Change of Schedule
Beginning Monday, July 24, the big Sight-Beer will leave Ravalli at 6 a. m. Fare to Ronan, \$2.50.
The "Arrow" will leave Ravalli at 10:15 a. m., connecting with No. 41. Fare to Ronan, \$2.50; Polson, \$5.00. These cars connect with steamer Montana for Kallispell and on return trip connect with all afternoon Northern Pacific trains, east and west.

STANLEY SCEARCE.

No piece without this Trade Mark on it is genuine.

Cut glass. Our cut glass is cut by the highest grade cutters in this country. The cuttings are exquisitely done and wonderfully polished, giving it a clearness not found in the inferior grades. One piece of cut glass looks much like another on the day of purchase. Which piece, one or two months hence—the sparkling brilliancy will begin to appear dull and common? Only the expert eye can tell, except in a store of proved reliability, where every piece is a piece of quality glass. We have just received our Christmas stock and kindly invite you to call.

Yesterday was a happy day for the Methodist church people; they were notified of the completion of their new church building and their representatives formally accepted the structure from the contractors. There was not much ceremony about the function; the members had decided upon their action early in the day and met in the afternoon to perform the formal act. There was no dissenting voice and the building was received. It is worth the effort which it has taken; the new building is one of the handsomest church structures in the west. In less than a fortnight it will be dedicated and the people whose sacrifice and earnest endeavor have resulted in the completion of the artistic building will find their full reward. "It is an important day for us," said John H. Inch yesterday afternoon to the Man About Town. "We have been looking forward to this for a long time and we are happy that the realization of our hopes has at last come."

John C. Lehou has given the Man About Town as handsome a group of apples as was ever seen. It is a branch about two feet long and it contains 15 full-sized red apples, perfect, handsome fruit. "This branch," said Mr. Lehou, as this I don't know what variety foot of which was as heavily laden as this. I don't know what variety the apples are. I grafted some old trees I had on the farm about ten years ago and these are from one of the grafts. I have forgotten what the name of the variety is and I have not found anybody who can identify the apples. But they are fine fruit and the trees are the best bearers I have." The branch was seen by many people yesterday, all of whom admired it much but none of whom was positive as to the name of the apples. But the name doesn't matter so much when you can get such apples as these and it would not be a bad idea to call this apple "The Lehou" and let it go at that. It is a good name and the apple is certainly a good apple. The two would go well together.

The sewer diggers are making fast work of the main trenches of the storm sewers. This part of the construction work is being rushed as fast as possible. The ditches are filled as fast as the big pipes are laid and the streets are blocked as little as possible. "On this work," said Engineer Swearingen to the Man About Town, "we are planning it so as to interfere with traffic as little as we can. The mains will be laid the entire length of the streets before we start on the catch basins and connections. When we get the mains laid, we shall start with the construction of the basins; these and the connections will be finished on one side of the street before the other side is started. In this way the street will not be entirely blocked at any one time and the work at no point will keep the street closed for any great length of time. The catch basins will be about four feet deep below the gutter and eight-inch pipe will connect them with the mains."

Hastily gathering up his personal effects and taking a hasty lunch after getting the Madison Square exhibit started for the east, Secretary Breitenstein of the Missoula Chamber of Commerce last night boarded No. 42 and headed for Manhattan Bay. He will get there ahead of the display and will at once, with his associates, take up the preliminary work of booth construction and arrangement. "The contract for the construction of our booth has been awarded," said Mr. Breitenstein to the Man About Town yesterday afternoon, "and we shall get things ready at once for the decorative work by the time our carload of stuff gets there, we hope to be ready for it. In our section will be the Clark's Pork Land company display, the Forestgrass county exhibit and the alfalfa display which has been planned by Dr. Sudduth of Billings. These will be grouped as the Montana exhibit, though Bozeman will have a space by herself and the railways will specialize to a great extent in Montana products. We expect to work together harmoniously. Everything so far has been very cordial."

Contractor Shackleton has the Elks' building moving along at a fast rate. Yesterday the last touches were given to the concrete sidewalk pavement around the big structure and, inside, every man who could be worked to advantage was on the jump. Mr. Shackleton expects to have the building ready to turn over to the owners inside of 30 days. "I see no reason why we cannot finish in that time," said he yesterday to the Man About Town, "and if the heating plant is not delayed in installation there is no reason why the dedication cannot be had on Thanksgiving day, as the Elks have planned. It looks to me as if things would be ready by that time; the finishing is going ahead in good shape and the hardest part of the work is already done. We are making every effort to make it possible for the plans to be carried out for the dedication as they have been arranged."

JENSEN TO HUNT.

FAREWELL MESSAGE OF M'ABOY

YOUNG MAN LEAVES FOR CALIFORNIA TO SEEK RESTORATION OF HEALTH.

