

# MEN WHO MAKE LIGHT OF EVERYTHING TO REPRESENT MONTANA AT SEATTLE

### Treasure State Will Make a Good Showing at Thirty-Fifth Annual Convention of the National Electric Light Association to be Held at Coast Town June 10 to 14 Inclusive.

Montana is to make a fine showing at Seattle within a few weeks, for when the National Electric Light association meets there for its thirty-fifth annual convention, from June 10 to 14, the state will be represented by an imposing list of men who make light of everything. Included in the membership are the Anaconda Copper Mining company, the Billings and Eastern Montana Power company, the Butte Electric and Power company, the Union Electric company of Dillon, the Hughes company of Glendive, the Great Falls Electric properties, the Missoula Light and Water company of Hamilton, the Helena Light and Railway company, the Northern Idaho and Montana Power company of Kallispell and the Missoula Light and Water company of Missoula.

Preparations are now being made in more than 1,100 cities throughout the United States for holding the record convention of lighting history. The association has enjoyed a wonderful growth since the last annual meeting, and in attendance and results hoped for the Seattle assembly is expected to surpass all previous gatherings. Governors of states, senators, eminent engineering experts in the national service and many other men of note are scheduled to be present.

#### Six Special Trains.

The demand for reservations all over the country has been unprecedented. To meet the varied requirements of the members no fewer than six monster trains have been arranged to start from separate points at different dates. These trains, each capable of holding hundreds, will be distinguished by a unique application of the color scheme. For example, the first train for Seattle will be designated as "The Red Special," and all the appointments and decorations of the cars will be in red. This will leave New York city May 25, and those electrical enthusiasts who are

aboard will enjoy a veritable trip de luxe, for they are due to visit the Grand Canyon of Arizona, Riverside, Pasadena, Los Angeles, Santa Barbara, Del Monte and San Francisco, and then follow the Shasta route to Seattle, which they should reach June 9, the day before the convention.

Another train will be known as "The Pink Special," and will leave Boston at the same time as "The Red Special," visiting the same points of interest. It is planned to have the two trains meet at Kansas City, Grand Canyon, Los Angeles and San Francisco on the going route, and to meet again coming back at Portland, Yellowstone Park, Salt Lake city, Glenwood Springs, Colorado Springs and Denver.

"The Orange Special" is to leave New York June 3, visiting Banoff Hot Springs, Lake Louise, through the Canadian Rockies to the glaciers, and Fraser canyon to Vancouver, thence by steamer to Victoria and Seattle.

Then there will be a long, long train leaving Chicago June 4, and designated as "The Green Special." Passengers on "The Green Special" will follow the route of the happy fold aboard "The Red Special," and get into Seattle about the same hour.

"The Purple Special" will be for the accommodation of those who center around St. Louis. It will leave that city June 5, and make the trip to Seattle in four days.

Arrangements are being made whereby many members who wish to take advantage of the visit to the northwest may return at their convenience, which will permit little trips into the picturesque section of this growing part of the United States. An excursion into Alaska is one of the many projects.

Taking it all in all, the electrical experts are planning to mix in a good measure of pleasure with their annual business meeting.

# FRUITMEN TO BUILD BAN ON FRIVOLITIES WAREHOUSE IS RETAINED

### DIRECTORS OF FRUIT AND PRODUCE ASSOCIATION VOTE \$4,000 FOR BUILDING.

Last evening the stockholders of the Missoula Fruit and Produce association met at the Orchard Homes clubhouse and voted unanimously to approve the plans of the board of directors for the warehouse and apple packing plant to be constructed in time to handle the season's crop. Eighty per cent of the stockholders were represented at the meeting and after the work of the directors, which has been under way for several weeks, was approved the stockholders voted \$4,000 to build the building and equip it properly. The site for the building selected is near the Puget Sound freight warehouse in south Missoula. The meeting last evening was enthusiastic and the members of the association feel that at last they are to have a working organization to fully meet their needs. Work will be commenced on the warehouse within a few days.

