

HARD FIGHT IS ON FOR LORIMER

"HOME CONSUMPTION" SPEECHES USED TO MARK TIME AGAINST ROLL CALL.

OUTLOOK GLOOMY.

Washington, Feb. 28.—After a variety of concessions in exchange for an agreement to vote on the Lorimer case, and having them all rejected, supporters of Senator Lorimer, at 3:45 o'clock this morning, reached the conclusion that a settlement is impossible. It is now believed that many important executive measures, including several appropriation bills, will fail.

Washington, Feb. 27.—It took several hours to accomplish it, but supporters of Senator Lorimer tonight advanced the case to where a roll call may be started at any time when the anti-Lorimer forces may be caught napping. After several senators had consumed time with "home consumption" speeches on the subject of popular election of senators and Canadian reciprocity, Senator Bailey took advantage of a lull to move that when a vote is taken on the Lorimer resolution it be called by yeas and nays. Senator Brandegee, who was presiding, submitted the question to the senate, and it was declared carried.

Senators Stone and Owen suspected a snare in the request, and both were pleading for recognition as the question was submitted. Mr. Stone made a point of order that the motion of Mr. Bailey could not be submitted while another senator was addressing the chair, but the point was overruled.

Mr. Stone appealed against the decision and lost on a division, 45 to 11. Throughout the entire proceeding, after Mr. Bailey had accomplished his purpose, there were demands for regular order. Mr. Stone, somewhat nettled by these calls, warned his colleagues that their course might "bring home a black chicken to roost."

Vote Hoped For.

Although the Lorimer forces hoped to get a vote tonight, they expressed themselves as very well pleased with the advancement made. Under the parliamentary position of the Lorimer resolution, now a roll call may be started without preliminary motion, and the response of a single senator to his name as called would prevent interference until the roll is completed.

If the Lorimer supporters have the votes claimed by them, the effect would be to dispose of the case. Under the existing situation, some anti-Lorimer senator of alertness and with perfect knowledge of the rules of the senate must be on watch every second of the time from the present to noon Saturday if a vote is to be had.

Senator Crawford at 10:15 o'clock resumed his speech in opposition to Mr. Lorimer's retention of his seat. The senator was devoting himself to an exhaustive review of portions of the evidence in the case when Senator La Follette raised the point of no quorum. Seventy-five senators responded, but drifted out into the cloakroom again as the South Dakotan resumed his analysis of the testimony.

The galleries of the chamber were crowded all the evening.

Each Wants Something.

The determination of two senators to force a vote, and on a pending measure dearest to the heart of each, today threw the senate into its first night sitting of this session. The senators were Bailey and Cummins; the measures were the Lorimer resolution and the present tariff board bill.

Senator Bailey wanted a time—some time, any time—fixed for a vote on the Lorimer case. Senator Cummins wanted the same thing for the tariff board bill.

A motion by Senator Hale to take a recess until 8 o'clock was made at 5:50 o'clock. Senator Bailey was willing if a time for a Lorimer vote could be fixed. Senator Cummins objected and bared his heart that the senators might see how dear to it was the tariff board plan.

But the Texan was obdurate, for he, too, was cherishing a hope—a hope that Lorimer might be declared by this senate to be attitled to his seat.

So the body went into night session, but with a new presiding officer. Vice President Sherman had business elsewhere. Calling Senator Kean of New Jersey to the chair, the vice president started for his home in haste. There was a reason. He had invited the members of the senate to meet the diplomatic residents. The event seemed to bid fair to be somewhat devoid of senators, but a large proportion of official and social Washington was expected.

