NOTE OF WARNING SOUNDED

MORNING POST IN LONDON TELLS SOME PLAIN FACTS ABOUT JAPANESE AFFAIRS.

London, March 11.—In an article today on the far eastern situation and Jacob Schiff's recent speech in New York, the Morning Post complains strongly of the lack of judgment by the British foreign office and says that it is not surprising Secretary of State Knox and Mr. Schiff are on the warpath, and accuse Great Britain of intriguing with Japan against the United States.

"In plain words," says the article, "we are picking chestnuts out of the fire for Japan and encouraging her to ask more than her share, as well as to trample on the principle of the 'open door.' The whole proceeding is suicidal and unnecessary. If Sir Edward Grey had told Japan that she must play the game and cease the policy of grab in Mongolia, his recommendation would almost certainly have availed."

The Post contends it will be a bad day for Great Britain when the Anglo-Japanese alliance leads her into a dependence on Japan and if a quarrel with the United States is added to the existing trouble, the situation would be serious.

"No empire can afford to begin 'hiring the barbarians,'" continues the Post, "an alliance on equal terms is one thing and masked subservience is another. Yet British diplomacy is suggesting to the world that we cannot afford to do anything but or ally's bidding. The struggle over the Mongolian railways may define our position in the Pacific for many years. Let us hope that wise counsel will yet prevail in Downing street."

EVIDENCE IS STRONG IN CASE

MUCH DAMAGING TESTIMONY IS GIVEN AGAINST MAYBRAY AND HIS GANG.

Council Bluffs, Iowa, March 11.—The government continued today to fortify itself with strong evidence against John C. Maybray and his 18 alleged associates, on trial here for alleged conspiracy to defraud, by means of illegal use of the mails. Colonel Temple, the prosecuting attorney, introduced documentary evidence in the shape of letters exchanged between the defendants and their alleged victims, but in each instance he followed up this evidence by securing a recital from witnesses of all the events leading up to the loss of large sums of money on "fixed" sporting events. The defense made strenuous efforts to keep out of the record a number of letters taken from Maybray's effects when he was arrested in Little Rock, and partially succeeded. Presiding Judge McPherson decided to wait until tomorrow before making a final ruling, but indicated that he would admit the letters. It is stated that there are more than 2,500 of these letters giving a complete record of transactions of the "Millionaires' club," including the names and residences of victims and the amounts they lost.

J. H. Seerest, a farmer living at Iowa City, Ia., furnished an interesting account of the alleged operations of the defendants. He first contributed \$2,000 to the "Millionaires' treasury," and seemed satisfied with their explanation of the game, returning from New Orleans to his home and secured \$6,000 more, both sums going into the pools of fixed horse races.

COAL BOTTLED UP HE SAYS

TAYLOR THINKS CONSERVATION POLICY IS CARRIED A LITTLE TOO FAR.

Washington, March 11.—"Enough coal has been found in my state to run the fires of this country for 300 years, but the conservationists have bottled up the coal," declared Representative Taylor of Colorado, a Democrat, before the house committee on ways and means today, speaking in support of the Mondell bill to provide a bond issue to complete the reclamation projects.

"Don't you approve of conservation?" asked Chairman Payne.

"Of course, I do," replied Mr. Taylor, "but I think that so much of our land has been set apart in this manner, the government might authorize the issuance of these bonds to make good the contracts with thousands of settlers who have invested their all for a 'gold brick.'"

Mr. Taylor charged that cattle herders rented the Colorado lands for a quarter of a cent an acre and that was the reason why the bond issue was sought by the government.

OPPOSED TO OPTION.

Lincoln, Neb., March 11.—Governor Shaubertger today said he was opposed to county option and would favor the 8 o'clock closing law. His policy for regulating the liquor problem will be fought by William J. Bryan, who favors county option.

HEAVY SENTENCES IMPOSED

OLEO DEALERS ARE MOST SEVERELY PUNISHED BY THE FEDERAL COURT.

