ON FLATHEAD LAKE.

Yesterday morning The Missoulian announced the opening of navigation on Flathead lake; the ice has gone from Polson harbor and the steamers are able to reach the dock there.

NEW RULES.

Assembled in New York today are most of the leading football experts of the country, gathered there for the meeting to be held tomorrow for the consideration of proposed changes in the rules of their game.

SPLENDID RESULTS.

With the recurrence of the annual municipal election date the country over, comes the consciousness that our cumbersome system of city government is unsatisfactory in many respects.

tion government in Haverhill for the first year was phenomenal; the city was \$61,000 behind when the commission took hold; at the end of the first year this deficit had been wiped out and there was a credit balance in the treasury of \$36,000.

VALUABLE DONATION MADE BY LUSK

PROMINENT BANKER AND CON-TRACTOR PRESENTS MACHIN-ERY TO UNIVERSITY.

The school of engineering of the University of Montana has just received from F. S. Lusk of Missoula, electrical apparatus which is of considerable value for the instruction of the students.

O, weather man, Reverse your cap; Let no more rain come down. Let Easter day Be bright and gay For the show of hat and gown.

Good men are needed in the management of city affairs. Nominations this spring should be made with the fact in mind that there is much important municipal business to be done this year.

The new Anaconda merger does not seem to merge anything that was not already merged and there is nothing in the deal which the suspicious can view with alarm.

More competition and less consolidation—this slogan, suggested by Mr. Barnes of Missoula, contains the gist of the campaign against high prices.

All indications to the contrary notwithstanding, it is the Easter service and not the millinery which is the central feature of the coming holiday.

As we have remarked before, the automobile is all right within its limits, but it should not contest the right of way with a trolley car.

More than a hundred new automobiles in town this spring, and the electric cars about to start. Look out when you negotiate a crossing.

Up in lively Appletown the baseball bug is working overtime this spring, while the grass is growing on the Missoula diamond.

Wild and woolly Delaware furnishes a sensational gun battle on a train, to the amazement of the placid west.

Easter chickens are not more "snuggly" than the members of the republican caucus at Washington.

Two carnivals and two track meets are booked for May. There is every indication of a lively spring.

Friday is an unlucky day if you neglect on that day to invest in Missoula real estate.

The brims of Easter hats are big, but father finds the price the really big thing.

But you never can tell, by the forecast, just how lively an election will be.

Sunshine is the thing—both for Easter lilies and Easter hats.

The insurgents, also, view with alarm. Hustle. Two days and then Easter.

SPINDLES TO STOP IN COTTON FACTORIES

Boston, March 24.—Probably 7,000,000 spindles in the United States will be stopped within the next four months, according to estimates made by cotton mill authorities in this city who express the opinion that a curtailment of production amounting to 25 per cent cannot be avoided unless there is a sharp decline in the price of cotton.

CAUCUS CALLS.

First Ward. The first ward republican caucus will be held at the Logan blacksmith shop at 7 o'clock p. m. Friday, March 25.

R. W. KEMP, T. G. HATHEWAY, Committeemen.

Second Ward. The second ward republican caucus will be held at the city hall at 7 o'clock p. m. Friday, March 25.

R. W. ANGEVINE, ED. ROHKRAMER, Committeemen.

Fourth Ward. The fourth ward republican caucus will be held at the bottling works Saturday evening, March 26, at 7 o'clock p. m.

ROBERT M. TAGGART, J. E. MOODY, Committeemen.

Philadelphian, March 24.—Interest in the labor situation here centered today in the convention held by members of labor unions to form a new political party.

A laboratory equipment is now one of the necessities of an engineering school. Today a professional engineer must have a broad education.

A contribution of one day's pay to finance the new organization will be asked from every member.

There was no change in the street car situation, both the company and the striking carmen holding to their "standpat" policy.

Salt Lake City, Utah, March 24.—Train service on the Western Pacific's road has been resumed over the regular route, according to an announcement made at the company's office here today.

Washington, March 24.—Oscar Straus, ambassador to Constantinople, left that city March 8 on the Scorpion, of the United States navy for Cairo, Egypt, where he is to have a long conference with former President Roosevelt.

