

MONTANA AFFAIRS AT CAPITAL

ITEMS OF WASHINGTON WHICH CONCERN THE PEOPLE OF THE TREASURE STATE.

Washington, May 14.—(Special.)—Senator Dixon has received and presented to the senate petitions from Ladies of the Maccabees of Hamilton, Livingston, Butte, Park City and Phillipsburg, advocating legislation authorizing fraternal society publications to be mailed as second-class matter.

A postoffice has been ordered established at Twete, Chouteau county, with Hans Twete in charge.

The special service to Greenville from Plentywood has been ordered discontinued on May 31.

Byron W. Pierce has been appointed postmaster at Fromberg.

The bill of Senator Dixon opening the Crow Indian reservation to settlement was passed by the senate last week without debate. It was amended, however, in several particulars. On motion of Senator Stone an amendment was adopted authorizing the commission to drop from the rolls ineligible and to add thereto such members of the tribe who had been omitted up to March 1, 1911. Another amendment by Mr. Stone was adopted giving right of appeal within 90 days from decision of the commission to the interior secretary, barring them from membership in the tribe. Another amendment was adopted by Senator Stone providing for the hearing before the interior secretary instead of the Indian agent or superintendent before members should be dropped from the roll. Another amendment of Senator Stone was adopted providing that nothing in the bill should be construed as authorizing any disturbance of allotments heretofore made to members of the tribe under acts of congress.

Senator Dixon offered and the senate adopted an amendment providing that the income of the Crow tribal fund shall be used in the maintenance of the system of irrigation ditches on the reservation and the education and civilization of the Indians until otherwise provided by law.

Before the bill was passed Senator Heyburn of Idaho criticized the features of the bill declaring an Indian to be a citizen and then undertaking to limit the scope of his citizenship. Senator Dixon said the senator had misinterpreted the bill, as it followed the wording of the Burke act. It conferred citizenship whenever the Indian became emancipated and received title in fee simple, and it also provided that until he has received his title in fee simple he is subject to the jurisdiction of the United States. There was no grade of citizenship.

The president has renominated Thomas W. McKee as postmaster at Havre.

Charles R. Leonard of Butte was a visitor here last week.

Mrs. Senator Carter was one of the guests at Mrs. Taft's reception at the White House on Friday afternoon.

Senator Carter announces that when the sundry civil bill comes over to the senate from the house he will move to increase the appropriation for the survey of lands in eastern Montana to \$200,000.

Secretary of Interior Ballinger has submitted to the forestry investigation committee a statement showing the irrigable area in the Montana irrigation projects up to May 3, as follows:

Huntley project, 28,921 acres, of which 3,192 acres is private land.

Milk river, 248,000 acres, of which 133,000 acres is private land.

Sun river, 276,000 acres, of which 96,000 acres is private land.

Lower Yellowstone, 64,622 acres, of which 46,828 acres is private land.

The following civil service examinations are scheduled for Missoula: June 8—Inorganic chemist, \$1,800 a year, and bacteriologist and pathologist, \$2,000 a year, for duty in the Philippines.

June 15—Surveyor for the Philippines, \$1,400 a year, and laboratory helper, bureau of standards, \$720 a year.

July 13—Examiners and assistant examiners, reclamation service, \$1,200 to \$1,800 a year.

EDITOR SENTENCED TO IMPRISONMENT

San Antonio, Texas, May 14.—Jose Jesus Martinez Carreon, editor and owner of the defunct El Colmillo Public, a Mexican revolutionary journal, has been sentenced by the first federal district court of Mexico to four years' imprisonment and the loss of all civil rights for a period of five years. The court, however, in view of the fact that Carreon had been incarcerated nearly four years, allowed him to go free. With him were also sentenced over 70 other revolutionists, of whom 13 were given prison terms ranging from four to six years. Most of the others received slight punishment, though the loss of civil rights for five years went with every sentence.

This is the windup of the so-called revolution which culminated in the battle of Las Yucas in June, 1906. Those familiar with conditions in Mexico are of the opinion that the revolutionists have fared remarkably well and that the government has been unusually lenient, no maximum penalties having been imposed.

MINNESOTA DOCTOR FAMOUS.

Discovers Simple Remedy for Appendicitis.

Minnesota physicians and surgeons are becoming famous the world over. A Minnesota physician, a graduate of German universities, has discovered a simple remedy for treating appendicitis without operation, although perhaps in very rare cases, operation may still be advisable. This physician deserves the gratitude of the entire world by conquering this wide-spread disease. The remedy, called Adler-i-ka, is composed of buckthorn bark, glycerine and other simple ingredients scientifically compounded.

Because Adler-i-ka cools the diseased parts and drains off all impurities, which no other medicine can do. One dose instantly relieves stomach or bowel trouble. The drug store of the Missoula Drug Co., corner Higgins avenue and Front street, reports large sales and wonderful results.

