

A BEAUTIFUL SOUL HAD KEMP

UPTON SINCLAIR PROBABLY WILL GET HIS DIVORCE, BECAUSE OF THE POET.

New York, Nov. 30.—Upton Sinclair, author and socialist, will get his divorce from his wife, Meta F. Sinclair, if the court approves the recommendation made yesterday by Referee Keyley, who has been taking testimony in the case since October 13. With the recommendation for an interlocutory decree went the referee's report of the testimony containing interesting details of life at Arden, the summer camp of the Sinclair colony, while Harry Kemp, the Kansas poet and co-respondent in the case, was a dweller there, with other literary people.

Ellen Barrows, stenographer for Sinclair, testified that Kemp was in company with Mrs. Sinclair most all the time he was at Arden, and frequently they took long walks together. Once, she said, Mrs. Sinclair remarked to her of Kemp: "He makes me very happy, he has the most beautiful soul I have ever known."

Miss Barrows, in describing the living quarters of the Arden company, said that Mrs. Sinclair lived in the "big house" and her husband lived in the "little house," about a city block distant; but when Kemp came to Arden they changed abodes and Kemp pitched his tent near the "little house."

Visits by Mrs. Sinclair and Kemp to New Jersey coast resorts were testified to by other witnesses.

Sinclair testified that he had introduced Kemp to his wife three years ago in Battle Creek, Mich. The author said Kemp had given assurances that his friendship for Mrs. Sinclair was purely platonic.

It appeared by the report that Mrs. Sinclair's attorney moved to dismiss the suit on the ground that Sinclair had condoned his wife's acts.

In denying the motion, the referee said: "It is true that the husband is regarded as the protector of his wife, but I hardly think the most ardent advocate of the female side of the proposition could insist that the husband should devote his whole time to the protection of his wife. The only weapon that he is permitted to use in this enlightened age is moral suasion, a weapon of but little effect in these days of barometric depression of the marital ether, occasioned by these go-called affinity storms."

TIME TO KNOW THIS.

What Hem-Roid Will do For Any Woman With Piles.
Many a woman drags along a life of misery with piles because she does not know of Hem-Roid, the sugar-coated tablet remedy that cures any kind of piles by restoring good circulation of blood in the swollen, clogged parts.
Hem-Roid is sold under a guarantee of satisfaction by Missoula Drug Co., and all druggists. \$1 for 24 days' treatment. Dr. Leonard Co. Station B. Buffalo, N. Y., mails a free booklet describing it.

WILL REPLY TO GREY.

Berlin, Nov. 30.—Imperial Chancellor von Bethmann-Hollweg and foreign Secretary von Kiderlen-Waechter will reply in the reichstag next week to the speech on the Moroccan situation made by British Foreign Secretary Sir Edward Grey in the house of commons Monday. It may be that one or both of the German statesmen will indicate an opportunity for England to manifest its good will to Germany, either in connection with the Bagdad railway or with the consolidation of the German colonial empire in Africa by cession of Belgian or Portuguese territory.

A NOBLE RECORD

Of many hundreds of thousands of cures forms a well sustained basis for every claim put forth by the makers of DR. PIERCE'S GOLDEN MEDICAL DISCOVERY as a remedy for many of the troublesome affections which afflict mankind; yet it is not extolled as a "cure-all" by any means. No extravagant promises are flaunted before the public to arouse false hopes in the afflicted. Your neighbors probably know of some of its many cures; ask them.

Through strengthening and arousing the stomach, liver and bowels into vigorous action, digestion is promoted, whereby the blood is enriched and purified, disease-producing bacteria destroyed and expelled from the body, and thus a long list of skin, scrofulous and kindred affections are overcome and sound, vigorous health established.

The "Discovery" contains no alcohol and no habit-forming drugs, and has its every ingredient printed on its wrappers. This OPEN PUBLICITY places it in a class distinct from the ordinary secret nostrums with which it has no relationship. Physicians, therefore, do not hesitate to prescribe it in bad cases of indigestion, torpid liver or biliousness and in skin and blood affections. People of intelligence and keen discernment employ it. The "Discovery" is a pure glyceric extract of native medicinal roots of great curative potency, and can in no case do harm to either child or adult. The aged find it a great invigorator.

You can learn more about this time proven and popular "Discovery" from the People's Common Sense Medical Adviser, by Dr. R. V. Pierce, a newly revised, up-to-date edition of which is now offered, in cloth covers, post-paid, for 31 cents in one-cent stamps, to cover cost of mailing only; or in paper covers 21 cents. Address: World's Dispensary Medical Association, R. V. Pierce, M. D., President, 663 Main Street, Buffalo, N. Y.

TREATY WITH RUSSIA OBNOXIOUS

SENATOR REED SAYS UNITED STATES SHOULD LOOK AFTER ITS CITIZENS.

