

BOYS KILL BIG FISH WITH ROCK

LARGE BULL-TROUT MEETS HIS FATE IN VERY PECULIAR MANNER.

Jack Stone and Orville Worden should have been present at the anglers' banquet Friday evening. They could have told their story and it would have been placed immediately in the category of the Annanias tales with which the fishermen passed the evening. However, the boys came in with the real proof and their story is not to be doubted. Yesterday the two boys went out on a jaunt. They climbed Jumbo and upon descending walked over to the Missoula river. They began to throw stones into the river. One of them heaved in a good-sized chunk of rock and was surprised to see a big bull-trout come up to the surface belly-side up. The boys poled him into the bank and fell on him to make sure that he would not escape. They were not a moment too soon for he recovered consciousness and the two had a hard time to keep him out of the river. However, they held on to the fish, brought him back as "exhibit A" and will dine on fish today.

"The Hair and Its Care," Sent Free Upon Request.

The Herpicide company wants everyone to have a copy of their booklet telling how to take care of and possess nice hair. The booklet contains much valuable information on the subject of saving and cultivating the hair.

If the present-day men and women would begin to live up to the teachings of this little booklet it is doubtful if the next generation would find a baldheaded man or lady wearing false hair. It is just as easy to have robust and beautiful hair as to have thin, scraggy hair or no hair at all. If the scalp is kept clean and free from dandruff the hair grows naturally and luxuriantly.

The booklet tells how this may be most effectively accomplished by the use of Newbro's Herpicide. Herpicide destroys the germ which causes dandruff, frees the head from dirt and scurf flakes. The hair becomes light, fluffy and beautiful.

Newbro's Herpicide is the original remedy that kills the dandruff germ for which there are many imitations and substitutes and is just as good. Buy nothing but the original.

All reliable druggists sell and guarantee genuine Herpicide in one dollar size bottles. Send 10c in postage to the Herpicide Co., Dept. R., Detroit, Mich., and a nice sample will be sent with the booklet.

MEDICAL ASSOCIATION INVITES DR. M'CORMICK

The Missoula County Medical association held an interesting meeting last evening in Dr. Pease's office. The program included a paper and a general discussion upon "The Treatment of Spotted Fever." Among important items of business under consideration was the expected arrival of Dr. L. M. McCormick, an eminent physician from Kentucky, who will visit Missoula October 19. Dr. McCormick will give a free public lecture at that time upon some subject of general interest in the line of prevention of disease. The place and the hour of this lecture will be announced later by the local association.

LAST HONORS PAID MICHAEL SKONES

FUNERAL OF WELL-KNOWN RAILROAD MAN OF BUTTE IS LARGELY ATTENDED.

A large concourse of friends and fellow trainmen gathered at the Methodist church yesterday at 2 o'clock to pay full honor to the remains of Michael Skones.

Two former pastors of the deceased came from Butte to conduct the funeral services. Rev. J. A. Meek, pastor of the Grace Methodist church in Butte, and Rev. Edward Laird Mills, presiding elder of the Butte district, both took part in the solemn rites. Floral tributes were many and beautiful. The pall bearers, chosen from various departments of the service, were L. E. Greis, roadmaster, B. F. Ore and L. Johnson, foremen, J. R. Baldridge, engineer, J. Flemming, supervisor and F. R. Rudiger, conductor. The wife, the little son and the nephew of the deceased were the only near relatives, but there was a long cortege of friends to follow the casket to its interment in Missoula cemetery.

AUTO TRIP TO HELENA ENJOYED BY GIBSONS

Mr. and Mrs. A. J. Gibson returned from their automobile trip to Helena full of enthusiasm for the good roads and magnificent scenery that they found along the way. Going over by way of Ovando and Lincoln, they came home by way of Deer Lodge, covering 350 miles in the round trip. The magnificent yellow pine forests that are a feature of the country about Lincoln aroused Mr. Gibson's admiration as also did the great quantities of hay near Potomac. He said they counted 100 hay stacks, big ones, too, in one group and then they got tired of counting. Mr. Gibson also reported the state fair to be the best one he had ever seen.

