**CAMORRISTS WEEP
WHEN SENTENCED**

(Continued From Page One.)

Morra, Di Gonnaro, Alfano, Rani and Di Marinas were given 30 years imprisonment and sentenced to 10 years police surveillance each; Di Mattio to 10 years and six months imprisonment and 10 years surveillance; Ascrittore to 10 years imprisonment and 10 years surveillance; Vittozzi, the priest, seven years imprisonment and two years surveillance; the others to five years imprisonment and three years surveillance.

When the accused were placed in the iron cage to hear the verdict, Di Marinas suddenly drew forth a piece of glass and cut his throat. The other prisoners screamed and shouted imprecations and imprecations.

Di Marinas is in a serious condition. The glass with which he attempted suicide severed an artery. It was noted, but Di Marinas, the moment he was left alone, tore off the bandages and reopened the wound. Surgeons again dressed his injuries, but the wounded man declared he was determined to die.

The verdict as a whole proved a surprise and all are agreed that the severity of the sentences is the last blow to the camorra, which virtually has been annihilated since the arrest of its leaders.

No serious a menace has the sea life become in some portions of Africa that it has been necessary to close some important roads to all forms of animal transport.

**ERUPTION IS FEARED
IN ALASKA**

EARTHQUAKE SHOCKS LEAD TO BELIEF THAT KATMAI HAS AGAIN BROKEN OUT.

Cordova, Alaska, July 8.—The earthquake shocks of Saturday night and Sunday were felt all over Alaska. It is feared Mount Katmai is again in eruption. Wireless connection with Kodiak Island is broken.

The fact that the United States navy wireless station has been unable to communicate with Kodiak, Bristol Bay and other westward stations since the earthquake, is leading to the fear that further volcanic eruptions may be taking place to the westward. Signals from the Bristol Bay station were faintly heard about midnight last night, but those stations were unable to hear the navy station here.

Katmai is known still to be smoking and throwing off ashes. The Bristol Bay district received another light covering of ash last week and two days of southwest winds brought a slight sprinkling to this section.

The earthquake reported seemed to be so much of a swinging as of a quivering nature. From reports received here it is believed that the center of the disturbance, four distinct shocks were recorded in the city of Fairbanks Saturday night, one of the shocks yesterday being the severest ever felt in that city.

Yesterday and today Miles and Childs glaciers discharged more ice than ever before. On their visit to the glaciers yesterday tourists from the steamer Mariposa were compelled to stay at the timber line in order not to be caught by the great waves caused by huge blocks of ice constantly falling into the Copper river.

Severe Shocks.
Fairbanks, Alaska, July 8.—Following shocks, mostly mild, at intervals of one to two hours since yesterday, a quake was felt this noon equal in violence to the first shock reported. It was, however, much shorter in duration and did no damage. Towns throughout the interior report earth shocks yesterday simultaneous with those in Fairbanks. The wooden buildings in all cases withstood the shocks, severe as they were.

People Warned by Quakes.
Everett, Wash., July 8.—A letter just received from Uyak on the side of Kodiak Island most ominous to the discharge from Mount Katmai, says that five distinct earthquake shocks warned the people of Kodiak of the eruption that was impending. The great outburst from Katmai began with a flame appearing along the mountain crest, quickly followed by a leaping of the fire hundreds of feet into the air, as ashes, mud and rock were belched forth. This precipitated a heavy electrical storm, a tempest so great as to drown effectively all noise made by the volcano. All bird life in the vicinity of Uyak was destroyed. Even the eagles, which were plentiful, succumbed to the acid fumes.

**CLIMATE FAILED—
MEDICINE EFFECTIVE**

Rest, fresh air and good food do help many persons suffering from Tuberculosis, but to be honest, it must be admitted that the disease is seldom more than "arrested." Something more is needed. Eckman's Alternative is a medicine made for the treatment of Tuberculosis. It has arrested this disease again and again and for that reason we argue and urge that Eckman's Alternative should be used in every case of Tuberculosis. In addition to good, nourishing food and fresh air, which will help.

