

\$5.00 Cash Buys A Lot In Car Line Addition

This addition offers greater inducements to the investor than any addition ever offered for sale in Missoula.

WHY?

Because there was never a lot offered for sale in this city at the price we are offering these at with the chances of increase in value so good as these lots have, with street car service, with city water, with electric lights, phones, good soil and in a locality that is sure to be one of Missoula's best residence districts.

Lots selling at \$50 to \$125 each on above terms. Call in today and let us show you this splendid proposition.

Rhoades & Booth Sales Agent Car Line Addition 115 Higgins Ave. Hammond Bldg. MISSOULA, MONT.

A BIG ORE SHOOT HAS MISSOULA

LONG DRIFT FAILS TO ENCOUNTER EITHER WALL—PROSPECTS BRIGHT.

Missoula people will be interested in the following story from the Wallace Miner, which deals with the work being done at the property of the Missoula Copper company:

"Although in approximately 200 feet on the ore shoot, the Missoula Copper company has not crossed it yet to determine the width. This is due to the absence of Manager Brown, who is in Spokane, detained there by illness.

"It was agreed by those interested that at 150 feet the full measure of the company's good fortune would be demonstrated by finding its width and the material on both walls, but circumstances prevented this. Toward the end of last week the ore began to grow leaner and the directors had about decided to crosscut without waiting for Mr. Brown, but on Sunday it showed renewed improvement, and has been growing gradually better each day since then.

"There is no doubt in the minds of the heavy holders that they have a bonanza. They reason that a straight drift 200 feet long would run into either wall at some point in this distance if the ledge were not quite weak and a minimum of 20 feet has been set.

"The stock weakened considerably the end of last week, but has strengthened the past day or two, and predictions now are for much higher prices. It is expected the best ore will be found on the footwall and plans for shipment are being considered, a framework to the railroad being named as the most feasible method."

WRONG NAME.

In the dispatch received from Helena yesterday concerning the drug clerks who had been successful in passing the state pharmacists' examination, the name of E. R. Patterson, from Missoula, was given. This name was wrong, and should have been E. S. Patton. Mr. Patton is employed at the Wait Drug company's store, on the south side, and was successful in his tests for a state certificate.

Relinquishments on the Flathead 40, 80, 120 AND 160 ACRE TRACTS

Prices range from \$150 up. Some of these are among the finest lands on the Flathead. Some of these relinquishments we can trade for city property.

If you want a ranch, and a good one, come in and see us AT ONCE.

APPLE SHOW BEING DISMANTLED

DISPLAYS IN THE BIG TENT REMOVED—EXHIBITS PREPARED FOR SHIPMENT.

The big Western Montana Apple show, the second annual affair here and the only one of its kind to be held in Montana, was almost completely dismantled yesterday afternoon. The exhibits were mostly taken from their positions and the big displays dismantled, and much produce was moved away. The displays which captured the big prizes ordered by the railway companies because the property of the railways yesterday and were packed up ready for shipment. The material to make up Missoula's exhibit at the National Apple show, at Spokane, was selected and prepared for shipment. In fact, the big tent was not the same old place last evening. It was such a contrast from the gay and beautiful scene of the night before that one did not care to linger long and have the memory of that evening clouded or marred by any subsequent impression.

In a way it is to be regretted that the big apple show is gone. The week of its life was a pleasant week in the city and a profitable one to all of those directly or indirectly interested in fruit raising and farming in this community. It was a pleasure for all, after they had once been inside the tent, to think that they had something fine to show visitors who might appear. Such a trip with a visitor made one feel proud of this section of the state and of the local organization which has fostered and conducted the apple show. It is to be regretted that some such permanent exhibit, although, of course, on a smaller scale, can not be maintained in the Garden city.

The entire community exhibit of the Missoula Chamber of Commerce, which won the prize of \$250 offered by the Milwaukee railway, was carefully packed and crated yesterday, to be delivered to that road. It will be taken east and used in the exhibition cars which the company is taking through the country this season. The display should do much to better advertise western Montana's resources.

The display brought here by the Hamilton Chamber of Commerce, and which won the Northern Pacific prize, was also packed yesterday, and will be carted east by that road for exhibition purposes.

What mostly concerned the representatives of the Missoula Chamber of Commerce yesterday was the selection of some choice fruit to send, in the name of the organization, to the National Apple show, which is to be held in Spokane next month. A select collection was gotten together and will be well cared for until time to send it to Spokane. This exhibit will not only be shown at Spokane, but after the show there it will be sent to Chicago, and be included in the permanent exhibition established there in connection with the apple show.

Exhibitors will have until Tuesday to remove their offerings from the big show tent, which will be taken down and stored away on Wednesday.

The end of the show will be appreciated for a few days at least, by President E. M. Lockman of the show committee, Secretary A. J. Breitenstein, Field Agent Moore and Horticulturist M. L. Dean, the men who have been especially active in the preparation and execution of the plans, and who have been burdened with work and duties during the past 10 days. They need a rest—one that is mighty well deserved.

