

PICTURED "INFERNO" ATTRACTS MANY

UNUSUAL MOVING PICTURE AT HARNOIS THEATER WONDERFULLY INTERESTING.

Dante Alighieri's divine comedy's "Inferno" was presented at the Harnois theater last evening through the medium of motion pictures. Every seat was occupied throughout every performance. Those who have the films in charge claim a great deal for these pictures. They are all they claim they are—and more.

At an expense of close to a quarter of a million of dollars, the five reels of films were produced upon which the play is recorded. It is beyond doubt the most stupendous task which has been undertaken by a motion-picture company, no money being spared to put these pictures in a class all by themselves. The acting is done by the very best of talent, and there is not one of the 1,000 people in the production who doesn't strive to make the scenes the most realistic ever produced. The presentation of giants, demons and other characters reflect much credit on the makers of the films. It is a revelation to see how the obstacles to staging the comedy is overcome, each one being perfect. Each stage of the progress of the play is so outlined that a previous reading of the work is unnecessary to a complete enjoyment of the play, although a knowledge of the story gives it an added pleasure.

It is not the charm alone of seeing the play which makes it interesting; it is an education in itself; education, not from a material standpoint, but from a literary. These reels will be run this afternoon and this evening, and should not be missed by anyone.

The scenes in hell are impressions in the extreme, the acting admirable and the scenic effects splendid, leaving nothing to be desired and much to be desired.

ANNIE F. BUCKHOUSE SUES FOR DIVORCE

Yesterday Annie F. Buckhouse filed suit for divorce against John Buckhouse, alleging cruelty. Her complaint sets out that she married the defendant on May 14, 1904, at Butte, and that she left him for three and one-half years, returning back to him on October 15, 1910. During the three and one-half years, says the complaint, she earned her living by serving as a rural mail carrier. She asserts that the defendant would not let her have enough money for necessary expenses, and insisted on her working far beyond her strength. She asks for divorce and alimony, temporary and permanent.

ADVERTISEMENT IS POLLEYS COMPANY DEMAND FOR STEEL BOOSTS PRICE

UNIQUE OFFICERS OF THE FIELD FEEL UNITED STATES STEEL AND LEHIGH VALLEY ISSUES ADVANCE A FEW POINTS.

An advertisement which is unique in that of the Missoula Mercantile company which is a feature in The Missoulian this morning. On four previous occasions this company has used four-page advertisements in this newspaper, and in the preliminary plans for this morning's announcement it was assumed that this space would be enough. But as work progressed, Mr. Boos, the company's advertising manager, found that the numerous departments and the unusually large stocks of the year made it imperative to enlarge upon the original allotment of space. Consequently the Missoula Mercantile company has nine columns in addition to the original four pages which were contracted for.

The arrangement of the four-page advertisement of the company is interesting. It will be observed that it is set so that it can be folded into a miniature eight-page paper, containing hundreds of suggestions for the Christmas shopper. These four pages may be removed and folded; then the cutting of the dotted lines will give a complete little shopper's guide.

DON'T HUG A DELUSION

Something "Just as Good" An Impossibility—If Not the Original Have Nothing at All.

For a woman to adorn her head with false braids, tufts and rats, or a man to wear a puff, is like buying an off-brand hair preparation instead of Newbro's Herpicide. The "false hair" and the "off brand" are both substitutes for the real thing. The original is always conceded to be better than any imitation or substitute. "Something just as good" is a heresy of the rank and file.

Newbro's Herpicide is the original remedy and does as promised. Years of success and thousands of satisfied users have made it standard. Herpicide kills the dandruff germ, keeps the scalp clean and stops falling hair. Its proper use before boldness appears makes false hair and wigs unnecessary.

There is no uncertainty. The purchaser gets positive results or money is refunded. It is sold and guaranteed by all druggists.

Applications may be obtained at good barber shops and hair dressing parlors. Send 10c in postage for sample and book on "The Care of the Hair," to The Herpicide Co., Dept. R., Detroit, Mich. Missoula Drug Co., special agents.

POLLEYS COMPANY DEMAND FOR STEEL BOOSTS PRICE

UNIQUE OFFICERS OF THE FIELD FEEL UNITED STATES STEEL AND LEHIGH VALLEY ISSUES ADVANCE A FEW POINTS.

Missoula is the distributing point of a large lumber industry. The tributary mills now produce 150,000,000 feet annually and the aggregate cut will increase.

The growing immigration to western Montana is furnishing a constantly increasing home consumption, and Montana lumber is in growing favor in eastern markets. Montana larch is gaining recognition for interior finish in competition with west coast fir in work where it is desirable to display the grain of the wood. Fir is coarser and the wood splinters badly, while our native larch is of finer texture and makes a more beautiful material finish. This wood is abundant in western Montana. The timber resources tributary to Missoula are estimated to be at least fifteen billion feet.

