MARKET MOVEMENT OF THE DAY

New York, Dec. 29.—The action of the stock market may be fairly regarded as reflecting a cheerful view of the outlook for values, tempered by restraining influences of the reasonable restriction of the money market supplies. Confidence in a material relaxation after the turn of the year diminished the effect of the present tightness of call loans. The foreign exchange pursued a decided downward course and gave notice of cessation of large shipments from abroad. The existing tendency of discounts abroad may invite a renewal of borrowing through the medium of finance bills on New York account. The effect on the call loan market here was not pronounced.

The sub-treasury has withdrawn some \$3,398,000 from the New York money market since the last bank statement and some large shipments of currency today to the interior are reported. While this may restrain the activity in the dealings in stocks no effect of depression was caused.

The very favorable showing of net earnings for November of several important railroad systems, forecasted increases in prices, the transcontinental railroads were particularly strong on this showing. The spread of the strength into the better known railroad stocks was an outcome of this development. The earlier movements were nearly all in the minor specialties.

The inauguration of dividends in the Lackawanna Coal company, the subsidiary of the Delaware, Lackawanna & Western railroad organized to take over its coal properties, made a cheerful impression.

Belief that the project to merge the copper companies was still being considered and played a prominent part in the day's market.

The Wabash group led the activity in the low priced railroad securities. The bond market was strong, but speculative issues were most active. Announcement of the quick sale of the new Chicago Great Western bonds helped sentiment in the bond market.

Total sales, par value, \$4,672,000. United States 2s and the 4s coupon declined 1/4 per cent on call.

The BIJOU

AN ODD MISTAKE THAT WOMEN MAKE

Women are inclined to fall into a mistaken idea that any pain about the hips or in the small of the back is "female weakness," and must be endured as a trouble peculiar to the sex. Such patience is noble, but too often unnecessary and unwise.

Kidney weakness in man or woman will cause backache, sharp twinges when stooping or lifting, bearing-down pains, fits of "blues," nervousness, dizzy spells, headaches, urinary disorders and swelling of the ankles or limbs.

This is the point: Do not worry over supposed female weakness until you are very sure it is not kidney disease that is causing your troubles. The nature of a woman's life and work makes her fall an easy victim of kidney sickness. The bending and stooping of housework, the tight clothing worn, the strain of childbirth and worry of rearing children, the indoor life, colds, fevers and constipation, all wear and weaken the kidneys.

Backache, or any such irregularity as the too frequent desire to urinate, painful or stinging passages or sediment in the urine is good cause to judge that you have weak kidneys.

Then begin using Doan's Kidney Pills.

OVERLOOK THE REAL CAUSE OF COMMON BUT MYSTERIOUS ACHES AND ILLS.

Chicago Livestock.	
Cattle—Receipts estimated at 15,000; market steady; heaves, \$4.20@4.50; Texas steers, \$4.10@4.50; western steers, \$4.10@4.50; stockers and feeders, \$3.10@3.50; cows and heifers, \$2.10@2.50; calves, \$7.25@8.50.	
Hogs—Receipts estimated at 23,000; market strong; light, \$8.10@8.55; mixed, \$8.20@8.70; heavy, \$8.35@8.75; rough, \$8.35@8.50; good to choice heavy, \$8.50@8.75; pigs, \$7.15@8.15; bulk of sales, \$8.40@8.60.	
Sheep—Receipts estimated at 15,000; market strong to 10c higher; native, \$3.60@5.75; western, \$3.50@5.75; yearlings, \$6.50@7.50; lambs, native, \$8.75@8.80; western, \$8.75@8.85.	

Metal Markets.	
New York, Dec. 29.—The market for standard copper was firm and higher today, although no sales were reported on the New York metal exchange. Spot, December, and January, closed at \$13.37 1/2@13.62 1/2; February, \$13.37 1/2@13.75 and March, \$13.50@13.57 1/2. The London market closed steady with spot quoted at \$21 1/2 and futures at \$22 7/8 to \$3. Sales there included 1,200 tons and 1,800 tons futures.	
Local dealers report a firm market and quote lake copper at \$13.62 1/2@14.00; electrolytic, \$13.25@13.75 and casting at \$12.25@13.50.	
Lead steady with spot quoted at \$4.67 1/2@4.72 1/2; New York, and at \$4.63 asked East St. Louis. The London market was higher at £13 8s 5d.	