The facts—the evidence of recoveries that have been made—are interesting reading. A remarkable case follows:

Weldon, Ill.
"Gentlemen:—Through Eckman's Alternative I have been saved from a premature grave. On December 14, 1901, I was taken with Typhoid Pneumonia. My lungs became very much affected and I was advised to go to Fort Worth, Texas and from there to Colorado. After being in Colorado two weeks, my physician informed me that nothing could be done, as my case was hopeless. Three weeks later I returned home. On July 14, 1905, I began taking Eckman's wonderful remedy for Consumption, and since that time have been stout and well."
(Signed affidavit.)

"ARTHUR WISEB."
Eckman's Alternative is effective in Bronchitis, Asthma, Hay fever, Throat and Lung Troubles, and in up-building the system. Does not contain poisons, opiates or habit-forming drugs. For sale by Missoula Drug Co., George Froehner and other leading druggists. Ask for booklet telling of recoveries and write to Eckman Laboratory, Philadelphia, Pa., for additional evidence.

METCALF IS READY.

Glendive, July 8.—(Special.)—Returning today from Chicago, where he participated in the initial steps to organize the new progressive party, James A. Metcalf stated that he would take steps at once to organize in Dawson county and to co-operate with the progressives throughout the state who will align themselves with the new movement.

Deafness Cannot Be Cured
By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of 10 are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circular, free.
F. J. CHERRY & CO., Toledo, Ohio.
Sold by Druggists, 15c.
Take Hall's Family Pills for constipation.

**YANKEES HOG ONE
ENTIRE EVENT**

(Continued From Page One.)

were Americans. A. W. Richards, Brigham Young university, won first place easily, clearing the bar on the first attempt at 133 centimeters (about 6 feet, 3 1-3 inches). George L. Hofine, Leland Stanford university, the holder of the world's record, was not in his usual form and took third place, jumping 131 centimeters. The German, Liesche, unexpectedly captured second place.

Platt Adams and Benjamin W. Adams, both of the New York Athletic club, took second and third places in the standing broad jump, which was won by the Greek, 'sclitleras, with a jump of three meters, 37 centimeters (approximately 11 feet, 7 1-8 inches).

In the 10,000-meter running event Finland's representatives covered themselves with glory. The long-legged Kolehmainen ran away from the Carlisle Indian, Louis Tewanina, who was unable to step quick enough to overcome the handicap of his shorter strides. Kolehmainen's competitor, Stenroos, finished third. Tewanina was 300 yards behind Kolehmainen at the end. Joseph Keoper finished fourth. The English long-distance champion, W. Scott, and the North Attleboro runner, Hugh E. Maguire, ran themselves out early in the race.

Disqualified in the Relay.
In the finals of these four events the American athletes scored 15 of the 24 points. In other competitions they were less fortunate. The American team, Courtney, Belote, Wilson and Cooke, virtually owned the 400-meter relay race, but disaster overtook them. They won the semi-finals apparently with ease from the British team. Sweden beat Hungary and Germany beat Canada. The judges announced, however, that the Americans were disqualified because Belote and Wilson failed to exchange the stick until they had overrun the limit. The British team takes America's place in the final heat. The United States failed to shine in the 10,000-meter walk. Frederick H. Keiser, New York Athletic club, who finished fifth in the second heat, being the only American left for the final. Four of the 10 listed for the final heat are British, with the Canadian, George Goulding, who captured the first heat handily, and Norman of South Africa, also representing the union jack.

That they held their old places in walking was the only consolation the day afforded the Britishers.

Last night's swimming fiasco caused the first friction of the meeting. The jury which decides disputes met today and agreed that the United States had no ground for protest because its representatives had been left out of the semi-finals. The jury concluded that in the interest of sport if the other contestants were willing, the heat should be reswum.

Germany, whose champion, Bretling, won the heat, objected. Australia, represented by other competitors, agreed, and on a vote Germany's objection was overruled.

The United States has passed Sweden in the number of points scored, the figures being: Sweden, 51; Great Britain, 38; France, 17; Africa, 13; Germany, 12; Denmark, 9; Finland, 4; Greece, 3; Norway, 2.

In the spring-board diving competitions, R. M. Zimmerman, Quebec, won second place in his trial heat. G. W. Galdesek, Chicago Athletic association, and Arthur McAlennan, New York Athletic club, were third in their respective heats. All qualified for the final.

RELATIVES SEEK STOECKER.
Will anyone knowing of or having seen Fred Stoecker since June, 1911, kindly communicate with Miss Emma Stoecker, Clayton, Missouri, St. Louis county. Mr. Stoecker has not been heard of since June, 1911, when he was seen in East Helena. He is 27 years of age, has light hair and light gray eyes, ruddy complexion and is about 5 feet 8 inches tall, medium build. The request for this information was received at the sheriff's office yesterday in a letter from the man's sister.

