

## INDUSTRIAL PEACE MEETING

PRESIDENT SETH LOW OF NATIONAL CIVIC FEDERATION WANTS DELEGATES.

(New York Post.)  
In announcing the annual meeting of the National Civic Federation, to be held in Washington, March 5, 6 and 7, a letter requesting the governors of the various states to send delegates to this meeting was made public at the headquarters of the federation in this city. The program provides for a special day on "Industrial Peace and Progress" and one day on "The Rights and Duties of Public Employees," together with a day devoted to the work of the various departments of the organization. The three days' sessions will be closed with the annual dinner at the New Willard hotel. The invitation to governors to appoint delegates follows:

Sir:—Recent events have so stirred the minds and hearts of our people that the National Civic Federation believes the hour is timely for a meeting to consider industrial peace as related to industrial progress. For that reason it is proposed to dedicate especially to the question of "Industrial Peace" the first session of the annual meeting of the National Civic Federation, which will be held in Washington, D. C., March 5, 6 and 7, 1912.

The "Industrial Peace" session will be presided over by his eminence, Cardinal Gibbons, and it will be held in the peace hall of the bureau of American republics, on Tuesday, March 5, at 10 o'clock. The program for this day will be devoted principally to the consideration of the successful operation of the Erdman conciliation act, which has long maintained peaceful industrial relations in the business of interstate railroads; and to the various effective methods of negotiation between employers and their employees as illustrated by collective bargaining in such lines as interstate, municipal and interurban railroads, the large daily newspapers, the building trades, stove manufacturing, coal mining, brewing and other industries.

At succeeding sessions there will be considered problems involved in the relation of the public employe to his employer, the people, such as:

"Assuming that strikes in official positions are inadmissible, how can public employes secure redress for grievances which in private employment would lead to a strike?"  
"May public employes properly organize to better their conditions of employment?"  
"Provisions for federal, state, and municipal employes."

On the third day of the annual meeting there will be sessions of the federation's departments on:

Compensation for industrial accidents and their prevention.  
Regulation of interstate and municipal utilities.  
Regulation of industrial corporations.

Pure food and drugs.  
Reform in legal procedure, and

The woman's welfare and the employers' welfare departments, devoted to interesting employers, whether public or private, in improving the conditions under which employes in all industries and in all occupations work and live.

In view of the direct bearing which the topics mentioned have on the public welfare in every state, I have the honor to invite you to send a delegation to Washington, which shall be representative of your state, to participate in this meeting of the National Civic Federation.

Very respectfully,  
SETH LOW, President.

Paper clubs for policemen, practically indestructible, are being tried in England.

## LABOR OF CONVICTS IS SUCCESSFUL

ATTORNEY GENERAL GALEN FAVORS USE OF STATE PRISONERS ON ROADS.

Helena, Jan. 18.—(Special.)—In the opinion of A. J. Galen, attorney general, and member of the state board of prison commissioners, the system of working the state prisoners on the roads, which has been in operation in the state for two years, has proved to be successful. He says the road work done under it in Granite, Missoula and Sanders counties would never have been done, had not convict labor been employed, and that it has been beneficial not only to the general public, but to the prisoners as well. Seven counties now have applications before the board for the services of prisoners in building roads Lewis and Clark, Flathead, Gallatin, Broadwater, Yellowstone, Missoula and Granite.

In the spring a crew is to be put to work on the construction of a road over the main range of the Rock mountains via McDonald pass. This will shorten the distance between Helena and Garrison from 10 to 20 miles, and greatly reduce the present grade over the range, virtually linking Helena and Missoula.

In the spring it is the idea to install a manufacturing plant in the penitentiary, and begin the manufacture of binding twine.

## BREAKS UP A COLD AND CURES GRIPPE

You can surely end grip and break up the most severe cold either in head, chest, back, stomach or limbs, by taking a dose of Paper's Cold Compound every two hours until three consecutive doses are taken.

