

FROST PROTECTION IS SUBJECT

PROFESSOR WHIPPLE SPEAKS AT ASSEMBLY—UNIVERSITY NEWS NOTES.

Professor O. B. Whipple delivered the third of his series of lectures on horticulture before the regular student assembly at 11:30 o'clock yesterday morning, taking as his topic, "Methods of Frost Protection."

Professor Whipple first took up the matter of natural protection. Orchards located on the sloping edges of bench land, he said, offer some protection, for an air current continually runs over the edge of the bench into the valley below, thus giving the cold air no chance to settle.

Professor Whipple then took up the matter of artificial protection, which, he said, is the only reliable method of protecting the orchard.

Professor Whipple also told of other methods of protection such as retarding the blooming period of the tree by covering it with dirt and burlap through the winter or of white-washing the entire tree on the theory that as white is a poor absorber of heat the growth of the tree will be retarded thereby.

Dr. G. F. Reynolds, who is in charge of the assemblies under the new system inaugurated at the first of the semester, introduced the speaker and announced that attendance at assembly would no longer be compulsory.

The assembly was marked by the

138 Feet

Before the coming of the aeroplane, skiing was the nearest approach man had made to flying, the world's record for a skeep jump being 138 feet.

There is no season of the year when outdoor sports are so exhilarating as in the winter time; but always temper your after-the-exercise luncheon with a cool bottle of

Pabst Blue Ribbon The Beer of Quality

It has just the right amount of food and tonic properties to satisfy that natural craving which follows physical exertion. It is delicious as a beverage, having an agreeable, smooth, mellow flavor, which makes it different from all other beers.

"KNOCKOUT" BROWN AND WOLGAST FIGHT FIERCE SIX ROUNDS TO DRAW

New Yorker Has Slight Advantage in Several Rounds, but His Blows Seem to Lack Steam--The Champion Is Admonished by the Referee to Stop Rough Tactics.

Philadelphia, Feb. 8.—Ad Wolgast, lightweight champion of the world, and "Knockout" Brown of New York fought a hard six-round draw before the American Athletic club in this city tonight.

Brown never fought a better battle during his career, while the showing of the champion, especially in the early rounds, was a disappointment.

As Wolgast became more accustomed to Brown's style, he fought in much better form.

Digger Stanley, champion bantamweight of England, was defeated by Tommy O'Toole of this city; Joe Jeannette had the advantage of Jim Barry and Jim Carroll of California outpointed Young O'Leary of New York in the preliminaries.

When Wolgast and Brown entered the ring the immense American Athletic club was little more than half filled. Both boys appeared to be in the pink of condition, especially the champion. Little time was wasted in adjusting the gloves.

It was announced that both men were under the stipulated weight of 123 pounds. In Wolgast's corner were Tom Jones, his manager; Herbert Wilcox, Herman Hutt and Joe Kline, Brown's seconds were: Adam Bowen, John Smolek and Dan Morgan, his manager.

Brown was first to lead and sent two light lefts to the champion's head. Wolgast put a light right to the wind and then swung a hard right to the neck and left to the body.

Brown put two lefts to the head and jabbed a right to the nose. Wolgast sent two hard lefts to the body and then put it on the body. Wolgast missed a hard swing for the jaw and Brown sent his right hard to the wind. Brown had a shade the better of the round.

Brown reached the face and body, with a left and right and Wolgast first senior "swing-out." The fourth-year class appeared in the hall in cap and gown for the first time and was greeted with tumultuous applause from a standing student body.

The class made a great showing for it has 34 members, a larger number than that of any other graduating class in the history of the university. After the assembly the seniors met at a luncheon in Woman's hall. Their official existence as seniors began yesterday and from now on they will be accorded all of the honor and respect due them.

The University Press club has announced the appointment of E. B. Hubert to succeed D. D. Richards as business manager of the Weekly Kalmi. Mr. Richards found himself too hard pushed with work and resigned. He has been a hard and faithful worker and his loss will be felt. He has a good successor, however, in Mr. Hubert. Mr. Hubert was associate editor of the paper last semester and has the interest of the Kalmi at heart. This places the Kalmi under an entirely new management.

The indoor basketball game between the university and the Whitehouse club, which was scheduled for this evening, has been postponed on account of the Elks' minstrel and will probably be played next Tuesday.

The university won an interesting game of basketball from a fast Fort Missoula five last evening by a score of 27 to 15. The collegians took the lead and kept it through the game and were evidently in much better practice than their rivals. The fort team, however, threw baskets well and broke up the varsity play successfully. They did not guard closely, however, and left their own basket absolutely alone. A little practice and the post quintet will play good ball. A good audience watched the game and the post rosters were out in force. The two teams lined up as follows:

Varsity—Ryan, center and captain; Whistler and Spencer, left forward; McCarthy and Conner, right forward; Johnson, left guard; Little and Marshall, right guard. Post—Sleven, left forward and captain; McBride, right forward; Chase, center; Nickols, left guard; Curly, right guard, Umpire, Cary.

Dr. J. G. Randall will speak before the hygiene class at the university this morning on the subject of "Water-borne Diseases." Dr. Pease was scheduled to deliver his second lecture today but was unable to do so and will finish later. The public is cordially invited by the university to attend these lectures which are to be given on the second floor of the library building in the same class room that was used for the law lectures last semester. The lecture will begin at 1:30 and will last exactly an hour.