P. H. POINDEXTER DIES AT HIS DILLON HOME

Dillon, Feb. 27.—(Special).—P. H. Poindexter, aged 90 years, oldest pioneer in southern Montana, was found dead in bed yesterday morning when the members of the family went to call him for breakfast. He drove from St. Louis to California in 1852, fighting Indians en route. In 1856 he organized the Poindexter & Orr Livestock company, which is still in existence here, and the biggest company of its kind in southern Montana, the firm's land holdings amounting to more than 20,000 acres, and the livestock numbering many thousand head. He was identified with Dillon lodge No. 20, A. F. & A. M., Dillon chapter No. 7, R. A. M. St. Elmo commandery No. 8, K. T., and in 1894 was high priest of the grand lodge of the Royal Arch Masons of Montana. He was also past master of the local Masonic lodge in Dillon.

READY! The New Knox Hats For Spring Correct Always Always \$5

No Previous Spring Ever Brought Such Beautiful Dress Fabrics

—and the prettiest of them all have come to this Store, and no matter if Winter still holds us in its grasp, the sight of the new Silks, the new Woolen Dress Fabrics and the new Dress Cottons will tune your pulses to spring and make you keen to fashion some of them into gowns and dresses for spring and summer. There are hundreds of styles to select from—no excuse for one buying anything but the very thing that just suits her, and we have been very careful in our price-making to assure the lowest price consistent with quality, for we have planned to make this a bumper season.

Let Your Quest for New Silks Begin Here

The wonderful array, the beauty of the styles, and the moderate prices you will find will be a revelation—never has there been such a showing of Silks in this town.

Foulard Silks Retain First Place

As we foretold early in the year when we were closing out our last season's Foulards, Foulards are the most favored of silks for spring and summer. Our new stocks are about complete, and nowhere in Missoula are there the distinctive styles and colorings, the fascinating variety or the immense assortments of these charming and serviceable silks as here.

Beginning with those at 85¢ a yard to the individual, exclusive patterns at \$1.18 each, a hundred styles and patterns to captivate one; every yard dependable, as Cheney Bros.' "Spot-Proof" and Valentine's "Shedwater" goods always are.

Poplins, Next in Vogue

The beautiful draping qualities of these goods, their dust-proof quality and the fact that they are not easily wrinkled makes them an ideal fabric for summer gowns.

The famous R. & S. "Shamrock" brand silk-and-wool Poplins, in plain and jacquered weaves, in reseda, Copenhagen, lotus, champagne and black and white; 42 inches wide; pin-hole proof; per yard, \$1.75. Fancy silk-and-wool Poplins with self-colored woven dots and figures, in eight new spring colors; a 24-inch material; per yard, \$1.00.

Tub Silks of High Interest

Not counting the pongees and habutais, which are imported direct by us, we are showing the best and newest thing in a washable silk for waists, dresses, men's shirts, etc., known to the trade—R. & T. "Tub" Silks, in neat stripes of tan, brown, blue, green, lavender, pink and black; 32 inches wide; per yard, \$1.35.

An entire page might be consumed in describing the new silks, still no amount of printer's ink could do them justice or convey to one's mind their pristine beauty. They must be seen. The showing includes New Voiles, New Taffetas, New Messalines, New Satins and the staple black silks for which this Store has a reputation.

THE FLAXONS

Was ever a wash fabric so fashionable? Surely not! And there is just every imaginable idea to choose from—plain weave backgrounds or delicate stripes. On these backgrounds huge beautiful roses, shadowy or definite; or small ones—real June roses; or moss roses—overgrown to the tips of their pretty pink buds with green; there are also patterns in pin stripes, dots and rings.

The plain ground Flaxons, yard 25¢. Striped ground Flaxons, yard 35¢.

Galateas

In solid colors, stripes, dots and figures, in all colors; 27 inches wide; per yard, 20¢.

Filmy Marquisettes

Would you know the many uses to which these gauzy textures are being put this season? Read the fashion notes, you will observe that veiling of gowns is undoubtedly the craze of the year. A dozen or more shades go to make up our showing of Marquisettes; all pure silk; 42 inches wide; per yard, \$1.75.