It promptly relieves the most miserable headache, dullness, head and nose stuffed up, feverishness, sneezing, sore throat, mucous catarrhal discharges, running of the nose, soreness, stiffness and rheumatic twinges. Take this harmless compound as directed, without interference with your usual duties and with the knowledge that there is no other medicine made anywhere else in the world, which will cure your cold or end grip misery as promptly and without any other assistance or bad after-effects as a 25-cent package of Paper's Cold Compound, which any druggist in the world can supply.

Paper's Cold Compound is the result of three years' research at a cost of more than fifty thousand dollars, and contains no quinine, which we have conclusively demonstrated is not effective in the treatment of colds or grip.

## COMMISSION FORM.

Roseman, Jan. 18.—A petition for the commission form of government for Roseman was filed tonight bearing the signature of nearly 50 per cent more than the required number. The petition was filed with the city council and the mayor appointed a commission to check up the signers. The report of the commission at the next meeting will be followed, it is expected, by the setting of the date for the special election, when commission form will be voted upon.

## COLLINS SIGNS UP.

Chicago, Jan. 18.—First Baseman Collins, who has played with the Chicago Americans for the last three years, signed today a contract for 1912.

## Fancy Dress Gowns

Suggestions for fancy dress balls are receiving much attention at this season of the year. Above are two striking designs. The one at the right is the Marguerite costume, and the one at the left is the Egyptian costume.

## Late Gossip From France

Paris, Jan. 18.—French women are showing a steadily-increasing interest in women's suffrage. This has not by any means reached the stage of the movement in England or the United States, but it has advanced far enough to bring about the formation of organizations devoted to the cause.

American women are explaining the progress of the movement in America. Among these has been Miss Lucy Davis of Philadelphia, who recently addressed a French society for women's suffrage at the city hall at Passy on the present state of the suffrage question in the United States. Miss Davis, who spoke in French, is a great-granddaughter of Lucretie Mott, a Quaker preacher of the earlier days.

French suffragists are planning to present women candidates for elective positions in several places as a test of their strength. This is of doubtful legality. Although the law does not specifically prevent the nomination and election of women, it is regarded as probable that if elected to any office, they would not be seated. At the last election for deputy in Paris a woman was nominated, but she received a very small vote.

Dr. Walter Lichtenstein, the librarian of Northwestern University of Illinois, who has been spending some time in Madrid in investigation and in purchasing for Harvard University the library of international law of the marquis of Olivart, has had a number of experiences common to supposed wealthy Americans in Madrid. The hotel where he was staying was crowded with people, all eager to sell him anything from a painting to a mine. Jewels, paintings, truthfully or falsely attributed to Madrillo and Rubens, tapestries and work of art of all varieties were offered him by the score, and men even followed him on the street impertuning him to buy or to invest money in industrial enterprises.

This was all the result of the announcement that Dr. Lichtenstein was buying a library. The serious lesson from it all is that Spain has much to sell in historical objects and that there is a lack of capital at home to develop new industrial enterprises.

French millers have discovered a simple and effectual method of preserving their stores of grain from the inroads of the grain weevil. It consists in placing a small quantity of hops in the barn. The smell of hops is profoundly antipathetic to the weevil, at the same time it has no deleterious effect on the grain, even should small quantities happen to get ground up with the wheat in the process of milling.

The National Aerial league, authorized by the minister of public works, has commenced the work of marking out the air roads of France in accordance with the system drawn up by Rene Quinton. The first of these roads joins the great Assemblies of Saint-Cyr, Bour, Villacoublay, Etampes, Vincennes, to the camps at Châlons and Verdun. Large gullwing signs, visible from a considerable height, have been established at all the principal points along this route.

The time is nearly due for the Eiffel tower to have the ravages of time and the weather removed from its mighty form. This operation, which takes place every six years, entails a cost of some \$15,000, and keeps a special company of painters busy for three or four months distributing 60,000 pounds of paint over its 60,000 square feet area. The color of its new dress has not yet been chosen. Hitherto a new tint has been used at each repainting: Orange in 1889, red in 1893, golden yellow in 1899, white at the summit and chrome yellow at the base in 1907.