ELVEN DEATHS.

Philadelphia, July 8.—Eleven deaths were reported today to the coroner as being due to excessive heat. The maximum temperature was 95.

**AVIATORS ORGANIZE
TO PRESERVE LIVES**

Chicago, July 8.—A national association of aviators founded "to save the lives of remaining American flyers," was organized today at the city flying field of the Aero club of Illinois. Permanent organization will be completed on July 20 at the aeroplane operator in the United States is expected to become affiliated. The organization is called the American Aviators' association. Members pledge themselves not to fly in an aeroplane if they do not think safe, regardless of jeers, or accusations of cowardice.

They seek action, through the National Aeronautical body, against managers or employers who seek to force aviators into unsafe flights and they have arranged for a mutual exchange of experiences.

A WOMAN'S GOOD LOOKS

Depend on her general health and freedom from pain. Many a woman looks old before her time because of those irregularities which are essentially feminine. Starting from early womanhood, she suffers from frequently recurring derangements that upset her womanly health. If she be beautiful she grows into that mellow and winsome smile and crowd about the eyes or the blue circles underneath. It is invariably the rule that such women suffer little, or not at all, from womanly derangements which sap the health and leave in the face the tell-tale story of pain and suffering. Dr. R. V. Pierce, the famous specialist in the diseases of women, found a prescription in his early practice that soothed the organism peculiar to womanhood—oiled the machinery, as it were, of the human system—and helped the woman to pass those painful periods that scar-lined and aged her face. This remedy became the well-known Dr. Pierce's Favorite Prescription, that has benefited thousands of women and saved them from misery and suffering at different periods in life.

Mrs. HANKEY E. PIERCE, of 244 Bright Street, Berlin, Ont., writes: "I am now a well woman after suffering for three years and doctored with several different doctors, each one saying it was something different and the last one after putting me through a thorough examination, said I was suffering from a growth, which, in time, would result in cancer, and said I would not live more than two years if not operated upon right away. I became hopelessly discouraged but would not consent to the operation as I was too weak and too much afraid, but at last, through the advice of a friend, I tried Dr. Pierce's medicine, and after using two bottles of the 'Favorite Prescription' I immediately felt a change. I also used two boxes of 'Healing Suppositories' and eight boxes of 'Lotion Tablets,' and can safely praise the name of Dr. Pierce's medicine to all who suffer from any female disease, for these medicines are all they are claimed to be, and I hope will help others as they have helped me."

**SOCIALISTS SUGGEST
L. J. DUNCAN**

MAYOR OF BUTTE NOMINATED FOR GOVERNOR AND OTHER CANDIDATES SELECTED.

Butte, July 8.—At an all-day session, presided over by Mayor L. J. Duncan, the socialists nominated their ticket for the elections this fall. Mr. Duncan being the nominee for governor. At a reception to the delegates in the evening these present sang the Marseillaise. A platform was adopted, the same being of great length, and it was discussed. One of the features of the document is that only six hours a day should be required for a work day when the temperature is above a given point.

The following nominations were made: For governor, Lewis J. Duncan; lieutenant governor, F. L. Buzzell of Conrad; secretary of state, A. J. Chapman, Kalispell; treasurer, H. J. Hamilton, Missoula; attorney general, H. L. Maury, Butte; state auditor, Elbert Michand, Miles City; associate justice, W. F. Davis, Butte; railroad commissioner, B. G. Melber, muck, Great Falls; congressman, C. E. Lowrie, Stanford, and J. E. Matro, Butte. Four presidential electors were nominated, and Martha E. Plassman of Missoula was chosen as state correspondent of the women's committee.

**CHARLES WOODMAN
DIES OF PARALYSIS**

Charles Woodman of Butte, stricken with paralysis Saturday night, died there Sunday without having regained consciousness.

As soon as it was apparent that the old was near, friends of Mr. Woodman telegraphed to his brother, Harry Woodman of Helena, and the latter went to Butte Sunday afternoon. Mr. Woodman is survived also by his mother, living in Kalispell; by a son, Elmer F. Woodman, residing in Seattle, and a daughter, Mrs. Hugh Sloane, who makes her home in Kalispell. He also leaves a sister, Mrs. Graves of Sandpoint, Idaho, and another brother in Tacoma.