Grain and Provisions.	
Chicago, Dec. 29.—The firm cables of the foreign markets gave the market a firm start, but prices soon reacted owing to the selling inspired by liberal receipts in the northwest, where it was thought recent severe storms would interfere with deliveries. The market was inclined to drag, but became strong later owing to the reports from Kansas City that country arrivals were decreasing. The market closed at almost the top with December at \$1.17 1/2 and May at \$1.18 1/2. Renewed liquidation caused considerable weakness in the corn during the early trading, but a firm tone	

developed later owing to the strength of wheat. The market closed at the top, with prices unchanged to 1/4c higher. Oats was inclined to be weak during the first half of the session in sympathy with other grains, but rallied in the final hour and closed with prices 1/4c lower to 1/2c higher. Provisions closed unchanged to 1/4c higher.

FOREMAN IS HEIR TO LARGE ESTATE

Spokane, Wash., Dec. 29.—Alex McLaughlin, foreman in a logging camp near Sandpoint, Idaho, has advised friends in Spokane that he is one of the 10 heirs to an estate valued at \$5,000,000 left by his brother, who died in Australia several years ago, after amassing a fortune in the gold fields. He has gone to Vancouver, B. C., where he will visit relatives to establish claim to \$500,000, which he believes is his share of the estate in the land of the kangaroo. He will go to Sydney as soon as he comes into possession of certain documents to prove his identity. McLaughlin is 35 years of age and a bachelor. The solicitors for the estate have been searching for the heirs since 1907, but did not locate the last one until a few days ago, when "Sandy" McLaughlin, as he is known among the woodsmen in Northern Idaho, received a letter from a relative at Vancouver, advising him of his good fortune. McLaughlin said before leaving for the coast that upon his return from Australia he will establish a sawmill near Sandpoint, after a year passed in traveling abroad.

AN OLD SAYING.

Showing How Cause and Effect Are Never Far Removed. It is an old saying "Where there's honey there's bees"—not less true is one which science has coined more recently, "Where there's dandruff there's germs"—and to push the inference still further we may truly say "Where there's dandruff cured Newbro's Herpicide has been at work."

The reason of Herpicide's isolation as a genuine cure for dandruff lies in the fact that it attacks and destroys the root of the whole trouble—a parasitic germ which feeds upon the material which nourishes the hair follicle. Other so-called remedies are not directed at this true cause of the disease. Accepted no substitute, there is none. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich. Two sizes, 50c and \$1.00. Missoula Drug Co., special agents.

Why Stocks Are Offered to the Public

Here are common questions: 1. Why is it necessary to offer any promising stock for general subscription? 2. Why do not local capitalists secure the entire issue of a stock which promises large profits? 3. Why is a company willing to dispose of any interest in an industry which is earning, or about to earn, large dividends?

These questions are familiar to every stock salesman. They seem reasonable on their face, yet, in fact, they are extremely unreasonable and illogical. Would you ask your grocer when he asks you to buy sugar or flour in anticipation of an advance, why he does not hold it himself and make the profit? Would you ask your coal dealer, when he advises you to lay in your winter supply in summer, because it is cheaper, why he does not hold it himself and make the profit?

Certainly not, for the very good and sufficient reason that neither would be likely to have sufficient capital for the purpose, and, if the advice were not acted upon, neither you nor the dealer would be benefited. It is a common mistake to suppose that the wealthy people of any community—even the multi-millionaires—can at any time furnish unlimited funds. Their money is at all times mostly invested, and, no matter how good an opportunity may turn up, only a small percentage of them are ready to take advantage of it.

The bonds of a prosperous town or city may be gilt-edge, yet they are placed in outside money markets. The Pennsylvania railroad is an excellent investment, yet not one-fifth of its stock is owned in Pennsylvania. The New York Central & Hudson River railroad securities are stable as government bonds, yet the recent inventory of the estate of Cornelius Vanderbilt showed that he owned less than one-fifth of its stock.

Standard Oil company stock is selling at nearly \$800 per share on the curb. It is not even a listed security, yet it paid 28 per cent dividend last year, and John D. Rockefeller owns less than one-third of the stock of the company that he originated. Stock was sold at the inception of these companies, and the thousands and tens of thousands of investors made the greatest share of the profit by becoming purchasers. Nothing of magnitude in local enterprises ever proves a success without the aid of outside capital.

An investment in the United Wireless Telegraph Co. stock is now the opportunity of a lifetime. Public utilities have made the great percentage of our multi-millionaires. Invest some of your savings in United Wireless at once. You never again will have the opportunity of securing it at the price it is selling at today.

USE ELECTRIC LIGHT

Consider the following six fundamental advantages of Electric Light:

- SAFETY**
No explosions, no poisonous gases, no fire risk, no matches.
- HEALTH**
Does not consume the oxygen of the air.
- PURITY**
Electricity is the only illuminant which cannot be adulterated.
- ADAPTABILITY**
The only illuminant which can truthfully be called "convenient."
- CONTROL**
Instant control; just "press the button."
- ECONOMY**
Turned "on" or "off" at will; no "by-pass," no waste.