## MORSE IS FREED ON TAFT'S ORDER

(Continued from Page One.)

from him and that he is paying the forfeit with his life. "The judge never intended to sentence him to death."

The attorney general telegraphed to Warden Moyer of the Atlanta penitentiary, who technically was in charge of Morse even though he had been removed to the Fort McPherson hospital, to release the prisoner. The army surgeons at Fort McPherson were similarly instructed. Morse will be freed by the telegraphic orders, it being unnecessary for the Atlanta authorities to wait the formal warrant of commutation, which will be sent by mail.

No Pardon.  
Efforts for a complete pardon were unavailing and under the law Morse could not be paroled until he had served five years. Under the commutation he will be allowed to leave the army hospital at Fort McPherson at once. Recent efforts in his behalf developed that his friends wished to take him to Carlsbad for treatment and tonight it was deemed probable here that he would be taken abroad at once.

The commutation of Morse's sentence came at the end of months of unrelenting efforts on the part of Mrs. Morse and of the banker's friends. Almost since the day the doors of his cell closed on him, Mrs. Morse and influential friends have besieged the department of justice and through it the White House for mitigation of the sentence. Mrs. Morse in person conducted a campaign among senators and members of the house of representatives and obtained scores of signatures of prominent men to a petition in her husband's behalf.

## Glad to Hear It.

Atlanta, Ga., Jan. 18.—"I am glad to hear the news," was the only comment made by Charles W. Morse when informed by the post surgeon at Fort McPherson that President Taft had commuted his sentence. It was uttered in a weak voice which carried little or no relation to the bed-ridden banker realized that no mortal authority could release him from the clutches of incurable diseases.

Warden Moyer, who has been Morse's jailer at the federal prison since January 3, 1910, hurried to the post hospital as soon as he received official notification of the president's action and formally released Morse. It was after dusk when Morse heard the good news, with no member of his family present but his sister, Miss Jennie Morse. From Washington came two joyous telegrams from Mrs. Morse and the sick financier brightened perceptibly.

Morse will be moved from the post hospital as soon as he is able to stand an ambulance journey to an infirmary within the city. He had another bad night with his heart and was not so well today, but his physician was hopeful tonight that his parole might have a favorable effect on his condition. Should he gain strength, Morse probably will be moved to a sanitarium in Florida and he hopes eventually to go to Germany, where the baths may relieve his heart trouble to some extent. It is doubtful whether Morse ever will leave Georgia alive. He is suffering from three diseases regarded as incurable and the end might come at any time. On the other hand, it is said he might live 10 years.

## DELAYED MATERIAL ARRIVES.

A shipment of wire—enough to string 15 miles of new line—was received yesterday by the Independent Telephone company and it was announced that the work of stringing this on a rural route to connect with the local exchange will be started at once. The new line is that planned for the Orchard Homes section west of the city and will require a total of 25 miles of wire before it is completed. Many of the pole lines are already established and the first half of the winter work can be quickly accomplished. The company plans to cover this rural district thoroughly, so that connections can be conveniently made from any home.

## For Spring Planting

Order nursery stock now and be ready for the opening of the season. Our stock is complete. Orchard trees, shade trees, ornamental shrubs, berries, perennials, annuals. Everything for orchard, lawn and garden. Home grown, free from infection, perfectly acclimated. Send for our 1912 catalog.

