NOTED EVANGELIST IS COMING

MINISTERIAL ASSOCIATION HAS MADE PLANS FOR MEETINGS NEXT JANUARY.

During the past week the Missoula Ministerial association held a meeting of importance at which the decision was reached to extend a call to Rev. Oscar Lowery of Cedar Falls, Iowa, to hold a series of evangelistic meetings in this city in January next.

Concerning the coming evangelistic period Secretary Maclean of the ministerial association said the action of the ministers last Monday night was unanimously favorable in sending an invitation to Rev. Oscar Lowery, the work of that evangelist in Anaconda recently recommending him for evangelistic labor in this field.

A CLEANLY AGE.

Twentieth Century Ideas Incline Toward Sanitation and Preventatives. Nowadays scientists believe that in cleanliness lies the secret prevention of disease.

To prevent a disease, remove the cause. Just as unclean habits breed many diseases, so careless habits will breed dandruff. Improper use of another's brushes, combs, etc., will surely cause dandruff, and, in time, will just as surely cause baldness.

It's microbial infection, nothing more nor less. Newbro's Herpicide kills the dandruff germ, and causes hair to grow luxuriantly. Herpicide is absolutely free from grease or other injurious substances.

Sold by leading druggists. Send 10c in stamps for sample to the Herpicide Co., Detroit, Mich. One-dollar bottles guaranteed. Missoula Drug Co., special agents.

Eight Entertainments. this winter for \$3, supplied by University Lecture Course. Tickets at Prices' news stand and Harnois theater.

20 Acres In Town of Lolo One-half of which would cut up into town lots. Fine and nearly new 10-room house, which could be used as a hotel; fine barn and out houses.

PRIZE PIES WILL NO INDIGESTION OR SICK STOMACH

MISSOURI EDITOR ADMITS HE WOULD HAVE ENJOYED BEING SHOWN.

Western Montana's red apple and her annual apple shows are serving to win this glorious district no end of publicity. The progress of this section of the state as a fruit growing belt is being jealously watched by other sections all over the country.

The latest home grown and home-made article of this community which has come into competition with that of eastern places is the apple pie which won the prize at the apple show and in the sampling of which more interest was evidenced during the week that the show was in progress, than in any other one feature.

Such a pie has attracted the attention of easterners. It has won the particular attention of the editor of the Woman's National Daily of St. Louis, the university city of old Missouri. This editor has the following to say concerning the prize apple pie of the recent Western Montana Apple show, doubting its quality in a way, when it is compared to some of the New England bakes which he remembers, but admitting its possible excellence in his last line when he expresses the regrets that he was unable to be here and act as a judge:

"From all over this broad land of ours come cheering reports that the apple crop never was so large or of such excellent quality. Good apples, and plenty of them, insure an abundance of apple pies. But the discouraging realization is impressed that good apples do not always evolve into good apple pies, even when they are trained in that direction. But it may not always be thus. The American woman, greatest of the world's pie makers, has been put upon her mettle. There is a high standard already set, as many a lucky man and boy can testify. But now the effort is to raise the standard a bit higher—if possible.

"Out in Missoula the Western Montana Apple show is to be held soon, and Secretary Brettenstein has offered a prize for the best apple pie exhibited, with competition open to the world. Those who believe they are qualified to act as judges in such a contest can already almost taste and smell the savory dishes which are sure to be entered. There will be pies 'like mother used to make,' and some like she didn't make, too, for that matter. There is a difference in apple pies—almost as great as there is in people. But they are all good.

"Those pilgrims who have wandered much and partaken of the fat—sometimes liberally interspersed with the lean—of many lands are quoted as saying that they can tell a family's history by the texture and flavor of its apple pies. Some of these pies can be eaten properly only by using a knife. Not that they are tough or hard or in any way poorer in quality than the others, but that they would not taste good if eaten in any other way. This is because apple pies do not often change the style. The particular brand of pie you like best will be found in the same guise year after year. It would be interesting to trace the genealogy of the really successful and reputable apple pie. It is a safe guess that the thrifty daughter of generations of New England stock constructs, seasons and serves the apple pie of 1910 exactly as it was produced two hundred years ago. Why shouldn't she? When perfection has been reached the search ends.

"We do not know, of course, who will win the prize offered at Missoula, but we predict that the new pie of commerce will not win even honorable mention. Possibly it will not be entered in the competition. We only wish we could be there and be a judge for just one day."

NEW CHURN DASHER HAS MANY FEATURES

I have on exhibition at the chamber of commerce a crude model of the common sense churn dasher, invented and patented by J. D. Sloan and Dew Ayers. I have the absolute right to manufacture and sell the dasher in the 11 extreme western states. Wish to start a factory either in Missoula or Spokane, Wash. If you are interested in securing factories of useful and labor-saving devices call and examine the device and see if it has merits to recommend it to the public.

Our claims: Absolutely sanitary (no metal in contact with the acids of the milk). Cleanliness in using (will not splatter milk like most churns). Low cost of dasher. Can be attached to the old wooden and stone churns found in every cancher's home. Can be manipulated by an 8-year-old child with ease. J. D. SLOAN.

Card of Thanks. I wish to express my sincere thanks to my neighbors and friends and the Rebekahs and Knights of Pythias orders for the many kindnesses shown me in my great bereavement in the death and burial of my dear husband. MRS. WILLIAM CONNELL.

NO INDIGESTION OR SICK STOMACH

GAS, HEARTBURN, HEADACHE OR DYSPEPSIA ARE RELIEVED IN FIVE MINUTES.

Why not get some now—this moment, and forever rid yourself of stomach trouble and indigestion? A dieted stomach gets the blues and grumbles. Give it a good eat, then take Pape's Diapepsin to start the digestive juices working. There will be no dyspepsia or belching of gas or eructations of undigested food; no feeling like a lump of lead in the stomach or heartburn, sick headache and dizziness, and your food will not ferment and poison your breath with nauseous odors.

Pape's Diapepsin costs only 50 cents for a large case at any drug store here, and will relieve the most obstinate case of indigestion and upset stomach in five minutes. There is nothing else better to take from stomach and cleanse the stomach and intestines, and, besides, one single dose will digest and prepare for assimilation into the blood of your food the same as a sound, healthy stomach would do it.

When Diapepsin works your stomach rests—gets itself in order, cleans up—and then you feel like eating when you come to the table, and what you eat will do you good. Absolute relief from all stomach misery is waiting for you as soon as you decide to take a little Diapepsin. Tell your druggist that you want Pape's Diapepsin, because you want to become thoroughly cured this time. Remember, if your stomach feels out of order and uncomfortable now, you can get relief in five minutes.

BAD TIME FOR KELLEY.

Bill Kelley by profession is a lumberjack but by habit, Bill is a booze fighter and, judging from his appearance in the police court yesterday morning Bill had been badly worsted in his latest encounter with the liquid knocker-out. Kelley said he reached Missoula from St. Regis on Friday afternoon and Officer Carver vouchsafed the information that Bill had been "polluted" ever since his arrival. Kelley smilingly corroborated the same but said it would never do to send him to jail because he wanted to get back to St. Regis and his job. Judge Small saw better things in sight for Bill than letting him roam the streets until train time, and sent him to the basement jail to sober up.

CHECKWRITER JAILED.

P. E. Keating, a man who arrived in Missoula from no place in particular, yesterday morning, succeeded in landing in jail before nightfall through his disposition to write checks upon a local bank without having funds deposited to cover the vouchers. Keating is said to have worked P. E. Johnson of the Stockholm saloon by this method, and it was upon the complaint of Mr. Johnson that Keating was arrested.
