

AN OLEO INQUIRY ORDERED

INVESTIGATION OF OLEOMARGARINE BUSINESS WILL BE MADE SOON.

Chicago, Feb. 28.—Federal inquiry into the methods of disposing of oleomargarine was ordered today by Judge M. K. Landis of the United States district court after he had sentenced one of the four dealers indicted for violating the oleomargarine regulations, to six years in the federal prison at Fort Leavenworth and had fined him \$15,000. The man who was sentenced to the penitentiary was W. A. Broadwell. The other three cases were continued until Thursday.

"It has been disclosed that probably not less than \$15,000, and possibly more than \$20,000 has been lost by the United States government as a result of Broadwell's activities," said Judge Landis, in sentencing the oleomargarine dealer. "Whenever arrested he has given bonds and then gone out and violated the law the next day. It has been a willful defiance of the law. His bond has been supplied by an oleomargarine manufacturer, a proceeding which I regard as my duty to say is highly significant."

Thomas Dudman, a purchasing agent for an oleo firm, told of his connection with the case as bondsman for the indicted man. "When you went on the bonds of these men you expect to be indemnified in case there were any losses," asked Mr. Landis. "Yes, sir," replied Dudman. "Who was going to indemnify you?" "My employer, William J. Moxley."

"Then restaurant men were not going to indemnify you?" "No, sir."

Mr. Moxley is representative in congress from the Sixth district of Illinois. Federal inspectors told the court that the defendants sold daily large quantities of illegally manufactured oleomargarine to restaurants in the loop district.

ORDER SUSTAINED.

Washington, Feb. 28.—The supreme court of the United States today declined to vacate the order of Justice Lurton, issued Friday last, staying the trial of Charles R. Helke, a former official of the American Sugar Refining company until the supreme court reviews the decision of the circuit court for the southern district of New York in regard to his immunity plea. He is charged with conspiracy to defraud the government in the weighing of sugar imported.

SOME ADVICE ABOUT COLDS

Take warning from the first sneeze and check a cold before the lungs are affected. An effective remedy for coughs and colds is made by mixing a half ounce of Virgin Oil of Pine compound pure with two ounces of glycerine and eight ounces of pure whiskey. These ingredients can be bought in any first-class drug store and easily mixed together in a large bottle. It is claimed that a teaspoonful of the mixture four times a day will break up a cold in twenty-four hours and cure any cough that is curable. This formula is highly recommended by the Leach Chemical Co. of Cincinnati, in whose laboratories the genuine Virgin Oil of Pine compound pure is prepared.

THREE PERSONS HURT IN RAILWAY ACCIDENT

Cleveland, Ohio, Feb. 28.—Westbound Twentieth Century limited, on the Lake Shore railroad, was derailed at Olmstead Falls, 20 miles west of Cleveland, at 3 o'clock this morning, as a result of the breaking of a truck. The train was running probably at a speed of 60 miles an hour. Three persons were slightly injured.

All the cars were thrown from the tracks. Five or six hundred feet of track was torn up.

The railroad officials state that there was so little shock when the cars left the track that many of the passengers were not aware that the train had been derailed.

No Substitute.

Accept no substitute for Foley's Honey and Tar. It is the best and safest remedy for coughs, colds, throat and lung troubles. Contains no opiates and no harmful drugs. Remember the name, Foley's Honey and Tar, and accept no substitutes. Garden City Drug Co., Geo. Freisheimer, Prop.

BOYS ARRAIGNED.

New York, Feb. 28.—George Stahl, 13 years old, and Sammy Williams, aged 9, accused of writing Mrs. H. E. Havemeyer, widow of the president of the American Sugar Refining company, a letter demanding \$2,500 on pain of death, were arraigned today. The boys alleged that they were merely messengers for a man they did not know.

