

TAFT PAYS TRIBUTE TO JEWS

RECEIVES DELEGATION OF FOREIGN LANGUAGE NEWSPAPER REPRESENTATIVES.

Washington, Feb. 28.—In replying to a delegation from the American Association of Foreign Language Newspapers, who called at the White House to protest against certain immigration bills pending in congress, President Taft today paid a high tribute to the Jews who had come to America and become imbued with the true spirit of patriotism.

"The question of limiting immigration," said the president, "in such a way as to shut out the undesirable of Europe is a question which has addressed itself to congress in the past. They rejected—for I was present in congress when it was done—the educational limitation on the ground that it did not shut out those whom we most desired to shut out, and that the anarchist, a man who comes here with no loyalty to the new government, is the man who could easily pass a mental examination."

"Now, all I can say about this, because I cannot commit myself to any particular form of legislation, is that insofar as I am concerned, I shall sign no bill without giving you gentlemen a full opportunity to be heard. It is possible that I shall differ with you, but I think that where a hearing is given, a safer conclusion is likely to be reached."

Distinct Type.
"In going about this country 13,000 miles, as I did last year, the thing which impressed me more than anything else was the fact that the process through which we had gone of welcoming immigrants from everywhere and mixing them and amalgamating them with our population had produced a distinct type of American, as distinguished from any of the people which make up that type and, therefore, were we to impose unjust burdens and stop immigration, we should go back on what, up to this time, has made us a great people."

"I only want to say one word more. I visited the east side in New York about two years ago and I was exceedingly impressed with the fact that the Jewish population there had recognized the opportunity this country offers them and had appreciated to the fullest the benefits that this country had conferred, and there is no part of the country in which the real, true spirit of patriotism prevails more deeply than there."

"That threw a somewhat new light on my general view of the immigration laws and how they ought to be enforced."

START IN BALLOON.
San Antonio, Feb. 28.—Clifford B. Harmon of New York and George B. Harrison of Los Angeles started tonight at 9:15 in the balloon "New York" for a long-distance record.

VOTES TO CREATE NEW COURT
INTERSTATE COMMERCE TRIBUNAL IS APPROVED BY THE HOUSE COMMITTEE.

Washington, Feb. 28.—By a majority of two, the house committee on interstate commerce today voted to create the interstate commerce court one of the principal features of the Townsend administration railroad bill. This provision the president and the attorney general have been fighting to have kept in the bill. The vote in the committee was 19 to 8. Chairman Mann and Representative Benson of Minnesota, Republicans, and Representative Adamson of Georgia, Richardson of Alabama, Bartlett of Georgia, Russell of Texas, Sims of Tennessee and Peters of Massachusetts, voted against the measure. Those voting for the court were Representatives Wagner of Pennsylvania, Eech of Wisconsin, Townsend of Michigan, Kennedy of Ohio, Knowland of California, Hubbard of West Virginia, Miller of Kansas, Stafford of Wisconsin, Calder of New York and Washburn of Massachusetts.

The committee adopted with minor amendments the first six sections of the Townsend bill, all of which relate to the court, and had just reached the seventh section relating to tariff agreements, when it adjourned. It will consider the rest of the bill section by section and probably will be able to order a favorable report on the bill by the end of this week. An important amendment adopted by the committee was a section of the Mann bill referring to classifications.

KIDNEYS CAUSE OF ROOT PUTS FORTH HIS VIEWS

TELLS LEGISLATURE OF NEW YORK WHY HE FAVORS THE INCOME TAX

A real surprise awaits every sufferer from kidney or bladder trouble who takes several doses of Pape's Diuretic. Misery in the back, sides or loins, sick headache, nervousness, rheumatism pains, heart palpitations, dizziness, sleeplessness, inflamed or swollen eyelids, lack of energy and all symptoms of out-of-order kidneys simply vanish.

Uncontrollable urination (especially at night), smarting, offensive and discolored water and other bladder misery ends.

The moment you suspect kidney or urinary disorder, or feel any rheumatism, begin taking this harmless medicine, with the knowledge that there is no other remedy, at any price, made anywhere else in the world, which will effect so thorough and prompt a cure as a fifty-cent treatment of Pape's Diuretic, which any druggist can supply.

It is needless to feel miserable and worried, because this unusual preparation goes at once to the out-of-order kidneys and urinary system, distributing its cleansing, healing and strengthening influence directly upon the organs and glands affected, and completes the cure before you realize it.

Your physician, pharmacist, banker or any mercantile agency will tell you that Pape & Pape of Cincinnati is a large and responsible medicine concern, thoroughly worth of your confidence.

Only curative results can come from taking Pape's Diuretic, and a few days' treatment will make anyone feel fine. Accept only Pape's Diuretic—fifty-cent treatment—any drug store—anywhere in the world.

