

LAW SCHOOL FACULTY IS NAMED

JUDGE JOHN B. CLAYBERG OF HELENA WILL BE DEAN EMERITUS OF DEPARTMENT.

SELECTION UNANIMOUS

H. W. Ballantine of San Francisco Will Be Acting Dean—Albert N. Whitlock of Richmond, Ky., Will Be Assistant Professor of Law—Means Strong Department at the University.

Helena, Aug. 1.—(Special.)—After considerable discussion of a nature that indicates there having been a wide difference of opinion among the members of the state board of education in the matter of the selection of the faculty of the law department of the University of Montana at Missoula, the board adjourned this afternoon, after having elected the following: John B. Clayberg, Helena, dean emeritus; H. W. Ballantine of San Francisco, professor and acting dean; Albert N. Whitlock of Richmond, Ky., assistant professor of law.

At the meeting on Monday Dr. Dunniway recommended Professor Henry of Louisiana as the head of the department. This brought to the front a discussion over the prerogative of the board of education to take the initiative in choosing members of the faculty of the state educational institutions, and there was a deadlock on the question. Those who favored giving the president of the university the sole right of nominating members of the faculty were: W. E. Harmon, state superintendent of public instruction, Helena; Walter Hartman, lawyer, Bozeman; S. A. D. Targen, superintendent of city schools, Great Falls; Ward H. Nye, superintendent of city schools, Billings; H. G. Pickett, real estate dealer, Helena. Those who opposed the motion were: Edwin L. Norris, governor, Helena; Albert J. Galen, attorney general; O. W. McConnell, lawyer, Helena; C. H. Hall, lawyer, Missoula; G. T. Paul, merchant, Dillon.

Difference of Opinion. After the selections had been made today there was a difference of opinion as to which side had won. Dr. Dunniway said the board acted on his recommendation in the selection of Judge Clayberg. Walter S. Hartman of Bozeman said the state board had exercised its right to select the law faculty, and that Judge Clayberg was selected on the initial motion of the board.

Said Governor Norris, a member of the state board of education: "The conclusion reached by the board was unanimous and the result is satisfactory to all concerned." The report that Judge W. H. Poorman, assistant attorney general, desired to be a candidate was erroneous. Judge Poorman said today that three weeks ago he had written to President Dunniway saying he was not a candidate, and this letter was read at the meeting of the board today at the request of President Dunniway.

The Faculty. Judge Clayberg has practiced law at Helena for many years and holds high rank in his profession. He was a member of the supreme court commission appointed several years ago to assist the supreme court, which was several years behind in its work, and for many years has been a lecturer before the law department of Ann Arbor and

MATTERS HOT IN MINERS' MEETING

PRESIDENT MOYER DENOUNCES PAPER OF INDUSTRIAL WORKERS OF THE WORLD.

EFFORTS AT DISRUPTION

"Political Ghouls" and "Scabs" Are Terms Applied to Members of Western Federation of Miners—Slurs Cast Upon Representative Victor Berger, Eugene Debs and Others.

Butte, Aug. 1.—There was a battle royal of words at the session of the convention of the Western Federation of Miners today. The fur flew, figuratively speaking, in a lively clash that occurred between the supporters of the Industrial Workers of the World movement and their opponents. The former were denounced as being constantly in conspiracy to disrupt the organization of the Western Federation of Miners and in turn the supporters of the miners' organization were denounced as reactionaries and not "militant" in the cause of the laboring classes. The tilt was precipitated at the opening of the session when President Moyer exhibited a copy of an Industrial Workers' paper published in Spokane and called attention to a cartoon and a communication regarding the Butte convention.

Political Ghouls. "I desire to ask," stated Mr. Moyer, "and the delegate can answer the question or not as he chooses, what question on this floor is a correspondent of that paper and is responsible for that article. This paper has on its front page a cartoon casting slurs upon Victor Berger, the socialist congressman whose career and acts were indorsed unanimously by this convention a few days ago. Similar slurs and vituperation are cast upon Eugene Debs and another socialist. I would ask if there are any socialists here who favor this denunciation of their comrades as political ghouls and rats?" asked Mr. Moyer.