BORDEAU STORE ROBBED.

Z. Bordeau's store in South Missoula was robbed some time Friday night, the fact not having been discovered and reported to the officers until Saturday morning. Entrance was made through a rear door, a hole having been cut through the panel large enough to allow a man to pass his hand through and turn the lock. Five suits of clothes and several pairs of shoes were taken. The police yesterday afternoon arrested Adolph Tingman, a man with a wooden leg, as a suspect. None of the goods was found.

A HARD TRIP.

Deputy Sheriff Hugh Kelley returned late last night from a two-days' trip on the reservation. He went from here to Plains by train and then drove across the country to Polson on Friday and back Saturday, the distance being 65 miles between the towns. The officer was called to make the trip to serve papers and summon witnesses for a district court case.

SCANLAN VISITS.

Joseph D. Scanlan, proprietor and editor of the Miles City Star, arrived in Missoula last night for a short stay. He has been visiting at the state fair and ran over to see some of his Missoula friends before returning on the Puget Sound this afternoon.

CARD OF THANKS.

We wish to extend our most heartfelt thanks to our neighbors and friends for their kind assistance during the illness and death of our beloved May.

"GRANDPA" GRINNELL IS LAID AT REST

At 3 o'clock yesterday afternoon funeral services were held over the remains of "Grandpa" Lyman Grinnell in the Methodist church. Rev. J. W. Bennett conducted the beautiful service and spoke of the sure promises that crown a life so long and so well lived. Many friends gathered about the casket for the last farewell and then followed to the cemetery for the services at the grave. Charles Hollingsworth, R. W. Angevine, N. T. Street, D. A. Sheldon, J. P. Payne and James L. Goodwin served as pallbearers.

RAILROAD OFFICIALS MAKE INSPECTION TRIP

Assistant General Superintendent Barrett of the Puget Sound arrived in the city yesterday morning and left immediately for Bonner with President Toole of the Blackfoot Railway company, Kenneth Ross and Superintendent Marshall. The party made an inspection trip over that part of the road which has just recently been completed and then went on several miles above McNamara's landing. The officials stated that the trip was only made as an inspection tour and signified nothing as regards future building.

ROMNEY IS EARNEST IN PLEA

RETURNING FROM STATE FAIR, HE SAYS RAVALLI COUNTY MUST DO BETTER

Hamilton, Sept. 30.—(Special).—Miles Romney, Mrs. E. A. Johnson, W. C. Harlan and Mr. and Mrs. Charles Macrae returned this morning from Helena, where they attended the Montana state fair. Speaking of the fair today, Mr. Romney pronounced it the best exhibition he had ever seen under the auspices of the state fair commission. "It was a fine show," declared Mr. Romney. "I don't see where it could be improved very much, except that Ravalli county ought to do more exhibiting there. This year Ravalli county had individual displays there and they all got ribbons. R. A. Mead took first premium with his hogs; Mrs. E. A. Johnson and H. A. Briggs gathered in prizes with their apples. The latter was given \$150 by Ravalli county to put an exhibit at the fair, and while the amount should have been \$1,000, Mr. Briggs gathered an exhibit that created much comment. Besides taking a beautiful prize cup with his apple display, Mr. Briggs cleaned up \$200 on premiums. We need a bigger and more comprehensive exhibit at the state fair. The fair is a hummer and ought to get our support. Ravalli county could put an exhibit at the state fair that would just about clean up everything. We have the grain, grasses, stock, vegetables, and fruits of all kinds. Why not show them to the rest of the state when we have a chance? I for one, and I have reason to know that many visiting the fair from the valley, feel the same way about the matter, believe that Ravalli county is missing a splendid opportunity for advertising its resources, in not getting a better and larger exhibit at the fair. With \$1,000 set aside by the county for this purpose, a fine exhibit could be shown and much good accomplished. This fair is about over, but there will be another next year. Let's get together and show them all the products we are so proud of here at home."

OCTOBER COURT.