ROOSEVELT BEGINS VOYAGE DOWN NILE

Gondokoro, Feb. 28.—The private launch of Sir Reginald Wingate, sidar of the Egyptian army, is conveying the Bar-el-Jebel and the White Nile to Khartoum. This launch is the finest of its kind on the Nile, though judging from the picture it is none too luxurious. This launch as well as being a pleasure boat, is armed with small guns and ready for action should any trivial disturbances occur.

Gondokoro, Soudan, Feb. 28.—Colonel Roosevelt and the others of his immediate party sailed today for Khartoum, where they expect to arrive on March 15. With the departure of the African scientific expedition under the auspices of the Smithsonian Institution of Washington was brought to a close. Colonel Roosevelt considers the killing of the giant elands in his recent excursion along the upper reaches of the Nile was a fitting ending of a marvellously successful trip. The results from the standpoint of the hunter and the scientist have exceeded all expectations.

Colonel Roosevelt and his son Kermit killed some 500 specimens of large animals. The bag included the following: 10 lions, 11 elephants, 10 buffaloes, 10 black rhinoceroses, 9 white rhinoceroses, 9 hippopotami, 9 giraffes, 3 leopards, 7 cheetahs, 3 giant elands, 3 sables, 1 sitatunga and 2 bongos.

All these were killed in the interest of science and the specimens will be disposed of accordingly. The greater number going to the Smithsonian Institute. Mr. Roosevelt will retain not more than six trophies for himself.

From the point of importance the most highly prized game may be rated as follows: first, the giant elands, the

first complete specimens of which family are now being taken from the country; second, the white rhinoceroses; third, the bongos, the first to be stalked and killed by a white man; and fourth, the sitatunga, a species of antelope.

The naturalists secured a selection, comprising many thousand kinds of birds and mammals. The results in this line have been most gratifying and science will be enriched by several new species and an enormous series of the smaller mammals of Africa. The game taken and the collections made constitute a world's record for a similar period of hunting and scientific research in Africa and the American museums will receive the greatest collection of African fauna in existence. All agree that too much praise cannot be accorded R. J. Cunningham, the Englishman whose management of the expedition was nearly perfect as could be conceived.

Colonel Roosevelt will now devote his time to writing, including the preparation of the addresses which he is to deliver in Europe. He will do no more hunting unless during the trip down the Nile chance throws in his way an opportunity to secure some rare specimens.

AMERICANS LANDED AT INSURGENT CITY

San Juan Del Sur, Nicaragua, Feb. 28.—It is reported that 50 Americans from the Canal zone have landed at Bluefields, the headquarters of the insurgents.

The two steamers which were sent to investigate the report of General Menzies of the insurgents, had captured Morrito on the east side of Lake Nicaragua, had not returned. Morrito is a small port north of San Miguelito, and was garrisoned with 50 men under Colonel Romero.

General Vasquez reports that all is quiet and that General Menzies is evidently waiting reinforcements before attacking him.

BODY OF SOLDIER FINALLY IDENTIFIED

Port Townsend, Wash., Feb. 28.—The body of a soldier found at the base of a cliff near Fort Worden last week has been partially identified as that of Private Reil, who was posted as a deserter nearly a year ago. The hair and facial bones correspond with post records of Reil. The list of deserters from Fort Worden during the past year numbers 30. So many of the men so posted were excellent soldiers, with money, that their officers adhere to the theory that they were robbed and murdered.

CARDINAL TO APPEAL FROM COURT DECISION

Reims, France, Feb. 28.—Cardinal Luçon, archbishop of Reims, announces that he will appeal from the judgment of the court which condemned him to pay \$100 damages to the Public School Teachers' association and to defray the costs of the action in which the association alleged the cardinal had injured the teachers by signing the episcopate letter forbidding Catholic pupils to use certain text books employed in the schools.