There were responses of "No, no" from various parts of the house. "This paper denounces the Western Federation of Miners and the men who are supporting the cause of this labor organization as reactionaries and scabs; do the majority of the delegates on this floor believe that a paper of that kind should be indorsed?" asked Mr. Moyer. There were again responses of "No, no" from various parts of the house. In response to the question as to who was the correspondent of the Spokane paper who had signed himself "A Delegate," A. S. Embree of Nome union arose in his seat. "Mr. President," he said, "I wish to say that I am not responsible for the cartoon referred to. I sent a communication to that paper that was published in the issue of July 27 and was signed 'A Delegate.'" The admission called forth cries of "Throw him out." "Shame, shame," etc., from several delegates. "The men who are attempting to preserve this labor organization in its career of usefulness in behalf of the working classes are denounced as a bunch of scabs, and it is stated that the Butte Miners' union has a solid delegation that is the real thing," said Mr. Moyer. "I will say that if a paper of the kind that we call the capitalist press, that is represented at this convention by the three gentle-

SOLICITOUS NURSES

RESCUERS IN SIGHT OF ENTOMBED MINER

DRILL PENETRATES UNDERGROUND PRISON AND PRISONER IS GIVEN FOOD.

Joplin, Mo., Aug. 1.—Entombed 78 feet below the surface of the earth, facing a possible death from the rising water in the mine drift, Joseph Clary, the young miner caught by a cavern at the White Oak mine here Sunday, tonight feasted on fried chicken and joked with friends, who are waiting at the surface for his rescue.

The fourth drill hole put down in an attempt to reach his prison penetrated the roof of limestone late this afternoon. As soon as it was found that Clary was alive, he was supplied with food, which was lowered to him. The young man's mother has been prostrated from grief and was told that the young man was still alive. The news, the doctors say, saved her life. In talking to Clary it was learned for the first time that one of the former drift holes, which have been put down, penetrated the drift in which he is confined. He thinks it was the one that was sunk Monday. The drill hole penetrated the roof of the drift near one of the walls and Clary says that though he called up it until he was exhausted, he failed to get a reply and thought that the rescuers had given up hope of finding him alive. Then he became despondent. The work of sinking the rescue shaft is progressing rapidly and is now down about 50 feet, with every indication that it will have reached the entombed man by tomorrow noon. It is necessary to crib the sides with logs to keep the walls of the shaft from caving. It is not believed the water in the drift will prove dangerous as the mine is in what is known as "dry ground."

TRAMPLED BY HORSE. Butte, August 1.—(Special.)—As a result of the kick of a fractious horse he was trying to shoe, Albert McLeod is lying in the hospital tonight in a critical condition, his life despaired of, and Freeman Quinn is at his home with three ribs broken, with perhaps internal injuries. McLeod's skull is badly fractured, and his death is expected. Quinn was hit by the flying hoofs of the horse, but McLeod was knocked down by the brute's head and then trampled on.

DENIED. Paris, Aug. 1.—An official denial was given by Premier Caillaux today to the report that six German soldiers had crossed the French frontier from Lorraine and that, after cutting the telegraph wires, two of the Germans had been arrested and taken to prison at Longwy.

SIMON'S DOWNFALL IS ABOUT DUE

Port Au Prince, Aug. 1.—The capital has been completely invested by revolutionists, and it is probable that they will refuse a delay of three days asked for by President Eimon to perfect plans to secure the capital from pillage, and will enter the city immediately. It is probable that President Simon, who has consented to leave the country, will be obliged to embark tomorrow for some foreign port. There are enough soldiers in the capital to maintain order and the people here feel safe.

FOREST FIRE GETS FAR BEYOND CONTROL

FIERCE BLAZE ON SAN BERNARDINO RANGE IS NOW RAGING UNCHECKED.

San Bernardino, Cal., Aug. 1.—The mountain fire which for a week has been devastating the slopes of the San Bernardino range north of this city, tonight stretched for four miles along the backbone of the range. The exhausted rangers and their forces have given up the fight and it is believed that the fire will run unchecked until the entire range is laid bare. Millions of dollars worth of pine timber either already is turned into charred stumps or is in the path of the blaze.