INSTITUTE GRAND COMMANDERY.

Salt Lake City, Oct. 16.—A grand commandery of the Knights Templars for the state of Utah is to be instituted here October 20. Prominent Masons from Colorado, Wyoming and Idaho will take part in the ceremonies.

MISSOULIAN TO POST THE GAMES BY INNINGS

All the baseball fans in Missoula are anxiously awaiting the first word in regard to the world's championship series between the Chicago Nationals and the Philadelphia Americans which starts this afternoon at Philadelphia. Intense interest has been displayed in this series. The returns will be received at The Missoulian office by innings and will be posted in the windows as soon as they arrive. As today's game is played in Philadelphia and is called at 2 o'clock, returns should begin to arrive in Missoula about 1 o'clock, as there is two hours difference in the time of the two cities.

THE WEATHER

Yesterday's weather got a bad start, but made a good finish, and, as last impressions are usually strongest, the day as a whole, made a good impression. It was rather chilly in the morning, but warmed up in the afternoon and proved to be a fine day. The local weather manufactory turned out the following figures: Maximum 56 Minimum 29 At 6 a. m. Thermometer 31 Barometer 26.69 At 6 p. m. Thermometer 45 Barometer 26.69 Wind from the southwest.

GREAT CROWD SEES ESTIMATE IS MADE FOR SEASON CAR LINE LOTS

RHOADES & BOOTH MAKE PROMISE GOOD—EDITH ALD. RICH IS LUCKY. POUNDS OF SEED AND NUMBER OF PLANTS TO BE USED THIS YEAR IN DISTRICT.

Little Edith Aldrich of 1104 Stoddard street was happily surprised yesterday afternoon when she was presented with one of the finest lots in Car Line addition by Rhoades & Booth, the gift having been in accordance with the promise made in the firm's advertising for the past few days. The little lady was much surprised and was indeed fortunate, as she was selected from a great crowd which went to the addition on the street car yesterday to be shown the lots.

As was stated in The Missoulian a few days ago, there are only a small proportion of the people of the city who realize what the growth has been in the districts southwest of the city along the car line, as it now runs to Fort Missoula. The invitation extended by Rhoades & Booth yesterday called one more than 750 people, a goodly number of whom had not visited that district since the street car line was completed. There was a steady stream of city folks all day and their number is known because all were invited to the little office to register. They were shown over the property and told about the new Fort Missoula and had an opportunity to enjoy the beautiful view which can be obtained from this point in the Missoula valley. The trip was thoroughly enjoyed by all who took the trouble to step aboard the car bearing the big sign yesterday. Car Line addition is certainly desirable residence property.

DUNCAN'S BIG SPUD IS A DANDY

FOUR-AND-A-HALF POUND POTATO COMES FROM M'DONALD FARM AT RAVALLI.

"Dear Sir: This potato is my own raising, without water, and it is for your dinner. Yours truly, 'DUNCAN M'DONALD'."

This letter, under Ravalli date, was received yesterday by the editor of The Missoulian. The letter was attached to a box which contained the biggest potato ever seen by any of The Missoulian force, all of which members examined it yesterday.

The big spud was weighed after there had been the proper number of guesses made as to its "heft" and it turned the scales at four and a half pounds. It is a clean, big spud, without blemish, and is a beautiful testimonial to the fertility of the Ravalli farm of Mr. McDonald.

The McDonald garden has been famous for its products for a good many years and its crop this season is reported to be unusually good. The potato which was received at The Missoulian office yesterday is in the hum-dinger class and would be placed on exhibition were it not for the fact that Mr. McDonald sent it to be eaten. It will make a good dinner.

APPLE SHOW COMMITTEE WILL BE ENTERTAINED

The directors and members of the executive committee of the Western Montana Apple show will be entertained tonight by E. M. Lockman at his home, 400 Conant avenue. Mr. Lockman is president of the show board.

Pure Foods That Please

There is always the utmost satisfaction in buying dependable groceries, when they cost no more. The fact that your groceries come from the M. I. Co. reassures you at once as to their absolute and unquestioned high quality. Are we serving you?

Very fine for sandwiches; rich and creamy. Cake, 10¢

POTATO CHIPS

Fresh and crisp. Everybody likes them. Appetizing whether served hot or cold. As the kind we sell are fried in coconut oil, there's no lard odor to them. Lb., 25¢

Forester W. B. Greeley yesterday gave out an interesting statement concerning the prospective seeding and planting of field districts in 17 national forests of field district No. 1, the work planned for execution this fall and during early spring. The figures show a total of 16,294 pounds of seed, to be planted over an area of 5,915 acres, and 741,506 seedlings, to be planted over an area of 6174 acres.

The plans to be used will all be 2-year-old seedlings, which will be set out by hand and be placed six feet apart in every direction. This planting in the forests is done mostly with the use of a mattox, which opens up about the right hole in the earth to allow the roots to be well covered. This tool makes the operation very simple, and yet effective. About one-third of the plants will be set out this fall, in order that a thorough test may be made of the comparative results of the two systems of planting—spring or fall.

