

CHINESE THREATEN WHITE MAN

NEW YORK ENGINEER MAY BE VICTIM FOR VIOLATING SUPERSTITION.

New York, March 14.—The police here are searching today for a party of Chinese who are believed to have come to this country as the agents of a religious order of Chee Foo for the express purpose of assassinating Alfred Scanzio, a mechanical engineer, who lives in Brooklyn. Scanzio, who has lived in China and speaks the language, was apprised of his danger through the receipt of threatening letters written partly in Chinese. One of the letters says: "We have been appointed by the great river gods to deliver this message to you. You are responsible for Yang Tse Kiang floods and great was the sacrifice. In robbing the god of his offering you invoked his anger upon our people, who have suffered much since. Prepare for a visit."

GREAT WESTERN TRAIN IS DERAILED IN IOWA

Waterloo, Iowa, March 14.—Andrew Bennett of Bryant, S. D. was injured fatally and 22 other passengers were hurt when southbound Chicago & Great Western passenger train was derailed early today three miles north of Dunkerton, Iowa. The train consisted of a baggage car, a mail car, three chair cars and a steel sleeper. The front chair car, while rounding a curve, lurched violently from the rails, followed by two other chair cars, and the sleeper. The chair cars ran on the frozen ground for a short distance, turning over on their sides 30 feet from the track. The sleeping car remained upright. When the cars left the track the lighting system was disconnected and the passengers had difficulty in crawling out of the debris in the darkness. Some of the injured were half an hour in making their way out of the wreckage.

COMPROMISE REFUSED BY THE COAL MINERS

New York, March 14.—The United Mine Workers of America will refuse to compromise a single demand that they have made of the anthracite coal operators at their joint meeting tomorrow, John P. White, president of the mine workers, said today. The miners' committee will submit their answer to the counter-proposal of the operators to continue the present working agreement for three years, but White declared that not only would the proposal be rejected, but that there surely would be a general suspension of work in the anthracite fields on April 1 if the miners' demands for a 20 per cent increase in wages, an eight-hour day and other conditions were not wholly complied with. Announcement was made tonight that retail coal prices to apartment houses, laundries, bakeries and restaurants would be increased 25 cents a ton tomorrow.

LEWIS SOLD STOCK TO PAY DEBTS

EVIDENCE FOR AND AGAINST ST. LOUIS PUBLISHER IS GIVEN BY TREASURER.

St. Louis, March 14.—E. V. Putnam, former treasurer of the Lewis Publishing company, testified today that because the company needed money, \$216,000 worth of stock turned over to the company by E. G. Lewis, president, and for which he received credit on the company's books for \$162,000, was sold instead of \$12,000 worth of stock sent in by stockholders.

Putnam said the stock was sent to the company's offices in response to advertisements written by Lewis, in which he told of a plan by which persons wishing to sell stock could send it in and have it placed in a pool from which those desiring to be, would be supplied.

Putnam said Lewis' stock was sold and that sent in by stockholders was turned over to the People's Savings Trust company, where it still remains. Putnam identified the minutes of a meeting of the board of directors dated March 22, 1909. Included in the minutes was a resolution declaring a dividend of 15 per cent. Putnam said the resolution was written by Lewis and set forth that the company was in a prosperous condition and that the bonded indebtedness soon would be paid off. Putnam said the company was losing \$30,000 a month at the time the resolution was read into the minutes.

Lawrence, Kan., March 14.—Three setter pups were enrolled formally today as students at the University of Kansas. The pups, highly bred and the property of a Kansas city (Kan.) man, took their place in a class with a Maltese cat and a bulldog belonging to Earl Thrope, professor of journalism at the university. The class of unusual students will be under the tutorage of Professor E. C. Dockery, who will endeavor to prove whether the animals can think and learn.

FREE-SUGAR MEASURE GETS FIERCE ATTACK

Washington, March 14.—Opponents of the democratic "free sugar" tariff revision bill fought bitterly today in general debate in the house. The debate was brought to a sudden end by Chairman Underwood of the ways and means committee, but will be resumed tomorrow under the rule limiting the speeches to five minutes each. The bill introduced today probably will be passed tomorrow. Representatives Dupree and Wickliffe of Louisiana, democrat, Fordney of Michigan and Hinds of Maine, republicans, condemned the bill, while Representatives Avers and Connell of New York, Garnett of Tennessee and Linticum of Maryland spoke for it.

JIMINEZ OCCUPIED BY REBELS

LOYAL MEXICAN FORCE FALLS BACK ON TORREON, IN OBEDIENCE TO ORDERS.

Chihuahua, Mexico, March 14.—Jiminez, the first large objective point of the rebel army on its southward march, was occupied today. The federal detachment, which had garrisoned the city, retreated last night and the vanguard of the insurrecto force walked in without firing a shot. The federal outposts evidently have been instructed not to offer battle, but to retire upon the base at Torreon upon the approach of the enemy. In a proclamation issued today General Orozco gives notice that the revolution, if successful, will not recognize as valid any contract entered into by the Madero administration after today. This includes concessions which may be granted foreigners.

