

GIVES DEPOSITION IN CASE

MRS. LOGAN O. SWOPE TELLS OF ECCENTRICITIES OF COLONEL SWOPE.

Kansas City, March 2.—After weeks of delay, occasioned by squabbles between attorneys as to her presence before the grand jury, Mrs. Logan O. Swope, the guiding hand in the investigation of the Swope mystery, today gave her deposition in Dr. E. C. Hyde's slander suit against John C. Paxton, executor of the Swope estate. There was a little of the sensational in Mrs. Swope's story. With twinkling eyes and many smiles for her son-in-law's attorneys, Mrs. Swope told of many of the eccentricities of Colonel Swope and then with all seriousness expressed her confidence in Chassee Hatred Chase Jordan, the swarthy "yarb" doctor, who has received between \$10,000 and \$20,000 for "doctoring" the Swope during eight years.

While Mrs. Swope was telling her story a deputy sheriff in Wyandotte county, Kansas, was searching for the herb doctor with a warrant charging him with practicing medicine without a license. The warrant was secured by James Meek, assistant prosecuting attorney of Wyandotte county, after the state board of medical registration and examination had made complaint against Jordan. Jordan was found at his home, Ill., and the warrant was not served today.

E. C. Smith, a drug salesman, also testified in Dr. Hyde's suit today. He told of selling pills to Jordan that contained belladonna and acetanilid. Regardless of all of Jordan's troubles, Mrs. Swope believes in him. She is still "doctoring" with him, as she testified today. She also said that Mrs. B. C. Hyde, who precipitated the investigation of the doctor, also had confidence in him at one time.

"Frances Hyde," said Mrs. Swope, in speaking of her daughter, "was just as well pleased as any of us when Jordan cured me."

Colonel Swope never took any of Jordan's herbs, Mrs. Swope said. All members of the family used them except him. Immediately after Dr. Hyde had been discharged the medicine chests of the house were cleared.

Future Ruler of Greece

FUTURE RULER OF GREECE. FUTURE RULER OF GREECE HELD BY HIS FATHER, CROWN PRINCE GEORGE, PRINCESS MARIE.

BELL IS TOO WARY REFUSES TO ALLOW FOR LAWYER CHANGE

GENERAL PROVES A TARTAR FOR ATTORNEY WHO CALLED HIM TO STAND.

Denver, March 2.—General Sherman M. Bell proved a tartar for the attorney who called him to the witness stand today in the suit of Mrs. Mary C. Carley against General Bell and others for damages because of the death of her husband during the Cripple Creek riots in 1904.

"I didn't get out any special written invitation to the mine owners, the trustees, the newspapermen, the deputies, the military or any other persons to go to Dunsmuir on June 8, 1904," asserted General Bell on the stand. "They went at my command. It was I who ordered them on the train and they surely went. I had charge of everybody and everything. I didn't talk with Mr. Carlton, the president of the Mine Owners' association, that morning. I knew my own business."

There was no evasion in the replies of the stern warrior to the questions of Mrs. Carley's attorney, who sought to prove that her husband was slain by the orders of General Bell, and also tried to prove that the mine owners were partly responsible.

General Bell talked the examining lawyer off his feet and almost completed the reading of the proclamation of Sheriff Edward Bell of Teller county, showing that the miners were in a state of insurrection and other statements that the plaintiffs' attorneys did not want to get to the jury's ears.

In the meantime the jury looked both pleased and amused. General Bell said he talked with the sheriff of Teller county before he gave orders for the mobilization of deputies and troops and to nobody but the sheriff. Mrs. Carley's attorney attempted to show General Bell's culpability by trying to show the civil authorities had not been called in to settle the trouble.

ANOTHER PARIS FLOOD.

Paris, March 2.—The continued rainfall has raised the level of the river Seine to 21 feet 5 inches today, almost equalling the flood maximum of 1882. The water is again pouring into the mouths of the sewers. The weather, however, is gradually improving and the authorities believe the river will not rise further.

CORNER IMPOSSIBLE THIS YEAR

New York, March 2.—James A. Patten, the Chicago wheat operator, today before sailing for Europe on the Mauretania, said he would continue to keep in touch with the markets because of the long-time interest he had in them. Mr. Patten said:

"I have heard a good many reports as to whether it would be possible to corner wheat this year. I don't think it would be possible. In my success I took advantage of certain conditions, and I had the good fortune to get in right. One thing I want to say before leaving: I see that reports from Kansas say there will be a shortage of the wheat crop. From my information the wheat crop will be a big one and the wheat market may look for an era of prosperity."

TO PROVIDE WAY FOR JOHN D. TO GET POOR

Washington, March 2.—The Rockefeller foundation is incorporated by a bill introduced in the senate today. It is understood that the purpose is to provide a method for John D. Rockefeller to dispose of his enormous wealth in a manner beneficial to mankind.