The seed will be sown mostly during the late winter. Already the ground in the fields to be seeded is being dragged with spring-tooth harrows or with something to tear up the earth in a similar manner. Then the seeds will be sown on the late snows and allowed to settle into the rough ground early as the snow melts.

The most of the plants to be sown will come from the Boulder nursery, on the Helena forest; some from the Stevens nursery, on the Lolo reserve, and a few plants from the Trapper creek nursery, on the Bitter Root forest.

The planting to be done on the Missoula forest will be on the bare places in the vicinity of the ranger station, on Wood gulch, a tributary of the Rattlesnake.

The following are the national forests in which seed will be sown and seedlings planted, the amount of each, and the acreage covered. Absaroka forest—Seed, 1,725 pounds over 665 acres; 16,800 plants over 14 acres.

Bearfoot forest—Seed, 960 pounds over 480 acres; no plants. Beaverhead forest—Seed, 1,155 pounds over 600 acres; no plants.

Bitter Root forest—Seed, 590 pounds over 200 acres; 45,600 plants over 38 acres.

Blackfoot forest—Seed, 920 pounds over 310 acres; no plants.

Cabinet forest—No seed; 45,600 plants over 38 acres.

Custer forest—Seed, 1,500 pounds over 500 acres; 105,956 plants over 88.5 acres.

Dakota forest—Seed, 1,500 pounds over 500 acres; 66,600 plants over 55 acres.

Deer Lodge forest—Seed, 260 pounds over 90 acres; 4,800 plants over 4 acres.

Helena forest—Seed, 175 pounds over 60 acres; 35,400 plants over 78 acres.

Jefferson forest—Seeds, 2,640 pounds over 700 acres; 78,800 plants over 64 acres.

Julia forest—Seed, 550 pounds over 200 acres; 63,750 plants over 531 acres.

Madison forest—Seed, 1,900 pounds over 450 acres; 76,800 plants over 65 acres.

Marquette forest—Seed, 200 pounds over 90 acres; no plants.

Michigan forest—Seed, 729 pounds over 240 acres; no plants.

Missoula forest—Seed, 2,000 pounds over 600 acres; 102,000 plants over 85 acres.

Total—Seed, 16,294 pounds over 5,915 acres, 741,506 plants over 6174 acres.

COMPANY SELLS STOCK.

Wallace, Oct. 16.—(Special)—The Black Sand Placer Dredging & Concentrating company, in which Wallace people are largely interested, has closed a deal by which Spokane men have purchased \$30,000 worth of stock. The Black Sand company is promoting an invention of J. M. Dureh and J. B. Green, Wallace millmen, which saves the values from black sand. Black sand is the residue left when placer ground has been worked and in the past has been wasted. The company has a plant working near Pierce city, Idaho, and another near Orofino, Idaho.

LEWISTOWN PHYSICIAN FOUND DEAD BY ROAD

Great Falls, Oct. 16.—A special to the Tribune from Lewistown says: Ferguson county officers were called to Windham today by a message stating that Dr. Doty, a well-known physician, has been found a couple of miles from that town with a bullet hole in his head. He had been dead several hours, at least, when the body was discovered. At the time the message was covered, nothing had been found to indicate that it was a case of murder or suicide, but in this city the suicide theory is accepted. The doctor had no enemies, so far as known. Dr. Doty came to this county from Red Lodge and stood very high as a physician and surgeon.

LONG CROSSCUT.

Wallace, Oct. 16.—(Special)—The crosscut on the National Copper mine near Millan is in 550 feet. The total length of this tunnel will be about 5,000 feet. It will be finished in two years, the length of time to drive it depending on the dip of the vein. The National has developed the property by shaft and tunnel to a considerable extent, but found that the only way to obtain depth on the ledge with economy and success would be to run a crosscut.

COEN-FISHER CO. THE GOLDEN RULE The Store That Does Not Misrepresent

Unusual Offering To Early Buyers

ROADS ARE IMPROVED BY AUTOMOBILE MEN

Wallace, Oct. 16.—(Special)—During the three weeks of active life of the Wallace Automobile association, much good has been accomplished in the way of improving road conditions in the Coeur d'Alenes. The most important accomplishments of the association were the improvement of the Fourth of July canyon road, making it fit for travel between here and Spokane, the influencing of the O. R. & N. railroad to permit the county commissioners to repair the Burke road, and the doing away with danger points between here and Modmont.

Danderine works wonders. It promotes hair just as surely as rain and sunshine raises crops. It produces a thick growth of luxuriant hair when all other remedies fail. We guarantee Danderine. All drug-gists sell it—25c, 50c and \$1 per bottle. To prove its worth send this ad with 10c in stamps or silver and we will mail you a large free sample. KNOWLTON DANDERINE CO. Chicago, Ill.
