Saturday was a busy day in our suit and coat department. The 155 samples bought at such a great reduction and marked to sell correspondingly low, attracted many buyers, and many purchases were made. The remainder of these fine garments will be featured today and another big day is anticipated.

## 90 of the Most Magnificent Suits

Regular values, \$25 to \$50, we can sell them for

**\$15 to \$35**

Every one a beauty. Every one a bargain. Every one a suit to be proud of.

Such an array of beautiful suits! Undoubtedly the largest ever seen in any Montana store. And such a variety of models and rich materials. The trimmings set them off so tastefully; you will be glad that you came to see them. The high-class chevrons and heavy mixed chevrons, blue serges, black broadcloth and the pleasing effects in diagonal goods so popular this year, are all well represented in the new arrivals. The trimmings are of high priced velvets, silks and fine braid, and they grace these fine garments most delightfully; the linings are all the best that are made; the workmanship is the highest that can be turned out. Every suit is a high-class bargain and we feel sure that every one will transcend your highest expectation.

The big line of traveler's samples from the M. Hymen & Co.'s ladies' suits, and the Marcus Pallak & Co.'s coat factories which we recently bought and placed on sale Saturday, is certainly the greatest collection of fine bargains ever shown in any western store. We purchased them at a discount of 40 per cent, and we are selling them at the same per cent off, and every one of them is a makeup that the most critical dresser would be proud to own. The two manufacturers in question are the most extensive designers and makers of ladies' fine suits and coats in the United States, and their names stand for all that is perfect in ladies' fine tailored garments. If you were not a buyer Saturday, visit our store today. We have a splendid surprise for you in our beautiful and up-to-date ladies' ready-to-wear department.

## 65 Beautiful New Sample Coats

Regular values, \$25 to \$40, we can sell them for

**\$15 to \$25**

Missoula's best store to the front with high-class bargains Monday.

One of our big specials in classy coats; 65 aristocratic affairs; enough to stock an ordinary sized store for the whole season; the aggregation is made up of high types only, not one among them that you would not admire. The materials of broadcloth, soft finished kerseys, double faced cloakings and heavy fancy mixtures, are all rich and expensive, and they give the wearer an appearance that others are glad to see. Some are plain tailored and thoroughly lined with fine satin; others are set off with handsomely corded cuffs and collars and are very showy, but not without the best of taste. This department will be a busy place today, but our second floor is spacious and there are so many interesting and beautiful things to see that every lady who comes up town will be expected.

## The Redfern Corset

Your figure is improved or marred by perfect or imperfect corseting.

*The Artist is the Critic*

THE fashionable woman knows that her figure is made by the corset. She may have beautiful natural lines from the artist's point of view, but she knows that her form must be modeled by the corset into the contour which is the mode.

On the boning of the fashionable corset rests the shaping power. The corset cannot take the natural figure and shape it into fashionable lines without a boning capable of the most sinuous curves.

**Redfern Whalebone Corsets** Represent the best there is in corset designing and making.

Every part of the figure in a Redfern is relaxed. This pliancy, while not due to any one feature, is largely due to the nature of the boning, which is the rarest whalebone.

There never has been a boning to supplant whalebone for fine corsets, nor is there a boning substitute that has the excellent lasting quality of whalebone. You may pay from \$15 to \$35 for a corset that is custom made—the trimming may please your eye, but the actual shaping and wearing do not compare with the REDFERN WHALEBONE CORSETS, which cost from \$15 down to \$3.50.

### Best in Corsets

Redfern Whalebone Corsets are our "classy" models. Your figure is made with a Redfern. We can commend to you no other corset that will so completely fill these requirements as a Redfern; it has the only boning that will do it—Whalebone. We have all the latest styles. Your figure can be made into good lines without a sense of corseting—that is, the corset is not paramount. Figure flexibility is the impression that must be conveyed—no hard, decided lines shown in the contour.

### Distinguished

This particular cut shows a beautiful, close-fitting corset, shaping a "stunning" figure. For tall, full figures who need a corset with a more generous hip and bust measurement than can be found in most models. Low bust and very long below the waist. A Redfern is a choice corset—it is boned with the best quality whalebones. This corset is equal in shape to the most expensive corset you can buy, but excels for quality and comfort.

### MRS. STEBBINS THE RENOWNED CORSETIERE

Mrs. Stebbins of New York, for many years demonstrator for the Redfern corset, and one of the most competent in her line of work, will be at our store today (October 23), to remain one week. Every Missoula woman should receive a few lessons in perfect corset fitting, as it is upon this art that her figure depends.
