture, Beaverhead county high school.  
President J. M. Hamilton, Montana Agricultural college.  
Subject--What the high school can do for the best interests of pupils expecting to enter the professions.  
Paper presented by the Hon. W. S. Hartman, Bozeman.  
Discussed by Professor William M. Aber, University of Montana; Principal A. P. Hickson, Anaconda high school.  
Subject--What the high school can do for the best interests of its pupils in preparing them for home life.  
Discussion.  
Round table. Topic--The greatest needs of the high school pupils in Montana--How they can be met? General discussion by members of the high school examining board and others.  
Superintendent's relation to his corps of teachers--Superintendent W. A. Jennings, Livingston.  
A live question--Mrs. Sara E. Morse, Billings, county superintendent Yellowstone county.  
**Primary.**  
"How to Secure Sequence in Work"--Miss Mary L. Innes, Dillon.  
Discussion on reading--(a) "The Work of the Eye in Reading," Superintendent R. G. Young, Butte; (b) "How Word Discrimination Comes About," Superintendent R. J. Cunningham, Bozeman; (c) "How Words Get Content," Miss Clara M. Kremer, Bozeman.  
Schoolroom activities--(a) A group of songs. (b) Rhythm and games. (c) Dramatization, children of Bozeman schools under the direction of Superintendent Cunningham, Miss Oskitt and principals of buildings.  
(d) Handwork--(1) "Distinction Between Educational Handwork and Handwork as a Means of Acquiring Skill," Miss Stella P. Odekirk, Bozeman. (2) "Material Correlation of Handwork with the Subject Work of the School," Exhibition of Finished Products, Distinct Value of Each Phase," Miss Mary C. Wheeler, Helena. (3) "What Are the Schools Contributing to the Bettering of our Social and Industrial Conditions," J. W. Curtis, Helena.  
Interscholastic Athletic Association.

## Little Things Annoy or Please Us

Little things annoy us--the little curl of smoke that, if left alone, would soon smudge the furnishings and make work for the house-wife. There are no annoying little things in the

### PERFECTION Oil Heater

(Equipped with Smokeless Device)

They've been banished by hard thought and tireless work. In their stead there are little things that please--that make for comfort and satisfaction. The little self-locking

#### Automatic Smokeless Device

that actually prevents smoke--the little lock on the inside of the tube that holds the wick in check--keeps it below the smoke zone, so accurately adjusted that it cannot go wrong--these are some of the little things that please--that have contributed to the name and fame of the Perfection Oil Heater.

The most satisfying heater you can buy--always ready--easy to manage--always dependable--quickly cleaned. Brass font holds 4 quarts--burns 9 hours. Attractively finished in Nickel or Japan in various styles and finishes.

Every Dealer Everywhere. If Not At Yours, Write for Descriptive Circular to the Nearest Agency of the

### KIND OF QUESTIONS TO BE ASKED

**THIRTY-TWO OF THEM TO BE PROPOUNDED IN TAKING CENSUS THIS YEAR.**

Washington, Dec. 20.--The United States census population schedule which will be carried by the enumerators during the thirteenth decennial United States census, April 15 next, contains 32 questions concerning every man, woman and child in this country, the total of whom is expected to reach the number of 50,000,000.

The preparation of the population schedule engaged for the past few months the joint consideration of Assistant Director Willoughby, William C. Hunt, the United States census chief statistician for population, and Professor William B. Bailey, the Yale instructor in political economy, a prominent member of the census bureau advisory board of statisticians, etc., who later was commissioned supervisor of census for the state of Connecticut.

The schedule has been approved by Census Director Durand and in its final form will be 16 by 22 inches in size, printed front and back, with 50 lines on each side, one for each person enumerated. The government printing office will print 1,800,000 copies, so as to give each of the 320 supervisors of census an ample supply to meet all the needs of about 67,500 enumerators who will enumerate the population in April next.

The paper on which the schedule will be run off will be first-quality white writing, 23 by 32 inches, 64 pounds to the ream, the total weight being 230,400 pounds. The entire edition will be printed on a web press, which will print two of the schedules, face and back, each revolution at the rate of 9,000 an hour. It will take about six and a half days for the press to print the 1,800,000, running 16 hours a day.

**More Convenient Form.**  
The schedule paper is very heavy and will stand a great deal of handling. The form of the schedule is more convenient than that used 10 years ago and the two pages are so spaced that when the schedule is placed in the card-punching machine each time a card has been punched the ratchet wheel automatically moves the schedule up one line, and all the operator has to do is to operate the keys on the punching machine.