At 5:45 p. m. today the fire wiped out Clifton Heights, a small resort near the summit at Skyland, the occupants of the camp narrowly escaping with their lives before the rush of flames. The conflagration rolled into great billows, passing Clifton and into Houston flats, where there are miles of unprotected timber. Backfiring on the east side of Houston flats to prevent the flames from the direction of City creek entering the timber, got beyond control of the firefighters and swept into the flats from that side.

No Lives Imperiled. Skyland was tonight confronted with almost certain destruction. No lives are imperiled.

The flames today swept the entire length of Little Bear valley and into Grass valley, from which place it will undoubtedly bear down on Fredalpa, a lumber camp and summer resort, and upon the lumber mills and camps of the Brookings Lumber company. That the entire mountain range from one end to the other was doomed, was the statement made tonight by Dr. J. N. Baylis, owner of much valuable property in the mountains.

FERRY STEAMER CAPSIZES AND EIGHT PEOPLE DROWN

Moscona, N. Y., Aug. 1.—Seven persons were drowned today in the St. Lawrence river when the ferry steamer Sirius struck a shoal eight miles below this city, capsizing and hurling its 75 passengers into the water. Four bodies have been recovered. The victims whose bodies were recovered were: MISSISS HATTIE and NETTIE PARKER, sisters, of Ogdensburg; MISS ADA DEWEY and FLOYD HACKETT, both of Massena. The identity of three persons who, according to the captain's tally, are missing, is not known. The steamer Sirius left here this morning for Cornwall, on the Canadian side, with 75 persons bound for a day's outing. Most of those aboard were residents of Ogdensburg and Massena. The Sirius started on the return trip about 4 o'clock this afternoon. Her passengers were seated on the deck when the crash came. The deck was swept bare in a moment. Women who could not swim clutched at campstools and other portable articles, while others, aided by male companions, fought their way to the overturned steamer. Picnickers at the International park nearby, in motorboats and skiffs, rushed to the rescue and saved many.

WHITE CONTINUES HIS LORIMER STORY

SELF-CONFESSED BRIBE-TAKER TELLS OF BEING APPROACHED BY BROWNE.

Washington, Aug. 1.—All day Charles White, the confessed bribe-taker of the Illinois legislature, was on the witness stand before the senate Lorimer committee, telling his tale of corruption, and when the committee adjourned until tomorrow his story had not been completed. White's testimony followed in outline that given at the first Lorimer investigation by the senate. Attorney Marble for the committee allowed the witness, however, to tell many details not mentioned in that hearing but published in White's so-called confession in the Chicago Tribune. Seemingly unperturbed and without qualification, White told of being asked by Lee O'Neil Browne, minority leader in the legislature, to vote for Lorimer and of being told by Browne that there would be no "chicken feed in it, either." He described in detail the alleged payment to him by Browne of \$1,000 as "Lorimer money."

The distribution of the "jackpot" or general corruption fund for legislation was described.

DEATH OVERTAKES ERRING WOMAN

FALLS OR IS THROWN FROM THIRD-STORY WINDOW OF A CHEAP HOTEL.

St. Louis, Aug. 1.—Mrs. Max Judell, stylishly dressed and living in a fashionable residence district, died at the city hospital today, following injuries received when she fell or was thrown from a third-story window of a downtown hotel. She was unconscious when found.

The police are seeking a young man who registered at the hotel at midnight with Mrs. Judell as "R. Pappas with his wife."

The woman's husband is out of the city on a trip for a cigar company. A witness to the tragedy was discovered by the police tonight.

A negro, who lives opposite the mouth of the alley in which the dead woman was found, told the police she was sleeping near a front window of her room. She was awakened by a loud noise, and, looking out, saw what later proved to be the body of Mrs. Judell fall from the window of the hotel.

A few minutes later, the negro said, she saw a man emerge from the hotel entrance, go to the mouth of the alley, where the body lay, look down upon it for a minute and then leisurely walk away. She says she later saw a second man emerge from the hotel but more hastily than the first. Several suspects have been arrested.