The Polleys Company. Recognizing the advantage of Missoula as a manufacturing and shipping point, based planning early in 1910 for a mill to be erected here.

The Missoula Chamber of Commerce took the matter up and located the plant just west of the Blitter Root track, where the road crosses the Missoula river. The plant consists of a sawmill 40 by 130 feet, a detached boiler house, 40 by 50 feet.

A planing mill and shipping shed, 30 by 400 feet and large piling space for rough lumber. The Northern Pacific and Chicago, Milwaukee & Puget Sound railroads have tracks into the mill yard. The company has timber holdings at Taft, O'Brien Creek, Deep Creek and Miller Creek, aggregating 100,000,000 feet. About two-thirds of the cut is white pine, a wood similar and equal to the famous cork pine of Wisconsin and Michigan, which formerly had an extensive use in the middle-west, but now about all cut out of the original so-called white pine states.

A large part of the Polleys Lumber company's business is wholesaling to retail yards in Montana, the Dakotas, Nebraska, Iowa, Wisconsin and Indiana and Ohio. The retail business in the city and surrounding farming country is also an important branch of this business, and is growing rapidly. Fifty men are employed in the mills here and 100 men at the camps near Taft. Just now logging is suspended in the woods owing to heavy snows, but will be resumed in the early spring.

About 3,000,000 feet of logs are skidded at the mill at Taft to be brought in to the mill for the spring opening. The sawmill will close about January 1, after a successful sawing season of eight months, in which 12,000,000 feet of lumber have been sawed. The sawmill and planing mill machinery is of the best type and some of it was specially designed for the work. Missoula is to be congratulated in the location of such a plant in the city.

The following officers and managers are new-comers in the city and are recognized as valuable additions to our population: E. H. Polleys, president; T. A. Polleys, vice president; W. E. Polleys, secretary and treasurer; J. P. Lansing, manager of wholesale sales; S. H. Russell, manager of retail sales.

CRESCENT MINE LOOKING GOOD.

One of the most promising mining companies in western Montana, known as the Crescent Milling & Mining company, recently filed articles of incorporation and intend to begin active working of the property within the very near future with a good size crew of men.

The mine was first opened four years ago, but until now there has never been a great amount of work done on the property. Situated near the town of Huson, in the famous Coeur d'Alene valley, known the world over for its mining industries, on the main line of the Northern Pacific Railway company, the mine has natural advantages over many others in this section of the country.

In the management of the new company are men who are well known, not only in this immediate vicinity, but in other parts of the state, and men who have a thorough knowledge of the mining industry. Mr. W. H. Smith, the president of the company, as well as mine manager, resides at Huson and looks after matters in general. Edward Lesky, a Missoula young man, is vice president and E. Laeasse, secretary and treasurer. Besides the above the following men comprise the board of directors: Joe Gareau, T. W. McGee, George Bourgeois and W. M. Boyer. The first tunnel at the mine is 115 feet deep and lower down the shaft is another tunnel that has been sunk to the depth of 200 feet. At the present time men are at work sinking a shaft 65 feet deep at the back end of the lower tunnel, which will serve as an air chamber.

The ore in the mine consists of copper and silver, and is pronounced by experts to be of the very finest quality. The stock of the mine, which consists of 1,000,000 shares, is being sold readily and ere another year rolls around Montana will in all probability have a new mine that will rank with the best in this country.

HURT BY AUTO.

S. N. Butler was struck by an automobile last evening and thrown out of the buggy in which he was riding. His face was cut and his chest was injured. He was taken to his home on South Third street. He says that the machine was C. F. Dallman's.

HIGH SCHOOL VACATION.

The county high school closes Friday, December 22, for the Christmas vacation.

POLLEYS COMPANY DEMAND FOR STEEL BOOSTS PRICE

UNIQUE OFFICERS OF THE FIELD FEEL UNITED STATES STEEL AND LEHIGH VALLEY ISSUES ADVANCE A FEW POINTS.

New York, Dec. 16.—Opening prices of stocks today were slightly higher in most cases with a few gains of large fractions. United States Steel was in the best demand. Opening with the sale of 6,500 shares at an advance of half, the price rose on the next transaction to 55 1/2, a gain of 3/4, and the highest price reached since last September. Lehigh Valley rose 1/2. The weak issue was Wabash, which lost 1/2.

Realizing sales took off the edge of the rise and the market fell back. Reading and Union Pacific falling below yesterday's close. Renewed buying appeared in various specialties, including American Smelting, American Agriculture Chemical and General Electric. The list was rising again on active dealings at 11 o'clock.

The market closed irregular. Lehigh Valley was the feature of the list, closing buoyant. Confident buying went on in United States Steel, Union Pacific, American Smelting and National Lead, which showed gains of a point or more.

