

RAILWAY SHARES ARE HIGHER

MORE FAVORABLE EARNINGS RESULT IN ADVANCE IN PROMINENT ISSUES.

New York, March 29.—Higher prices of standard railway shares based in large part on more favorable earnings, with a sagging or irregular tone in industrial shares which make up a very considerable portion of the daily operations, constituted the dominant feature of today's dealings on the stock exchange.

The dominant issues were the most prominent stocks in the active group, both Union and Southern Pacific attaining the best prices. Returns of these lines for February offer some warrant for the belief that they are recovering from the effects of the unusually severe winter and the strike troubles, which were most harmful to the Southern Pacific. Canadian Pacific had a four-point gain here, reported a net increase for February of \$1,200,000, while Northern Pacific gained over \$200,000. The market obtained its early inspiration from London, where conditions were greatly improved, following indications that the coal strike is on the verge of dissolution.

Coal stocks, relatively heavy in the early session, became more active in the afternoon, Reading assuming leadership by its rise above yesterday's best. There also was some activity in the industrials, chiefly Amalgamated Copper at better prices, but trading continued in moderate volume. Prices hardened generally in the last hour but the movement became irregular and almost stagnant. The week's big gain in bank clearings, almost 24 per cent greater than in the same period last year, attests the steady improvement in business throughout the country. In this city the gain was over 20 per cent.

The bond market was firm and showed a generally better tendency. Total sales, (par value), \$2,382,000. Panama (par value) declined 1/4 per cent on call.

Grain and Provisions.

Chicago, March 29.—Estimates putting the condition of fall-sown wheat at \$14 as against \$0 a month ago kicked some of the props from under the market today. The close was nervous with prices running from the same as last night to 1/2c below.

The drop in wheat came after a moderate show of strength due to a squeeze at Liverpool because Argentina shipments had turned out less than expected. For a while the market received no support whatever and then only when prices appeared in a

demoralized condition. Spring-like weather throughout the winter crop belt more than offset the bullish influence of flurries in the coarse grain today, wheat support falling to respond to the enthusiasm of speculators who were buying corn.

Corn touched a high level but reacted when wheat began to tumble. A forecast of colder weather had a good deal to do with bull sentiment. There was a rally in oats because of corn strength, but the market, after touching a fresh high point for the season, was pulled down by the bears' influence of the late break in wheat.

Efforts to realize profits in the provision crowd sent pork off nearly 50 cents.

PEOPLE DECRY CORRUPT WORK

kind was called for. But the 'out we have just had has barred the joint of our complacency. We are beginning to understand that the corporations and the machine politicians are very much in earnest, and to appreciate the fact that there must be something very substantial at stake in the game of politics when it is played in the openly brutal fashion of the recent state central committee meeting.

"Now, you just watch Fergus county's answer to that sort of politics. It will be illuminating to some people. We'll be giving, not receiving, the 'out'."

Defi Is Answered.

Helena, March 29.—(Special)—Fergus county has promptly answered the defi of the machine state central committee. Secretary Dave Trepp of the Lewistown Dixon Progressive league has just wired progressive republican headquarters here that the league has issued a call for a county mass meeting of progressive republicans to be held at Lewistown on April 9. Secretary Trepp, whose paper, the Daily News, has for weeks been carrying the name of Theodore Roosevelt at the head of its editorial columns as its choice for president, says in his telegram that the mass meeting will be largely attended and will adopt strong resolutions urging the nomination of Roosevelt at Chicago. In addition, the telegram gives assurance of a big delegation from Fergus county to the state meeting of progressive republicans at Helena April 11.

FRIEL ALLEN TAKEN BY OFFICERS

Hillsville, Va., March 29.—Friel Allen, youngest of the eight Allen gang members indicted for the five murders in the Carroll county courthouse a fortnight ago, was captured late today in a carriage shed at the home of his father, Jack Allen, eight miles from here. He cheerfully surrendered and tonight occupies a cell in the Hillsville jail with his cousin, Claud Swanson Allen, who surrendered without resistance yesterday.

Of the band, only Sidney Allen, a man of middle age, and his young nephew, Wesley Edwards, are fugitives.

Friel Allen deserted the two men still at large two days ago and brought back tonight their ultimatum of defiance. Both are prepared to resist until death.

