

# THOMAS H. CARTER IS HONORED

FORMER SENATOR FROM MONTANA SUBJECT OF RESOLUTIONS BY REPUBLICANS.

Helena, March 23.—(Special)—Resolutions on the death of former Senator Thomas H. Carter were adopted as follows today by the Montana state republican committee:

Whereas, The republican state central committee has heard, with profound sorrow and deep regret, of the death of the Hon. Thomas H. Carter, for more than 20 years, as territorial delegate in congress, member of congress and United States senator, he was a prominent personage in the state of Montana.

A man of complex character, and such extraordinary ability, that he was often misunderstood, the perspective of time alone will afford a fair estimate of him. With the passing of Senator Carter, there departed from the scene of early activity a scholar with a broad basis of culture and learning; a statesman ever true to the principles of American patriotism; a political general of acknowledged ability; and a public servant ever loyal to the interests of Montana.

During his career of more than 20 years before the public he mingled with men who were famous in the national history. He kept in touch with them until his influence extended beyond the lines of Montana, and he became a leader of men and a director of public opinion.

Kindness of manner, simplicity of speech, sympathy of feeling, were ordinary traits of his character. Remarkably unaffected and unpretentious, he was not above the common failings of humanity. Possessing remarkable serenity of mind his attitude toward calumny was one of genuine indifference. Seldom harboring any bitterness, he was ever ready to be reconciled with those to whom he had been opposed.

He commanded the adherence of his followers by confidence inspired by his courage and ability, and he was feared by his opponents, who recalled his many victories and his resourceful skill. He had rare discernment and judgment as to public sentiment and never advocated a weak or un-American principle. He had absolute confidence in the people of Montana and never feared to appeal to them boldly or directly.

Few active lives of public men included such constant struggle and so many instances in which victory was snatched from defeat by the genius of his political generalship. No public man in Montana was so much the subject of unbridled, malevolent, partisan and ignorant abuse and misrepresentation. In the case of Senator Carter, criticism overshoot the mark and only excited the generous indignation of his friends and strengthened the adherence and determination of his followers. He passed away, having, after unparalleled struggles, achieved complete success with his leadership admitted by all and maintained by the general assent of his party. Therefore, be it

Resolved, That the state committee express to the beloved family our heartfelt sympathy and that a copy of these resolutions be forwarded to the family of the deceased and to the press of the state.

## MISSOULA THROWN DOWN IN COMMITTEE

provided for that purpose. These returns shall not be opened by the secretary until a committee, selected by the county convention, shall canvass the returns.

The result of the votes in each county shall be forwarded with a list of the delegates from the county, to the secretary of the state central committee.

The county delegates to the state convention shall follow the instructions of the majority of the voters, as determined by the county canvass and the delegates to the national convention shall follow the instructions of the majority of the voters, as determined by the state canvass.

By a vote of 28 to 11 they were rejected. The resolutions were prepared at a conference of progressives, held this afternoon.

The committee was in accord on the endorsement of the administration, but a bitter fight was waged, judging by the sounds coming from the room, against the endorsement of Taft.

The resolutions adopted read as follows: "The republican state committee, at the approach of the quadrennial political campaign, as the representatives of the party of progress, in the fact of an attempt to sow seeds of dissension and discord among the republican voters of Montana, express their abiding faith in the future success and triumphant victory of the republican party at the polls in November, 1912.

"For more than 50 years the republican party has, notwithstanding the opposition and hostility of the democratic party of inaction and fault-finding, written enlightened, progressive and remedial laws, under which our people have prospered and the flag of the United States has become the emblem of honor throughout the world. The republican party, dedicated to freedom, has been the party of action, progress and achievement from its birth to the present time. It has proven itself equal to every emergency and competent to provide every requirement of an enlightened civilization and it will continue in harmony with the people in this age of unparalleled progress and advancement.

Legislation. The record of the present republican administration is contained in and must be judged by, the enlightened, progressive and constructive legislation enacted. The record of the administration of William Howard Taft is one of unparalleled achievements and on account of the opportunities presented of a more extensive and important character than any previous administration.

The roll of important measures enacted into law during the administration of President Taft includes the creation of a tariff board, to the end that the tariff may be revised in accordance with the settled policy of protection upon a scientific basis; the free interchange of products with the Philippines; the creation of postal savings banks, to receive millions of dollars annually for deposit; the corporation excise tax bill; the creation of the bureau of mines; the submission of the income tax amendment; the issue of reclamation certificates in the aid of national irrigation; the safety appliance act; establishment of the Glacier national park; stretched for Arizona and New Mexico, separately; withdrawal of certain public lands in order to conserve the natural resources; a bill suppressing the white-slave traffic; the adoption of a comprehensive policy of conservation; the abolition of the pork-barrel method of river and harbor appropriation; abrogation of the Russian treaty because of discrimination among American citizens, and the passage of arbitration treaties in the cause of international peace. These laws form a body of remedial legislation of far-reaching influence and in extent and public value

exceeds that of any other administration.