IT'S NOT TOO LATE.

Many are of the opinion that it is too late for me to get out my high-grade portraits for Christmas, but that is a mistake. You see I use electricity exclusively in both taking and printing them, so day or night is just the same to me. The weather conditions make no difference. All I have to do to get your work out in plenty of time is just put in a few more hours at night. I want to emphasize this fact: If I promise you your portraits at a given time, they are ready at that time. I don't neglect it and then blame the weather, as is so often done. You can get them at the very hour promised. I can, if absolutely necessary, turn out the finest of work in 24 hours. All you need do is tell me what you want and when you want it, and I will promise you portraits that both you and I will be proud of. The earlier you come, the easier it will be for me; but I am at your service, day or night, right up to the day before Christmas.

MURRAY BROWN.

Photographer to Particular People, Higgins Avenue, next to Bridge.

Teamsters Attention.

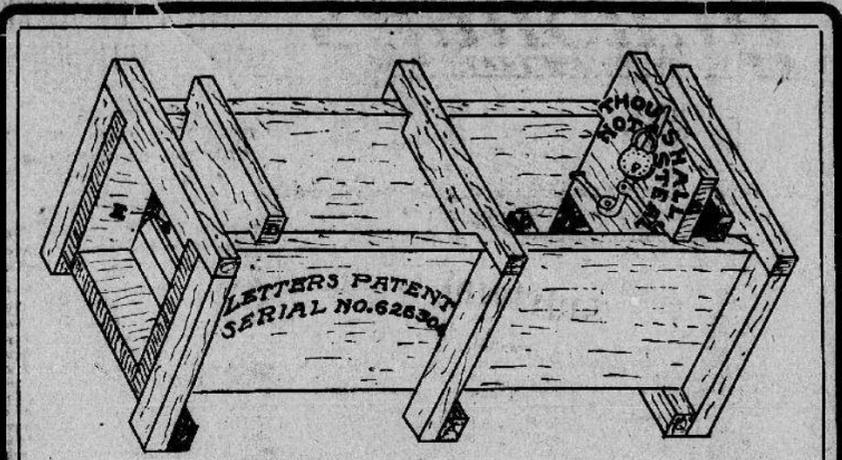

It is urged that you attend our meeting at Cooks' and Walters' hall on East Main street, Monday night, December 18, 1911. Election of officers. Refreshments will be served.

W. H. DENNIS.

Financial Secretary.

Investors Attention.

We are desirous of enlisting capital for the purpose of enlarging our factory and increasing our output. Those interested address Evans Bros. Trunk Co., Missoula, Mont.

FARMERS and IRRIGATORS ATTENTION!

Our device is made to measure water and it is accurate and costs you less to install and maintain than any other device made to do the same work.

It has been tested out under actual working conditions and found to be absolutely reliable by Prof. R. D. Kneale of the Montana Agricultural college at Bozeman, Montana.

Such men as Judges E. K. Cheadle, W. R. C. Stewart, Frank Henry, R. Lee McCullough, F. C. Webster, Senators Dixon and Myers and scores of others that know the value of the device and the need for it on the farms in Montana, recommend it to water users.

Eight hundred devices were sold in this state last year and every user recommends it to you.

Drop us a line and let us give you full particulars and make inquiries about the device from any of the men we have mentioned.

MISSOULA, MONTANA

CHRISTMAS HI JINX A SPLENDID SUCCESS

The co-eds of the university put all previous Christmas Hi Jinx in the shade last night with a Killarney minstrel show, in which the girls themselves were the performers. With E. Pat Kelley as the leader, the girls got away with a program full of clever jokes and parodies, and the two hundred or more people who saw the show were loud in their approval. Mr. Kelley acted as interlocutor, and with the quartet of endmen scored several hits with his songs. The Misses McCullough, Ingalls, Beatty and Mathewson were received with wild applause as endmen, and the chorus of some thirty girls put over some real music. After the show the presents which have been accumulating in the big stockings in University hall were distributed in the gymnasium and a dance was started which lasted until midnight.

Without opiates or harmful drugs of any kind Foley's Honey and Tar Compound stops coughs and cures colds. Do not accept any substitute. Smith's Drug store.

SCHLOSSBERG SALE DRAWS BIG CROWD

When the hour came for opening the doors at the Schlossberg store yesterday morning for the beginning of the big sale which has been so extensively advertised, there was a crowd in waiting that filled the spacious store and circulated through all of its various departments within five minutes. From that hour the store was crowded all day. The big bargains obtained by the early shoppers soon were noised about and in the afternoon the crowd was larger than ever, and taxed the augmented clerical force to the limit. It was a great day for the popular store, as well as for every one who was fortunate enough to get in on the bargains. The sale started off better than any previous one ever undertaken by the establishment.