ONLY 28 DAYS TO DO A MONTH'S BUSINESS

drove both hands to the stomach. Brown swung a hard right on the champion's ear and then hooked a left to the jaw. Wolgast sent his left twice to the wind and then drove a hard right to the same place. Wolgast sent another left to the wind and as he stepped back drove a hard right to the chin. Wolgast sent left and right to the head at the bell. Wolgast's round.

Round Three. They rushed to a clinch and wrestled across the ring. Wolgast sent a hard right to the ribs and put both hands to the body. Brown landed three lefts on the champion's face without a return. Brown jabbed three hard rights to the mouth and sent a left to the wind. They exchanged rights and lefts to the body. Wolgast sent a left to the neck and then placed both hands to the wind. Brown's round.

Round Four. They exchanged light lefts and rights to the body. Brown swung a left to the head and upper right on the chin. Wolgast drove a hard right to the body and left to the nose. Brown sent a stiff left to the face and they rushed to a clinch. Brown jabbed two rights to the face and then sent a right to the wind. Wolgast drove a hard left to the wind at the bell. Brown's round.

Round Five. Brown put a hard left on Wolgast's ear and the latter sent three short rights to Brown's body. Brown swung left and right to the head and Wolgast put a right to the wind. Wolgast was warned by the referee to stop wrestling. Wolgast drove a left to the body and then sent both hands to the head. Brown landed to the face and Wolgast sent a left to the nose. Brown's round.

Round Six. Brown drove both hands to the head and Wolgast ripped right and left to the body. In a fierce mixup in the center of the ring Wolgast had a slight advantage. The referee was forced to separate the fighters. Wolgast sent two hard lefts to the body and both men swung lefts to the face. Wolgast sent a hard left and right to the head and shook Brown up with a right to the chin. Brown swung left to the mouth and Wolgast drove both hands to the body. Wolgast's round.

hour at the Juarez jail yesterday to explain, it was alleged, what he had been doing on the Mexican side without a permit. He was an offender because he had not secured the said permit.

Today it was discovered there have been no such dispensations, nor will there be any. It is not intended that any misadventures of the federals shall become public, if it can be prevented. Cameras are also tabooed on the Mexican side.

The prediction that there would be no attack on Juarez tonight is based on a statement of Provisional Governor Gonzalez, who declared that the city would be taken within four days. Also on the fact that Blanco has not arrived, and that Orozco's preparations today were defensive, rather than aggressive.

Mexico City, Feb. 8.—Specials to Mexican newspapers today say the rebels who several days ago occupied and sacked the mining town of Nieves, in Zacatecas, near the Sonora line, were put to flight by rurales and gendarmes and that a garrison has been ordered to the town from the state capital.

The rebels are said to have liberated the prisoners confined in the jails, robbed several business houses and the public offices.

The revolting cotton factory employees near Puebla, after killing three rurales and wounding the fourth, are said to have gone to Metepec, where others joined them. The band is reported proceeding toward Pensacola with forces from Puebla and Tlaxcala in pursuit.

Chicago, Feb. 8.—Except for purchasers seeking to offset short sales there was no support for wheat today. Moreover, some of this class of buyers were found to be reselling later for the new crop months. The break in quotations came after a flood of overnight stop-loss orders from frightened outsiders. Some belated unloading on the part of local operators cut quite a figure too. Even the most patient owners were obliged also to admit the absence of any immediate prospect of an improvement in cash demand. Southwestern receipts continued larger than a year ago with a liberal proportion headed steadily toward Chicago. After midday, though, the effect of the short covering in progress began to have a decided result in the way of gradually putting the market back to where the slump started. During the session May fluctuated between 93 1/2 and 95 1/2, with the close a shade net higher at 94 1/2.

Corn was bearishly affected by cables. May varied from 48 1/2 to 49 1/2 and closed steady 1/4 cent down at 49 1/2 @ 49 3/4.

Oats made a new low record for the crop year to date. High and low figures for May were 32 1/2 and 32 3/4 @ 32 1/2, with last sales 1/4 cent off at 32.

Packers and allied interests kept an over supply of provisions in evidence all day. The outcome was a decline throughout the entire list. Pork lost 20c, lard 5 @ 7 1/2 to 10c, and ribs 7 1/2c.

FUNERAL NOTICE. The funeral of Mrs. T. E. Turner will be held at the Christian church at 2:30 Friday afternoon.

MARKET MOVEMENT OF THE DAY

New York, Feb. 8.—Prices drifted downward on the stock exchange today. Selling was more general and pressure more constant and effective than on other recent days on which such a movement has been attempted and there was talk of an impending readjustment of values on a considerably lower level.

The bond market was steady. Total sales, \$3,115,000. U. S. 3's and the 4's coupon advanced 1/4 and the 4's registered 1/4 per cent on call.

The Bitter Root Valley

A PACIFIC SLOPE LAND FAMED FOR ITS PERFECT FRUIT AND ITS GREAT PROFITS

The Valley of Opportunity

A single acre of land in this valley has been known to produce a net profit of over \$1,800 in one year; \$500 annual net profit from an acre of land is a common event.

Crops never fail, fruit pests are unheard of and fatal diseases among stock, hogs and poultry are unknown.

Water for irrigating purposes in accessible and inexhaustible quantities.

The beautiful mountain scenery, an abundance of pure water, healthful mountain air, unrivaled climate, good means of transportation, convenience to markets, good schools, close proximity to state university, and the lowest cost of living all combine to make this locality the most ideal place for a home in the great northwest.