INQUIRY REOPENS TODAY

MR. PINCHOT WILL AGAIN TAKE STAND AGAINST SECRETARY BALLINGER.

Washington, Feb. 28.—The Ballinger-Pinchot inquiry will be resumed tomorrow morning, with Mr. Pinchot on the stand. Mr. Pinchot had not progressed far with his story Saturday when adjournment was taken. When he stopped testifying the committee was considering the question of allowing witnesses, including Mr. Pinchot, to repeat their version of conversations with President Taft. Mr. Vertrees, attorney for Secretary Ballinger, protested against allowing testimony of this kind, saying that it placed the president in the embarrassing attitude of either remaining silent or of appearing before the committee as a witness. The latter, he declared, would be both unprecedented and undesirable.

George W. Pepper, counsel for Mr. Pinchot, agreed with Mr. Vertrees that the calling of the president would be undesirable, but added that he must press for a decision by the committee, as he considered the conversation between Mr. Pinchot and President Taft a material foundation for further testimony to be offered in support of Mr. Pinchot's charges against the secretary of the interior. It is not seriously thought that President Taft will appear as a witness, although the suggestion has been thrown out as an interesting sidelight of an interesting case. Callers at the White House who talked with the president today declared that what the president said to Mr. Pinchot was not relevant to any subject under inquiry by the committee.

TWENTY-SEVEN PASS.
West Point, N. Y., Feb. 28.—Twenty-seven members of a class of 106 applicants for admission to the military academy successfully passed examination. It was announced today. They, together with a class of 108, which were examined in January, will be admitted to the military academy tomorrow.

RIVER OVERFLOWS.
Colfax, Wash., Feb. 28.—The Palouse river, which passes through Colfax, has overflowed its banks, flooding the business and residence districts and reaching the highest mark ever known here. Water is running several inches deep in many homes and still rising.

MINE IS FLOODED.
Danville, Ill., Feb. 28.—Just as a hundred miners were to have entered Gray's mine early today the swollen Vermilion river broke through the walls into the pit. There is 26 feet of water in the mine now.

New York, Feb. 28.—Elihu Root's reasons for advocating the proposed income tax and his views on the subject, as opposed to those of Governor Hughes, were presented to the New York legislature tonight in the form of a letter, read both in the senate and the assembly. The letter, to Senator Devoport, in part follows:

"My Dear Senator: Much as I respect the opinion of the governor of the state, I cannot agree with the view expressed in his special message of January 5, and, as I advocated in the senate the resolution to submit the proposed amendment, it seems appropriate that I should state my view of its effect. The proposed amendment is in these words:

"Article 16. The congress shall have power to lay and collect taxes on incomes, from whatever source derived, without apportionment among the several states and without regard to any census enumerating."

"The objection is made to the amendment that it will confer on the national government the power to tax incomes derived from bonds issued by the states or under the authority of the states, and will place the borrowing capacity of the state and its governmental agencies at the mercy of the federal taxing power."

"I do not find in the amendment any such meaning nor effect. I did not consider that the amendment will enlarge the taxing power of the national government or will have any effect, except to relieve the exercise of that taxing power from the requirement that the tax shall be apportioned among the several states."

"The effect of the amendment will be, in my view, the same as if it said: 'The United States may lay a tax on incomes without apportioning the tax, and this shall be applicable, whatever be the source of the income subjected to the tax,' leaving the question, 'What incomes are subjected to national taxation?' to be determined by the same principles and rules which are now applicable to the determination of that question."

WILL RECOVER.
Los Angeles, Feb. 28.—Mrs. I. O. Curtis, wife of Senator I. O. Curtis of Aberdeen, S. D., who fell from the platform of a moving trolley car at Venice last night and had her right foot cut off above the ankle, will recover, unless unexpected complications set in. Senator Curtis was with his wife at the time of the accident and made a desperate effort to drag her from underneath the car.

COTTON KING ARRIGNED.
Washington, Feb. 28.—Theodore O. Price of New York, known as "the cotton king," was arraigned today in criminal court No. 1 before Justice Gould on an indictment charging him with conspiracy to defraud the United States by securing from Edward S. Holland, Jr., then associate statistician of the department of agriculture, advance information on a cotton report.

FIVE SHOCKS FELT.
St. Louis, Feb. 28.—Five earthquake shocks were recorded by the seismograph at St. Louis university this afternoon, commencing at 3:30:45 o'clock and continuing until 3:48:10. The shocks were long and slow and from east to west and indicated a severe shock in the southern hemisphere.

SAYS COURT ACTED WITHIN RIGHT
Washington, Feb. 28.—Justice Wright in the supreme court of the District of Columbia today decided that the court acted within its authority when it issued the writ of mandamus ordering the joint committee on printing of congress to show reason why it should not consider the bid of the Valley Paper company of Holyoke, Mass.