### BERGEN'S PLAYERS

Tremendously serious problems of right and wrong, lovers' devotion and a sister's sacrifice were wrought into the story of "The Bridge Builders," presented at the Harms theater last evening by the Bergen players; and yet, withal, there were epigrams and deft touches of satire and quaint humor to save the strain of undue heaviness. Thurlow Bergen was delightful in the character of the bridge builder, and the supporting parts were well sustained. It was altogether a sweet, strong play, well pleasing to the fair-axed audience.

### HOME FROM COLUMBUS.

Dr. G. F. Reynolds of the university returned last evening on Northern Pacific train No. 5 from Columbus, where Friday he delivered the commencement address before the graduating class of the Columbus high school.

### POSTUM

"There's a Reason"

# BOWELS ARE BASIS OF CHILD HEALTH

The careful mother, who watches closely the physical peculiarities of her children, will soon discover that the most important thing in connection with a child's constant good health is to keep the bowels regularly open. Sluggish bowels will be followed by loss of appetite, restlessness during sleep, irritability and a dozen and one similar evidences of physical disorder.

At the first sign of such disorder give the child a teaspoonful of Dr. Caldwell's Syrup Pepsin at night on retiring, and repeat the dose the following night if necessary—more than that will scarcely be needed. You will find that the child will recover its accustomed good spirits at once and will eat and sleep normally.

This remedy is a vast improvement over salts, cathartics, laxative waters and similar things, which are alto-

gether too powerful for a child. The homes of Mrs. E. S. Griffin, Sandy, Utah, and Mrs. Clara McIntosh, Masonville, Colo., are always supplied with Dr. Caldwell's Syrup Pepsin, and with them, as with thousands of others, there is no substitute for this grand laxative. It is really more than a laxative, for it contains superior tonic properties which help to tone and strengthen the stomach, liver and bowels so that after a brief use of it all laxatives can be dispensed with and nature will do its own work.

Anyone wishing to make a trial of this remedy before buying it in the regular way of a druggist at fifty cents or one dollar a large bottle (family size) can have a sample bottle sent to the home free of charge by simply addressing Dr. W. B. Caldwell, 405 Washington street, Monticello, Ill. Your name and address on a postal card will do.

# HERON'S SECRETARY A LIVE WIRE

### WOMAN IS APPOINTED TO GUIDE THE DESTINIES OF WESTERN MONTANA CLUB.

There was one western Montana commercial club which was not represented at the meeting of the association held in Missoula Friday. That is, there was no personal representative present, but the spirit of the absent club hovered around the meeting all day. This club is at Heron, its organization having been of recent date. The Heron club enjoys the distinction of having a lady secretary—the only woman commercial secretary in the state of Montana. She is Freida M. Schmidt and, from a commercial club standpoint, she is certainly a live wire. Writing Secretary Breitenstein of the association the regrets of her organization on account of being financially unable to send a delegate, the secretary appended the following story of Heron and its surrounding country:

#### Heron.

Heron is located on the main line of the Northern Pacific railway, only five miles from the Idaho line, and is distinguished for having the prettiest natural surroundings of any town in western Montana.

There is approximately 60,000 acres of choice farming land directly tributary to this village; this land is mostly in the first survey that was made only a few years ago, and until then no actual settlement could intelligently be made.

All available homestead land has been long since taken, and the many permanent homes speak well for the success of an agricultural venture in this locality.

#### Advantages.

Located midway between Spokane and Missoula, and also midway between two smaller towns, Thompson and Sandpoint, markets for all kinds of produce are exceedingly good. Two passenger trains each way per day serve the traveling public, and a grade school of two rooms is provided for the benefit of the children.

Sickness is almost unknown in this locality, and many persons have been materially improved, if not permanently cured, of different maladies by coming here.

#### Opportunities.

Heron's opportunities are varied. The farmer who can buy and improve his place stands at the head. Land can be bought at reasonable prices, and is sure to give the owner large returns.