For this stage of the completion of the population statistics, 42,000,000 manila cards have been ordered for the card-punching machines.

The 32 questions are classified under 13 groups.

The first is location, and under this head the enumerator must write down the street, avenue, road, etc.; the house number in cities or towns, and the number of the dwelling house, and the number of the family, in the numerical order of the enumerator's visitation.

Under the subject, "Name," for each person whose place of abode on April 15 was in the family being enumerated the census taker is instructed to enter the surname first, then the given name and middle initial if any. He must include every person living on April 15, 1910, and must omit children born since that date.

The third group, relationship, calls for a statement of the relationship which the person enumerated bears to the head of the family in which he resides.

The personal description group asks for the sex, color or race--that is, whether white, black, mulatto, Chinese, Japanese or Indian; age at last birthday; whether single, married, widowed or divorced; the number of years of present marriage, and, under the subject of "Mother of how many children," the number of children each woman has had and the number now living.

**Country of Birth.**  
The group relative to nativity requires answers stating the place of birth of the person enumerated, and also of his or her father and mother. The instructions are that if either is born in the United States the enumerator must give the state or territory, but if of foreign birth he must give the country.

The two questions regarding citizenship apply to foreign-born persons only and call for a statement of the year of immigration to the United States, and in the case of adult males, whether naturalized or alien.

The next question requires the enumerator to ascertain whether the person is able to speak English, or, if not, to give the language spoken.

**Occupation.**  
There are five questions touching upon occupation. The first calls for the trade or profession of or particular kind of work done by the person being enumerated, such as, to quote the schedule, "planer, salesman, laborer, etc." The next inquiry calls for a statement of the general nature of the industry, business or establishment in which the person works, as, again to quote verbatim from the schedule, "cotton mill, dry goods store, farm, etc." The third wants to know whether the person is an employer, employee or working on his or her own account, and under the fourth and

### WEATHER IS BAD FOR WEEVIL

New Orleans, Dec. 20.--Sleet and snow which have held the northern and north central sections of Louisiana and Mississippi in their grip for the last two days will be worth thousands of dollars to the districts invaded by the cotton boll weevil, according to government scientists now in this section. With the winter retreats of the weevil encrusted with ice and the temperature as low as 20 degrees in some portions of Louisiana and Mississippi the experts say untold inroads have been made on the hibernating weevils.

### SENATOR DEGRAIS REPRESENTS FRANCE

Paris, Dec. 19.--Senator Degrais, minister at Brussels in 1880, has been designated as the French representative at the funeral of King Leopold. The Belgian foreign office has instructed the Belgian minister at Paris to put seals on King Leopold's private residence in the Champs d'Elysee and pay off the servants. At the instance of Princess Louise's attorneys seals also will be placed on the property at Barincoart, but several rooms will be left for the occupancy of Baroness Vaughan.

### WILL ARBITRATE WIRE CONTROVERSY

Washington, Dec. 20.--Approval was given today by Chairman Knapp of the interstate commerce commission and Dr. Charles P. Nell, commissioner of labor, the mediators under the Erdman act, to the arbitration of a controversy which has arisen between the Illinois Central, the Yazoo & Mississippi Valley and the Indianapolis Southern railroads and their telegraphers.

### FOR THE LATE KING.

Washington, Dec. 20.--A high mass for the repose of the late King Leopold will be celebrated in St. Mathews' Roman Catholic church here next Thursday. It is expected many members of the diplomatic corps and probably officials of the department of state will join the Belgian minister, Count de Buisseret, in the memorial services.

### TEMPERATURE VERY LOW.

Roswell, N. M., Dec. 20.--The temperature here last night was 14 degrees below zero, the coldest for six years.

### CRUISER ARRIVES.

Corinto, Nicaragua, Dec. 20.--The United States cruiser Buffalo, with 700 marines on board, and the United States gunboat Princeton arrived here today.

### VIVIAN NOMINATED.

Washington, Dec. 20.--The president today nominated John F. Vivian as surveyor of the port of Denver, Colo., vice E. Boynton, resigned.