Mr. Woodman had been a resident of Montana for about 40 years, first having lived in Helena. Nearly all of his business career was connected with the wholesale mercantile business and during his time he represented some of the leading wholesale grocery houses of the west. He has been with the Conroy Brokerage company of Butte for the past three years.

No definite arrangements have yet been made for the funeral, but it is probable that burial will be made in Helena beside the body of his wife, who died several years ago.

DISCREDITED

THOMAS F. RYAN.

Thomas F. Ryan, of Wall street, comes very near being a man without a party. Eight years ago he was high in the councils of the democracy, and it was largely through his influence that Allen B. Parker was nominated for the presidency. A delegate to the recent democratic convention, Ryan heard himself scolded and denounced by the men who controlled it. Ryan was bitterly opposed to the nomination of Wilson. Beaten and discredited and invited by Bryan to leave the party, it is doubtful if Ryan will work hard for democracy's candidate this year. Wilson would rather he would not.

MAKES GOOD HIS ESCAPE.

New York, July 8.—After 24 hours of vain hunt for George Witson, a prisoner in the Tombs who attacked a guard with a cold chisel last night and then from the bottom of a manhole in the prison yard held 25 keepers at bay with the guard's gun, the authorities expressed the belief tonight that he had escaped.

It is believed that Witson escaped by way of the manhole and the cellar into some other part of the prison which was not watched at the time and scaled a wall to freedom. Boyd in the vicinity of the prison yard told of a man coming over the wall, stealing one of their caps and making off.

Missoula Mercantile Co.

Women's Suits and Coats Reduced

1/2

There was never a better opportunity than this Store affords right now for women to buy stylish, seasonable apparel at a saving—the offerings being such as to appeal to every woman who would economize in money but not on quality or style.

At 1/2 Choose any of our handsome trimmed hats, including Paris patterns, regularly priced \$10 and up.

**PORTLAND IS OWNED
BY THE ELKS**

JOYFUL CROWD TAKES POSSESSION OF EVERYTHING AND RUNS THINGS.

Portland, July 8.—Tonight witnessed the formal opening of the forty-eighth annual convention of the grand lodge of the Benevolent and Protective Order of Elks, C. C. Bradley, exalted ruler of the Portland lodge, presiding. Tonight's affair was in the nature of a general reception to the visiting members of the order and the auditorium was thrown open to the public. Addresses of welcome in behalf of the reunion commission the city and state and a response by Grand Exalted Ruler John P. Sullivan, constituted the exercises of the opening session.

Tomorrow the delegates to the convention will take up the actual inner work of the organization. The reports of the various officers will be read and Grand Exalted Ruler Sullivan will deliver his annual address, which will synopsize the work of the order since he assumed the stewardship.

**PORTLAND IS OWNED
BY THE ELKS**

Chicago, July 8.—The city rapidly is filling up with visiting Elks and people attracted by the reunion. Thirty special trains from the east and various coast points pulled today into the terminal station, unloading a mighty herd of noisy and demonstrative members of the order and their friends. Band after band, followed by the various delegations, paraded the downtown district and everywhere there was an evidence of "the joy of living." Uniformed marchers and "stunt" committees kept things lively. When the lights of the grand court of honor and other illuminations were turned on this evening, a howling and joyful mob took possession of the business center, making a din and racket rarely, if ever before equaled in volume in this city. Delegation bands were everywhere and their music kept the populace awake until after the wee sma' hours. The registration bureau shows over 13,000 visiting Elks in the city with many more yet to register at Elks headquarters and several "specials" yet to arrive from distant points.

PALZER AND JOHNSON?

Chicago, July 8.—Al Palzer, heavy-weight white hope pugilist, is anxious to meet Jack Johnson in a 10-rounds battle Labor day. He talked with Johnson for an hour today in regard to the match. The champion said he would meet Palzer for a \$50,000 purse or a side bet of equal size, either for a finish fight or any number of rounds. Palzer is matched to meet Luther McCarthy on July 15 in New York and unless he gets a substantial guarantee he says he will call off the bout.

Artificial turquoise is made from ivory which shows no grain, which is soaked in a saturated solution of ammoniacal copper oxide until the desired color is obtained.