DIDN'T KNOW IT WAS LOADED.

Sheridan, Wyo., Aug. 1.—Willie King, aged 11, didn't know a repeating rifle was loaded when he pointed it at his playmate, Harry Storke, 15, it at his playmate, and pulled the trigger. The gun was discharged, sending the bullet crashing through the brain of young Storke and causing instant death. A coroner's jury afterward exonerated King by bringing in a verdict of accidental killing. The accident occurred at a sheep camp near the Monarch coal mine last evening.

LUNATICS LOSE TAFT TO GET FREE-LIST BILL

INSANE ASYLUM IN ONTARIO BURNS AND FIREMEN FIGHT FLAMES AND MANIACS.

SOME THRILLING RESCUES

Firefighters Are Compelled to Knock Insane Men Senseless in Order to Save Them—Eight Hundred Yelling Madmen, Along With Flames' Glare, Create Weird Scene.

Hamilton, Ont., Aug. 1.—Eight lives were lost and many persons were injured in a fire which partly destroyed one of the main buildings of the insane asylum on the side of the mountain southwest of the city, early today. There were 800 patients in the building when the fire was discovered and it was a well-trained fire-fighting corps and splendid coolness and bravery among the nurses and attendants under Dr. English that averted a more frightful loss of life.

There are four buildings within the asylum grounds. The main building, where the fire originated, was a four-story brick structure, with a basement, 200 feet in length and about 70 feet wide, with wings at either end. The 350 women patients occupied quarters in the west wing. The remainder of the building was taken up with the men's wards and contained some of the most desperate cases in the asylum.

The women were moved without serious difficulty to houses in the adjoining buildings. The situation was most serious. Fire broke out on the fourth floor in what is known as section D, where the violent insane are kept. The most of the men, guarded by attendants, moved down three flights of stairs out of the fire zone in orderly procession, but about a score, driven into a frenzy by the stifling smoke and the excitement of a midnight fire, fought off their rescuers with desperate fury. Three of them, after being carried down to the second floor, broke away and fled back to the blazing corridors.

The flames in the meantime had spread down the hallway and were entering their way through the floor to the third story. The asylum brigade, fighting bravely, was handicapped by the maniacs and was losing control.

Scaling Ladders.

The city brigade, which had been summoned, was then toiling up the almost precipitous roadway to the asylum grounds. It was nearly 2 o'clock before the first of their apparatus was brought into play. The firemen ran scaling ladders to the third and fourth floor windows, where it was believed some of the unfortunates had fled. They found it difficult to break down the iron gratings on the windows and the fire in the meantime was growing fiercer. Crawling into the stifling smoke, the firemen groped their way about until they found a maniac. He was still able to offer resistance and it was necessary to knock him senseless. He was then dropped into a lifeline.

The blazing roof of the asylum, perched on the mountain side, attracted the attention of the entire city. The cry "The asylum is on fire," rang through the streets and hundreds flocked up the hill. It was a weird scene. The screams of the 800 inmates of the four buildings drowned every other sound.

The firemen, fighting both flames and maniacs, were in constant peril and frequently were seen perched on window sills through which the smoke was pouring, trying to drag forth struggling men.

Tom Fitzgerald, of the electric truck is given credit for the rescue of five men. His sixth broke from his grasp at a window and fled back into the flames where he perished.

Provincial Detective Rogers and staff, who arrived from Toronto this morning, have been detailed to make a searching investigation. The fire is believed to have been caused by a short circuit of an electric wire in the storeroom on the top floor.

STILL VERY DRY.

Charlotte, N. C., Aug. 1.—No improvement marked the drought situation in this section today. Four additional cotton mills shut down.

SENATE PASSES KERN SUBSTITUTE FOR ORIGINAL MEASURE FROM THE HOUSE.

COALITION IS EFFECTIVE

Insurgent Republicans Join Democrats in Securing Important Changes to Bill—Free Admission of Meats, Flour and Cereal Products Shall Apply Only to Dominion of Canada.

