

HOLDS THAT DUTIES DO NOT APPLY

PHILIPPINE CIGARS ENTITLED TO FREE ENTRY THOUGH TRANSSHIPPED.

New York, June 1.—In an opinion handed down today by the board of United States general appraisers, a protest of the United Cigar Stores company against the assessment of duty on cigars imported from the Philippine islands has been sustained and free entry has been ordered. The only legal question involved was whether the transshipment in the harbor of Hong Kong deprived merchandise billed through to the United States of free entry here. The case is of importance because of many holdings which would tend to nullify the statutory exemption for Philippine cigars which President Taft urged upon congress.

YOUTHFUL GANG THAT TERRORIZED RUSSIAN DISTRICT PAY WITH LIVES.

St. Petersburg, June 1.—Penalties of death or life imprisonment have been meted out to the men and women members of the youthful band that for 18 months during 1907-08 committed a series of murders and robberies that kept the residents of a considerable territory in a state of terror. Twenty-nine men, ranging in age from 18 to 25 years of age were sentenced to death. Eight women escaped hanging because of their sex, but were sentenced to imprisonment for life. A 15-year-old boy who was shown to have been an active outlaw was sentenced to the colony for juvenile offenders. The most sensational feat accomplished by the band was the holding up of the imperial arms factory and robbing it of \$65,000. Many wine shops were looted and among those who suffered death at the hands of the desperadoes were a student, a woman and several policemen.

QUOTES HAVEMEYER ORDERS

WITNESS SAYS MAGNATE GAVE INSTRUCTIONS TO "TAKE CARE OF THE BOYS."

New York, June 1.—That the late H. O. Havemeyer, former president of the American Sugar Refining company, gave directions two weeks before his death in 1907, to "take care of the boys," was part of the testimony heard today in the trial of three officials of the company charged with complicity in a conspiracy to defraud the government of customs duties. Ernest W. Gerbraicht, refinery superintendent, James F. Bendernagle, former cashier of the refinery, and Charles P. Heike, secretary-treasurer of the company, are the three on trial. "Take care of the boys, get counsel for them; see them through it," were the orders Gerbraicht said he received from Havemeyer when he informed him after the first arrest of checkers that the men insisted on their innocence.

C. McLean and David Kennedy were appointed as a committee to draw up a constitution and bylaws.

IN THE THEATERS

The Family theater was well filled last night by an enthusiastic audience. The play, "In a Woman's Power," was well presented by the Dick P. Sutton No. 1 company. The story is one of compelling interest and the action or the interest never lags for a minute. Miss Elsie Wrenn, as Laura Du Schene, the French adventuress, was capital; she handles the role with an ease and grace which stamps her as a finished actress. Miss Wrenn wore some very stunning gowns which were highly appreciated by the ladies in the audience. Harry Cornell, as the secret service officer, commanded the attention of the audience at all times, by his sincere interpretation of this character. Miss Irene Lorton, as

the counterfeiter's wife, was very effective and added to her popularity. Robert Hazlett, as the counterfeiter, handled the character in a manner that left nothing to be desired. Miss Lulu Sutton, as Betty, was very pleasing as the young lady with a mind of her own. Ralf Belmont as Colonel Hammond, the chief of the secret service, displayed marked ability. The others of the company were more than satisfactory. "In a Woman's Power" will be repeated tonight and should draw a large house.

RAILROAD MEASURE IS NEARING VOTE

(Continued From Page One.)
 of the bill, that he would accept the provision. Nevertheless, the roll was called, resulting 53 to 1. The negative vote was cast by Senator Frye. Mr. Elkins also accepted an amendment offered by Senator Shively as he did a second amendment suggested by Senator Burton. The Shively provision authorizes suits for damage growing out of the failure of the railroad company to supply a written statement of the rate for carrying a given shipment from one place to another, awarding a penalty of \$250 for such failure. The Burton amendment imposes on carriers a penalty of \$5,000 for eliciting and divulging information concerning the character or destination of a given shipment. Mr. Bailey, in speaking in support

of his amendment, freely criticized the decision of the supreme court out of which the amendment grew. He went so far as to express the view that the opinion of the court, as promulgated, had been a re-written document. He explained this conclusion had been reached through his knowledge of liberal construction, and not through any "inside information." His purpose, he said, was to divorce the transportation from production and he added he had made a special effort to draw the provision so as to render it impossible for the court to evade a division in congress to get around this provision. Mr. Bailey said he had been careful to confine his prohibition to the carrier and not to extend it to the commodity itself. Doubling the power of congress, even under the commerce clause of the constitution, he had not undertaken to prevent the shipment of a commodity produced by a common carrier, if transported by another carrier.
