

PEARY IS HONORED IN GOTHAM

PRESENTED WITH CHECK FOR TEN THOUSAND—WILL GIVE IT TO ANTARCTIC FUND.

New York, Feb. 8.—Before an audience of more than 4,000 persons in the Metropolitan opera house, Commander Robert E. Peary was presented with a \$10,000 check on behalf of the citizens of New York, but instead of retaining it for himself, the commander announced he would contribute it toward the south pole expedition planned by the National Geographic society. The check was presented to the commander by Governor Hughes of New York at this, the first national testimonial in the explorer's honor. Accepting the gift, Peary advanced to the front of the stage and said:

"Here is a check for \$10,000. This check will be deposited tomorrow as a joint contribution by members of this audience, the officers and members of the civic forum and myself toward an American Antarctic expedition for the purpose of exploration and scientific investigation and to enter the stars and stripes in a splendid and manly international race for the south pole with our British cousins, than whom there are no finer foemen in the world."

The gathering was held under the auspices of the civic forum. President Taft telegraphed that he was sorry he was unable to attend. The assemblage adopted a resolution presented by Seth Low, former mayor of New York, setting forth that this meeting respectfully and earnestly petitions the congress of the United States to make some special and appropriate recognition of the achievement of Commander Peary in reaching the north pole and winning for the United States the prize striven for so long by a "great company of brave and adventurous men."

PEACE IS IN SIGHT IN RAILWAY MATTER

Mexico City, Feb. 8.—Peace between the management of the National railways of Mexico and their dissatisfied employees was again seemingly within reach tonight. While neither side would come out in the open, representatives of both sides indulged in conciliatory speculation, and little was to be heard of the threatened walkout. The only expression, however, that appeared to bear the stamp of authority, was one by President Brown, who said:

"In regard to negotiations between the National railways and the employees, officials of the railways state this afternoon that they had quite a satisfactory meeting with the committee and that it is hoped at a further meeting to be held tomorrow, difficulties between the company and employees will be adjusted satisfactorily to both interests."

BOARD CAN ENFORCE VACCINATION ORDER

Helena, Feb. 8.—(Special.)—In an opinion given today by Attorney General Galen to the secretary of the state board of health it is held that under the law the board has the power to enforce vaccination in all schools. In case the board makes an order requesting vaccination and it is not complied with it may close school until the order is obeyed or until the cause for the order is removed. In another opinion it is held that the cost of caring for cases of infectious or contagious disease falls on a county except where the disease is in a city with a board of health. In the latter case the city must bear the expense.

Free Remedy For Weak Bowels

There are two forms of bodily cleanliness, the external and the internal. The one is for your pride in yourself; the other for your life and health. Both are important, but of vastly more importance in the long run is the internal cleanliness. This is one point that all should watch about their body—the cleanliness of the bowels. Keep them clean and free from obstructions. To do this you must have one or two movements of the bowels each twenty-four hours. If your system does not do this naturally, if the process of eating and drinking, then you must obtain aid of some kind. After finding out that cathartics, salts and such things do not relieve you for a day, but bind you up worse than ever the next day, then try a simpler and more natural remedy like Dr. Caldwell's Syrup Pepsin. For the skeptical the best way to begin is to send your name and address to Dr. Caldwell for a free sample bottle. Use it as directed and if it convinces you that a brief continuance of its use will relieve you permanently—that it will train the stomach and bowel muscles to again work naturally at certain hours—then buy it of your druggist, or send him a dollar a bottle, just as so many others are doing. They began with a sample bottle, then bought a fifty-cent bottle, and now, fully convinced of its merits, they buy the one dollar family size. All the members of the family can use it down to the very youngest. A brief use of this grand laxative tonic will cure constipation in its worst form. Indigestion, liver troubles, headache, sour stomach and such ailments and keep you in continuous good health at a very small cost. Such is the experience of many families like that of Mrs. Oscar Greener, Unionville, Ind., J. F. Daniel, Baron, Tex., and hundreds of others that could be named. Dr. Caldwell personally will be pleased to give you any medical advice you may desire for yourself or family pertaining to the stomach, liver or bowels absolutely free of charge. Explain your case in a letter and he will reply to you in detail. For the free sample simply send your name and address on a postal card or otherwise. For other request the doctor's address is Dr. W. B. Caldwell, R. 311 Caldwell Building, Monticello, Ill.

MARKET MOVEMENT OF THE DAY

New York, Feb. 8.—The stock market showed some relief today from the stress of urgent liquidation which was so conspicuous yesterday. There was a wave of selling orders for execution when the market opened, which seemed to be the aftermath of yesterday's precipitate decline in prices. The decline had served to exhaust or diminish additional margins and where the calls out over night were not responded to the selling out of collateral was the consequence. The opinion gained ground that the market's weakness was due to liquidation of large accounts dating back to the period of price inflation last year which had injudiciously overstayed the market, inviting measures of precaution or insistence from lenders of money employed for carrying the accounts. The stock market sentiment regarding the federal incorporation bill introduced into congress yesterday was improved today.

The copper trade reported some concessions in prices for that metal, but the January statistics of the Copper Producers' association are expected to show another material decrease in stocks. The copper industrialists were exceptionally heavy. The nervousness manifested itself in the final break in prices which put Union Pacific, United States Steel and Amalgamated Copper to the lowest price of the season and of the movement.

Bonds were heavy. Total sales, par value, \$4,305,000. United States bonds were unchanged on call.

Grain and Provisions.

Chicago, Feb. 8.—Wheat rallied sharply today after a slight falling off at the opening due to bearish sentiment induced by large arrivals and foreign weakness. May ran up \$1.08 1/2 to \$1.10 1/2 and the other futures made

less generous gains. The close was strong at nearly the high point with May at \$1.10 1/2, \$1.10 1/2, 1/2c higher than the final figure yesterday. Reports that country elevators are receiving little grain from farmers gave a bullish trend to corn early. Prices advanced in line with the wheat market from 1c to 1 1/2c. May advanced from 65 1/2c to 66 1/2c @ 66 3/4c, other futures moving forward in sympathy. The close was firm at nearly the high points of the day, with May at 65 1/2c, 1/2c @ 1/2c higher. Oats followed the same general course as wheat and corn, May traveling from 45 1/2c to 45 3/4c. The close was strong with May at 46 1/2c @ 46 1/2c, 1/2c @ 1/2c higher. In provisions closing prices for the May products were: pork, \$22.25, 2 1/2c higher; lard, \$12.25, 1/2c higher and ribs, \$11.87 1/2 @ 11.90, 5/8c @ 7/8c higher.
