### NEAR-FIRE.

What might have become a disastrous conflagration had it happened an hour later was discovered in the Missoula Billiard Parlors by W. H. Smith, about 12 o'clock last night. The stove used to heat the water in the shower bath worked a little too vigorously and the floor underneath began to smolder. Quite a good deal of smoke was caused, but the fire department quickly put an end to any fire that might have been present. No damage was done.

### LABORER IS INJURED BY FALLING BUCKET

Through the uncoupling of the hook one of the large buckets employed in hoisting dirt from the Cedar street sewer ditch fell from the tramway yesterday afternoon, striking a workman named Petrie Burra on the back and head. Burra was so severely injured that for a time his life was despaired of. He was carried to the office of Dr. Hueckley, where an examination was made of Burra's injuries. No bones were found to have been broken, but the man suffered from severe contusions about the hips and ribs. He also had a bad gash behind the right ear which bled freely. Burra is an Austrian and speaks little English. He was taken to St. Patrick's hospital for treatment, and is reported resting easily this morning.

### THE BIJOU.

The Bijou management has made every effort to secure a good program for its matinee and even performances and have certainly made a successful effort. Lynn E. Cowan, by special request, will sing "The Holy City." The following films will be shown: "The Bouquet," "Hank and Lank" and "The Baggage Smasher."

### "NATIVE SONS" TO WED.

A marriage license was issued yesterday to Henry Clay Phelps and Lydia Frances Freeman. The young people are both "native sons." Mr. Phelps having been born in Stevensville and Miss Freeman in Butte.

### SESSION OF WOMEN INTERESTING

CLUB DECIDES TO CO-OPERATE IN PLANNING FOR LECTURE COURSE.

The regular meeting of the Woman's club, held yesterday afternoon in the Masonic temple, was one of great interest. The members agreed to co-operate with the university and the school teachers in arranging plans for the university lecture course. Mrs. Buchanan, Mrs. Mapes, Miss Mladofsky, Mrs. Turtle and Mrs. Wood were elected active members of the club, after which the Shakespeare department took charge of the social hour, with Mrs. J. A. Brittain in the chair. A very entertaining paper on "Julius Caesar" was read by Mrs. Annie McCrewe. She described the life and character of the great statesman and general who saved his country when it was sinking under internal troubles and harassed by foreign powers. A recitation, "The Seven Ages of Man," by Miss Susie Bandmann, and a piano solo, "Invitation to the Dance," by Miss Lella McDonald, completed the program. The Social and Domestic Science department met Tuesday afternoon at the home of Mrs. W. W. Berry. A paper on a subject that appeals particularly to all housewives, "The Sanitary Grocery Store and Buying Supplies," was read by Mrs. Ratcliffe. It is in line with an article read by Mrs. C. H. Spencer, taken from a magazine, in reference to the sanitary grocery store, in which it was said: "It may be a fact, but it is the healthiest and most sensible fact that has taken hold of the American people for many decades." Mrs. Ratcliffe, in her paper, said: "It is unreasonable to expect pure and wholesome food to come from an unhealthy, ill-kept or unclean grocery store. One who is not particular about cleanliness and keeping and selling first-class goods will invariably be careless when buying those goods." "Some of the most important of all the branches of the art of domestic science seem to me to be the buying of sanitary food supplies and preparing them daintily, and too great personal attention cannot be given them. The agency of the order clerk or telephone is very convenient, but in most cases

going to market and personally inspecting your prospective purchases is much more satisfactory for their quantity and quality are much more easily estimated. In buying perishable goods care should be taken not to overstock the necessary supply, for otherwise one might be inclined to sacrifice wholesomeness to economy and serve food that should have been discarded. Foods that do not deteriorate by age should, of course, be bought in reasonably large quantities as a principle of economy."

New stockfish and Norway Herring at Gus Bromen, 622 Woody street.
