POLICE WILL WORK SHORTER SHIFT

CITY COUNCIL GIVES PATROLMEN EIGHT-HOUR DAY—AN IMPORTANT SESSION.

Missoula's patrolmen will walk their beats but eight hours a day after January 1, for last evening the city council made the dream of the police a reality. In order to handle the town properly under the shorter-hours rule, the aldermen allowed Chief Kemp two more men, to be put on the pay roll after the first of the year. To keep up their liberality in regard to the police force, the aldermen voted to raise Mr. Kemp's pay to \$150 a month. Detective McDonald is to receive \$125, a boost of a quarter century. However, the eight-hour proposition doesn't apply to these two men. The council was unanimous in voting the policemen a shorter shift, and locked but one vote of eight in increasing the remuneration of the chief and his lieutenant. This one vote, as a matter of course, came from Alderman Finley.

It is probable that the city council met in the stuffy room over the central fire station last evening for the last time, for the new city hall will be ready for the next session, scheduled for December 18. The final session in the old building, was long and important.

Sewer Connections.
The ordinance regulating sewer connections, a long and painfully minute law, was read and passed, after slight amendment on the recommendation of the ordinance committee. The final vote was 5 to 3. Alderman Finley, Corbett and McCormick furnishing the opposition.

Snow and Sidewalks.
It was well toward the shank of the meeting when Alderman Ambrose arose to inquire as to the whereabouts of the sloppy sidewalks of the city. He was informed that an ordinance says that each property owner shall have the walks connected with his estate cleaned before 9:00 o'clock in the morning of the day following any storm including snow. Then followed a terse explanation of how the law may be enforced—"Go tell the man to clean his walks and if he doesn't arrest him"—by Mayor Logan and the voting of the council that the ordinance should be resurrected. The street commissioner, William Wise, was instructed to publish a notice, telling the public of the council's action and then to stand by to swear out warrants.

Auto Fire Equipment.
The council also decided to buy an automobile chemical and fire-hose wagon, a six-cylinder affair, such as is recommended in the recent report of the national board of Fire Underwriters. This action was taken after a special committee had advised the purchase of the self-propelled apparatus. The city clerk was instructed to advertise for bids. The new fire fighter will not be delivered before next fall.

Minor Matters.
The matters of lighting the city hall—the new one—and providing for it a janitor were referred to the special building and the city property committees.

Aldermen Crawford, Moody and Wilkinson were named as a sewer committee, as specified in the ordinance passed last evening.

The report of the city clerk stated that the city had spent \$10,340.60 during the month of November. The treasurer said that \$10,730.40 had been received.

Fire Chief Fox reported 11 fires for November. As a building inspector, he reported having issued 14 permits, the resulting structures to aggregate \$749.10 in cost.

Police Magistrate Small told of collecting \$550 in fines during November, with a five-dollar bill added in the shape of forfeited bail. The report of the chief of police, who included the fees collected on impounded stock, raised Mr. Small \$2.75.

The secretary of the board of health reported that there had been 23 births and 12 deaths during November. He specified 18 cases of contagious disease.

A long list of claims and bills was allowed, but the demand of Edward J. O'Farrell, blind man, who stumbled while under arrest, for \$5,000 was rejected.

An ordinance ordering an alley through block 4 in McWhirk's addition was passed.

Lights were ordered placed at the intersections of Harrison and Briar, South Sixth, west, and Ash and Maple and West Cedar streets.

THE MICROSCOPE.
Proves That Parasites Cause Hair Loss.

Nine-tenths of the diseases of the scalp and hair are caused by parasitic germs. The importance of this discovery by Professor Unna, of the Charity hospital, Hamburg, Germany, can not be overestimated. It explains why ordinary hair preparations, even of the most expensive character fail to cure dandruff; because they do not, and they cannot kill the dandruff germ. The only hair preparation in the world that positively destroys the dandruff parasites that burrow up the scalp into scabs called scurf or dandruff, is Newbro's Herpicide. In addition to its destroying the dandruff germ Herpicide is also a delightful hair dressing. Sold by leading druggists. Send 10c in stamps for sample to the Herpicide Co., Detroit, Mich.—One dollar bottles guaranteed. Missoula Drug Co., Special Agents.

NO MORE GRAY HAIR

It is easier to preserve the color of the hair than to restore it, although it is possible to do both. Our grandmothers understood the secret. They made and used a "sage tea," and their dark, glossy hair long after middle life was due to this fact. Our mothers have gray hairs before they are fifty, but they are beginning to appreciate the wisdom of our grandmothers in using "sage tea" for their hair, and are fast following suit. The present generation has the advantage of the past in that it can get a ready to use preparation called Wyeth's Sage and Sulphur. As a scalp tonic and color restorer, this preparation is vastly superior to the ordinary "sage tea" made by our grandmothers, and it can be bought for 50 cents and \$1 a bottle at almost any first-class drug store, or will be sent direct by the Wyeth Chemical Company, 74 Cortlandt St., New York City, upon receipt of price.

For sale and recommended by Missoula Drug Co.