Hamilton, Sept. 30.—(Special).—Chief of Court A. G. Baker announces that 51 cases are ready to be tried at the October term of the district court. The list includes 49 civil suits and but two criminal cases. It is possible that the two criminal cases will be dismissed. On Monday morning Judge R. Lee McCulloch will convene the October term of court, and on that day will set the cases for trial. A jury panel will be drawn to report on Monday, October 9.

TO THE HILLS.

Hamilton, Sept. 30.—(Special).—Eddie Hammond, Charles Barnes, "Bill" Sheridan and Jack Kleinoder left this afternoon on a hunting trip up the West Fork. They will go by wagon as far as possible and will then resort to a pack outfit, six horses being taken along for the purpose. They expect to get a long distance from civilization, where the big game is thick. The party expects to be gone from Hamilton about two weeks.

DOES NOT CARE FOR FREEDOM.

Hamilton, Sept. 30.—(Special).—John Sullivan, who last evening completed his 90-day sentence for vagrancy and was released, could not appreciate his sudden emancipation, and proceeded to mix up with another belatedly-inclined individual, and was grabbed by the police and chucked in the city jail.

HIGH UP.

Hamilton, Sept. 30.—(Special).—Miss Mary Gallego is exhibiting several crabapples grown at her home in the valley. They were produced at an elevation of 4,800 feet and without irrigation.

SCHULLY CAN SLEEP IN JAIL

FIRES A SHOT THROUGH HOTEL PARTITION BECAUSE SLUMBER IS DISTURBED.

Wallace, Sept. 30.—(Special).—Because the occupants of a room adjoining his own in the Brown lodging house disturbed him by talking when he wanted to sleep, William Schully last night fired a shot from an automatic pistol, the bullet passing through the thin partition and across the bed in which a sick woman lay. It missed her head by less than four inches. Schully was placed under arrest by a policeman who was hastily summoned, and lodged in jail for safe keeping until a charge could be lodged against him this morning. The name of the couple who so narrowly escaped death is not disclosed. Schully claims that he got tired of their talk, and called to them two or three times to "shut up." Finally he warned them that if they did not keep still he would shoot into their room. Thinking the threat was a bluff, the husband called out to him to "go to it." The shot was quickly fired.

POINTERS FOR THE MOTORIST

The Proper Way to Inflate a Tire. Incorrect inflation is one of the commonest causes of tire deterioration and to inflate too much is just as bad as to inflate too little.

Over inflation not only subjects the canvass of the envelope to an unnecessary strain, but also robs the tire of its resiliency. Thus, when running over an obstruction an over-inflated tire, instead of absorbing the shock, transmits the full force of the jolt to the mechanism of the car.

First inflate the car to the proper pressure and then make tests from time to time to assure yourself that the air pressure is up to the standard necessary for a tire of the size used when supporting its maximum weight. If the pressure has decreased the cause may be readily discovered. The seat of the valve plug may not be perfectly clean, causing a leak at that point, or, if the rubber washer at the base of the valve cap is displaced, the air will gradually escape. Then again, if pinchers were used in tightening the valve parts, the screw threads may be damaged, causing a leak.

Always inflate tires with air, never using gas. Carbonic gas will pass through rubber 13 times more quickly than air. In addition to the slight enlargement of a new tire after being in use for a few days a further natural decrease of pressure will follow, due to the escape of oxygen in the confined air. This loss should be made up by the injection of more air. As this is done the percentage of nitrogen will be gradually increased and the liability of slow deflation will decrease in proportion.

The Michelin Tire company of Milltown, N. J., publishes several instructional books on correct inflation and other important subjects. These are mailed free to motorists on request. One of the most useful features of these books is an inflation table showing the correct inflation for tires of different sizes and load capacities.

SNOWSTORM REPORT.

Wallace, Sept. 30.—(Special).—In its report for the fiscal year ending June 30, the Snowstorm Mining company shows that it paid \$44,955.09 in dividends, and that during the year 34,462 tons of ore, which assayed 7.98 percent of silver to the ton, and 3.93 percent in copper, were mined.