Exclusive Dress Patterns

Individual pattern lengths in exclusive novelty silks. A beauty on the order of pongee with a Persian border, \$16.50; patterns of a voile-like weave, also with Persian borders, \$10; several in Chiffon Impregnate, iridescent, with a glint of gold, of blue or green from the same fabric in different lights, \$11.

Sturdy Taffeta Cloth

A fabric made from pure worsted yarns and unexcelled for wear; shown in a full range of colors, in medium weights; 42 inches wide; per yard, \$1.25.

Antelope Cloth

A very beautiful, soft-finished, self-striped, all-wool material for spring suits, in all the new spring shades—new mown hay, fernwood green, San Temo (a shade of lavender) and bamboo; 40 inches wide; per yard, \$1.00.

Our Famous No. 430 Storm Serge at 85¢ Per Yard

A value without comparison in this section. Made for us by the Botany Worsted Mills and known to Missoula women generally for its splendid wearing qualities and satisfactory service under all conditions; for suits, children's dresses and separate skirts it has no equal among moderate-priced serges; in black, navy and other blues and reds; 42 inches wide; per yard, 85¢.

The Dress Goods Section merits an inspection of its offerings, both for the variety of styles shown as well as for the values presented. All the staple weaves and colors are represented by entirely new, fresh stocks, while the showing of novelties in worsted, all-wool and silk and wool is extensive and satisfying.

Handsome Smooth-Finished Worsteds

Are here, mostly in stripes, in tones of gray and tan and in navy blue; the acme of style and quality; 52 inches wide; per yard, \$2.00 and \$2.25.

New English Gun Club Checks

That fairly radiate style. We have a splendid assortment, a dozen or more designs among them, large and small checks, all in black and white.

All-wool materials, 36 to 48 inches wide, per yard, 75¢ to \$2.00.

Silk-and-wool materials, 46 inches wide, per yard, \$2.00.

Atlanta Cloth, A New Star

This new fabric is especially adapted to the modes of the season, being soft and lustrous, having a finish like satin, with self-colored stripes; in dark red, black and forget-me-not blue; 50 inches wide; per yard, \$1.75.

Antonio Cloth, Another New One

Self-striped, lightweight; soft and drapy and possessed of excellent wearing quality; in navy blue, new blue, Copenhagen and lotus; 42 inches wide; per yard, 90¢.

Crape Egypta

This material with its soft, crepe-like texture is particularly well adapted for summer wear; comes in light colors such as pink, lavender, gray, tan, blue and white; 42 inches wide; per yard, 85¢.

THE GINGHAMS

Endless, almost, in variety, embracing the best domestic makes and those of Scotch manufacture, including those of that canny Scot, William Anderson.

Here's a Scotch gingham the equal of which is rarely seen at the price; in large plaids, stripes and checks; a 32-inch material, at, per yard, 18¢.

A remarkably good quality at 25¢ per yard in new designs as well as plain colors.

Anderson Gingham in royal plaids, stripes, checks, etc.; fast color, long-wearing goods, at, per yard, 35¢.

The "Coming Out" of the 1911 Cotton Dress Goods

Each year Cotton Dress Fabrics take on a new and greater note of beauty, and now some of the loveliest dresses are made from these materials—even the very low-priced ones. Our showings for Spring, we believe, are unsurpassed in this section, both in magnitude and in the hundreds of weaves and colorings represented.

French and English Voiles

In plain colors, checked, dotted and striped patterns, all over Persian patterns, organdy patterns and dainty patterns; plain and mercerized, and in all weights; and let us whisper, voiles are especially favored this year; widths from 27 to 49 inches; per yard, 25¢, 35¢, 60¢ and 75¢.

Suesine Silks

The very thing to use as a foundation for the voiles mentioned above; 50 colors; 27 inches wide; per yard, 39¢.

India and Irish Dimities

Finer and finer from year to year, but most often in quaint patterns of sprigs and blossoms, or dots and stripes; 50 or more pieces of these to choose from, in plain and cross-bar weaves at various prices up to 35¢; some as low as 15¢.

