CAUGHT ON THE RUN ABOUT TOWN

Things are ready for the reception of the prize fowls which are to be shown at the state poultry exhibition. Superintendent **THE HENS** ent Trump has his part of the work moving along finely and the secretaries are bustling with the entries which are coming in at a lively rate. There is assurance that the show will be large and of high quality. One of the biggest classes promises to be the Barred Plymouth Rocks, many entries of these birds having been received already. There will be 120 of these birds from Butte alone; there is an entry of 30 from one man in Bozeman. Arrangements have been made with Miss Nash at Fisher's office on East Main street to receive entries for the show, or exhibitors may make them at the exhibition hall in the Evans block on upper Higgins avenue. The showroom will be open until midnight tonight. The express companies have agreed to make one delivery of birds on Sunday, and they will be taken to the showroom as fast as they are received. Monday, The Blitter Book exhibitors need have no fear that their fowls will not be handled quickly and carefully.

ALDERMAN A. ZEBTSCH IS IN THE CITY FROM PLAINS, BUT EVERYBODY CALLS HIM "TONY," JUST AS WAS THE CUSTOM WHEN HE LIVED HERE AND WHEN HE NEVER THOUGHT HE WOULD BE AN ALDERMAN ANYWHERE EXCEPT IN MISSOULA.

There is no disrespect intended, but it just comes natural to use the old name, as the dignified municipal representative of the greatest little town in the world answers to it exactly as he did in the old days. Tony was on the No. 4 train which arrived here yesterday morning and had not had much sleep, so he retired and did not make his formal entry into Missoula until he had had several hours' sleep. When he did get around, he was on the job right away and there was heading for Plains all the rest of the day. "We are having a good winter," said he. "The Plains country is in fine condition and the prospects are great. Colonel McGowan, who has been ill, is gaining rapidly and is making his friends feel better by being about as usual. The town seems lonesome without him, and it wouldn't amount to much if he were to separate himself from it."

THE MEMBERSHIP CAMPAIGN WHICH SECRETARY BREITENSTEIN HAS BEEN CARRYING ON FOR THE CHAMBER OF COMMERCE IS BEARING FRUIT. IT IS BUT A FEW DAYS SINCE HE STARTED TO SEND OUT HIS LETTER, WHICH WAS MENTIONED IN THE MISSOULIAN THE OTHER DAY, BUT THE REPLYES ARE COMING IN FLUENTLY.

The membership roll at the headquarters of the chamber shows these additions this month: R. H. McKay, H. L. Bickenbach, Dr. E. W. Spottswood, Montana Culvert company, J. M. Lucy & Sons, A. W. Wilcox, Montana Independent Telephone company, John W. Hicklin, H. L. Sheppard, C. B. S. O'Connell, W. H. Houston, Northwesters of the county, T. Fishery, Booth, McIntosh & Fisher, Richard H. Smith, C. E. Lucas, Missoula Press, D. A. Grinn, C. H. Marshall, R. R. Garver. Speaking yesterday of the work of the chamber, Secretary Breitenstein said: "We are busy and the outlook is good. Next Wednesday noon we are going to have the second downtown noonday luncheon, which will be complimentary to the visitors in town at the horticultural meetings and the poultry show and the farmers' institute; there will also be the members of the county. His commission and the occasion should be more than ordinarily pleasant. The spread will be held at the Missoula hotel and we expect fully 250 guests. President Kellogg has the program in hand and we are sure of some good talks."

GOING SOME

There is no question about the success of the Elks' minstrel show. Another rehearsal last night brought out the voices with a degree of enthusiasm that exceeded any burst that had preceded it. The choruses are great. The specialties are clever and are working along smoothly every time they are tried. The boys are digging in with a zest that means a sure winning when the curtain rolls up at the Harbors next month. There were some visitors at the rehearsal last night and one of them said, when it was over: "It is surely the best amateur music I have ever heard. The orchestra is great and will help the show amazingly."

SKATES 24 HOURS.

Wichita, Kan., Jan. 27.—Joe Hampton of Wichita, aged 26, tonight broke the world's continuous roller-skating record, skating a total of 24 hours. He fell fainting at the close of his feat. The previous record, made in 1909 by Joe Boemann of Texas, was 19 hours and 45 minutes.

Announcement.

LOCAL BRICK FIRM RECOGNIZED

TRADE PAPER MAKES SPECIAL MENTION OF PROPERTIES AND MACHINERY.

The Brick and Clay Record, a Chicago publication, contains the following story in its last issue concerning a local firm:

"An establishment which is destined to play an important part in the manufacturing and commercial life of Missoula, Mont., and the western part of the state, is the Standard Lime & Brick company, recently established here. It is the purpose of the Standard Lime & Brick company to manufacture a high grade pressed brick from the fine clay which it owns in abundance, and which has been pronounced by experts as of the highest quality for that purpose. The company will also make tiling and lime."

"The Standard Lime & Brick company owns and controls 960 acres of clay and shale which is easily accessible and which will furnish material for the splendid plant built on the property owned in Missoula. As the company will manufacture a variety of products, including common brick, face brick, vitrified paving brick, salt-glazed sewer tile, field tile, partition brick, fire lining and conduit, it may easily be seen that this territory offers the finest opportunity for the production of such a plant and that its product will be in constant demand. The machinery and equipment is what is known as the Producer Gas Kilm, and is successful use by the following well-known companies: Columbus & Hocking Valley Coal & Iron company, Kechemacher, Ohio, who report 90 to 97 per cent of high grade ware. They are so pleased with results they are installing an additional kiln; Omaha Brick, Paint & Tile Co., Omaha, Neb., Eastern Township Brick & Manufacturing Co., Lennoxville, Quebec, Canada; the Guinard Brick Works, Columbus and Columbia, S. C.; American Clay Co., Terre Haute, Ind. These companies report a saving of 60 to 71 per cent in fuel over the periodical or down draft kilns."