F. E. McAboy left yesterday for San Diego, Cal., accompanied by Mrs. McAboy. He is seriously ill and fears that he will never see Missoula again. He fled Missoula as if the law were after him, for he knew that the pain of leaving-taking would be too great to endure. Practically everybody in the city knows Mr. McAboy, who is one of the cleanest, brightest and most capable of the young men who have come to Missoula within recent years. He made good from the minute he arrived and served in responsible positions. Lately he has been chief deputy in Assessor Currie's office. Not so very long ago he married. Some time after this he learned that in his lungs he harbored the seeds of death; soon his condition made it imperative that he leave Missoula and Montana for the coast. He felt himself unable to say goodbye to his friends; to them he left the message that he feared nothing so much as that he might never be able to return to see them. He is a good boy; may the sunshine of California coax back his health.

COOKING SCHOOL DRAWS MANY MISSOULA LADIES

A large number of Missoula women attended the cooking school of Professor Wulff in the establishment of the Missoula Mercantile company yesterday. Professor Wulff proved himself a capable instructor and demonstrator and the lessons of the afternoon were valuable. The attendance of yesterday indicates that the cooking school will be a distinct success. Professor Wulff will conduct his school every day of this week, from 2 to 5 o'clock in the afternoon.

DEFENSE OF INSANITY DISREGARDED BY JURY

Los Angeles, Oct. 17.—Mrs. Caroline P. Ford, who shot and killed her husband, A. P. Ford, president of the Merchants' Fire Dispatch, at a breakfast table quarrel last June, was declared not guilty of murder by a jury in the superior court today. The judge instructed the jury to find the verdict on the ground of insanity, but the jurors who had heard testimony to the effect that the woman, who was considerably younger than her husband, had been reviled by him, found a verdict of self-defense.

YOUTHFUL DEBATERS IN ACTION

SIX SPEAKERS ARE NAMED IN PRELIMINARY TRY-OUT AT LOCAL SCHOOL.

An interesting preliminary try-out for debaters was held at 3:40 o'clock yesterday afternoon in the high school auditorium. Twelve students spoke five minutes each on the question of the "Open Shop," which is the one chosen for debate in the interscholastic series this year. Principal Stejer, Miss Wooden and Miss Levenberger served as judges and accomplished the difficult task of determining the six speakers who are to take part in the final preliminary two weeks from today. Eugene Angevine, Harold Baker, Paul Barden, Miss Lulu Wright, Stuart McHaffie and John Patterson were selected yesterday and from their number will be chosen the debating team to represent Missoula county in the coming interscholastic series. David Lever, instructor in public speaking, is highly pleased with the quality of work done by the speakers yesterday. He is hopeful of a place well toward the head of the list—perhaps even first place—for Missoula county in this year's series. Mr. Lever is also pleased to report that a number of students have entered their names for a try-out in extemporaneous speaking, looking forward to the annual meet in Bozeman next spring.

LOCAL JAIL HOLDS DESPERATE PRISONER

A night or so ago the Missoula county jail held a desperate man, Charles Rush, wanted in Tacoma for murder and robbery committed three years ago. Rush was one of the two men who held up a street car in Tacoma in the summer of 1908, robbed the conductor and shot the motor-man. His partner in crime was sentenced to life imprisonment, but Rush was never captured until a week ago, when he was located in St. Louis. Deputy J. E. Darnell of Tacoma, who is taking Rush back for trial, travels by day only and never takes the handcuffs from the prisoner's wrists except when the man is safely behind the bars of a prison. Rush will be landed in the Tacoma jail today.

TIEDT COMPANY PICKS ITS FOUR OFFICERS

The Tiedt Land & Orchard company yesterday morning held its election of officers with the following results: President, William J. Tiedt, Como; vice president, M. L. Dean, Missoula; treasurer, E. J. Weeks, Michigan; secretary, A. J. Breitenstein, Missoula. These officers, with John Hutchinson of New York, will constitute the board of directors. An extensive appropriation has been made for improvement and development work on the property of the company near Como. Two hundred acres of land will be cleared at once, plowed and planted in the spring with orchard trees. There are some new buildings to be constructed and the old buildings on the place are to receive extensive repairs and alterations.

EVERYTHING READY FOR CATHOLIC FAIR

The congregation of the Catholic church has arranged for a fair to be held in Bennett hall during the week of October 23 to 28 inclusive. In addition to the usual variety of articles which are put on sale on such occasions, refreshments and dinner will be served daily. The preparations have been under way for the past month and it is the intention of the committee to make this fair surpass all others that have been held in the east. The purpose of the fair is to obtain funds to apply on the indebtedness of the church and the newly erected high school.

