DICTIONARY DEFINES MANY NEW WORDS

How many of the new words do you know? The man who does not have a good stock of words in his vocabulary, words which were not in common use a year or two ago, is far behind the times. Are you one of the laggards in the march of progressive events? If

you are, The Missoulian can enable you to catch up with even the leaders. It is very simple--all you need to do is to secure one of the Webster's New Illustrated Dictionaries which The Missoulian is presenting to its readers. It will do the rest for you. Do you know the meaning of aerostat, hangar, equilibrator or aerogram? Maybe you have a faint idea of what they mean through reading the daily papers. But you'd like to be certain, wouldn't you, and you would like to have authority for your certainty. Well, The Missoulian Dictionary will accomplish all of this for you. It is

complete and up to date in its every detail, and every word which has been added to the English language through the development of human events and has been vouched for by the scholars of the Anglo-Saxon world will be found within its pages. So you need have no fear on that score. Nor has the wealth of wisdom which was contained in the pages of the first Noah Webster Dictionary been eliminated in its newest successor. You'll find both old and new alike within its covers and put together in so attractive and instructive a form that you'll really wonder how you ever came to

get along without it. Six coupons printed elsewhere in today's Missoulian and 98 cents will get for you one of the dictionaries for which you would have to pay \$4.00. They're going fast. Why not do it today?

THEATRICAL DON'TS

Louise Gunning, prima donna of "The Balkan Princess," which comes to the Harnois soon, says that would-

be singers should begin to develop their voices by first learning what not to do. For their benefit she has compiled the following list of vocal don'ts: Don't let a piano teacher teach you singing. Don't fail to practice daily. Don't practice more than 20 minutes at a time nor more than three times a day. Don't sing or practice until an hour after meals. Don't forget that it takes time to develop vocal chords that have long lain dormant. Don't fail to live temperately and

take plenty of fresh air. Also plenty of pure water and plenty of sleep. Don't breathe cold air through the mouth. Don't bundle up the neck or protect it too much. Don't worry in anticipation of a vocal task as voice control then becomes impossible. Don't strive to attain rapidly what must come slowly and naturally such as development of volume and the control of the breath.