Refugees Arrive.

El Paso, Texas, March 14.—National railway train from the city of Chihuahua, which arrived here late today, brought 150 refugees, and the Mexico Northwestern train from Chihuahua brought 65 refugees, Americans and Mexicans of the better class. Governor Abram Gonzales, the constitutional governor of Chihuahua, is reported at Fresno, a small town about eight miles west of Chihuahua. He is said to have but few men with him, and is believed to be preparing to make a dash for Ojinaga to join the loyal forces. Colonel Francisco Villa, with a small body of loyal troops, is reported to be retreating from the state of Chihuahua to the city of Durango.

ASSASSIN SHOTS AT KING OF ITALY

(Continued From Page One.)

She had the impression that he had pulled the trigger three times, but only twice had she heard a shot. Signor Bisioletti, leader of one section of the socialists in the chamber of deputies, and who last year declined membership in the cabinet, shook hands with the king and said: "Your majesty, this great demonstration contains the true feeling of the Italian people." The king replied: "I am touched by this demonstration of Rome." "Were it not for the wounding of your officer," said Signor Bisioletti, "we might be pleased at what has occurred, because of the manifestation of regard which it has occasioned and because of the great courage which your majesty displayed." The king deprecated the idea of his courage, whereupon the socialist leader explained that the people understood and appreciated his act in driving in an open automobile without guards, from the Quirinal to the hospital to see Major Lang, showing his complete confidence in the people. The king, describing the impressions he received from the demonstration at the Quirinal, said it seemed as if not only Rome, but the whole of Italy had gathered there.

Officer Will Recover. The physicians in charge of Major Lang say he probably will recover within a fortnight. His helmet deflected the bullet and he received only a slight scalp wound. The ball afterward was found inside his helmet. He suffered from the fall from his horse which caused a slight concussion of the brain and severe bruising. When the king left the Pantheon, one of the veterans guarding the tomb of King Humbert called to his companions: "The king is safe; let us shout 'Long live the king.'" The enthusiasm among the soldiers, some of whom were crippled in the war of independence and all of whom were decorated with medals, was striking. The would-be assassin, when interrogated by the police said: "For a time I thought I would kill Victor Emmanuel, but I am satisfied with what I have done. Nobody instigated me to do the deed." A Common Crack. Daba does not belong to any political party. He has been sentenced twice for theft and once for maltreating his parents. He was born in

Donohue's ALWAYS RELIABLE

Rome, but the family came from Abruzzi. Daba's mother said today that her son when a boy had suffered from influenza, pneumonia and meningitis, which had left him weak-minded. Within three months he was to be called for military service. According to Italian law, Daba, not yet being of full age, cannot be condemned to penal servitude for life. The most severe punishment to be meted out to him cannot exceed 30 years. All Rome Protests. In all quarters of Rome demands have been prepared to protest against the outrage, the effect of which has been to increase Victor Emmanuel's popularity among all classes. People who were present in the Pantheon say that despite the narrow escape he had just had, the king went through the service without a tremor, the queen likewise showing no signs of emotion. When the king and queen left the Pantheon in their closed carriage the news of the attack on his majesty had spread and immediately crowds gathered in the great open space in front. Cheer the King. The king's appearance gave the signal for an overwhelming outburst of cheering from the crowd and the excitement almost reached frenzy by the time their majesties had attained the Corso, near where the attempt had occurred a short time before. Throughout the return journey the people along the streets and standing at the windows and on balconies waved their handkerchiefs and cried enthusiastically, "Long live the king!" The attempt on the king's life struck Romans the more keenly because it occurred on the anniversary of the birth of the late King Humbert and in the midst of solemn services in his memory. The spot near the Corso where the attempt was made was surrounded all day by excited crowds waving Italian flags and shouting, "Long live the king!" Mother is Shocked. A large number of people also proceeded to the Quirinal, where they made another demonstration. A most touching scene occurred between King Victor Emmanuel and his mother, the dowager queen, Margherita. She had arrived at the Pantheon and was waiting for the coming of their majesties. When King Victor Emmanuel and Queen Helena came in they gave no hint of what had occurred. All assisted at the mass and when it was over the king himself announced to his mother that an attempt had been made on his life. Queen Margherita appeared almost stunned. She stood still and looked over the king as though to make sure that he were alive. Then she threw her arms around his neck and kissed him on both cheeks. Plan of Assassin. Daba rode a bicycle to the spot from which he fired and left the wheel in the doorway of the Salvati palace. He waited as the royal procession advanced and when the king's carriage was near, drew a revolver and pulled the trigger four times. Only three of the cartridges exploded. The queen was seated on the side of the carriage nearest to the would-be assassin. As the shot sounded, she threw her arms around the king as though to protect him. The king tried to comfort her by saying: "Be tranquil; it is nothing." Seemingly reassured Queen Helena sat back as the procession went on to the Pantheon. BARONESS FAIRFAX DEAD.
