A Great Special Sale of Brass Beds

Three Hundred High Class Guaranteed Brass Beds to Sell This Week at Prices Affording the Greatest Bargains Ever Heard of in Missoula

In planning this event we were fortunate in securing the co-operation of the Simmons Manufacturing Co., our regular suppliers and the largest manufacturers of these goods in the world, who, in recognition of our tremendous purchases from them, averaging a carload a month, granted very unusual and remarkable price concessions on the carload of brass beds to be bought for this sale. By chance, the order reached the factory just at the time when the price of copper and other materials used in the construction of brass beds was at the lowest point of its downward career (from which it is rapidly recovering), thus affording another great and entirely unexpected price advantage. Besides the benefits thus secured in buying, we propose to give to our customers THIS WEEK ONLY a liberal share of our regular profit, enabling them to buy in this great special sale the very best brass beds made—beds guaranteed for service and against tarnishing—at prices but little more than half what the same beds would regularly sell for.

An Opportunity Without Parallel. Sale Begins Monday Morning, Closes Saturday Night. Don't Miss it

Simmons' Brass Beds are the best made. In design and construction they are the last word of perfection and in their finish a dozen or more coats of the finest English lacquer is applied, making them absolutely tarnish and acid proof.