Justice Wright declared in his decision that to have refused to issue the mandamus because some of the persons sued occupied the exalted positions of senators "would have been to betray the law."

Extraordinary Values Ladies' and Misses' SUITS, COATS, MILLINERY

50 Per Cent Off Regular Makes the Prices Now Much Less Than Cost; Choice of 57 Fine Winter Garments

\$2.35 for \$3.50 values.
\$2.85 for \$4.00 values.
\$3.35 for \$4.50 values.

TOO MANY DOCTORS HE SAYS

NEW YORKER SAYS THERE ARE TOO MANY CHEAP MEDICAL SCHOOLS.

Chicago, Feb. 28.—"The United States supports too many physicians. While Europe maintains the proportion of one physician to every 1,500 people, the United States has a physician for every 565. This overproduction is due to our too numerous low-grade medical schools and to the laxity of our laws governing them. It is time that the country adopted means to relieve itself of this burden."

Henry S. Pritchett of New York, president of the Carnegie Foundation for the Advancement of Teaching, made this assertion today in an address before the council on medical education of the American Medical Association.

"Our low-grade medical schools," he continued, "sanctioned by our laws, are largely responsible. It is a limited that the training of doctors from the low-grade schools is poor, but it is constantly asserted that these doctors are needed for the rural districts. The assumption is that graduates of the medical schools connected with the universities will not go into the rural fields. This assumption is false. Our investigations show us that our more expensively trained doctors go into the country just as the poorly trained doctors do. The Johns Hopkins university graduates have gone into 32 states and territories. This shows they do not all congregate in the big cities."

"Another argument advanced in behalf of the low-grade schools is that in favor of the poor boy. This argument is based not upon consideration for the poor boy and still less upon consideration for the public, but upon the desire to run a medical school."

We Invite You to Sell Yourself A Lot in Daly's Addition

All we ask is the chance to show you the property. These lots will impress you with two points which must always be considered in buying city real estate.

THE FIRST POINT

For you to consider in the choice of the lots that you are to purchase, whether you are buying for a home or for an investment, is the condition of affairs in the city where these lots are located. In this case, let us look for a moment at the situation in Missoula. You know what its development has been in two years. Every index of progress records substantial gains. Postoffice receipts have gained faster than in any other city in the northwest. Railway receipts have increased proportionately; Missoula paid to the Northern Pacific last year, in freight and passenger tolls, a million and a half dollars. The Milwaukee line is doing a proportionate business. The telegraph companies report business increases of 50 per cent. The business transacted in the county offices broke all records in 1909. No matter where you look for your information, the record is the same; it tells of substantial progress and material gain. This settles the first point. Missoula possesses every advantage that you could ask in a city for a home or for an investment.

THE SECOND POINT

That you must take into consideration in the selection of the lots that you are buying is their location with reference to the growth of the city and their convenience. Look at the map of Missoula once more. Then take a tour of the city to see where the building has been done in the past two years. You will see that the trend of the city's expansion is toward Daly's addition and that the building on the south side has taken the construction tide right up to and across the boundary of this addition; this year's construction will be in this addition. So much for the probability of increased values here. As to the convenience of this site as a home which must determine its desirability either as a residence or an investment, you will find that there is city water at every lot in this addition and that the electric railway, the electric light and the telephone services are at the very doors of the homes in this addition. All this development has made these lots more desirable and more valuable than ever, but they are offered to you at the price of a year ago.

S.S.S. DRIVES OUT RHEUMATISM

When the blood becomes overcharged with uric acid it continually grows weaker, more acid, and poorer nourishing qualities. The nerves, muscles and joints, instead of receiving their necessary nutriment from the circulation are gradually filled with the sharp uric impurity with which the circulation is loaded, and the pains and aches of Rheumatism are the natural result. No amount of rubbing, or the application of external medicines can have any direct and curative effect on the blood; the most to be expected from such treatment is temporary relief from the pains and aches. There is but one way to cure Rheumatism, and that is to cleanse the blood of the uric acid impurity. S.S.S. is the proper treatment, because it goes down and attacks the disease at its head, and by filtering out every particle of the uric matter and strengthening and enriching the blood, cures Rheumatism in every form. S.S.S. changes the sour, acid-burdened blood to a rich, healthy stream, which quiets the pain-racked nerves, muscles and joints, cools the feverish flesh, gently removes the cause and drives Rheumatism from the system. S.S.S. resolves inherited cases as well as those which have been acquired, and good results are always experienced from its use. Special book on Rheumatism containing many valuable suggestions for rheumatic sufferers and any medical advice free to all who write.