Almost any doctor will tell you, if your bowels do not move each day, or if you have wind or gas in your stomach or bowels, or a heavy feeling after eating, you may very likely get appendicitis. By taking Adler-i-ka just once each week, appendicitis can gain no foothold.

A valuable book, showing many pictures of the curious little appendix, and telling how appendicitis is caused, and how you can easily guard yourself against it, can be secured free for a short time at the above drugist's. You should read this book and take no chances.

Will Marry a Sculptor

Miss Mary Harriman, whose engagement to Charles Cary Rumsey, sculptor and sportsman, has just been announced.

New York, May 14.—Miss Mary Harriman, second daughter of the late E. H. Harriman and one of the heirs to his enormous fortune, is to marry Charles Cary Rumsey, a young sculptor, who occupies a small studio apartment at 55 East Fifty-ninth street.

For some years society has taken it for granted that Miss Harriman was to marry Robert Walton Goellet, who, next to John Jacob Astor, is one of the largest holders of real estate in Manhattan. It will come as a great surprise, therefore, to those who did not know of Miss Harriman's recent attachment to the sculptor to learn that Mr. Goellet is out of the running.

The wooing of Miss Harriman by the ambitious young sculptor has been most romantic, for it was partly carried on in his studio, where Miss Har-

riman went frequently, accompanied by Miss Dorothy Whitney, daughter of William C. Whitney.

Miss Harriman was visiting Rumsey's studio and posing for a bas-relief the sculptor was doing for her.

The few friends of the heiress and her fiancé who have viewed the bas-relief say it is a masterpiece. It is a plaque about three feet high by two and a half feet wide and portrays Miss Harriman on her favorite horse, Ordinate.

Rumsey is well known here, but rather more as a "good fellow" than as an artist. In the Latin quarter, where he spent a good many years, he was known as "Pat." He had a studio in the Rue Notre Dame des Champs, but he devoted very little time to study or work. His sporting engagements consumed most of his time. He was at one time champion amateur boxer of France and took part in the first English boxing matches held in Paris.

It was learned yesterday that, although reconciled to the situation, the Harriman family at first did not regard Mr. Rumsey favorably as a suitor. It was one of the dearest wishes of the late railroad king that his daughter marry young Robert Goellet, and for a time it looked very much as though this engagement would be announced.

MARKET MOVEMENT OF THE DAY

New York, May 14.—There was no essential change in the dull character of today's stock market from that of yesterday. The London stock market was closed, to remain so and to be followed by the European exchanges Monday in observance of the Whitsuntide holiday. The funeral of the late King Edward will constitute a further interruption next week in London and this prospect has its usual effect of discouraging speculative activity. The advance in the Canadian group continued, with no news to account for it.

The report of the sale of the Clark copper properties in Montana was of strengthening effect on the market. It was reported that the expanded loan position of banks is receiving growing attention from the authorities at Washington on account of what is called methods of evasion of the national banking act pursued by the national banks. It is pointed out that many organizations of state banks and trust companies controlled by the same directors or stockholders as a national bank have been allowed to take over the deposits of the national banks to be loaned in land purchases, and mortgages on land bought at high prices. It is complained that sellers of land at these high prices have emigrated to take up the cheaper lands in Canada in large tracts, taking with them the proceeds of the home sales and thus drawing down the reserve resources of the western banks. The stock market closed with only trivial net changes in prices for the most part.

Bonds firm. Total sales, par value, \$796,000. United States 3s have declined 1/4 on the bid price on call this week.

Table with columns for stock names and prices. Includes Grain and Provisions, Chicago, May 14.—The covering by shorts in wheat yesterday was so heavy and general as to leave the market with little support early. Bulls had as backing further crop damage reports from Kansas and Illinois. Cash demand was also said to be improving here. On the other hand, the deliveries at country stations in north-west were reported to be increasing and now about double those of a year ago. Toward the end of the session Winnipeg sent news of export sales of wheat there today, September here sold steady 3/4c down at \$1.02. Oats were weak most of the day but finished with wheat 3/4c net gain at 35 1/2c. Provisions closed 15c@17 1/2c to 20c higher and lard and ribs 10c to 12 1/2c better.

Washington, D. C., May 14.—The regrettable incident in which President Taft was publicly hissed by members of the National Woman Suffrage convention is a closed chapter as far as President Taft is concerned, but it will be remembered for a long time to come to the chagrin of many of the suffrage leaders. A committee was appointed to wait upon the president and in their apologies, it is claimed, disclaimed any feeling of antagonism, such as was shown during the address.

Boston, Mass., May 14.—The beautiful daughter of Boston's famous financier, Thomas W. Lawson, is making every preparation for the happy nuptials which will unite the Lawson family to that of U. S. Representative McCall of Massachusetts. Mr. Harry McCall is the lucky man, and the wedding has been arranged to take place next October. Miss Lawson is one of the most beautiful of Boston's social leaders and selected young McCall from a host of admirers. It is planned to make the wedding one of the most brilliant social events of the early fall season.