Washington, Aug. 1.—The democratic tariff program was moved up close to President Taft today when the senate, by another remarkable coalition of democrats and republican insurgents, passed a farmers' free-list bill after voting down the original house measure so closely that one more democratic senator would have changed the result, and left the entire revision issue squarely before the president tonight.

"The unholy alliance," as the combination of the progressive republican wing and the democratic party has been called, swept aside a host of amendments, voted down by a tie vote the original house measure and then carried, by a surprising concentration of strength, a measure differing from the house bill only in comparatively unimportant particulars.

To Conference.

Now the bill goes back to the house and Democratic Leader Underwood of that body tonight confidently asserted that it will be finally agreed to in conference between the two houses and sent to President Taft. It is not certain that the house will insist on a conference, for many prominent democratic representatives, believing that the bill has not been materially changed, are urging that the house accept the senate bill without controversy and rush the first of the tariff measures up to the president.

"I think the bill will go to President Taft," said Mr. Underwood. "I am not sure it will be sent to conference. I certainly see nothing to prevent the two houses from reaching an agreement upon its final form."

Had Senator Bailey of Texas voted with his democratic associates, or had Governor Hoke Smith of Georgia, senator-elect from that state, been on hand and voted with his party, the free-list bill would have passed the senate unchanged and could have been in the hands of President Taft tonight.

Bailey's Wish Fulfilled.

Mr. Bailey announced last night that he hoped the privilege of casting the deciding vote would fall to him in order to show his opposition. Mr. Smith has insisted all along that he would not leave Georgia at this time to assume his seat in the senate. The house free-list bill was beaten on a tie vote of 39 to 39, was then reconsidered, changed by a compromise amendment offered by Senator Kern of Indiana, and passed, as amended, by a vote of 48 to 30.

The Kern Amendment.

Originally the bill provided that meat products, flour and cereal products, from all countries, should be admitted free in the United States. The Kern amendment provides that this free admission shall apply only to meats, flour and cereal products "coming from any foreign country with which the United States has a reciprocal trade agreement, and which shall admit from the United States free of duty cotton, corn, wheat, oats, horses, cattle and hogs."

It is admitted that this provision applies only to Canada, after the new reciprocity agreement shall have become effective. Senator Bailey, Senator Clapp and other insurgents who voted for the free-list bill after the Kern compromise amendment had been adopted, declared tonight that the amendment accomplishes what they tried to effect by amendments to the reciprocity bill. It admits the manufactured articles made from farm products free from Canada, an end which the insurgents repeatedly tried to gain in the reciprocity fight.

Several other amendments were adopted after they had been first defeated.

MEXICANS OFFER REWARDS FOR MURDER OF BRITONS

El Oro, Mexico, Aug. 1.—Mine managers learned today that 3,000 pesos have been offered to anyone who will assassinate Frank Jenkins, assistant manager of the El Oro mines, and \$1,000 each will be paid for the life of his brother, William Jenkins, and James Dunn, mine experts. All are Englishmen and have remained here in the interests of their company. F. M. Payton, the manager, also learned that two bombs had been placed in the mine and he asked the president of the republic to order a rigid investigation. None of the 10,000 miners in this nor-

Class Ad History

LXVI—GETTING THEM QUICKLY.

It is the promptness with which the class ad does its work that makes it such a desirable medium for reaching the very people you want to find. The recent chapters in the Class Ad History have tended to emphasize this very feature of the class ad's work. Here is one more case in point:

THURSDAY AFTERNOON, BLACK silk watch fob with K. P. charm attached to gold buckle. Finder notify James Tyack, Florence, Mont.

This ad didn't get into the Missoulian Friday morning, on account of the distance of the advertiser from the newspaper. But it appeared Saturday morning, telling of the loss of Mr. Tyack's fob. Before noon on that very day the fob had been returned. A Bitter Root man had picked it up at the Missoula Northern Pacific station. He returned it as soon as the ad told him whose it was. Why not let the class ad help you? It costs but 1 cent a word. If you're out of a job, the Missoulian will print your ad for nothing.