DAVIS DENIED PERMISSION TO HAVE STATEMENT STRICKEN FROM RECORDS.

Washington, March 2.—Senator Jefferson Davis of Arkansas failed today to have stricken from the records of the house committee on public lands, a statement he made before the committee several days ago when he appeared to advocate a bill introduced by Representative Oldham of Arkansas, quieting title to about 100,000 acres of swamp lands in the eastern part of Arkansas "on the sunk lands."

Senator Davis' statement indicated that he was to receive a fee for his services as attorney for the St. Francis levee board of Arkansas in the litigation over the lands. It had been admitted by Senator Davis that he was the attorney for the St. Francis levee board. On his first appearance before the committee, the records showed that Senator Davis made the following statement:

"We could not prove our title. I confess that there is just that much of selfishness in it, to me, because there is a good fee if I can recover the price of that timber I do not care to whom it goes, the state of Arkansas or the St. Francis levee board, but I would rather it should go to the St. Francis levee board, because that is just my fight."

In correcting his testimony Senator Davis struck out the words "because there is a good fee if I can recover the price of that timber," and substituting for them the following:

"Because I am the attorney for the St. Francis levee board for the recovery of this timber."

Senator Davis said he had not used the words attributed to him, but several members of the committee disagreed with him. The committee finally voted practically unanimously not to allow Senator Davis to make the change desired.

LIKES OF STUDENT NOT IMPORTANT

Indianapolis, March 2.—"One subject that the boy does not like and two that he does would be my formula if I were arranging the curriculum for the high schools of this country," said A. H. Yoder, superintendent of the public schools of Tacoma, Wash., in the conference of the department of superintendence of the National Educational association. Mr. Yoder did not believe the temperamental endowments of boys should be taken too seriously. He said:

"If a boy comes into my office, wishing to drop a subject and says, 'Don't like Latin.' I rub my hands and answer him, 'I'm glad of it—keep right on studying Latin.' Too many different studies are being offered in the schools, Mr. Yoder believed."

TEDDY MAY DEVELOP SLEEPING DISEASE

Washington, March 2.—Captain Fritz Duquesne of East Africa, lion hunter and Boer fighter, at one time considered by former President Roosevelt to head his African expedition, expressed fear here yesterday that Mr. Roosevelt and members of his party have not escaped infection from the sleeping sickness. Captain Duquesne said that the subtle poisons of the infectious African regions were in the

Three and one-half acres almost touching city limits. A snap at \$2,500; half cash.

Extra

Choice of entire stock of heavy Work Pants at ONE-FOURTH OFF regular.

We Invite You to Sell Yourself A Lot in Daly's Addition

All we ask is the chance to show you the property. These lots will impress you with two points which must always be considered in buying city real estate.

THE FIRST POINT

For you to consider in the choice of the lots that you are to purchase, whether you are buying for a home or for an investment, is the condition of affairs in the city where these lots are located. In this case, let us look for a moment at the situation in Missoula. You know what its development has been in two years. Every index of progress records substantial gains. Postoffice receipts have gained faster than in any other city in the northwest. Railway receipts have increased proportionately; Missoula paid to the Northern Pacific last year, in freight and passenger tolls, a million and a half dollars. The Milwaukee line is doing a proportionate business. The telegraph companies report business increases of 50 per cent. The business transacted in the county offices broke all records in 1909. No matter where you look for your information, the record is the same; it tells of substantial progress and material gain. This settles the first point. Missoula possesses every advantage that you could ask in a city for a home or for an investment.

THE SECOND POINT

That you must take into consideration in the selection of the lots that you are buying is their location with reference to the growth of the city and their convenience. Look at the map of Missoula once more. Then take a tour of the city to see where the building has been done in the past two years. You will see that the trend of the city's expansion is toward Daly's addition and that the building on the south side has taken the construction tide right up to and across the boundary of this addition; this year's construction will be in this addition. So much for the probability of increased values here. As to the convenience of this site as a home which must determine its desirability either as a residence or an investment, you will find that there is city water at every lot in this addition and that the electric railway, the electric light and the telephone services are at the very doors of the homes in this addition. All this development has made these lots more desirable and more valuable than ever, but they are offered to you at the price of a year ago.

You Can Sell Real Estate If you Can Advertise Real Estate!

The problem in selling real estate is to find the one—and there's only one—person to whom the property would be worth most.

Sometime, in the course of a few days, or of a fortnight, the prospective buyer to whom your property would be worth most will read the real estate ads in this newspaper. He may read them every day—he may read them once a week. But he reads them—you can be sure of that. And you must be there when he does. If it is, your problem is solved. If it isn't, you've still got your problem—and your property.