THE WEATHER

Yesterday was such a winter day as only western Montana knows. They don't have them anywhere else. The air was sharp in the morning, but it was intoxicating in its quality; to breathe deeply was to feel better and livelier and more ambitious. That morning air took out the cobwebs with one breath. The sun was bright all day; at noon the air was like April, soothing and restful after its invigorating morning experiences. The afternoon was like the days you often read about but seldom find in actual experience. The evening was fair and bright. But there's no use trying to tell about it with any degree of justice. The weather man's stinky tale runs like this:

Maximum	30
Minimum	5
At 6 a. m.	
Thermometer	15
Barometer	26.72
At 6 p. m.	
Thermometer	24
Barometer	26.51

Wind, northeast.

PLUMBING ORDINANCE IGNORED.

John J. Morrison, a young man who was implicated in the Central high school trouble a week ago, was taken before Judge H. M. Small yesterday afternoon to answer a complaint sworn to by Plumbing Inspector J. K. Neff, charging the defendant with performing plumbing work without a city license, and in violation of the city ordinance governing this department of sanitary labor. Morrison took the statutory time to plead and will be heard this afternoon.

PROBATE DAY.

Today is probate and law and motion day in the district court, Judge F. C. Webster having set apart Saturday of each week of the term for this sort of business. The plan works satisfactorily and prevents the smaller cases from breaking into the proceedings of more important ones that may be under consideration during the week. This being near the close of the term, it is expected that there will be an unusual number of small cases heard today.

MISTAKEN IDENTITY IS CLAIMED

IN JUSTICE COURT, HUNTSMAN DENIES HE IS MAN WHO STOLE PACKAGE.

Before Justice of the Peace H. M. Small the petty larceny case brought against Harry Huntsman, a bartender, was heard. A number of witnesses were called by both sides in the controversy, and a stubborn contest was made throughout. Attorney Theodore Lantz defended the action and County Attorney Mulrooney prosecuted. At the conclusion of the case Judge Small took the matter under advisement and will render a decision at 9:30 o'clock this morning. The action is based upon the alleged theft by Huntsman of a package containing two shirts, which belonged to H. L. Hayes, formerly a city councilman. Mr. Hayes claims that the package was taken from his wagon which stood in Pradise alley, a thoroughfare running from Higgins avenue to Stevens street in block No. 1. The complaining witness explained before the court that he caught Huntsman redhanded as he was carrying the package away from the wagon. He also claims to have had a long conversation with Huntsman, and testified that he had known the defendant well for more than a year. The testimony showed the package was removed from the wagon last Saturday, and that the man found with the bundle passed the goods over to Mr. Hayes and then escaped from custody before a policeman could be found. The defendant, on the stand, denied any knowledge of the affair, and disclaimed being the man whom the ex-alderman caught carrying off the bundle. Several witnesses were examined in an effort to prove an alibi.

FOREST SERVICE RIFLE SHOOT

MODIFICATIONS IN RULES SUGGESTED THAT WILL STIMULATE LATE INTEREST.

There has been several special meetings lately of the officials at the local forestry headquarters for the purpose of considering the annual rifle shoot, in which all of the men in the field of each district of the Service compete. The shoot was established when Mr. Pinchot was chief forester, and the district prizes were cups offered by him and W. C. Cox, chief of silviculture at the Washington office. There was much enthusiasm manifested in the shoot at first, but later some of the conditions seemed to make it impracticable for the best results, especially in district No. 1, and the interest lagged.

Modifications Suggested.

The purpose of the meetings which have been held here was to make some suggestions for the modification of the rules of the shoot that might help in stirring up a greater interest among the men and lead to a more general participation in the event and the consequent result aimed at—the improvement of marksmanship throughout the field force of the Service. There have been three modifications suggested. One is that the men be allowed to use their own rifle, regardless of its kind or make, instead of requiring all to use the same caliber and make of gun. A change in the distance for the eight-inch bullseye target was also suggested, from 300 yards to 300 yards; and it is urged that it is not necessary for one of the district office officials to be present to keep the scores as this can be done just as well by supervisors wherever the shoot is held. If these suggestions are sanctioned by those awarding the cups and prizes, it is believed that there will be a greater interest taken by the men, and that a real live shoot can be held in this district every year.

The scheme of the contest is for each district to hold a shoot under similar conditions, and the best five individual scores from each district are then compared and the winning district decided on paper.

MISS STONER HERE.

Miss Minnie Stoner, demonstrator in domestic science for the farmers' institutes, is in the city and will leave today for Plains, where an institute is to be held. Returning, Miss Stoner will be in Missoula next week for the sessions which are to be held here in connection with the meetings of the horticultural society and the poultry association. Miss Stoner has personal friends here, who greeted her last night.

SPENCER'S

PUNISHED FOR SENDING CIRCULARS TO JURORS

Seattle, Jan. 27.—C. D. Hillman, millionaire real estate dealer, was found guilty of contempt of court by United States District Judge George Donworth today for having sent circulars to men summoned to serve on the jury that will try Hillman Tuesday on a charge of using the mails to defraud. The circulars which many of the jurors received alleged that the prosecution of Hillman by the federal government was part of a scheme of prosecution instigated by rival real estate men. Judge Donworth suspended sentence on Hillman pending his trial of the criminal charge, and Hillman was permitted to go under bonds of \$2,500.
