FACTS SHOW HOW TAFT STOOD

(Continued from Page One)

and he requested that the suit be postponed for a reasonable time until this investigation could be completed.

"Secretary Taft, who had been, I think, examining some papers connected with the matter, then expressed a very decided opinion that the suit should not be brought until the bureau of corporations had completed its inquiry and the president, said to me, 'You will wait therefore wait,' or words to that effect.

"The next day I saw Mr. Hansbrough, who had called frequently at the department to know why nothing was done about the harvest trust, and I explained the situation to him, saying that only the inquiry asked for by his resolution of December 17, 1908, prevented immediate action by the department of justice."

The statement then quotes Senator Hansbrough's remarks in the senate January 22, 1908, after his talk with Attorney General Bonaparte, when he

attempted to have the investigation by the bureau of corporations ordered stopped.

"Mr. Bonaparte states that it was a day after the cabinet meeting that he saw Mr. Hansbrough," says the statement. "Mr. Hansbrough acted immediately upon receipt of this information."

"This fixes the date of the cabinet meeting as January 21. The record shows there was a cabinet meeting on that date.

"Mr. Taft and his managers have sought mendaciously to escape responsibility for Mr. Taft's part in this matter through the false pretense that because Mr. Taft was out of the country in the fall of 1907, he was not in position to know about or have anything to do with the matter. Mr. Taft returned to the United States from his trip around the world in December, 1907. He was present at the cabinet meetings in January, 1908, and as Mr. Bonaparte's letter specifically shows, he not only took part, but the deciding part, in the determination of the cabinet to postpone prosecution of the harvest company pending the investigation by the bureau of corporations."

There are nearly 100 miles of wire in one electric sign in New York and 600 electrical horsepower are required to operate it.

L. W. W. ATTORNEYS MAKE CHARGES

(Continued From Page One)

every one, wherever he or she may be in the city of San Diego, the state of California and the United States, take action looking to intervention by the executive of the state of California to prevent further breaches of the peace and commission of felonies in this city to the end that it may not be said that mob violence has supplanted calm judgment."

Hearing Monday.

On Monday, Judges W. A. Sionne and W. H. Guy, sitting jointly, will hear the affidavit of Moore and take action on the application to have J. M. Porter and 15 others not named cited to show cause why they should not be punished for contempt of court. It is said Moore hopes to establish that Porter and 15 unnamed persons are members of the so-called "vigilantes." Moore is a wealthy resident of San Diego and is accused

with him are equally prominent socially and financially. Porter's name is the first to be mentioned in connection with the crusade against the lawless element which has invaded the city. No disorders were reported to-night.

Seventeen arrests have been made since last night as a result of the 23 indictments brought by the grand jury. Sheriff Jennings is now searching for the remaining 18, though it is believed most of them now are in Los Angeles.

Much interest attaches to the expected arrival of Colonel Harris Weinstock, Governor Johnson's special commissioner, tomorrow. He is returning from the canal zone and will be stopped here.

There is said to be some feeling against him as a result of his report regarding conditions existing in San Diego.

District Attorney Utley reiterated tonight his charge that the report was libelous.

MINING DEAL MADE.

Helena, May 18.—(Special).—A deal was closed here last night by which the Corbin Copper company takes over the C. W. Fleming group of 13 claims in the Alhambra district. The con-

sideration has not been made public. The Fleming group has produced since 1899 about one-third of a million. It has been developed by three tunnels to a depth of 450 feet. Its new owners will begin development work immediately, it is understood.

MINERS WILL RETURN.

Wilkesbarre, Pa., May 18.—By a vote of 223 to 54, the anthracite miners in convention today ratified the agreement entered into by their sub-committee with the coal operators and ordered the 70,000 men and boys employed in and about the mines to return to work next Wednesday. The suspension began March 31, when the agreement entered into in 1909 expired. The advance granted will net the men about 5 1-2 per cent.

BUTTE CLERKS RESTRAINED.

Butte, May 18.—District Judge J. B. McClellan granted an injunction restraining the Butte Clerks' union from picketing or interfering in any way with the conduct of the business of Elizabeth O'Boyle, a widow, who operates a grocery store. The woman's determination to keep open past 6 o'clock in the evening aroused the opposition of the clerks.

BAILEY AND WICKBROD ARE HELD FOR CRIME

Wallace, May 18.—(Special).—William Bailey, charged with the theft of more than \$500 worth of jewelry from the rooms of Mrs. Bertha E. Johnson in the Samuels hotel, and M. H. Wickbrod, his companion, in whose suitcase the police found a portion of the stolen goods, were given their preliminary hearing yesterday and both bound over to the district court.

Bailey, who was the first one picked up in connection with the case, waived his preliminary, but Wickbrod compelled the introduction of evidence. Testifying against the men, Chief of Police A. McKinley told of the finding of a number of pieces of the diamond-set jewelry in the restricted district. Each of the women holding parts of the booty stated, according to him, that she had received it from Bailey. The clue to the hiding place, Chief McKinley says, came through Bailey himself, who admitted having had a diamond-set watch which was the property of Mrs. Johnson.

CHILDREN ARE INJURED IN EXPLOSION OF CAP.

Kellogg, May 18.—(Special).—One child lies at the Kellogg hospital with an eye gone and his little 2-year-old sister is seriously injured as the result of an accident at Esauville Thursday evening, when the 6-year-old son of Mr. and Mrs. John Loomah, Finlanders, pounded a dynamite cap and caused it to explode, along with several others from the box of caps they filled.

The children suffered terribly following the accident and were rushed to the hospital in Kellogg where they were attended by Drs. Kennett and McCrackin.

It was found that the boy's eye had been ruined and it was removed by an operation. His face, neck and arms were filled with particles of copper and up to the present the physicians have not been able to remove them. The little girl, 2 years old, who was hovering over the cap when it exploded, was seriously injured, copper being driven into her face and arms.