SLANDERER OF WIFE SHOT BY HUSBAND

Reno, Nev., Feb. 28.—W. E. Lorton was shot and instantly killed on the street here today by Frank Rogers, following an altercation, which, it is claimed, was provoked by reference to Rogers' wife. Money matters, also it is understood, involved the men in the fatal quarrel. Lorton, at the height of the argument, the spectators say, struck Rogers a heavy blow in the face, knocking him into the gutter. Rogers pulled a pistol, and while rising from the pavement, fired two shots one striking Lorton just below the right eye, entering the brain and the other penetrating the right lung. Rogers surrendered to the police and was locked in jail.

An Awful Eruption

of a volcano excites brief interest, and your interest in skin eruptions will be as short, if you use Bucklen's Arnica Salve, their quickest cure. Even the worst boils, ulcers or fever sores are soon healed by it. Best for burns, cuts, bruises, sore lips, chapped hands, chilblains and piles. It gives instant relief. 25c, at Missoula Drug Co.

3 OPPORTUNITIES 3

\$700 Will buy seven nice level lots in Daly's addition; city water and convenient to electric car line. Terms: \$5 cash and \$5 per month.

\$500 Will get you a choice building lot, 30x130 close in on Cooper street; city water. Near school and in easy walking distance of the business center.

\$125 On terms: \$5 cash and \$5 per month will buy a fine level lot in block 81, South Missoula.

MARKET MOVEMENT OF THE DAY

New York, Feb. 28.—The stock market today was not changed essentially from the dull and drifting markets of last week. The rise in prices was the complement of the fall on Saturday which was based on the possibility that the supreme court would hand down a decision today in the American Tobacco case. The clearing up of this uncertainty over the disposition of the case will be welcomed all through the financial world. Some of the bear covering of shorts may have been due to moderation of strength in the Philadelphia situation. The labor situation there is viewed more for its possible sympathetic influence on the disputes between the railroads and various branches of the trainmen than for its own importance. The crops also came in for consideration and the strength of the wheat market gave force to the further reports of weather damage to the winter crop.

Grain and Provisions.

Chicago, Feb. 28.—Wheat prices advanced sharply to a new record in the closing hours of the session today on a wave of crop damage reports and influential buying. May soared from \$1.14 1/2 to \$1.15 1/2 @ 1 1/2, a new crop record price. The more distant futures shared in the upturn and mounted almost as speedily as May, adding from 1 1/2 to 1 3/4 to the low points and also touching new crop high points at \$1.08 1/2 for July, \$1.04 1/2 for September. The market closed strong at the high point with May 1 1/2 up at \$1.15 1/2. Closing figures in oats were the high points with May 1 1/2 @ 1 1/2 up at 47 1/2.

Metal Markets.

New York, Feb. 28.—The market for standard copper on the New York metal exchange was dull today with spot closing at \$12.87 1/2 @ \$13.12 1/2. London closed steady with spot quoted at \$29 10s and futures at \$20 7s 6d. Arrivals were reported at New York of 85 tons and exports, according to customs house returns, were 1,447, making 20,023 tons this month. Local dealers quote lake copper at \$12.50 @ \$13.75; electrolytic at \$13.25 @ \$13.50 and casting at \$12 @ \$13.25.

Tom, Tom, the Piper's son, stole the washboiler for a drum,
But his Mother laughed—she washed today,
Without any boiling, the Fels-Naptha way,
And found it so easy and quickly done,
Tom can have the boiler for his fun.

Some "don'ts" for women who have their washing "done out."

Don't blame your washwoman if your clothes come home yellow or streaked and bearing a nasty odor.

The responsibility is yours.

She may not have heard of the Fels-Naptha way of washing in cool or lukewarm water which makes clothes whiter, and clean and sweet.

You have.

She may be boiling the life out of them, rubbing till her back nearly breaks with the ordinary old-fashioned kind of soap because she doesn't know any other way.

It is your duty to tell her; to see that she uses Fels-Naptha soap.

Then your clothes will come home as snowy and fresh as you could wish and they'll last longer.

And your washwoman will thank you for making her work easier.

Just see that she gets Fels-Naptha soap and tell her to follow the simple directions on the red and green wrapper.