Serpentine Crepes

A full new line in all the new spring shades in solid colors, also in beautiful kimono patterns; per yard, 20¢.

Silk-and-Cotton Foulards

They would fool anyone, so nearly are they like the real silk foulards. In entirely new patterns, plain and embroidered, in dark colors as well as a full line of light shades; 27 inches wide; per yard 50¢ and 60¢.

Percales and Shirtings

Our standard grades in new spring designs and colorings; our prices for these goods are always the lowest.

DEATH IS HORRIBLE FOR IDAHO WOMAN

MRS. JOSEPH MOODIE, FULLY BURNED, CRAWLS MILES TO HUSBAND.

Salmon City, Idaho, Feb. 27.—(Special).—Mrs. Joseph Moodie hid here Thursday morning from burns, frostbite and exposure, incurred in one of the most horrible accidents that has ever happened in this part of the country. During the past year, Mr. and Mrs. Moodie have been living in a 2-room cabin, near the Copper Queen mine, about seven miles northwest of town. The mine has been closed down during the winter, and Moodie has been acting as watchman and also doing work on the Starlight group of claims, a mile and a half over the divide. The Moodies were the only family stopping at the mine.

Sometimes on Wednesday afternoon the cabin caught fire from the chimney. Mrs. Moodie, who was alone at the place with her 3-months-old child, took the baby into a tent 15 feet from

the cabin, and returned to the burning building for some clothes for herself and the child. While she was in the house, the roof fell in, blocking the doorway. Before she managed to get out, her clothing was nearly burned from her body. Prone with pain and terror, she started on the rough, 2-mile journey to where her husband was working at the Starlight mine. Part of the way she must have crawled on her hands and knees, as the trail was strewn with fragments of burnt clothing. The snow was deep all along the track, yet she made her way along the fearful path of suffering to the mouth of the tunnel where she was met by her husband. He placed her on a saddle horse which he had there, and brought her back to the tent, where the baby was found almost dead from cold. Dr. Whitwell was summoned by telephone and went to the mine. Mrs. Moodie was brought to town, but there was no hope for her recovery. She was formerly Miss Marie Prokosh. The deepest sympathy is felt for her family, who are well known and highly respected. The funeral was held this afternoon. Rev. Father Great officiating, under the auspices of the Daughters of Rebecca, of which order Mrs. Moodie was a member.

NO OPINION ANNOUNCED.

Washington, Feb. 27.—Not a single opinion was announced today by the supreme court of the United States, although this was decision day. Such a failure is almost unprecedented.

EMIGRANT KILLED BIG CROWD HISSES IN WRECK BANKER ROBIN

BROKEN WHEEL CAUSES BAD WRECK ON THE ROCK ISLAND RAILWAY.

Colorado Springs, Colo., Feb. 27.—According to an announcement made at the Rock Island offices in this city an emigrant, C. W. Van Cleave of Alta, Ill., was killed and one injured in a Rock Island freight wreck at Jennings, Kan., early this morning. A broken wheel was the cause of the wreck. Ten freight cars were piled up. The emigrant and his family were traveling in the car with their household goods. Others may be injured, as the wreck is badly piled up and has not been thoroughly searched.

SALARY INCREASED.

Washington, Feb. 27.—The house today by a vote of 151 to 146 adopted the conference report of the legislative and executive appropriation bill, which carried an increase from \$6,000 to \$7,500 in the salary of the secretary to the president.

he still had in mind the question of his client's mental condition. When Robin was taken from the courtroom for the luncheon recess, a large crowd hissed and booed him and this evening at the adjournment of court he was slipped out of a side entrance to avoid a similar hostile demonstration.

NO CONTRACT WORK.

Washington, Feb. 27.—The reclamation service will undertake the work of building a storage dam on Carson river, in connection with the Truckee-Carson irrigation project in Nevada, instead of letting the work out by contract. The secretary of the interior has authorized the service to begin the work.