It was learned today Mr. Straus' trip was in answer to a cable message from Colonel Roosevelt, requesting the conference.

Mr. Straus was secretary of commerce and labor in the last few years of the Roosevelt administration and was always close to Mr. Roosevelt and likewise a warm friend of Mr. Taft.

President C. A. DuSoy of the state university yesterday requested County Attorney E. C. Mulrooney to try to arrange with the Missoula board to have the date of the street carnival changed.

Should the carnival be held during the track meet it would detract some of the crowd from the university's attractions in the evenings.

Members of the band stated last night that they knew of no objections and the matter will undoubtedly be favorably settled.

New York, March 24.—Count Anton Sigray, of Budapest, the Hungarian nobleman who is to marry Miss Harriet Daly, daughter of the late Marcus Daly, the Montana copper king, today obtained at the city hall a license for the marriage.

The count gave his age as 30 and that of Miss Daly as 25. The wedding will take place March 28 at the residence of the bride's mother on Fifth avenue.

Albuquerque, N. M., March 24.—Jere P. Lillis, the Kansas City banker who was assaulted by "Jack" Cudahy, a few weeks ago in Kansas City, went through Albuquerque today on his way to California.

Wallace, March 24.—(Special)—A 200-foot drift on the Iron King property, near Wallace, has exposed a face full of quartzite and iron, a good indication of ore. The tunnel will be continued.

Galena stringers are showing in the face of the drift on the Courd'Alone Standard property, near the H. E. M. The face is in the Burke quartzite, which usually carries large bodies of rich galena ore.

Since the falling off of attendance at the canyon schools, following the snowslides at Burke and Mace, there has been talk of consolidating the schools, so as to have one central high school, instead of several, as now, and to have lower-grade schools at each town.

Denver, Colo., March 24.—Judge Lewis, of the federal court, today handed down a decision adverse to the Union Pacific railroad in the right-of-way litigation in the town of Greeley, Colo., which has been in court a number of years.

John Kerr, a miner at Mace, rescued a 3-year-old girl from drowning today by jumping into Canyon creek and pulling the child out. The little one, the daughter of John Harris of Black Bear, was playing along the banks of the stream when she fell in and would have drowned but for the fact that Mr. Kerr was passing at the time.

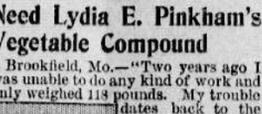

The report has spread through this county, which is one of the few "wet" counties in the north of Idaho, that Paul Clagstone is endeavoring to have some of the millers circulate petitions for a local option election. Such a step might prove a stepping stone to the gubernatorial chair, which Mr. Clagstone seeks, and might also ou-

WOMEN OF MIDDLE AGE

Need Lydia E. Pinkham's Vegetable Compound. Brookfield, Mo.—"Two years ago I was unable to do any kind of work and only weighed 115 pounds. My troubles came back to the time that women may expect nature to bring on them the Change of Life. I got a bottle of Lydia E. Pinkham's Vegetable Compound and it made me feel much better, and I have continued its use. I am very grateful to you for the good health I am now enjoying."—Mrs. SARAH LOUISIGNON, 414 S. Livingston Street, Brookfield, Mo.

The Change of Life is the most critical period of a woman's existence, and neglect of health at this time invites disease and pain. Women everywhere should remember that there is no other remedy known to medicine that will so successfully carry women through this trying period as Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs.

For 30 years it has been curing women from the worst forms of female ills—inflammation, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, and nervous prostration.

If you would like special advice about your case write a confidential letter to Mrs. Pinkham, at Lynn, Mass. Her advice is free, and always helpful.

VERDICT OF JURY CREATES SURPRISE

Hamilton, March 24.—The jury in the case of the state against George Corcoran, on trial for malicious mischief, created a surprise today when it brought in a verdict of guilty. The defense in the case rested on the presumed insufficiency of the evidence for the state and did not bring forward a single witness. After being instructed by the court to find the defendant not guilty, the jury found him guilty. When the jury was polled the vote was 11 to 1 for conviction. A fine of \$50 was imposed by Judge H. L. Myers. Judge F. H. Woody, attorney for the defendant, notified the court that he would file papers at once for a new trial.

DEEDS ARE FILED.