This is a good location for a good doctor, being as we are midway between Noxon and Cabinet, two good small towns, a doctor could soon work up a good and lucrative practice.

We have an opening for a black-

# "Got My Sore Foot in It Right!—Tiz"

"A Tiz Bath, My Boy, a Tiz Bath! You Can't Beat It for Sore Feet, Corns and Bunions!"

Is this man a tender-foot? No. He is a joy-walker who uses Tiz and gets from the feet a happiness one never felt before.

When your feet are so tired they feel like stumps, when they ache so that they hurt way up to your heart, when they shamble your feet along and it seems as though all a misery you ever had has settled in your feet, look at the happy Tiz man in the picture.

You can be happy-footed just the same. If you have corns and bunions that everybody seems to step on, just think of this happy Tiz man. He had corns and bunions, too. He had used Tiz, and now he has no more tender, raw, chafed, blistered, swollen, tired, smelly feet, corns, callouses or bunions.

As soon as you put your feet in a Tiz bath, you feel the happiness soaking in. It's like mountain ozone to lungs. Nothing else but Tiz can give you this happy foot feeling. Don't accept any substitutes. Tiz 25 cents a box, sold everywhere, or sent direct on receipt of price, by Walter Luthier & Co., Chicago, Ill. Recommended by all drug stores, department and general stores.

smith. The country is making such strides that a blacksmith will receive good trade.

Parties looking for a good location for a small local newspaper will do well to investigate this location. We feel sure that such an enterprise would make good and would receive our heartiest support.

We have the choicest clay for brick in this locality, and this industry is sure to be a winner in the near future; this will bear investigation.

#### Natural Resources.

Natural resources are necessarily either streams, timber, game or mining. We have three streams in our territory that cannot be excelled for trout, besides Clark's Fork river, which furnishes the best fishing for larger fish. Timber is going to be a thing of the past so far as the poor man is concerned, as whatever there is left is now owned by the large companies and will all be logged and manufactured in the next three to five years.

Game abounds in our valley; deer, bear, mountain lions, coyotes, lynx, fisher, martin, mink, beaver, muskrat, and last but not least, the skunk.

Mining is only in the prospective stage, one property only three miles from our village, has been bonded and a large crew of men are employed in development work with the promise of handsome returns. Large areas in this vicinity, so far as we know, have not even been prospected and we look for great discoveries in the near future.

#### Agriculture.

This is the home of the grasses. Clover and timothy flourish here in all kinds of soil, and produce enormous crops. There is not one case on record where these grasses have not produced good crops from seeding. These conditions make stock raising very favorable, and those that have embarked in this enterprise for either dairy or market purposes have made great gains.

Grain raising has been demonstrated to be particularly adaptable to this locality, either fall or spring wheat, oats, rye and barley being particularly favored.

Horticulture is in its infancy, as the oldest orchards have only reached a stage where they are highly profitable. Ten years ago there was not a fruit tree in this locality and now every farmer has a nice orchard either bearing or "coming up." We look for great things in the fruit line, as we are particularly favored both by exceedingly good soil and the climate.

#### Land Values.

Land values are very reasonable, several places being offered at present at very reasonable prices, and are a bargain for the person who could go ahead and improve them.

#### Poultry.

This is where the hen is a winner. Every winter fresh eggs command from 60 to 75 cents per dozen, and besides, poultry flourishes here better than in most localities.

#### Labor.

Labor here is usually in great demand, \$3 per day being the going wages by the day. Farm help somewhat less for steady work.

# VERY RADICAL "RED" IS LEWIS J. DUNCAN

Indianapolis, May 18.—With the delegates waving red banners and singing the "Red Flag," the national convention adjourned sine die here at 5:50 o'clock this evening.

