CAUGHT ON THE RUN ABOUT TOWN

For a few hours last night, Senator-elect Myers was in Missoula on his way from Hamilton to the city.

SENATOR THOMPSON, WHERE HE IS HERE

Senator Thompson, where he is here for the last time, Senator Myers was seen for a few minutes at the Florence by a Missoulian reporter; he is weary with the strain of the past few days and will welcome the relief which will come when he gets his judicial work in shape to leave. "My election came just when the court business was in difficult shape to leave," he said. "I have been working diligently to get things cleaned up but there was so much business pending that it has been hard to make headway. Judge Frank Henry of Livingston has consented to come over and sit for me in Sanders county; he will be here Wednesday and as soon as possible after that I shall turn the business over to him. Then I shall return to Hamilton, where there is considerable unfinished work to close up. I want to get through with it as quickly as possible and, as soon as I finish, I shall start for the east. I have had a vast amount of correspondence to attend to lately and this has made the demand on my time all the more exacting. I shall not be able to get all this correspondence out of the way until after I get east."

PLAN IS ONE-SIDED AGAINST US

O'CONNOR EXPLAINS THE EFFECT OF PROPOSED RECIPROcity AGREEMENT.

"I cannot see that the proposed reciprocity will benefit anybody but the railroads and some of the manufacturers," said M. O. O'Connor of the Kennedy Construction company, who has returned to resume the building of the Missoula sewer system, Mr. O'Connor was talking with a group of friends in the Florence last night and made this statement in reply to a question by one of them. "I have been down through North Dakota and Minnesota for several weeks and have observed the effect of the plan already. The people down there are opposed to the suggested agreement with Canada. They realize what it will do to their business. The only sentiment in favor of reciprocity that there is in Minnesota is in railway circles. Of course the plan would benefit the Hill roads; they would get a lot of business from the Canadian wheat fields but it would be at the expense of the farmers. Land values in Montana, Dakota and Minnesota would be destroyed by the reciprocity that is talked about now. With the uncertainty which now exists regarding the action of congress, it is impossible now to sell land in Dakota. We have some tracts there, wheat land, which we could have sold last year for \$50 an acre; this year it cannot be sold at all; nobody will buy with the prospect of free Canadian wheat. That is only one instance; you can find any amount of convincing proof that the effect of the plan would be disastrous to the American farmer. For what he loses by the reciprocity plan, he gets no compensation; there is nothing which he buys that will be cheaper for him. The Canadian wheat land is practically as good as the land in the Red River valley; it will raise fifty bushels of wheat to the acre, just as our land has been doing for 35 years; but our land will not do it any more without crop rotation and fertilizing. So the Canadian land will have the advantage until it has been worked out.

"The American farmer will suffer tremendously if he is put against the reciprocity that has been framed up for him. In Montana you will find that the bottom will drop out of your land values; the farmer will be the loser. The northwest senators and those of the prairie states, who have been opposing the agreement, have the people back of them. The attempt to represent the sentiment of the northwest states as being favorable to reciprocity comes from the railway people; there is no such sentiment where the proposition is understood. I cannot see how there can be any sympathy with the plan. It looks all one-sided to me and the short end of the deal is ours. It will affect Illinois and Ohio and New York, just the same. Of course the railroads want it. But the farmers should oppose it to the last."

CONTEST TO START TOMORROW

THIS IS THE DAY TO FILE YOUR NOMINATIONS FOR THE GREAT RACE.

Only one more day until you may begin on that high-salaried job. Some young lady of western Montana is going to pull down inside of the next two months, pay that is considerably more than that of a United States senator. That sounds like pretty good wages and indeed, it is, but there is nothing small about The Missoulian; we have great confidence in the young ladies of this part of the state, particularly. We know that at least one young lady will earn the money, every cent of it; no doubt more than one will earn it and our chief regret will probably be that we cannot give every candidate a luncheon.

Be sure and come to the office in good time tomorrow; get your receipts, report blanks and everything in a readiness for a good start Tuesday morning. We want you to be thoroughly advised on every point, to the end that you may do the most effective work from the beginning.

The contest man will be at his desk from early morning until late at night and will give you all the instructions possible.

POITRAS THREATENS MISSOULIAN

GAMBLER TRIES NOVEL AND UNSUCCESSFUL METHOD OF CENSORIZING NEWS.

B. Poitras, the keeper of the poker game faded Saturday night by the police, is a very unpropitious man. After he and the 12 arrested with him had secured their release from jail on bail, Mr. Poitras informed The Missoulian that, under no circumstances, must anything be said about the raid. "If you do," vociferated the diplomatic Mr. Poitras, "I'll make it mighty hot for The Missoulian."

"What form is your resentment likely to take?" was a question put to the indignant gambler, after he had been informed that the story must be printed.

"You just wait, you just wait," was the answer.

The Missoulian waits on Mr. Poitras and his wrath.

STANDING TIMBER IN PLENTY

Spokane, March 12.—Statistics compiled by A. W. Cooper, secretary of the Western Pine Manufacturers' association, show there is an available supply of standing timber in the inland empire to construct 17,000,000 four and five-room cottages, or sufficient to house more than half of the population of the United States and Canada. Four hundred mills in the district, having a total capacity of 3,000,000,000 feet, cut 1,465,000,000 feet or 60,000 cars of lumber in 1910; as against 1,250,000,000 feet in 1909. The value of the product at the mill is estimated at \$21,000,000, of which amount \$14,000,000 was paid for labor. Six million dollars was paid to railroads for hauling the output. The value of the stumpage cut is placed at \$3,000,000. The report shows that there is about \$10,000,000 invested in the industry in this district, and that the working capital employed ranges from \$25,000,000 to \$20,000,000. One hundred thousand persons are directly supported by the industry and 20,000 men are employed on a basis of 300 days a year.

OLD STENOGRAPHER TO GRADUATE

WOMAN SEVENTY YEARS OLD WILL GET DIPLOMA WITH YOUNG PEOPLE.

Spokane, March 12.—Mrs. W. C. Price, 70 years of age, widow of a veteran of the civil war, will be graduated with a class of young men and women in a local commercial college this spring, her diploma showing she is a competent stenographer and typist. She began her studies last September, attending school five days a week and up to today she has been absent from only one session. At the home of her son, Wray E. Price, 2618 Cleveland avenue, Mrs. Price said she will take up a homestead in Oregon after graduating and expects to open an office in a neighboring town, making a specialty of stenographic work and collecting to support her while acquiring 100 acres of land. Mrs. Price has been identified with the equal suffrage movement since 1880 and was the second woman to register in Spokane when the ballot was given to the women of Washington. She is opposed to the tactics employed by the militant element of England and elsewhere, believing the method is wrong.