Kansas City, Nov. 30.—Abrogation of the treaty with Russia, unless adequate equality be extended to American citizens traveling under passports of this nation, is urged in statements made here yesterday at a meeting of prominent Jewish citizens by United States Senator James A. Reed and Representative William P. Borland of the Fifth Missouri district. Both favor the adoption of the resolutions pending in congress to terminate the existing treaty of 1922 with Russia.

"The question is not one of race or creed," said Senator Reed. "We simply are called upon to answer: Will the United States insist that Russia recognize American citizens as Americans, granting to all the same privileges? This Russia has persistently and impudently refused to do. For more than 30 years she coolly has broken her treaty obligations."

"Diplomats of great character have been unable to accomplish relief by negotiations. The time has arrived to act. We should maintain no longer treaty relations with a government which does not respect treaty obligations."

MINER CARRIES DRILLS WHICH STRIKE TROLLEY

Wallace, Nov. 30.—(Special).—Death came quickly to William H. Demuth, a miner employed on a drill in the Standard mine at Mace, Tuesday. Demuth, while an experienced miner, had worked but a short time in the district, coming from Lead, South Dakota. He is unmarried, and is known to have several brothers and sisters in the east.

The victim of the accident probably never knew what caused his death, but it is due in a large measure to his extraordinary size and strength. Carrying a big bundle of drills on his shoulder he walked back through the tunnel in which he and his partner were working. Coming to the machine, instead of stooping and dropping his load, he stood erect and swung the drills from him as one would an ax. The drills came into contact with the trolley wire overhead, and Demuth fell. His partner ran to him, but examination showed that he was dead. There was not the slightest trace of a burn or other mark on any part of his body. Investigation by the coroner proved that an inquest was unnecessary. Relatives of the unfortunate man have been notified of his death, and pending receipt of their answer, tentative arrangements for the funeral are being made by the Odd Fellows and Knights of Pythias, to both of which he belonged.

POINDEXTER ATTACKS THE WORKS OF TAFT

Minot, N. D., Nov. 30.—A severe arraignment of President Taft's administration was made here by Senator PoinDEXTER of Washington, who fired the opening gun last night in the La Pilette campaign in North Dakota. Senator PoinDEXTER accused President Taft of repudiating his pledge to work for a tariff revision downward through his advocacy of the Payne-Aldrich tariff bill, of aiding and

abetting the Alaskan syndicate in the exploitation of the resources of Alaska, of attempting to read progressive republicans out of the party, of punishing progressive senators and representatives by withholding patronage and of being unduly solicitous of the welfare of trusts and combinations of capital.
He made a strong plea for the nomination of Senator La Pilette, whom he characterized as one of the world's greatest progressive statesmen.

Thompson Falls, Nov. 30.—(Special). The Northern Pacific Railway company has filed with Clerk of the Court Nippert a civil case against Sanders county, and the same has been filed against Lincoln county, involving the taxes on a tract of land lying between Sanders and Lincoln counties on which both parties claim the taxes amounting to \$293 on an assessed valuation of \$59,000 worth of property.
The Anaconda Copper Mining company has filed a similar interpled suit and deposited with the clerk of the court the amount involved \$924.71, to be held by him until such time as he receives an order from the court to deliver it to the parties entitled thereto.
Both of these cases are entered by the respective plaintiffs as interpleaders between the two counties, and the defendants will have to show cause in the courts to determine which one is entitled to the tax money, involving an aggregate of \$1,327.71.

COUNTIES IN DISPUTE AS TO TAX COLLECTION

Thompson Falls, Nov. 30.—(Special). The Northern Pacific Railway company has filed with Clerk of the Court Nippert a civil case against Sanders county, and the same has been filed against Lincoln county, involving the taxes on a tract of land lying between Sanders and Lincoln counties on which both parties claim the taxes amounting to \$293 on an assessed valuation of \$59,000 worth of property.
The Anaconda Copper Mining company has filed a similar interpled suit and deposited with the clerk of the court the amount involved \$924.71, to be held by him until such time as he receives an order from the court to deliver it to the parties entitled thereto.
Both of these cases are entered by the respective plaintiffs as interpleaders between the two counties, and the defendants will have to show cause in the courts to determine which one is entitled to the tax money, involving an aggregate of \$1,327.71.

THANKSGIVING

When President Taft turned down the request of bankers throughout the country and issued his proclamation setting apart Thursday, November 30, as the day to be devoted to prayer and thanksgiving, he incidentally called attention to a peculiar circumstance in connection with this festival day. This condition arises only in those years which have five Thursdays in November. In all other years it is plain sailing for the president—he has no choice and simply follows precedent in selecting the fourth or last Thursday of the month. But this year there happened to be five Thursdays. The bankers desired that the fourth one be named as the holiday, arguing that if the 30th should be chosen the presence of a bank holiday so closely preceding the opening of a new calendar month would entail much unnecessary work upon the banking fraternity and would render the preparation of their monthly reports laborious. But the president was unable to see it that way and, consequently, framed his proclamation with the "last Thursday of November" as the basis of his appeal.
Contrary to generally-accepted belief Thanksgiving day is not a national

