SUBSCRIBERS' PAPERS. The Missoulian is anxious to give the best carrier service; therefore, subscribers are requested to report faulty delivery at once.

THURSDAY, AUGUST 25, 1910.

THEY WILL STAY.

It would seem that experience would teach the fallacy of the belief that new inventions, devices and improvements tend to drive earlier methods out of the field; it would seem so, but it is not so.

We have frequently heard in recent years that the electric engine would supersede the steam locomotive. The locomotive works of the United States today are overwhelmed with orders.

Lately it has been frequently asserted by persons who have not gone to the bottom of the matter that the automobile is injuring the business of the railroads.

However, it is doubtful if those kittens will ever appreciate the action of the woman who rescued them and let her own clothing burn up.

This is a great country. Yesterday morning men were walking on snow in shoes where, the day before, the ground had been too hot to tread upon.

Dick Friday is the right type of forest ranger; he fought with his men and for his men; he saved them and they do right to idolize him.

The man who thinks he would have managed the weather better than it was handled Wednesday night is too conceited to be sensible.

Mr. Bryan would better hurry and move or Texas will have changed her mind on local option before he gets there.

It is not often that an August snowstorm is welcome, but yesterday was one of the times when it was.

Either Supervisor Weigle has been misquoted or he is the champion alarmist of the occasion.

Again are the old-timers forced to move up their eggs. Fire takes will now be dated 1910.

Six hundred men were killed by bullets Wednesday and were resurrected Wednesday night.

And, no matter how bad it is, there is always somebody who wants to make it worse.

The fires have served to make a good many people well acquainted with Missoula.

Let us be thankful that the toll of human life was small; the forests will grow again.

A great wave of thanksgiving followed the snow and rain; that was natural.

The women in the case all acted the parts of heroines and did it well.

The fire line of 1910 outshone his forerunner, the water bar of 1908.

namesakes of the old channel town. The Bath people on the occasion of their celebration entertained young women delegates from a dozen Baths, many of them in the United States.

Representatives of all the peoples who struggled for possession of the country—Britons, Americans, French and Indians—participated in the picturesque Quebec fete in 1908, and in the Champlain tercentenary celebration, Westchester county, New York; Norwich, Conn.; Hadley and Deerfield, Mass., reproduced commendable interest in making the events worthy of their communities.

As a method of celebrating the Fourth of July and other national holidays the pageant is coming to supplant the recent noisy carnival. It is a patriotic undertaking in the better sense of the term, as it induces a study of local history, a ransacking of the depositories of folk-lore, and localizes a finer and more enduring local and national pride.

NEEDLESS LIES.

We know now what prompted King David to exclaim, "All men are liars." He had been reading bulletins of the life in a forest fire.

However, it is doubtful if those kittens will ever appreciate the action of the woman who rescued them and let her own clothing burn up.

A great wave of thanksgiving followed the snow and rain; that was natural.

The women in the case all acted the parts of heroines and did it well.

The fire line of 1910 outshone his forerunner, the water bar of 1908.

Now we must prepare for something else.

The sunshine was fine.

WEYERHORST SUED. Suit for the collection of principal and interest to the amount of \$268.91 on a promissory note for \$135.45 was instituted in the district court yesterday against Dr. Joseph Weyerhorst of Missoula by Thomas F. Stephens and J. W. Shackleton.

The German Advance

XXI.—Newspapers and Public Opinion.

(By Frederic J. Haskin.)

German newspapers more frankly and directly attempt to influence public opinion than do the newspapers of America or Great Britain. But as the German press is not free, and as it is used for the dissemination of inspired political intelligence, both by the government and by other interests, the result is that the German newspapers fail to wield any considerable power in public affairs.

There is in every small city a newspaper called the "Kreitsblatt," which is a local paper conducted in the interests of the prominent bureaucratic officials of the neighborhood. It is presumed to be independent, and therefore is of such high character that the government officials may use it safely as a medium for their advertisements and special notices.

Journalism is not respected by the public, and is despised by the bureaucracy which abuses its privileges. A journalist in Germany has no social status whatever. A distinguished American who visited Berlin a few years ago was invited to come to meet the kaiser.

At the isis. The management of the Isis theater promises a program tonight which will be worth anyone's patronage. "A Child's Faith" is the headliner and deals with the efficacy of prayer. It is a typically excellent biographical film. A young woman weds contrary to her father's wishes and is disowned.

Be sure and take a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy with you when starting on your trip this summer. It cannot be obtained on board the trains or steamers. Changes of water and climate often cause sudden attacks of diarrhoea, and it is best to be prepared. Sold by all dealers.

government by Maximilian Harden, the fearless Berlin editor, has contributed toward the success of the independent press movement. Harden invaded the sacred precincts of the imperial castle and laid bare the unspeakable scandals of the Camarilla which surrounded the person of the emperor. The revelations made at his trial shocked the whole world, but assured the success of his crusade.

(Tomorrow—The German Advance. XXII—The Educational System.)

IN THE THEATERS

Things are rapidly getting into shape at the Family theater, where the Harnois stock company is preparing its opening play. The people are all hard at work rehearsing, the stage carpenters are building new scenery and the auditorium is being made ready.

Walker Whiteside, one of the best actors this country has produced and one who has fitted himself for the important position he now holds by 16 years in classic drama at the head of his own company, comes to the Harnois theater Friday, September 2, in Israel Zangwill's masterpiece, "The Melting Pot."

CODY, the Original and Only Buffalo Bill, who Positively Appears at Every Performance and for the last time.

A Telephone Accomplishment

For the first time in the history of the telephone industry in the United States a telephone exchange has been opened for service at full capacity. The Automatic plant right here in Missoula holds this record.

Success never comes without a cause. Success in this instance is attributable to two causes—pride in a home enterprise and a widespread appreciation of a service which, aside from its modern advantages, has shown Missoula telephone users the difference between public service and private service.
