# THE CROWN OF WOMANHOOD

"Uncared for hair cannot be beautiful. There is no part of the human makeup so revengeful as the hair. It cries out: Look at me, care for me, or I will disgrace you! Treat me with consideration and I will be a glory to you."

With the above words Lillian Russell, an unquestioned authority on feminine attractiveness, places no uncertain value on nice hair as a beauty asset. Unkempt, uncared for hair not only cannot be attractive but is actually a disgrace.

But why have illkept, untidy hair? By devoting a few moments regularly to brushing and intelligent application of NEWBRO'S HERPICIDE, the hair may be made to yield wonderful returns in increased personal charm.

Dandruff, which is due to a germ or microbes, is the direct cause of more hair trouble than anything else. The hair becomes thin, harsh, uneven, and falls out in quantities. It looks dead and lifeless; there is no luster. The scalp itches.

HERPICIDE will destroy this dandruff germ that is causing all the trouble, cleans the scalp, gives the hair life, snap and luxuriance. The hair stops coming out, the itching ceases almost at once, and withal there is a most gratifying sense of cleanliness.

To the woman who wishes to make the most of nature's gifts by having fluffy, beautiful hair, NEWBRO'S HERPICIDE is a toilet necessity. It is exquisitely perfumed and is a delightful hair-dressing. With every recurrence of St. Patrick's day comes renewed appreciation of its picturesque possibilities for social functions. Not so much to celebrate the miracles and heroic deeds wrought by the good old saint, but because of the romance and tradition woven about his name, because the evening is so vivid and happy in its decorative effects and because the wit and tenderness of the Irish nation makes Irish stories good to tell, and social gatherings held in the name of St. Patrick, by people of various nationalities and religious beliefs.

# DANGERS OF FAT

How Fat Affects the Heart.

Fatty Degeneration of the Heart may well be a bugbear to all fat people. An excess of fat around the heart not only impedes its movements, but gradually changes the substance of the organ. The pulse becomes weaker; excitement or extra exertion causes throbbing in throat and temples; the breath is short and gaspy. When these symptoms come to the man or woman who is too fat, steps should be taken to remove the excess fat, not only from the suffocated heart, but from other parts of the body where it makes its unwelcome appearance. Many so-called fat reducers are dangerous to the fatty heart, placing upon it an added burden by stimulating its action. There is but one sure, harmless fat reducer known, the now famous Marmola Prescription of a Detroit physician, and its more convenient form, Marmola Prescription Tablets. By means of these harmless little tablets thousands of overweight people have surely and safely reduced their weight at the rate of 10 to 16 lbs. a day without exercise or dieting. Marmola Prescription Tablets are sold by all druggists, or the Marmola Company, 627 Farmers Bldg., Detroit, Mich., at 75c for a large case.