"President Taft has urged upon congress and which is now pending, other progressive and remedial legislation of far-reaching importance, the most important being: The development of a permanent currency commission; the control of the trusts by means of a federal incorporation act; the enactment of an employers' liability act; the adoption of a system of compulsory compensation of employees; a measure to define the authority of the courts with regard to the writ of injunction; the reduction downward of the tariff, and the establishment of a system of parcels post.

Pledges Kept. "The pledges of the republican party made in 1908 have been kept. President Taft has enforced the law limiting the hours of employment literally. He has strictly enforced the Sherman anti-trust law, with a determination that is highly commendable. He fearlessly vetoed the Arizona judicial re-creation provisions as contrary to the correct ideas of constitutional government. He courageously vetoed the democratic tariff revision measures as being contrary to and in violation of every principle of the policy of protection. The Panama canal has been brought to a stage approaching completion; the postoffice department has been placed on a self-supporting basis; and the railroads by an appeal to the writ of injunction have been prevented from putting into effect rate increases.

"During the entire administration of President Taft he has advocated those measures he believed to be to the best interests of the American people with sincerity of purpose, candor and devotion to the constitution and the entire people. His attitude toward the law has been one of profound respect and fearless enforcement, to the end that the safeguards of the rights of persons and property be maintained in accordance with established law. His attitude toward the people has been a keen perception of their weakness and limitations, combined with a firm and abiding faith in the gradual and ultimate triumph of their nobler qualities. Democratic in the broad sense of the word, not in a denigrative appeal, but steady and hopeful, he maintains confidence in the best judgment of the rank and file, in the full belief that the best part of every man ought to rule and that when you get the best part of all, it is the real voice of the people. He has courageously opposed the recall of judges and the revolutionary proposals

So Tired of Tired Feet! Use TIZ

Gets the "Tired" Out in a Few Minutes. Makes Your Feet Sore-Proof. "O judge! It's awful how tired feet make you feel tired all over—so dead tired. Then, when you've got a corn besides, and a bunion, and a few blisters, and your feet are terribly swollen, you don't care if you've got a million dollars—you're tired, that's all. A million dollars can't help you any more than 25 cents will."

"Pull, Johnny, Pull!"

A quarter bug a box of TIZ—a wonder for tired, sore, tender, chafed, blistered, swollen, sweaty, smelly feet, corns, callouses and bunions, chilblains and frostbite. The moment you use it, you give a sigh of relief, and then you smile. There's nothing as good as TIZ, so don't accept any attempt at imitation. TIZ draws out all the poisonous exudations that make foot troubles.

to strike down an independent judiciary as calculated to destroy the safeguards of free government by placing the rights of the weak under the domination of the strong, the liberties of the minority at the mercy of the majority, and has taken his stand with the immortal Lincoln, who refused to appeal from the decision of the court, when he said: "We do not propose, that, when any other one or one thousand shall be decided by that court to be slaves, we will in any violent way disturb the rights of property thus settled."

"Every act of his administration has been discharged with ability and fidelity of purpose, notwithstanding the unjust abuse, exaggeration, misrepresentation and even falsehood used in an attempt to cast suspicion and odium upon the republican administration. American history records no president who has been more honest, patriotic or courageous in the advocacy of reforms, suggested in the best interests of the whole people—not as a politician, but as a truly great and patriotic statesman, whom history will record as a worthy successor to Abraham Lincoln; therefore be it

Resolved, That we, the members of the republican state central committee of Montana, recognizing the strong qualities and high statesmanship of William Howard Taft, and his eminent fitness as a candidate for renomination and election as president of the United States, do hereby take this occasion to record our personal endorsement of his candidacy, and to express the hope that he may receive favorable consideration at the hands of our fellow republicans in Montana."

After the meeting adjourned at 11:30 o'clock there was a general gathering of republicans in the dining room of the Grandon. A lunch was served and a number of informal talks made.

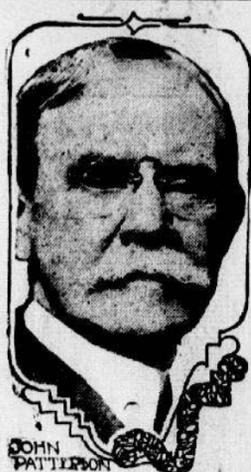

Among the toasts responded to was "President Taft, a Worthy Successor of Lincoln," by Chief Justice Brantly of the supreme court, and "An Independent Judiciary, the Safeguard of Free Government," by Charles R. Leonard of Butte. The progressive members of the committee did not participate in the banquet.

The apportionment is based on every 60 votes or major fraction thereof cast for Congressmen Pray at the last election. In addition, each county is allowed three delegates at large, giving a total of 657 members. The representation by counties:
