

RIOTER IS KILLED BY POLICE

OFFICERS CHARGE MOB WHICH ATTACKS ROCK ISLAND, ILL. STATION.

Rock Island, Ill., March 26.—One person was killed and nine injured tonight when the police fired into a mob that attacked the police station as a result of the riotous conditions that have prevailed for the last two days. Sheriff O. L. Bruner telegraphed to Governor Deneen for militia to quell the disturbance and help the police maintain order.

The mob gathered following the arrest of two sympathizers with John Looney, publisher of the News, a weekly newspaper, which last Saturday printed an attack on Mayor F. M. Schriver. Police officers were jeered when they admonished the crowds to disperse.

Several hundred were in the mob that surrounded police headquarters, where two of the leaders of the rioters were detained.

Officers Charge.

Bricks were thrown and windows of the police station smashed. Then followed several shots from the crowd. Mayor Schriver, who was directing the police, then ordered the officers to charge the mob.

A number of men fell. This caused the rioters temporarily to withdraw. Physicians were summoned, as were the sheriff's officers. One was picked up dead. Nine were wounded and hurried to a hospital. Of these two may die.

Mayor Schriver recently began a campaign to clean the city of undesirable persons, so he announced, but his enemies declared that he wanted to oust his political foes. A few days ago the editor of a weekly newspaper scathingly denounced Mayor Schriver and the mayor ordered that issue of the paper be suppressed. Announcement of the suppression of the publication was made at a mass meeting in the presence of the mayor and after the meeting a large crowd went to the newspaper office to get copies of the paper.

EIGHT HOURS ENOUGH FOR WOMEN TO WORK

Olympia, Wash., March 26.—The state supreme court decided today that the eight-hour law for women passed at the last session of the legislature is constitutional. The case was against a foreman in a Seattle box factory who had worked a girl nine hours a day.

The King county superior court sustained the prosecution and the decision of the lower court is affirmed. In a minority opinion, Judge Chadwick sustains the law, but says the woman employed in fish canneries should be the only ones exempt and that the law should apply to female workers in fruit and vegetable canneries, who are exempt under the statute as it stands.

FIRE IN ALBERTA TOWN.

Blairmore, Alberta, March 26.—An unidentified Italian was burned to death and a property loss of \$100,000 was sustained in a fire in the business district of this city today. The Cosmopolitan hotel, the Royal bank and stores of Gale Brothers and W. McDonald were destroyed. The origin of the fire is unknown.

The Peevish Child Needs a Gentle Laxative

It is natural for a child to laugh and play and when it sulks drowsily or cries, you may depend on it something physical is the matter. If you see no evidences of a serious ailment you will not be wrong if you quietly give it a dose of mild laxative that evening on putting it to bed.

The remedy most generally recommended for this purpose is Dr. Caldwell's Syrup Pepsin, which mothers throughout the country have been giving their children for a quarter of a century. Today thousands of families are using it where hundreds used it then, and there must be good reason for this word of mouth recommendation.

It is admittedly the perfect laxative for children, women, old people and all others who need a gentle bowel stimulant and not a violent salt, cathartic pill or doctored water. Dr. Caldwell's Syrup Pepsin will act gently, and when

taken before retiring will bring complete satisfaction in the morning. After a short use of this remedy all forms of outside ailment can be disposed of with nature will again act alone.

All classes of good American people keep it in the home for ill of the stomach, liver and bowels, and among the thousands who have written the doctor that they will never be without it are Mrs. G. A. Bates, 246 E. 6th St., Salt Lake City, Utah, and Mrs. T. E. Hickman Tennant Colo. A dose of it has saved many a person from a serious illness.

Anyone wishing to make a trial of this remedy before buying it in the regular way of a druggist at 50 cents or \$1.00 a large bottle (family size) can have a sample bottle sent to the home free of charge by simply addressing Dr. W. B. Caldwell, 405 Washington St., Monticello, Ill. Your name and address on a postal card will do.