Chicago, March 11.—Summary action was taken today by Judge Landis in the United States district court in sentencing violators of the federal laws regulating the manufacturing and sale of oleomargarine. The court fixed the punishment of Samuel Driesbach, who pleaded guilty, with a fine of \$15,000 and six years' imprisonment in the United States prison at Fort Leavenworth.

To Daniel Bortz, who also pleaded guilty the court meted out an 18-months' term in the house of correction in this city. William Broadwell, who was sentenced some days ago, must meet similar punishment with Driesbach.

Should the grand jury take up the question of the alleged oleomargarine irregularities, the men may be returned from the prison to testify.

BASEBALL SEASON BEGINS MODESTLY

The arrival of the marble season has been chronicled. Now it may take its thanatopsis. Its finish is in plain sight. Yesterday the first, guaranteed as the first, baseball game of the season was played. The marble season always is a precursor of the diamond game, when the summer sport gets its start marbles have seen the annual climax of popularity and the little muslin bags are relegated to the attic. Yesterday a lot of kids—some of them well over 20 years—got together over on the south side and pulled off the first exhibition of America's specialty. Of course, it was only a game of "One Die Cat," but what can you expect for the first day when the thermometer is above the finger-freezing point? Yesterday's game was the opening wedge, the nemesis of the marble season, and the cue for the dealers of Missoula to fill show windows with baseball paraphernalia.

BODIES OF EIGHTY TAKEN FROM SLIDE

Seattle, March 11.—The body of E. W. Topping of Ashland, O., was identified tonight by his father. A body believed to be that of Topping was taken out several days ago, but when the elder Topping saw it he declared that it was not the body of his son. Three more bodies were brought from Wellington tonight, making a total of 80 bodies recovered. Sixty-seven of these have been identified. It is thought now that the victims will number 100.

ACCOUNTANTS BUSY ON BOOKS

ARE TRYING TO LEARN WHY INCOME OF RAILROAD HAS BEEN DROPPING OFF.

New York, March 11.—It was learned in Wall street today that accountants have been going over the books of the Illinois Central company here and in Chicago, not because there is any suspicion of dishonesty, but to learn why the earnings of subsidiary roads under the presidency of J. T. Harahan have been falling off. The accountants will report to a committee of the board of directors exactly what the financial condition of the property is.

Mr. Harahan recently denied that he intends to resign or that there is any intention to depose him. He was elected in 1906 by the Harahan interests to succeed Stuyvesant Fish. Charles Peabody, president of the Mutual Life Insurance company of New York and a close friend of Mr. Harahan, is still the dominant figure in the board of directors. There has been a report that Mr. Peabody and his associates wish to bring the road under the management of Judge Lovell and his group of Harriman executives.

The salary of the president of the Illinois Central is \$40,000 a year. If Mr. Harahan would stay with the road until he is 70 years old he will be entitled to a pension of \$10,000 a year. He is now 67 years of age.

HAS NOT MADE GOOD DECLARES UNDERWOOD

Washington, March 11.—Secretary Knox has not made good in far eastern affairs," declared Representative Underwood of Alabama in the house today. He added that Mr. Knox had not proved so able a secretary of state as his predecessor, Mr. Root. The section of the legislative, executive and judicial appropriation bill, providing funds for the new division of the state department having charge of far eastern, near eastern, Latin-American and European affairs, was under discussion.

Representative Burke of Pennsylvania, warned the house that any failure to provide for a continuance of the division, established by Mr. Root, would be interpreted in the far east as evidence that congress was not in sympathy with Mr. Knox's far eastern policy. By a vote of 75 to 43 the house provided for the continuance of the division.

DUEZ, ONE OF THE MEN ENTRUSTED BY THE GOVERNMENT WITH THE LIQUIDATION OF THE CHURCH PROPERTY, CAME UP IN THE CHAMBER OF DEPUTIES TODAY.

M. Juarez, socialist leader, in a bitter speech, demanded that the responsibility be fixed. He said it was amazing that a man already a defaulter in the sum of \$100,000 could be appointed to such a responsible task and openly intimated that the gravest suspicion existed against another liquidator, M. Lecourtier.