Only One "BROMO QUININE" that is **Luxative Bromo Quinine** Cures a Cold in One Day, Grip in 2 Days  
E. H. H. 50c, 25c

## CONSTIPATION, BILIOUSNESS, COATED TONGUE, HEADACHE OR BAD STOMACH

Furred tongue, bad taste, indigestion, sallow skin and miserable headaches come from a torpid liver and clogged bowels, which cause your stomach to become filled with undigested food, which sours and ferments like garbage in a swill barrel. That's the first step to untold misery—indigestion, foul gases, bad breath, yellow skin, mental fears, everything that is horrible and nauseating. A Cascaret tonight will straighten you out by morning—a 10-cent box will keep you feeling good for months. Millions of men and women take a Cascaret now and then to keep their stomach and liver and bowels regulated and never knew a miserable moment. Don't forget the children—their little insides need a good, gentle cleaning, too, occasionally.

## Missoula Mercantile Co. GROCERY DEPARTMENT.

## PLENTY OF Essex-Model Incubators and Brooders

To Supply Everyone This Season

The popularity of Essex-Model Incubators and Brooders in this community can best be judged by the fact that for this season's business we have just received a straight carload of these leading machines.

## Let Us Show You

It will be a pleasure to show you how simple these machines are to operate—to prove how much better they are than hens—how much more profitable, cleaner, easier to attend to—and prove it.

## WE GUARANTEE

Essex-Model Incubators to hold more even temperature throughout the Egg Chamber than any other make.  
Essex-Model Incubators to be automatic in heating.  
Essex-Model Incubators to be automatic in ventilation.  
That a beginner can operate the Essex-Model Incubators.  
Essex-Model Incubators to require no added moisture or water.

WE GUARANTEE the Essex-Model to hatch more strong, healthy chicks in three tests than any other incubator made when run under similar conditions.

Essex-Model Incubators are in successful use on government and state experiment stations, on larger commercial poultry plants, and by leading fanciers and exhibitors all over the world.

## NOSE STOPPED UP WITH CATARRH

A COMMON SENSE TREATMENT FOR COLDS AND CATARRH—GIVES INSTANT RELIEF.

No matter how miserable you are with catarrh or a cold in the head, nose stopped up, throat sore, eyes running, dull pain in the head, dry cough, fever, foul breath, Ely's Cream Balm will give you instant relief. It gets right at the root of the trouble, cleanses, heals and strengthens the raw, sore membranes, stops the nasty discharge so that you are not constantly blowing the nose and spitting. In a few minutes after applied you can just feel it doing its work of clearing the head, the pain and soreness are relieved, the breathing becomes natural and the stuffed up feeling is gone. This cleansing, healing, antiseptic balm contains no mercury, cocaine or other harmful drugs. It is easy to apply, pleasant to use, and never fails to give relief, even in the worst cases. Never neglect a cold, and don't suffer the miseries of catarrh nor disgust your friends with your hawking, spitting and foul breath. Get a 50-cent bottle of Ely's Cream Balm from your druggist, and start the treatment at once. You will find that it will be the best investment you ever made.

**THE LAZY WAY.**  
(From Judge.)  
Mrs. Crawford—Why don't you try the new paper-bag cooking?  
Mrs. Crabshaw—I would, dear, if I thought it was as easy as getting the meals in a paper bag at the delicatessen store.

## TROUBLE DUE IN PEKING TODAY

(Continued From Page One.)

do not attempt to hide their anti-Manchu feelings. Whether the suspicions against the premier are false or true, they are given sufficient credence to cause the organization of anti-abdication bodies against which Yuan Shi Kai has been compelled to take measures of defense, and it is authoritatively stated that the dynamic bomb outrage against his life was the work of a Manchu faction. So complex is the situation that the foreign ministers no longer attempt to elucidate it for their governments.

## DAUGHTERS OF KING VOTE THEIR THANKS

The King's Daughters' society voted yesterday in executive session to extend hearty thanks to the parents of the school children who responded so generously to the appeal for help last week. At the request of the society, each teacher asked her pupils to bring food or clothing to school one day last week. The result was truly gratifying to the ladies who are working so hard to relieve suffering among the poor this winter. It proved that there is plenty that can be spared from the more fortunate homes of the city if only time and energy can be found to look up the donation. The children supplied the energy and the parents provided the food and clothing in generous abundance.
