

# RAILWAY EXPECTED LOTS OF SOFT, FLUFFY, LUSTROUS HAIR AND NEVER ANY DANDRUFF

### OLD GRANITE COUNTY TOWN ANTI-CIPATES EXTENSION OF THE B. A. & P.

Philipsburg, May 8.—(Special.)—Chief Engineer C. A. Lemmon of the Butte, Anaconda & Pacific railroad arrived here last Friday afternoon with a crew of men and commenced work Saturday morning relocating the town-site of Philipsburg. They began surveying at the corner of Broadway and Sansome streets and, continuing down Sansome, headed in a southerly direction which would eventually lead them to a connection with the Georgetown survey. Mr. Lemmon would not talk about the plans of the B. A. & P. and no definite information was gained from that source, but the fact that a survey party was put in the field here under the direct supervision of the chief engineer is taken as an indication of the intent of the road and the consensus of opinion is that it means a railroad for Philipsburg. The business men are feeling jubilant and great predictions are being made for the future of the old burg. There is some talk that the plans of the B. A. & P. include a line to the Columbia river running from Philipsburg to Lewiston, Idaho, and through the Clearwater country, striking the Columbia somewhere in the neighborhood of Pasco.

Work will begin in a very few days on the new courthouse. The old building is practically off the building site and the contractors are expected to arrive this week and begin excavating. The contract has been let for the laying of the cement walks to the depot and Philipsburg will be a busy place from now until snow flies next winter.

Reports are out of the building of a smelter at Maxville this summer as well as a railroad from the Northern Pacific to the Royal Basin property, a distance of about five miles. It is understood that John D. Fields, the general manager of the Royal Basin, is behind the smelter. He has taken a bond and lease on the Hellman property, which is an iron and gold proposition and ideal for smelter purposes, being rich in fluxing material, which is a great advantage to a smelter. As confirmation of the truth of this statement the fact is cited that Mr. Fields has gone east, presumably to raise the money to float his proposition.

R. R. McLeod has been busy the past week moving out an old frame shack that has stood on the main street ever since the beginning of the town, and which is giving way for a new brick block.

A movement was started here Sunday to organize the Philipsburg Athletic association. It is proposed to buy a tract of ground, lay out a permanent ball park and half-mile track and

YOU CAN DOUBLE THE BEAUTY OF YOUR HAIR IN TEN MINUTES WITH A LITTLE DANDERINE.

When you see a head of heavy hair that glistens with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, you can at once conclude that this man or woman is using Danderine, because nothing else accomplishes so much for the hair. Just one application of Knowlton's Danderine will double the beauty of your hair, besides it immediately destroys and dissolves every particle of dandruff; you cannot have nice, heavy, healthy hair if you have dandruff. This

destructive scurf robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots flail, loosen and die; then the hair falls out fast. If your hair has been neglected and is thin, faded, dry, scraggy or too oily, don't hesitate but get a 25 cent bottle of Knowlton's Danderine at any drug store or toilet counter; apply a little as directed and ten minutes after you will say this was the best investment you ever made. We sincerely believe, regardless of everything else advertised that if you desire soft, lustrous, beautiful hair and lots of it—no dandruff—no itching scalp and no more falling hair—you must use Knowlton's Danderine. If eventually—why not now? A 25 cent bottle will truly amaze you.

The Masonic fraternity is busily engaged in preparing for the dedication of the new temple, than which there is none finer in the state. A large crowd of visiting Masons is expected to honor Philipsburg with their presence on this occasion.

The baseball fans met Sunday afternoon and organized a team for the summer. The boys are very enthusiastic and expect to have the best lineup in the history of the game in Philipsburg. They will be open for games in about two weeks.

James Loomis, city treasurer, is suffering from a stroke of paralysis. Mr. Loomis is quite old and has been failing since the death of his wife a few weeks ago.

### PITCHED BALL BREAKS WRIST.

Washington, May 8.—One of Walter Johnson's speed balls put Lee Tennhill of Chicago out of the game indefinitely today. Tennhill's wrist was broken by a pitched ball. The crowd jeered the Chicago player as he trotted to first base, rubbing his arm, for the ball seemed to have struck the bat.

Tennhill tried to field his position at shortstop in the next inning, but his attempt to throw to first resulted in a wild throw and an X-ray examination showed a clean break.

## J. BROWN IS STUNG BY HARPSTER

### CONDUCTOR ON THE BUTTE LOCAL SLIPS ONE OVER ON THE TRAINMASTER'S CLERK.

Conductor J. Harpster of the Northern Pacific—usually labelled like—dressed up an old joke the other day and sprung it on James Brown, who fell for it fine. It was one with which Noah used to amuse the children during the rainy days in the ark, but it proved to be duck soup when worked out on Jim. The other morning Conductor Harpster met James on the platform and pulled out his timepiece. "Do you see this watch Jim?" asked Harpster. Jim acknowledged that he could see the watch. Then he explained how it was a screw-case watch and had not been opened since its last inspection. He related how it stopped a few days ago and when he took it to the jeweler he was informed that a bedbug had crawled under the hairspring. Jim examined the watch curiously and asked how it got inside, only to be met with the information that it got in between the ticks. Harpster enjoyed the laugh, but it is not recorded that James was convulsed with merriment.

Walla Walla, May 8.—A special to the Morning Union from Pasco is to the effect that Roosevelt followers in Franklin county have called a meeting to be held in Council Saturday for the purpose of selecting six delegates to the state convention at Aberdeen to contest the seating of the six delegates chosen at a meeting of the county central committee. The delegates chosen by the central committee are pledged to support La Follette if he has a chance and if not to switch to Taft. Leaders of the progressive club claim it is but a scheme to support Taft, as La Follette will not stand a chance in the convention. Now is the time to get rid of your rheumatism.