MINERS GET READY TO VOTE

CHANCES FOR STRIKE IN BUTTE OVER SOCIALISTS APPEAR TO BE REMOTE.

Butte, March 26.—At a meeting of the Butte Miners' union tonight arrangements were made for the taking of a referendum vote Thursday upon the question of declaring a strike of miners as a protest against the discharge of about 350 men. It is claimed by the miners, because they were socialists. The polls will open at 9 o'clock in the forenoon and as there are more than 8,000 miners and smelters who will have a vote, the results of the election will not be known until Friday morning. Two-thirds majority is necessary to call a strike and even then the results must be forwarded to the headquarters of the Western Federation of Miners at Denver, and there passed upon by the executive committee of the federation. Leaders in the union tonight expressed the belief that sentiment expressed at tonight's meeting practically precludes any possibility of a strike.

No Discrimination.

Con F. Kelley, vice president of the Anaconda Copper Mining company, and John Gillie, general manager of the company's properties today issued a statement that the companies operating in Butte would not discriminate against any of their employees because of race, religion, color of politics, but that the companies would continue to exercise their hitherto undisputed right of hiring or discharging whom they pleased.

Socialist Mayor Lewis J. Duncan and Alex Mackel, leaders among the socialists of Butte, tonight addressed a mass meeting of the union, in arrangement of the mining companies. Mayor Duncan alleging that socialist miners were being discriminated against. A striking feature of the meeting was the presence of not more than about 100 persons, whereas formerly big crowds have turned out to hear Mr. Duncan. Politicians of the other parties tonight freely predicted that the events of the past two days forecast the abolition of the socialist party as a factor in the regulation of the affairs in Butte.

STANDING PAT.

Cleveland, March 26.—Inability to agree again marked the attempts today of the bituminous coal miners and operators to fix a two-year wage and working agreement to take effect April

MINER IS KILLED.

Wallace, March 26.—(Special).—John Murphy, a miner working his first shift in the Hunter mine, near Mullan, was caught under a falling slab of rock weighing about a ton, while at work in the tunnel this afternoon, and his body cut in two at the waist. Murphy had just arrived in the district, coming here from Butte. He was a single man, aged 25.

DON'T BE UNREASONABLE

If You Neglect the Care of the Scalp You Should Not Expect Beautiful Hair.

The hair is more exposed and hence more liable to accumulate dust and dirt than any other portion of the body.

In spite of this the hair receives, as a rule, the least attention and no real effort is made to keep it healthy.

If the dandruff germ is allowed to work unmolested and the scalp becomes crusted with dirt accumulations, one may expect the hair to die and fall out. There is no cause for surprise in this phenomenon; it is natural and happens in every instance where the care of the hair and scalp is overlooked.

The one sure remedy which prevents the loss of hair and permits a healthy, luxuriant growth is found in Newbro's Herpicide.

The dandruff germ cannot live on a head to which Herpicide is regularly applied. The germ dies. The hair ceases to fall. The terrible itching stops almost instantly.

That is what Newbro's Herpicide does.

One dollar size bottles are sold and guaranteed by all druggists.

Send 10c in stamps for booklet and sample to The Herpicide Co., Dept. R., Detroit, Mich.

Applications at the good barber shops.

COPPER IS AWAY UP IN MARKET

RED METAL REACHES HIGHEST POINT IN NEARLY FIVE YEARS —AMALGAMATED RISES.

New York, March 26.—Most stocks paused in their upward flight today while others rose to higher prices. The most noteworthy exception was Amalgamated Copper, which ascended to a higher level on announcement that the selling agencies were rejecting bids for the metal at 15 1/2¢ per pound, its highest figure in almost five years.

American Smelting was inclined to heaviness from the outset as also were United States Steel and a majority of the standard railway shares. Most of these were off a point or more before noon and later made further recessions on aggressive short selling.

As an offset, many minor issues, including American Can, American Beet Sugar, Corn Products, the electric and the independent steel shares were a point or two above yesterday. The rise in these failed to enlist popular support.