A father's anxiety to have his youngest son spared a terrible death in the mountains is assumed to be the cause of Friel Allen's capture. Jack Allen was not involved in the courthouse shooting, but it is known that since his son Friel joined the outlaw band he has been endeavoring to advise him to submit to the mercy of the law. Just how the parent communicated with the boy has not been disclosed.

MEN ARE TOLD TO SUSPEND WORK

(Continued From Page One.)

Mr. Baer answered that he would agree to a conference.

A report that the operators were not disposed to refuse all the demands, but were willing to grant a slight wage increase was thought to have done much toward creating a desire among the miners to make the suspension as short as possible.

Reasons for More Pay.

As sustaining their demand for increased pay the union gave out this statement:

"Our desire for a 20 per cent increase in pay will not seem unreasonable when it is learned that most of the 175,000 miners work only about two-thirds of the time. The average working time for each man last year was 240 days and the average salary earned by each man for the year was about \$500 or less than \$10 a week.

"Our men take greater risk than they do in other countries. The total number of men killed in mines for the last 10 years was 24,937. The yearly record of deaths in mines now is about 2,800. In the United States the death rate for 1,000 men is 3.91 as compared with 1.43 in Great Britain and it is more than double that of any other coal producing country in Europe."

President White of the union said at midnight the members of the operators' committee of 10, of which George E. Baer is chairman, would meet with the anthracite miners' committee in New York at a date which probably would be fixed tomorrow.

Attest: THOS. A. MURPHY, City Clerk.

Alias Summons.

In the district court of the Fourth judicial district of the state of Montana, in and for the county of Missoula.

Charles Ferguson, plaintiff, versus Lydia M. DeWitt and O. L. Beardsley, defendants.

The state of Montana sends greeting to the above named defendants:

You are hereby summoned to answer the complaint in this action which is filed in the office of the clerk of this court, at Missoula, Montana, and to file herewith your answer and a copy thereof upon the plaintiff's attorney within twenty days after the service of this summons, exclusive of the day of service; and in case of your failure to appear or answer, judgment will be taken against you by default, for the relief demanded in the complaint. Plaintiff alleges: That at Missoula, Mont., January 12, 1909, Lydia M. DeWitt made and delivered to plaintiff her 3 notes of that date, one for \$1,625, due January 13, 1910, one for \$1,625, due January 13, 1911, and one for \$750, due January 13, 1912, all bearing 6 per cent interest and providing for attorney's fees. That at the same date Lydia M. DeWitt made and delivered to plaintiff, for \$4,000 on real estate in Missoula county described as follows: The southwest quarter of the southwest quarter of the southeast quarter of section 11, township 12 north, range 19 west, M. M., containing 10 acres, excepting a county road, which mortgage was recorded April 15, 1909, in book 19 of mortgages, page 448, records of Missoula county. That one note for \$1,625 has been paid but that a note for \$1,625 and for \$750, together with interest thereon, is past due and unpaid; that plaintiff owns said notes; that O. L. Beardsley is a second mortgagee of said premises; that \$200 is a reasonable attorney's fee. Wherefore plaintiff prays judgment for \$2,375, interest and \$200 attorney's fees and that the usual decree of foreclosure be made.

Witness my hand and the seal of said court, this 22nd day of March, A. D. 1912.

(Seal) THOS. P. CONLON, Clerk.
By W. H. Perrier, Deputy Clerk.
Edward C. Mulroney, Attorney for plaintiff.

Notice to Logging Contractors.

Bids will be received by the Hope Lumber Manufacturing company, at its office in Hope, Idaho, up to and including April 10, 1912, for the logging and putting afloat in the Clark's Fork river, all the merchantable saw log timber on the following described lands, estimated to be approximately 25,000,000 feet:

Cut Out the Rough Stuff--Don't Call Anybody Names

Just Figure It Out Yourself

It's Merely a Matter of Simple Arithmetic

It doesn't require a university education to calculate how much the Sunday closing has cost and is costing the business circles of Missoula in wages, alone, removed from circulation.

There are 25 men out of work, the whole year.
Their wages are \$100 a month.
This makes, in a year, a total of \$30,000

There are at least 70 others who lose one shift a week.
This makes \$245 a week.
In a year the total is \$12,740

Making a grand total of \$42,740

This is a low estimate. The original statement made in this connection, placed the loss at \$41,500. This was certainly conservative.

The List of Men Thrown Out of Work Is on File. It Really Includes 56 Names Instead of 25