IT IS EASIER TO SAVE THE HAIR
You Have Than to Grow New.
The tendency to put off until tomorrow what we should do today accounts for most of the bald heads we see in the front row.

Neuberg's Herpicola stops falling hair and prevents baldness. The dandruff germ is destroyed by its use and a condition of health maintained in the hair and scalp.

Nearly everyone has hair troubles of some description which Herpicola will always correct. Don't wait until it is too late.

It is conceded to be the standard hair remedy and is recommended and applied by all the best hair dressers and barbers.
One-dollar size bottles sold by all druggists under an absolute guarantee.
Send 10c in postage for sample and book about the hair to The Herpicola company, Dept. R., Detroit, Mich.
Missoula Drug company, special agents.
LICENSED TO WED.
A marriage license was issued yesterday to Roy L. Metcalfe of Missoula and Nimona R. Smith of St. Louis.

PLEASING MEETING OF CHURCHMEN

CONGREGATIONAL MEMBERS MEET AS ONE BIG FAMILY AND DISCUSS YEAR'S WORK.

Between 75 and 100 members and friends of the Congregational church gathered about tables abundantly spread by the Ladies' Aid society last evening for the annual church supper and business meeting. The Misses Beulah Waltemate, Lella Paxson and Selma Anderson assisted the ladies in serving. After the feast was over, G. C. Rice, principal of the Hawthorne school, sang two solos most acceptably and Miss Mabel R. Smith read two selections. Miss Smith's artistic interpretation is always a delight to her hearers and last evening was no exception.

After the social session was over the reports of the church officers were read. These were highly satisfactory, showing progress along all lines in the organization, especially an increased church membership and a flourishing Sunday school.
Rev. E. E. Burtner, the pastor, then made an inspiring address, expressing deep appreciation of the conditions which had surrounded his first year's work here and outlining the needs of the church and the work that should be done during the coming year.
The election of church officers then took place, resulting as follows: Deacons, Messrs. Cruikshank, L. C. Plant and Rehder; clerk, Miss Henri Etta Akin; treasurer, M. R. Marshall; financial secretary, F. Pratt; Sunday school superintendent, Mr. Cruikshank; assistant superintendent, Mr. Fulson; historian, Mrs. Charles Smith; deaconesses, Mesdames Pratt, Bennett and Charles Smith.

DANCES BY THE BAND OPEN AT THE ELITE

Driven in from the advantages of the park pavilion for its weekly dances by cool weather, the Missoula band has decided to bring the entertainments to the city and has engaged the Elite hall for a series. To give a few dances is the only means which the band men have during the winter months to make a few dollars in their line and the undertaking should be generously supported. The band has fulfilled its every obligation to the Missoula public for the past two years. It has barely been able to meet its expenses through the subscriptions collected and for this reason the organization deserves more credit and strong support in every undertaking that means a few dollars added to its treasury. The first dance of the weekly series at the Elite will be given Thursday evening. The music will be by the full band and it will be fine for dancing. The dances will be conducted in such a manner that none needs hesitate about attending.

DELEGATES NAMED BY COMMISSIONERS

Yesterday morning the county commissioners appointed two delegates to represent Missoula county at the American Apple congress, to be held at Denver on November 14, 15 and 16. The commissioners named F. S. Lusk and Fred T. Parker.

SOCIALIST NOTES.
The prospectus sent out by the Socialist Lyceum bureau is a work of art and promises to be a great aid in selling tickets for the course. It contains portraits and sketches of the five lecturers of the Pacific division. The first page is devoted to the socialist vote of the world, which it shows has increased in the United States from 2,000 in 1887, to 604,756 in 1911, and says, "Read these figures and wake up."

It is not generally known that this course of lectures is given throughout the country. Charles Edward Russell is to open the course of the Atlantic division, and W. P. Ries the Western division.

"War, What for?" is one of the premiums given with a lecture ticket. The "Next Step" and the "National Rip-Saw" were distributed last Sunday by members of the local. The latter journal is now edited by W. S. Morgan and Kate Richards O'Hare, and this number has a strong article by Mrs. O'Hare entitled, "Dives and Lazarus."

SUNDAY SCHOOL BOARD.

The Sunday school board of the Methodist church met last evening at the home of Dr. and Mrs. Himes on South Fourth street. About 20 members were present and after the business of the hour was dispatched, Mrs. G. A. McMichael sang two enjoyable solos. Mrs. McAllister read two selections and the host and hostess served refreshments.

ROBINSON STARTS.
Minneapolis, Oct. 17.—Aviator Hugh Robinson started on his Minneapolis to New Orleans flight at 9:12 today. The weather was ideal for the trip. He arose in his hydro-aeroplane from Lake Calhoun to an altitude of about 3,000 feet and headed east over Lake Street to the river. He will follow the river to New Orleans.
