**TAKE TO THE WOODS DO FORESTERS**

**BILCOX AND STUART ON FIELD TRIP AND ADAMS TO STOCK-GROWERS' MEETING.**

District Forester F. A. Silcox and Assistant Forester Stuart will leave Sunday afternoon for an extended field trip, which will take them away from the local headquarters for about three weeks. The objects of the trip into the field at this time is to make an inspection of some of the larger timber sales in fire-killed timber, some of the green timber sales which is not mixed with any that has been burned and then to look over the progress of the work being done in the big infested district of the Flathead forest. From Missoula Mr. Silcox and Mr. Stuart will go directly to St. Joe, Idaho, and there take a pack train into the field.

**Grazing Interest.**

C. H. Adams, assistant district forester in charge of grazing in this district, will leave today for Colfax, Wash., where he has been asked to address a stockmen's meeting. Washington sheep and cattlemen have become interested in the range conditions of some of the northwest forests, especially the St. Joe, Coeur d'Alene and Selway reserves. Mr. Adams will go prepared with all the information which the growers might desire, and undoubtedly will be able to arrange for the handling of much stock on western range that has before been unused.

**FUNERAL IS HELD.**

The funeral of E. A. Winstanley was held yesterday at 2:30 o'clock in the family residence on Gerald avenue. Rev. E. E. Burtner of the Congregational church and Rev. Harold Griffin of the Christian church conducted the services. A large attendance and many beautiful flowers attested the sympathy of friends. The remains were taken east last night for burial in Toronto, Canada.

**FRED ANDERSON BURIED.**

The funeral of Fred Anderson, held yesterday afternoon at 2 o'clock in the Lucy chapel, was largely attended and there were many flowers sent by sympathizing friends. The Eagles' lodge had charge of the services and Rev. J. N. Maclean, D. D. officiated in the last rites. Interment was made in Missoula cemetery.

**WOMEN TAKE NOTICE!**

A man cannot understand the torture and suffering many women endure uncomplainingly. If the majority of men suffered as much pain and endured with patience the weakening sicknesses that most women do, they would ask for immediate sympathy and look for a quick cure.

Many women have been saved from a life of misery and suffering by turning to the right remedy—Dr. Pierce's Favorite Prescription—a remedy which is safe to take because containing no narcotic, alcohol or injurious ingredients. It is an alternative extract of roots, made with pure glycerin, and first given to the public by that famous specialist in the diseases of women—Dr. R. V. Pierce, of the Invalids' Hotel and Surgical Institute of Buffalo, N. Y.

Mrs. LAZZIE M. HENSHIMER, of Lincoln, Neb., 539 W. C. St., says: "I send a testimonial with much pleasure so that some suffering woman may know the true worth of your remedies. I was a great sufferer from female troubles but after taking one bottle of Dr. Pierce's Favorite Prescription, which a friend advised me to take, I found myself very much improved. After taking three more bottles, and using two boxes of Dr. Pierce's Lotion Tablets, I found myself on the road to recovery. I was in poor health for five years but now I am cured."

"I hope all women suffering from female weakness will give Dr. Pierce's Favorite Prescription a fair trial."

Doctor Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules.

**COMPLETE REPORT OF 1911 FIRES**

**ANNUAL STATEMENT JUST ISSUED COVERS WHOLE SITUATION IN THIS DISTRICT.**

The work of compiling the annual fire report for the calendar year 1911 for field district No. 1 of the forest service has just been completed. This report shows that a total number of 487 fires have occurred in district No. 1 during the past fire season. Of this number, 266 were class A fires; 85, class B; and 133, class C. The causes of these fires are distributed as follows: Railroads, 163; lightning, 111; incendiary, 12; brush burning, 49; campers, 49; unknown, 73; miscellaneous, 20. The total area burned over by these fires was 31,896 acres, 8,775 acres of which were timbered, and 23,121 acres open land. The total amount of timber destroyed or damaged was 10,554 M. B. This amount of timber, together with the reproduction, and forage, which were destroyed, is valued at \$38,746. The total cost of fighting fires during the season was \$19,783. Of this amount, \$14,663.38 was spent on national forest land; \$2,911.90 on private land inside the forest boundaries, and \$2,207.72 on land outside forest boundaries.

Each fire averaged 65 acres of timber and open land, or 15 acres of timber alone. The average of 26 acres was burned over in every township, or about one-tenth of one per cent of the area. Of timber land alone, the average was 18 acres per township or about eight one-hundredths per cent of the area. Of the total area of open land burned, only 21,000 acres were in Michigan and Minnesota, so that the smaller figure approximately represents the conditions in Montana and Idaho.

The approximate cost of patrol for the season was \$95,000, and for fire fighting, \$19,783, or a total for protection of \$114,783. This is an average cost per acre of four-tenths of a cent or about eight one-hundredths per cent on the total valuation of the timber resources. The total allotment for all purposes—administration, protection, and improvement—was about \$1,000,000 or roughly three and one-half cents all acre, indicating that only about 11 per cent of the total allotment was spent for actual patrol and fire fighting. This is misleading, however, to a certain extent, since practically all of the improvement money and a part of the administration money is used primarily for protection. The true proportion of the allotment spent for protection purposes would be about 25 per cent.

**DEFER SAVAGE LECTURE TO SOME MARCH DATE**

F. A. Silcox, president of the Neighborhood club, announced yesterday that he had received a message from Engineer Savage of the reclamation service in which Mr. Savage said it would now be impossible for him to come to Missoula and lecture before the club until some time in March. It was arranged a week ago for Mr. Savage to be here Washington's birthday, this being the only available date he had at this time, but on account of the bar association banquet and a number of other attractions the club decided it would be impossible to get a representative crowd that evening. Mr. Savage will lecture, when he comes, on the Flathead reclamation project and other projects in Montana and the west.

**LOCAL SOCIETY**

**Women's Club Program.**

The meeting of the Woman's club in the Masonic temple this afternoon promises to be of more than usual interest. The civic section is in charge with Mrs. Tyler B. Thompson in the chair and a cordial invitation is extended to all other women's clubs of the city to attend the meeting and to take part in the discussion of the civic problems of Missoula. Mayor J. M. Evans has consented to speak to the ladies on "Civic Questions in Missoula." There will also be given a review of W. L. George's work, as he explained it in afternoon and evening meetings here Thursday, and a general discussion of the best methods of solving local problems. The musical numbers will be "America," sung by the club, and two piano solos, by Miss Lella McDonald, "The Rosary," by Nevin and Benjamin Wasplay, and "Polonaise," by Chopin. Members of the Mothers' club, the West-Side Women's club, the Baby Adding Mothers' club, the Park Addition club and the Women's Auxiliary to the Country Life club of Orchard Homes, as well as all others who may be interested are requested to attend the meeting if possible.
