WASHINGTON IS ALARMED

American Government Does Not Know Whether it Would Be Politic to Send Troops Over the Line to Stop Shooting Which Might Endanger People in El Paso—Stone Takes a Hand.

Boston, Feb. 26.—Standing in the assembly chamber of the Massachusetts capitol today Theodore Roosevelt recalled his new project for the limited recall of judicial decisions. He spoke also in the senate chamber.

El Paso, Texas, Feb. 26.—The forces of Campa arrived on the river bank at 11:15 tonight opposite old Fort Bliss and about one and a half miles northwest of Juarez. They are supposed to be extending a wing around the west side of the city.

Colonel Roosevelt struck at those who have condemned his plan. "Our system of government is a confessed failure," he said, "unless the people are to be trusted to govern themselves."

Direct Nominations. "I favor direct nominations, direct primaries, including direct preferential presidential primaries, not only for local but for state delegates. I believe in the adoption of wisely-chosen devices under which the initiative and referendum can be used, not as a substitute for a representative government, but to make representative government genuinely representative."

In Washington. Washington, Feb. 26.—General turbulence in northern Mexico menacing the lives and interests of Americans along the border drew from the Washington government today definite plans for self-protection. Captain Malin Craig of the general staff was ordered from San Francisco to investigate the conditions in the Imperial valley and along the California border.

My position is simple. It is that if the people know enough to make the constitution, they know enough in the last resort to say what it is that they meant when they made it. I wish to call your attention to the entirely different character of the national and the state constitutions. In the nation, we deal with the instrument designed to define the limits of power between the nation and the states.

Complications. Admittedly there are complications, both foreign and domestic, which hamper forceful action on the part of this government. To relieve this embarrassment somewhat Senator Stone introduced a resolution similar to the one which he presented last May, designed to give the president authority to send troops across the border to prevent firing into American territory.

So that as regards the national constitution there must necessarily be some body capable of deciding what those limits are when we come to discuss the relative claims of several states, each sovereign in its own sphere.

Class Ad History CCLXXIII.—EASY RETURN. Every now and then there occurs an incident which demonstrates to a man the real value of The Missoulian class ad. Usually these incidents make lasting friends for the class ad; they carry the habit. Conviction makes the habit strong. Here's an instance: FOUND—A BUNCH OF KEYS. Owner may have same by calling at The Missoulian office and paying for this ad. The loser of this bunch of keys didn't have the class-ad habit. Consequently, he didn't come to The Missoulian with the announcement of his loss. But, next morning, it occurred to him to look on the classified page. There he found that a man who had the habit, had advertised the finding of the keys. It cost him 20 cents to get his keys back. That was not bad. The class ad costs but one cent a word. If you are out of work and want a job, your ad will cost you nothing.

BIG BLIZZARD TERRORIZES EAST RIGHT INTO IT THEODORE GOES

STORM CONDITIONS EXTEND FROM THE ROCKIES EAST TO THE ATLANTIC.

COLONEL ROOSEVELT PLUNGES INTO THE FIGHT IN USUAL EARNEST FASHION.

SCHEDULES ARE MUSSED

HE'S IN IT TO THE END

Throughout Iowa, Missouri, Kansas, Arkansas, Oklahoma and Nebraska, matters are serious—snowdrifts and sleighriding for first time in history in Arizona town.

Some Comment, Caustic and Otherwise, is Provoked by the Colonel's Announcement of His Candidacy—Bill Bryan Doesn't Think Much of It—Congress Buzzes With Interest.

Storm conditions today extend from the Rocky mountains to the Atlantic coast, with rain and thunderstorms in the south and heavy fall of wet snow north of the Ohio river. The storm was central over southern Illinois and was moving eastward. A heavy snowstorm is raging throughout the lower lake regions and Ohio valley. More than three inches of snow has fallen in many sections and the fall continues.

Boston, Feb. 26.—Colonel Roosevelt plunged into the thick of the fight for the presidential nomination today. He said unequivocally that he was in the fight to the end and was glad of it.

Both railroad and telegraph companies are experiencing great difficulty as a result of the storm. Wire conditions universally are bad.

"I am perfectly happy now," said he, "because I am making a straightout fight for a principle. The issue is in no way a personal one."

It is predicted by forecasters that the fall will continue and today will be clear and colder. Extreme cold weather is not expected in any part of the storm belt.

In response to inquiries as to the principle for which he is fighting, Colonel Roosevelt referred questions to his speeches in Columbus last week and before the Massachusetts house today.

In Butte a falling barometer seems to promise snow, but the weather report gives a rising temperature. Snow is believed to be remote and the wind is given as the reason for the fall in the barometric figures.

"My position is perfectly simple," he said. "I stated it as clearly as I could in 1904 and reiterated it in 1907. I said I would not accept a nomination for a third term under any circumstances, meaning, of course, a third consecutive term. I could not have said less at the time, nor could I have said more. Of course, I could not then know whether or not there would be a demand for me to accept a nomination at some future time and, believe me, as I did, that a selection of candidates for the presidency rests entirely with the people. I could not say that at no time in my life would I accept another nomination."

Many Killed by Tornado. Little Rock, Ark., Feb. 26.—Details of a double tornado which devastated Lincoln, Jefferson and Arkansas counties yesterday placed the list of dead at 16, with at least 25 persons severely hurt.

"It must be clear to any reasonable man that the president which forbids the third term has reference only to a third consecutive term. It grew out of the fact that a president of the United States under the convention system of electing delegates, can, if he knows how to use the machinery at his disposal, renominate himself even though the majority of his party is against him. But after he has been out of office for a term, he has lost control of that machinery. He is in the position absolutely of any private citizen. The machinery then is in the hands of the man occupying the office of president."

Traffic at Standstill. Des Moines, Ia., Feb. 26.—Train service and general traffic in Iowa is at a standstill today as the result of the worst blizzard in many years which swept over the state last night. It still is snowing heavily and the drifts are piled three and four feet deep.

"Colonel Roosevelt promised today to send a letter to be read at a Roosevelt rally here Saturday night."

Two fast passenger trains on the Chicago, Rock Island & Pacific from Denver were blocked for several hours at Council Bluffs last night. Only a few street cars in Des Moines were operated last night and early today and snowplows were in use.

An Indictment. Salt Lake City, Feb. 26.—Characterizing the candidacy of Roosevelt for the republican presidential nomination as an indictment of the administration more severe than any proposed by the democrats, William J. Bryan said at a public meeting here tonight.

Trains Stalled. Denver, Feb. 26.—Time schedules of all railway lines entering Denver are demoralized today owing to the deep snow. Trains from the east are reported stalled.

Mr. Roosevelt tells you this man Taft whom he put upon you is not fit to be renominated. Roosevelt guaranteed Taft and it is a principle of law that you can't come onto the guarantor unless the principal is insolvent.

The Worst in Years. Kansas City, Mo., Feb. 26.—The southwest faced the worst traffic conditions of the winter today. Practically no trains from the west were running on schedule because of the snow, and the telegraph service from many points was cut off.

Incidental mention of Governor Wilson drew applause from the packed theater. Mr. Bryan took occasion to explain that he had made no choice among democratic aspirants for the presidency and would support any nominee who was not a "standpatter."

Traffic conditions in Kansas City were the worst in years. With 19 inches of snow in the street's drifts.
