

### CAR STRIKE STILL UNSETTLED

UNION SAID TO BE WILLING TO ARBITRATE, BUT COMPANY SAYS NAY.

Columbus, Ohio, Aug. 18.—Nothing came from the efforts of Governor Harmon today toward bringing about a settlement of the car strike. The union is willing to arbitrate, but the company has steadfastly refused to consider such proposals.

Adjutant General Weybrecht today threatened to cause the ejection from the state of a detective agency if reports he had heard that railway guards were inviting disorder by throwing stones and shooting in an effort to cause the railway and light company to bring more detectives here were substantiated.

Mayor Marshall tonight greatly increased his force of police in plain clothes, who are hidden about the city, in alleys and in vacant lots, looking for stone-throwers, and Sheriff Sartain added 100 men to his list of special deputies and citizens who have volunteered to serve without pay.

### DROP WOMEN CLERKS.

Washington, Aug. 18.—Paper money will hereafter be counted once less than at present as it comes off the press in the bureau of printing and engraving and the treasury department will save \$30,000 a year for the government. Thirty women clerks, each drawing a salary of \$1,000 a year, will be dropped.

### WALLACE CARNEGIE LIBRARY.

Wallace, Aug. 18.—(Special.)—The contract for the construction of a \$12,000 Carnegie library in Wallace has been let to Hanson & Stanley of this city for a bid of \$10,975, the plumbing and heating to be done by the Manning Plumbing company of Spokane for \$1,900. Work started this morning.

### TO DEVELOP MINE.

Wallace, Aug. 18.—(Special.)—The H. E. M. Mining company will let a 400-foot contract this week for a continuation of work on the No. 3 level. The development will consist of work on the ledge. The H. E. M. showed splendid shipping ore on the No. 3 level, but this ore body has not been cut at greater depth yet.

### REVIEW OF CROPS FOR JULY

GENERAL CONDITIONS NOTED BY CHIEF OF BUREAU OF STATISTICS AT WASHINGTON.

Victor H. Olmstead, chief of the bureau of statistics of the United States department of agriculture, has issued the following general review of crop conditions:

The month of July was unfavorable for crop growth, taking the United States as a whole, the deterioration being about 4.2 per cent, as compared with an average decline of 2.3 per cent during July. Aggregate crop conditions in the United States on August 1 were 6.5 per cent lower than on August 1 a year ago, and about 5.3 per cent lower than the average condition on August of the past ten years. However, the area under cultivation is about 3.2 per cent more than last year. Conditions average highest in New Hampshire, 25 per cent above the average, due largely to good hay prospects; and average lowest in North Dakota, 95 per cent below the average, due to severe drought affecting all crops.

By states the aggregate of crop conditions on August 1 (100 representing the average on August 1 of the past ten years) was as follows:

Maine 122, New Hampshire 125, Vermont 119, Massachusetts 111, Rhode Island 101, Connecticut 108, New York 111, New Jersey 104, Pennsylvania 104, Delaware 108, Maryland 105, Virginia 106, West Virginia 99, North Carolina 99, South Carolina 88, Georgia 95, Florida 94, Ohio 103, Indiana 105, Illinois 101, Michigan 93, Wisconsin 75, Minnesota 86, Iowa 92, Missouri 103, North Dakota 41, South Dakota 81, Nebraska 66, Kansas 97.

Kentucky 98, Tennessee 104, Alabama 100, Mississippi 103, Louisiana 103, Texas 106, Oklahoma 89, Arkansas 101.

Montana 83, Wyoming 74, Colorado 86, New Mexico 85, Arizona 100, Utah 95, Nevada 102, Idaho 91, Washington 88, Oregon 106, California 111.

The condition of various crops in the United States on August 1 (100 representing for each crop, not its normal condition but its average condition on August 1 of recent years—10-year average for most crops) was as follows:

Wheat 128.6, winter wheat (yield per acre) 110.5, clover (production compared with average production) 105.5; rye (yield per acre) 101.8, hops 100.1.

Peanuts 99.8, oats 98.7, sweet potatoes 98.5, lemons 98.3, rice 98.2, tomatoes 97.5, sugar cane 97, broom corn 96.7, corn 96.5, buckwheat 96.8, onions 96.1, cabbages 95.9, beans 95.8, oranges 95.8, cantaloupes 95.2, hay 95.2, cotton 95.1, tobacco 95, watermelons 94, sorghum 93.6, sugar beets 93.5, hemp 91, alfalfa 90.

Grapes 89.5, potatoes 88.1, apples 86.3, barley 82.1, pastures 81.8, kafir corn 81.6, millet 80.3.

### FOOTBALL OUTLOOK IS GOOD

CARY TO BE ON THE GROUND SOON—FORBIS ANNOUNCES HIS SCHEDULE.

Robert H. Cary, the newly-appointed physical director at the university, starts from Lincoln, Nebraska, where he has been spending the summer, for Missoula today and after a short trip to the coast will begin active work with the football squad at the state school. "Bob," as he is known to all Missoula, is heart and soul in his work and is eager to begin the fall training. He is an old football man, having played a stellar game at Montana for two years and having played under the direction of the Yale coach at New Haven. He knew the old game from the ground up and all summer long he has been studying the revisions in the rules and planning plays which will be best adapted to the new game.