Just before adjournment J. M. Mallon Barnes of Philadelphia was elected campaign manager and it was decided to appoint a committee of five to assist Mr. Barnes in an effort to bring about the election of Eugene V. Debs of Terre Haute as president, and Emil Seidel of Milwaukee as vice president of the United States. The "red" faction of the party, led by Lewis J. Duncan, mayor of Butte, Mont., began a movement this afternoon for the repeal of that section of the constitution passed yesterday after hours of heated debate, which places the party as taking a stand against "violence as a weapon of the working classes." Suffrage signatures for the motion were obtained by Robert J. Wheeler of Allentown, Pa., and the section will now be placed before the rank and file of the party for a vote.

The most extended committee report was that of the woman's department, which recommended a campaign to educate women to the use of the ballot and took a broad stand against the white-slave traffic.

#### GREAT EGG-LAYERS.

Salmon City, Idaho, May 18.—Mrs. H. F. Haynes Shoup won two international egg-laying contests with her flock of White Wyandotte chickens. The contest began last November with each entry confined to five hens and closed April 18. Mrs. Shoup's hens laid 569 eggs. Story's agricultural college, Connecticut, was next with an English entry, scoring 485.

# UNIQUE OBSESSION OF CLERK

### DRESSED IN WOMAN'S ATTIRE. LIVINGSTON MAN CAUSES LOTS OF MYSTERY.

Livingston, May 18.—(Special.)—Livingston's "wild woman" who has puzzled the local police for the past week, was captured today by Chief of Police Swindelhurst and Officer Hansen. The "wild woman" turned out to be a well-known Livingston clerk whose name the police refuse to give out. The man is a victim of what is known as "a marked condition" caused by an accident which befell his mother a short time before his birth. He has a wild passion for women's clothes and water.

According to the story told the police, the man's mother, before the birth of her child, was walking near a creek one day; she slipped and fell into the water. Her husband found her and was greatly angered, dragging her out of the water and pulling her home, where he threw her onto a pile of women's clothes. This treatment so shocked the mother that it was never forgotten and marked the child. The man told how his mother had whipped and whipped him when he was a child, for dressing in girl's clothes and padding in the water and then how she had told him of the awful treatment of his father. Weeping, the "wild woman" told Police Chief Swindelhurst that he came to Livingston four years ago and that in the summer and once in awhile in the winter, he had stolen and begged women's clothes, gone to the river and paddled for hours in the water. Before coming here he worked in Milwaukee, St. Paul and other middle western cities, but always lost his position on account of his "mark."

The man told the police that he simply has a passion for dressing in women's clothes and for water and that they could send him to the insane asylum to the penitentiary, anywhere, but he would always attempt to make his escape and take up his habit. He declared he could not live and would rather die than be kept from the pleasure of the water and women's clothes. When first arrested the man denied everything but later gave full confession. The police are keeping his identity secret in order that he may keep his job. The man read stories in the newspapers of his actions and when the first story came out he stayed away from the river for two days, but on the third day, his passion conquered him and, dressed in a skirt, corset and waist, he paddled in the river for three hours. The police saw him and gave chase, but he swam away and hid in the underbrush.

#### FOREST SERVICE WAREHOUSE.

Thompson, May 18.—(Special.)—R. H. Bushnell of the national forest reserve has had a substantial building erected this week in the rear of the lot occupied by the First State bank. The building is 24x40 feet and is to be used by the forest service as a warehouse for telephone and other apparatus. The offices of the service are now located on the second floor of the bank building and it was desirable that their storehouse be near at hand.

#### MARRIED BY SMALL.

Hugh Hanson and Eva Durand, both of Delorgia, were united in marriage yesterday afternoon by Judge H. M. Small.

# Skin on Fire?

Just the mild, simple wash, the well known D.D.D. prescription for eczema and the itch is gone. A bottle will prove it. We have sold other remedies for skin trouble but none that we could guarantee as we can the D.D.D. remedy. If the first regular size \$1.00 bottle does not do exactly as we say, it will not cost you a cent.

George Freisheimer, Garden City Drug Co.

# BIJOU THEATER

Program Sunday Only: Matinee, 2 p. m. Evening, 7 o'clock