The receipts from all sources, including the estimated value of ore in transit, was \$717,354.48. The operating expenses totalled \$118,148.52, and for explorations and improvements, \$29,544.84 was paid out, making the net earnings for the year \$25,991.07.

Danderine

Stops Falling Hair and Destroys Dandruff

Makes the Hair Grow Long, Heavy and Luxuriant and We Can Quickly Prove It

If You Wish to Double the Beauty of Your Hair at Once, Just Get a 25 Cent Bottle and Try This

Surely try a Danderine Hair Cleanse if you wish to immediately double the beauty of your hair with little trouble and at a cost not worth mentioning—just moisten a cloth with a little Danderine and draw it carefully through your hair, taking one small strand at a time, this will cleanse the hair of dust, dirt or any excessive oil—in a few moments you will be amazed. Your hair will be wavy, fluffy and abundant and possess an incomparable softness, lustre and luxuriance, the beauty and shimmer of true hair health.

Besides beautifying the hair, one application of Danderine dissolves every particle of Dandruff, cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair.

Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. It's exhilarating, stimulating and life-producing properties cause the hair to grow abundantly long, strong and beautiful. It at once imparts a sparkling brilliancy and velvety softness to the hair, and a few weeks' use will cause new hair to sprout all over the scalp. Use it every day for a short time, after which two or three times a week will be sufficient to complete whatever growth you desire.

You can surely have pretty, soft, lustrous hair, and lots of it, if you will just get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter and try it as directed.

MUCH WOUNDED MAN IS COMPLETELY GONE

Billings, Sept. 30.—A special from Basin, Wyo., says: After lying in bed for three weeks receiving medical attention for 20 gunshot wounds in his neck, Steve Brown, a Greek, who killed James Van Garis, while duck hunting near Kane, escaped from the Basin hospital early this morning and no trace of him has been found. All day yesterday he complained of being sore and stiff, was unable to move in his bed. The nurse saw him at 1 o'clock last night and when she returned about 3:30 o'clock, she found the bed had been taken apart and the prisoner had escaped from the building, taking a foothold of the bed with him. She immediately called the doctor in charge and he notified the sheriff. Together the two men searched until after daylight this morning, but no trace of the missing man could be found.

Getting There

In spite of all obstacles, is a habit of ours. We carry prime meats and no other kind. Our aim is to have the best qualities only and let other butchers handle the inferior grades of meat. Consequently our regular customers know that for prime roast, lamb, mutton, veal or pork, for all kind of poultry in season, and for chops, steaks and cutlets, no competitor can approach us in quality. The same may be said of our splendid hams and bacon.

KOOPMANN & WISSBRO

PLEA OF INTOXICATION OFFERED BY MAGUIRE

Wallace, Sept. 30.—(Special).—John Steine, the lumberjack assaulted by William Maguire at Copper Camp, on the North Fork, last Friday, was able to be brought to Wallace yesterday, and with three fellow-workmen, gave testimony before the grand jury. Maguire, who is confined in jail, does not deny that he tried to kill Steine, hitting him on the back of the head with a double-bit ax, but says he was intoxicated, and that his wrath was aroused by Steine, who informed the camp boss that Maguire had abstracted from a boat a rifle and fishing rod belonging to Dr. Hanson of Wallace. The former man declined to give Maguire the amount due him until he returned the gun, which he produced and surrendered. He then started to leave the camp on foot, and was met on the trail leading to Murray by Deputy Sheriff Briedenbach, who arrested him.

BOXCAR THIEVES—PERHAPS.

Three unknown men were arrested here last evening and will be held awaiting an investigation as to whether or not they may have been connected with a boxcar robbery at Saltese recently. One of the men wore a pair of shoes which the officers believe must have been taken from the car. The trio was given lodging at the county jail.

MOTHER AND SON FOUND DEAD.

East Brookfield, Mass., Sept. 30.—Bound together by straps about their wrists, the bodies of Mrs. Mary Lacey and her son, J. G. Lacey of Fitchburg, were found in Lake Lashaway. Grief over a charge on which the son had been arrested is supposed to have led them to commit suicide. Mrs. Lacey was 53 years old and her son, 30.
