Donohue's

ALWAYS RELIABLE

ELECTRIC LIGHTS GLOW AT NEW FORT MISSOULA

For the first time Fort Missoula was lighted by electricity last night. The current has been connected throughout the new buildings and about the grounds and also along the boulevard to the limits of the military reserve. The lights could be seen from the city and the illumination made a pretty effect. The new buildings looked especially beautiful.

DISASTROUS FIRE.

Winnipeg, Man., Nov. 22.—The wholesale warehouse of the Martindale Drug company here was wrecked by fire today. The loss is \$250,000.

ALL MEN ARE WELCOME TO NEIGHBORHOOD FEED

In connection with the dinner proposed by the Neighborhood club, to be held at the Missoula hotel November 29, at 7:30 p. m., when Senator Joseph M. Dixon and all of the newly-elected state legislators will be asked to give their ideas concerning the passage of a direct primary measure, one officer of the club said yesterday:

"This will in no wise be a political or partisan gathering. This subject is one in which we are all interested, and we expect it to be discussed from all points.

"I would like to issue an invitation, through your paper, to all men of the city who are interested to attend the

dinner. We have sent cards to a great many, but some have been overlooked. All are welcome, as each pays for his own plate. All who wish to attend should notify J. U. Williams, the secretary, not later than November 25, so that proper arrangements can be made."

RAILROAD NOTES

Yesterday's work practically completed the cut which the Northern Pacific railway has been making through the old Dorsey tunnel on the Coeur d'Alene branch which caved in during the August forest fires, the supporting timbers of the tunnel having burned out at the time. The tunnel was 200 feet long and in making the cut it has been necessary to remove about 55,000 yards of earth and rock. Owing to the nature of the hill, much blasting being necessary, and the

trouble with small slides the work has been slow. It is believed that track laying can start today and that by Thursday or Friday traffic can be started through the cut. The freight business between Missoula and Wallace has been very limited since the tunnel caved in as the track built around was almost impassable and could not be made substantial to stand heavy traffic.

It was decided yesterday by the Puget Sound engineers that the shoo-fly track which has been constructed around the big slide which covered the main line track near Bonner, will be made permanent for the winter, the nature of the mountain slide, which keeps continually sliding, making the work of digging out the covered rails practically impossible at this time of the year. The company will probably decide to change the main line to the course pursued by the shoo-fly in the spring and thus get further away from the dangerous mountain.

John Corcoran, a well-known brakeman of the Northern Pacific, and wife, left yesterday for St. Paul. They were hurriedly called there on account of the illness of Mr. Corcoran's mother.

Conductor O'Donnell left yesterday for Jamestown where he will spend Thanksgiving.

"Sunny Jim" Brown, the genial clerk in the trainmaster's office, returned yesterday from a hunting trip, which has taken him into the wilds of the country of Avon for a number of days. With Mr. Brown were, J. F. Dishman, Jack Anderson and Mr. Graver, and the four had a very enjoyable time, four deer having been killed. Dishman and Anderson remained in the field and started into rougher country to secure an elk.

DR. O. J. CRAIG BETTER.

Relatives of Dr. O. J. Craig here have received word that he has been recovering for some days from the

illness with which he was stricken after going from Missoula to Los Angeles. Dr. Craig is now in San Diego, California.

N. P. HOSPITAL NOTES

Albert Olson, a bridge carpenter from Livingston was received yesterday suffering with pneumonia.

J. Myagana, a Japanese cook at the lunch room in Spokane, arrived at the hospital yesterday. He is suffering with typhoid fever.

Gust Hagen of Missoula, a boiler-maker, was admitted to the institution yesterday. He is thought to have contracted pneumonia.

M. J. Sherman, a bridge carpenter from Iron Mountain, came in yesterday and will be treated for pleurisy.

Alek Kasparas of Orfanio, Idaho, a Greek section laborer, was operated on for hernia.

CONCERT DATE CHANGED BY PHILHARMONIC CLUB

On account of the conflict with the date of the big ball at Fort Missoula, the date of the Philharmonic society's concert has been changed from Monday, November 28, to Wednesday, November 30. There will be a full-dress rehearsal of the organization Sunday afternoon at 2 o'clock and all members are urged to be present. The call for patrons and patronesses has gone out and the list will be increased as fast as possible. Anyone interested and desiring information should see W. Pettit at his office in the Montana block.