There will be plenty of material for another championship team when the fall term opens. With the exception of Captain Bishop and Stoddard the whole of last year's team will be in the Montana logs again and some of the men who entered at the spring term last year or who are planning to enter for the first time this fall, show unusual promise.

It is rumored that big "Bill" Itner, the fullback who was responsible for so much of Montana's triumph last year, will be back. Bill has been working in the hills for a year and is in the pink of condition, physically and financially, so that he will be able to attend school again this year.

Itner has another year of college ball coming to him, for although he has been at the game for four years, his first was as a member of the freshman team of Minnesota and therefore does not count as inter-collegiate.

With Itner, Winstanley and Forbis behind the line and with Little and Kennett on the two wings and with such men as Ryan, Maclay, Bennett, Reardon and Simpson on the line the team will have a good framework of experienced men on which to build a team. A center must be secured to fill Stoddard's place and a quarterback to succeed Bishop and with new men these positions will of necessity be rather weak. There are lots of aspirants, however, and some of the old men are going to be hard pushed for their positions on the squad.

Manager Hugh Forbis has also been putting in a hard summer working up a schedule for the team. As yet only four games have been arranged for, but Mr. Forbis is in communication with a number of other colleges and expects to have his season well filled by the time that school opens. The schedule as it now stands is as follows:

The school of mines, at Missoula, on October 7.

The agricultural college, at Bozeman, on October 21.

The school of mines, at Butte, on November 12.

The agricultural college, at Missoula on Thanksgiving day.

Mr. Forbis is also corresponding with the universities of Idaho, Utah and North Dakota, and it seems at present as though games would be arranged with at least one of them.

### UNITED STATES IS SHOWING INTEREST

Pueblo, Colo., Aug. 18.—The United States department of agriculture is taking a deep interest in the National Irrigation exposition, September 19 to October 1, in connection with the Eighteenth National Irrigation congress, September 26-30.

Dr. Samuel Fortier, chief of irrigation investigations for the department, in writing Director Markham of the exposition, says: "I am in full accord with your idea of holding an exposition during the time of the irrigation congress for the purpose of illustrating machines, devices, plans, methods and products which have to do with the subject of irrigation."

"The progress made along such lines during the past few years has been so rapid that what is considered best this year may be substituted for something better the year following."

"I am glad your board is going to take the matter up, and as I intend to be in Colorado soon, I shall take pleasure in calling on you to find out if there is anything that this office can do in furthering your efforts."

Dr. Milton Whitney, chief of the bureau of soils, is also greatly interested, not only in the exposition, but in the congress. He writes commending the exposition, and while he does not know that his bureau may take official part in that event, he says it is possible, and in any case, he wants it understood that he has deep interest in the plans being made, and that he has now under consideration the possibility of visiting Pueblo during the congress and exposition.

Similar encouragement has been received from other branches of the department of agriculture, and there is great interest and activity in Washington concerning the two great events at Pueblo next fall. The attendance on the part of government officials and attaches promises to be larger than in previous sessions of the irrigation congress.

### CANADA POPULATION.

Montreal, Que., Aug. 18.—The population of Canada on March 31, last, was 7,469,781, according to the estimate of the census department announced today.

# Sensational Values Prevail In Our Clothing Clearance Sale

## RESULTS IN TENNIS PLAYED YESTERDAY

Hunters Hot Springs, Aug. 18.—(Special.)—The semi-final in the championship doubles formed the center of interest in the state tennis tournament today. There were two hard fought matches played in the morning. Miles and Greenleaf defeated Brewer and Metcalf, each side winning a set and the former team then pulling out two sets necessary to securing three out of five. Every point was closely contested, most of the games going to deuce. In the afternoon Wood of Great Falls and Johnson of Helena by splendid team work won three straight sets from Brayton and Boback of Billings. Seven to five was the score in each set. The feature of this contest being Wood's exceptionally good work at the net. The handicap singles were brought down to the fourth round today and one match in that round was played. Tomorrow presents a program of special interest. The finals in doubles will be played by Wood and Johnson, who will meet Miles and Greenleaf; the winners will then play Mosser and McLeod, holders of the state championship in doubles, but tomorrow's big event will be the challenge match for the state championship in singles between Mosser, the present holder of the title and McLaughlin.

Today's results were as follows: Championship doubles and semi-finals—Miles and Greenleaf defeated Metcalf and Brewer, 6-3, 4-8, 7-5 and 6-3; Wood and Johnson defeated Brayton and Boback, 7-5, 7-5 and 7-5; handicap singles, third round, Ebbae defeated Johnson, 6-1, 6-4; Barclay defeated Spencer, 6-3, 6-3; Ames defeated Wood, 6-2, 2-6, 6-3; Babcock defeated Logan, 6-3, 6-3; Ames defeated Wood, 6-2, 2-6, 6-3; Babcock defaulted to Brayton, who also won by default from Bailey in the previous round; Miles won from McLaughlin by default. One match was played in the fourth round, Greenleaf winning from Hesse, 7-5, 8-6.

### NOVEL FISHING GAME.

Perhaps the most unique sporting event in the world is the all-England angling championship, which will be held this year September 26. It will be fished on the Derwent river at Malton. The competitive anglers take their places at a given hour. At a pistol shot from the referee they cast lines. For three hours they use every wile known to the fisherman to attract members of the finny family. At the expiration of the three hours the fish are counted and the man having the best catch gets a silver cup. Men travel from all parts of the island to take part in this competition and some spend a great deal of money on tackle for it.