### NEWS OF THE MINES.

Spokane, Dec. 19.--Two hundred and twenty-five thousand dollars, on terms, is the amount paid by the Republic Mines company of Spokane, represented by J. L. Harper, general manager, to the Pearl Consolidated Mining company for its Lone Star-Surprise group of claims in the Republic district in Stevens county, Wash. The Pearl company was represented by Charles J. Robbins. The property has the largest and richest ore shoot yet developed in the camp. It is nearly 300 feet in length on the surface and has been opened to a depth of 100 feet. Five men working on a lease extracted \$22,000 worth of ore in 90 days last summer on this shoot, known as the Surprise. At the expiration of the lease the owners of the Pearl would not consider the offer of a bonus and royalty for an extension. L. W. Anderson, president of the Republic company, announces that a large force of men will be put at work at once. The ore will be shipped to Tacoma and boundary smelters.

Directors of the Pittsburg Lead Mining company, operating near Wallace, Idaho, have received an offer from an eastern syndicate, which proposes to expend \$500 a month during the period of a year, the lessees to pay a royalty of 20 per cent of the net, to smelter returns from all ores extracted; that they shall have the option to purchase the property of the Pittsburg Lead Mining company, including the holdings of the California Consolidated Mining company, during the term of this lease for \$75,000. The proviso is that all payments made on account of royalty, shall constitute a part of the purchase price.

F. Augustus Heinze, president of the Stewart Mining company, and his engineers visited the property in the Coeur d'Alenes, and stockholders in Spokane say that resumption of work is likely to follow in a short time. Litigation arising over the erection of the Stewart's large concentrating mill on disputed ground has been satisfactorily settled. The Stewart is a fully developed mine, according to stockholders and in their opinion will be a dividend producer almost from the first day of operation. Before the suspension of work was brought about two years ago the concentrator, which had run for a few days, had been proved adequate. The ore is all blocked out and shipping can begin shortly after the machinery starts.

Charles Tool, who located the first lead property in the Sunset district of the Coeur d'Alenes in 1882, selling afterwards and cleaning up \$20,000 on the Colony property, has returned to that camp after passing 10 years in British Columbia. He and Benjamin Hammit, a pioneer of 1883, are working a property on Carbon creek. There were 23 persons in the Sunset district when Tool and Hammit arrived. They tell of two men from California abandoning a claim because they could find nothing larger than \$5 nuggets. Two years later that claim produced \$100,000 in placer gold. B. K. Helminger, 84 years of age, is the oldest man in camp. He says he distinctly remembers the appearance of Halley's comet 75 years ago, and that he is looking forward to its return.

Bunker Hill & Sullivan Mining & Concentrating company has paid \$615,000 in dividends this year, making the total dividends paid up to date \$11,288,000. A mill was constructed in 1909 and a large surplus acquired, so that the dividends for 1909 were not so large as early could have been paid. The company employs more than 600 men and is said to be in a better condition than ever before in its history.

Belmont Mining company in the Coeur d'Alenes has decided to increase its capitalization from 1,000,000 shares of 10 cents par to 1,000,000 shares of \$1 par, the alteration in value of the par capitalization being from \$100,000 to \$1,000,000. One shift is employed in drifting, the tunnel having followed the ledge for 600 feet. Gray copper in the face, and fine showings of lead and silver have been made in a shallow shaft near the apex.

Banders of the Marsh group in the Coeur d'Alenes have decided to name the company the Marsh Mining company. The interests in the group have all been taken up and no stock will be placed on the market, it being a close corporation. The new management has done little development work so far, being engaged in laying new track and air pipe.

### KENDON'S CATARRHAL JELLY

Instantly Relieves and Cures Catarrhal Sore Throat

Do not neglect Catarrhal sore throat. It will never get better of itself. Unless treated in time it becomes chronic, leads to loss of voice, foul breath and serious complications.

Kendon's (in sanitary tubes) gives quick relief. Snuff a bit of this aromatic, soothing, healing jelly well into the nasal passages. Take a small portion internally, leaving in the throat as long as possible, rub the throat well with the jelly--you'll find almost instant relief. Get a 5c or 10c tube today of your druggist or send penny postal to us for free sample.

Kendon Mfg. Co., Minneapolis, Minn.

## USE ELECTRIC LIGHT

Consider the following six fundamental advantages of Electric Light:

- SAFETY**  
No explosions, no poisonous gases, no fire risk, no matches.
- HEALTH**  
Does not consume the oxygen of the air.
- PURITY**  
Electricity is the only illuminant which cannot be adulterated.
- ADAPTIBILITY**  
The only illuminant which can truthfully be called "convenient."
- CONTROL**  
Instant control; just "press the button."
- ECONOMY**  
Turned "on" or "off" at will; no "by-pass," no waste.