holiday, although it is generally observed as such. The laws of many of the states make Christmas, New Year's day, Fourth of July, Thanksgiving, Arbor day and Labor day legal holidays. Thanksgiving is the only one which is based upon presidential edict, and whatever may be the observance is more a matter of deference than duty. Almost without exception the governors of the several states follow in the lead of the president and call upon the residents of their several commonwealths to assist from labor on that day and return their thanks for a manifold blessings. But there was one notable exception to this practice. A number of years ago, during the Cleveland administration it happened that there was a November which had five Thursdays—the same as this year. President Cleveland issued a neatly worded proclamation naming the fourth Thursday as the day to be devoted to prayer. This document falling under the eye of Governor Sylvester Penneyer of Oregon, that executive ever mindful of his burning hatred for the democratic president, remarked:
"I will show Mr. Cleveland that he is not so many. Who is he that he should come along and upset precedent and command us to worship on any particular day. Thanksgiving should be observed to be sure, but it should be the last Thursday of November, as usual."

Thinking thus, Penneyer dipped his pen in wormwood and affixed his signature calling upon the people of the great state of Oregon to observe the last Thursday of November as Thanksgiving day. And thus it happened that during that year the people of Oregon enjoyed the unique distinction of observing two legally-declared Thanksgiving days. On the day named by the president the postoffices and national banks feasted, while on the day named by the eccentric governor, the state and county offices and state banks closed their doors to all official business. Governor Penneyer worked throughout the president's Thanksgiving day and at night made the remark which made him famous for a brief time:
"Let the president attend to his own business and I'll attend to mine."

HYDE JUROR ILL.

Kansas City, Nov. 29.—Illness of Henry Waldron, one of the jurors, may cause a delay in the case of Dr. B. C. Hyde, on trial for the murder of Colonel Thomas H. Swope. Waldron became ill today, preventing the jury from taking an outing planned for the holiday. Waldron is a dairy farmer and worry over the possible ruin of his business while he is held as a juror, brought on an attack of stomach

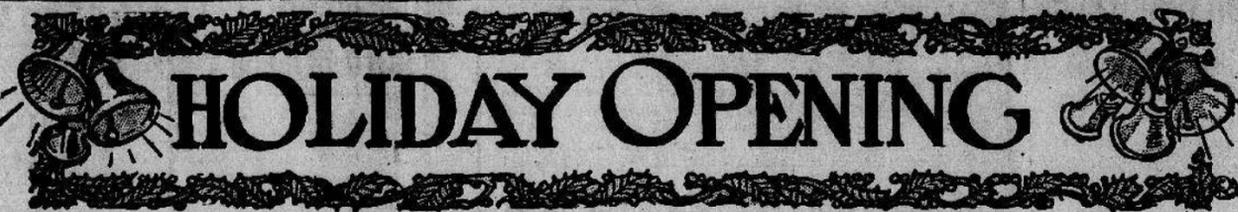

RIFLE IS DISCHARGED AND MUNROE IS KILLED

KallsPELL, Nov. 30.—(Special).—Walter B. Munroe was instantly killed at 5 o'clock yesterday morning at his home on Fourth avenue by the accidental discharge of an automatic rifle he was cleaning. The ball entered the left side, passing through the trunk and lodging in the ceiling of the room. Munroe had examined the weapon on the night before, and believed it to be unloaded, but it is thought an unobserved shell got into the chamber automatically and was discharged by a jar. The victim of the accident was about 37 years old and leaves a widow and a daughter, Helena, aged three years. He conducted a dray line here and was well known.
FOR DEPARTED ELKS.
Wallace, Nov. 30.—(Special).—Next Sunday Wallace lodge No. 331, B. P. O. E., will observe Elks' memorial day with a public service. Hon. W. H.

Ludden of Spokane will deliver the oration, and the eulogy will be pronounced by Hon. W. W. Woods, district judge, of this city. The program is long, and includes music and vocal selections by the leading artists of the city. The list of the departed whose memories are thus honored includes 27, three of whom have died during the year. These are Henry P. Knight, R. E. French and R. P. Heard.

DARBY IS THERE

Editor Missoulian—I want to occupy a small space in your paper in order to correct what might lead to some erroneous opinion in regard to some parts of the Bitter Root valley. In your issue of November 28 you make the statement that there has been 450 cars of apples shipped from this valley, and name Hamilton, Victor and Stevensville as the principal shipping points. You have entirely overlooked that little town of Darby, in the upper end of the valley with 107 cars already shipped and 12 more to ship, making one-quarter of the entire output of the Bitter Root valley. Always best in mind Darby is stricken on the map.
Yours truly,
MILTON HAMMOND.
Darby, Nov. 29, 1911.

HOLIDAY OPENING

BIG MID-SEASON SURPRISE

New, Snappy Styles Arriving Daily

Women's broadcloth coats, beautifully tailored, trimmed with a large sailor collar of velvet or self material and braided effects, but three days in the house. Excellent values at exceptionally low prices \$19.50 to **\$29.50**