Abrupt declines in Union Pacific and Steel and further weakness in Smelting wiped out much of the sudden rise in Amalgamated Copper and the undertone became heavy. The setback coincided with London news that the English mine owners were not very hopeful of an early solution of the strike troubles.

Prices rallied a point or more from the lowest in the last hour under spirited buying of Reading and an increased demand for the local transactions. Regardless of circumstantial rumors that copper metal had risen to 15 1/2¢, Amalgamated failed to hold more than the smallest fraction of its midday gain. Anaconda directors met popular expectations by declaring the regular quarterly dividend. Owing to a nominal increase in operating expenses the Atechison road was enabled to return an excellent statement for February—its net earnings for that month increasing \$250,000.

To the Electors of the City of Missoula

Owing to the fact that my attention will be necessarily, for a short time, devoted to contract-work outside of the city, making it practically impossible for me to personally conduct my campaign for the office of City Commissioner, I take the liberty of making known in this way my position in regard to the city's official affairs, and therefore ask your consideration of the following:

I have had extensive experience, which fits me to perform the duties connected either with the street or police department of the city government and my past record in that respect I point to for the guidance of those who do not know me personally.

I have lived in Missoula for 26 years; this city is my home; here is where my children have grown up. I am a taxpayer here and the city's interests are my interests.

I believe in a progressive policy regarding improvements; I am for economy, but I believe that money judiciously spent for improvements would afford needed employment to local workmen.

The ordinances of the city and laws of the state, applicable to city government, should be enforced without fear or favor to anyone.

I do not make any promises, whatever, for the purpose of obtaining the vote of any elector, which I do not intend to carry out.

Thanking all the voters for their kind consideration, I remain,

Very respectfully,

R. W. ANGEVINE

| Grain and Provisions. | |
| Chicago, March 26.—Export sales and alleged crop damage carried wheat prices today to a higher level, the close being firm, 1/2 to 3/4¢ above last night. Corn made a net advance of 1/4¢ to 3/4¢, oats a gain of 1/2 to 3/4¢ and hog products became more expensive by 1 1/2 to 2¢. | |
| Wheat finished at almost the top point of the day. The fact that the foreign demand showed itself greater tended to emphasize bullish feeling. | |
| One reason was that California millers had put up the price of flour 40 cents a barrel, and were preparing | |

Mr. Honest Voter---

Where Is the Argument That Open Saloons Make Business?

LISTEN TO THIS:

An extract from an address by Hon. C.W. Trickett, Assistant State Attorney of Kansas:

"Here is a letter from the largest bank in Kansas City, Kansas: 'Referring to your inquiry with reference to general conditions since the closing of saloons in this city, we are pleased to say that saloons have now been closed over a year. One year ago our deposits were \$2,663,000. At the close of business last night, one year later, our deposits were \$3,932,832, an increase of about \$1,300,000,' in the deposits of one bank alone, and that a bank they thought was going to be ruined by the closing of the saloons."

Sunday closing is good enough for New York City. It's good enough for the most progressive city of its size in the west—"Boise," Idaho.

IT'S GOOD ENOUGH ALSO FOR MISSOULA

Vote "Against" the Proposed Ordinance

EXCITEMENT IS FATAL TO SOCIALIST NOMINEE

Livingston, March 26.—(Special).—The excitement of election was the cause of the death of Charles E. Hansen, socialist candidate for alderman in the Third ward, prominent railroad man and for more than 25 years a resident of Livingston, here early today. Hansen, while at work in the seedling helped the price of oats. Provisionals showed strength all day but particularly after a verdict of not guilty in the packers' case.

The excitement of election was the cause of the death of Charles E. Hansen, socialist candidate for alderman in the Third ward, prominent railroad man and for more than 25 years a resident of Livingston, here early today. Hansen, while at work in the seedling helped the price of oats. Provisionals showed strength all day but particularly after a verdict of not guilty in the packers' case.
